Roane State’s just down the road . . . .

Our goal is to make higher education accessible where you live and work. Recognizing that our society places so many multiple demands on our students’ busy lives, we work hard to offer our classes in convenient locations and at flexible times.

As you browse through this catalog and see the diverse programs and classes, please remember that they are available in many ways: traditional classes, video check-out classes, satellite campus classes, two-way interactive video classes, express classes, and Internet classes. You choose the time, place and format. We promise quality instruction and service regardless of the option.

Whether you are just considering attending Roane State or are currently attending, this catalog is designed to help you make informed decisions about the options available. You will find information on college parallel programs that enable you to complete the first two years before transferring to a university to complete a baccalaureate degree. You will also discover programs that give you marketable job skills in two years or less. If you need assistance before beginning college level work, it is also available.

Whether you are 18 or 80, you will find you have the potential to expand your horizons at Roane State.

Just down the road . . . you will find friendly, helpful faculty and staff who want to help you be successful.

Just down the road . . . you will find opportunities to begin a first or new career.

Just down the road . . . you will find your future.

Dr. Sherry L. Hoppe, President
Roane State Community College
Please Note:

The course offerings and requirements of the institution are continually under examination and revision. This catalog presents the offerings and requirements in effect at the time of publication but is no guarantee that they will not be changed or revoked. However, adequate and reasonable notice will be given to students affected by any changes. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the institution.

The institution reserves the right to make changes as required in course offerings, curricula, academic policies and other rules and regulations affecting students to be effective whenever determined by the institution. Enrollment of all students, is subject to these conditions.

Current information may be obtained from the following sources:

Admission Requirements — Center for New Student
          Admission Office
Course Offerings — Division Offering Course
Degree Requirements — Academic Advisement Center
Fees and Tuition — Business Office

Roane State Community College provides the opportunity for students to increase their knowledge by providing programs of instruction in the various disciplines and programs through faculty who, in the opinion of Roane State Community College, are qualified for teaching at the college level. The acquisition and retention of knowledge by any student is, however, contingent upon the student's desire and ability to learn and his or her application of appropriate study techniques to any course or program. Thus, Roane State Community College must necessarily limit representation of student preparedness in any field of study to that competency demonstrated at that specific point in time at which appropriate academic measurements were taken to certify course or program completion.
Just down the road...

The Anna Belle Clement O'Brien Humanities Building and the Theatre on the Roane County campus are the newest Roane State resources that are "just down the road."

COLLEGE HISTORY

Roane State Community College serves an eight-county area in East Tennessee including Roane, Anderson, Cumberland, Scott, Loudon, Campbell, Fentress, and Morgan counties. In addition to these counties, Roane State’s Health Sciences service area also includes Knox and Blount Counties.

Roane State provides opportunities for transfer education, career education, continuing education, and developmental education. Designed for students who plan to transfer to senior institutions, the Roane State academic transfer curricula include two years of instruction in the humanities, mathematics, natural sciences, and social sciences to build a strong liberal arts background during the freshman and sophomore years. Roane State graduates transfer to senior institutions in-state such as the University of Tennessee, Tennessee Technological University, Middle Tennessee State University, East Tennessee State University, and many out-of-state universities and professional schools.

Roane State’s career preparation programs train students in business management, health sciences, office administration, police science, and other fields for students desiring associate degrees or certificates. The ever increasing demand for people to work under the supervision of the scientist, the engineer, the physician, and the business professional has led to the development of a wide range of career education options.

Continuing education opportunities are provided through a variety of non-credit courses that do not require admission to the college. These courses are offered for personal enrichment, for compliance with business and industrial requirements, for specific technological information and for general cultural benefits.

Roane State continues to respond to state and federal mandates to promote “Excellence in Education.” Programs are continually evaluated by students, faculty, and alumni to ensure successful transfer or career placement upon graduation. The college seeks to serve those students who are serious about the challenge of education for a more productive life. An Honors Program for gifted students was implemented in the fall of 1985.

A general education core curriculum including the humanities, arts, math, and sciences is required of all degree program graduates. Roane State has also implemented the state educational initiative to require all graduates to be computer literate. New career programs introduced in 1989 to meet employment demands now and in the future included Environmental Health Technology, Opticianry, and Emergency Medical Technician/Paramedic. A Waste Management Training Center was established to facilitate training of persons to meet the demand of environmental health needs of area industries. In 1990 the Center qualified for a training grant from the National Institute of Environmental Health Sciences and met the NIEHS standards for admission to the Midwest Consortium for Hazardous Waste Worker Training. A new Occupational Therapy Assistance program was added to the curriculum in 1992.

Beginning with the Pierce-Albright Report in 1957, which resulted in a $200,000 appropriation by the Tennessee General Assembly in 1963 to initiate the community college system, the philosophy of community colleges in Tennessee has been to provide higher education for all Tennessee residents. The first three community colleges were established in 1965, with one in each of Tennessee’s three grand divisions—Cleveland State in East Tennessee, Columbia State in Middle Tennessee, and Jackson State in West Tennessee. Additional community colleges opened in Dyersburg and Tullahoma in 1969. The sixth community college opened in Morristown in 1970.

In 1969, the General Assembly, upon the recommendation of Governor Buford Ellington and the State Department of Education, authorized three additional
community colleges to be built in Sumner, Roane, and Shelby counties. After visits by Commissioner J. Howard Warf and other officials from the State Department of Education in 1969, a site on Patton Lane was chosen as the permanent location of Roane State Community College. In May of 1970, Dr. Cuyler A. Dunbar was selected as the first president of the college. After beginning classes in the fall of 1971 at a temporary location, RSCC occupied the first permanent building on Patton Lane in August 1973.

With 18 years of service to the college, President Dunbar resigned from Roane State in 1988 to assume the presidency of Catawba Valley Community College in Hickory, North Carolina. Dr. Sherry L. Hoppe was appointed on an interim basis and later named as Roane State's second president in spring 1989.

Groundbreaking for the second building on the Roane State campus was held in January 1977. This three-story Technology Building, which houses the expanding career education programs, was occupied in December 1978.

Construction on Campus Expansion Phase II began in June 1978. The Maintenance Building was completed in June 1979, and the Library/Learning Resource Center in September 1980. In addition to reference and audio-visual services, the center houses Instructional Technology, Distance Learning, and the Writing Center. A branch campus at Hardin Valley Road and Pellissippi Parkway was occupied in the Fall of 1986. This campus was shared with a sister institution in Knox County.

With the establishment of Pellissippi State Technical Community College in the fall of 1988, Roane State moved its Oak Ridge campus to new sites in Oak Ridge. The new facility has received tremendous support from the community and continues to grow as services are expanded. Phase I of the East Tennessee Agricultural Exhibition Center was completed in 1988 at the Roane County campus. The facility has hosted a variety of agricultural, civic and community events.

In June of 1994, Roane State held a dedication ceremony for its first permanent Higher Education Center at the new facility in Huntsville. The Scott County Center was named after Earl McDonald, former Scott Countian who now resides in Fayette, Alabama. McDonald generously provided a $1 million gift to help build the new Roane State facility. The center's library was named after Scott County native Howard H. Baker, Jr., former senator and Reagan White House chief-of-staff. Baker's memorabilia and world-renowned photographs are displayed in the new library. The 15,000 square foot center is situated on 37 wooded acres provided by W.H. Swain.

In August of 1994, the college held its long-awaited groundbreaking for the new $6.3 million Humanities Building. Final approval of funding for the building came in April after 13 years of support by community and political leaders. The Humanities Building was opened for classes in the spring of 1997. Another much-anticipated groundbreaking was celebrated June 24, 1996 at the site of the new Oak Ridge Branch Campus. Completion is scheduled for fall 1998.

Roane State now serves more than 5,500 students who are enrolled for credit. More than 5,000 students are served yearly through non-credit courses, programs, and workshops.

Locations

The Roane County campus of Roane State Community College consists of 138 acres located near the cities of Harriman, Kingston, and Rockwood in Roane County, Tennessee. The site is near the intersection of Patton Lane and U.S. Highway 70 and is easily accessible from Interstate 40, U.S. 27, and U.S. 70. The Oak Ridge Branch campus is located at 545 Oak Ridge Turnpike and 728 Emory Valley Road.

To more effectively serve the higher education needs in Roane State's service delivery area, RSCC and Tennessee Technological University developed three
centers of higher education. Roane State provides general education for students wishing to transfer to four-year colleges or universities, technical and career education programs, and developmental education for students lacking an adequate academic background. TTU provides undergraduate junior and senior level courses as well as graduate courses.

The following centers are now in full operation:
- RSCC/TTU Scott County Higher Education Center, Huntsville, Tennessee
- RSCC/TTU Cumberland County Higher Education Center, Crossville, Tennessee
- Campbell County Higher Education Center, LaFollette, Tennessee
- Knox County Health Sciences Center, Knoxville, Tennessee
- Loudon County Career Center, Lenoir City, Tennessee

In addition to the main campus in Roane County, the branch campus in Oak Ridge and the higher education centers, the college also offers classes in Fentress County.

**ACCREDITATION**

Roane State Community College is accredited by the Commission on Colleges of The Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: Telephone number 404-679-4501) to award the associate degree. The college's career preparation programs are accredited as follows:

- **Dental Hygiene**: Commission on Dental Accreditation of the American Dental Association
- **EMT-Paramedic**: AMA Commission on Accreditation of Allied Health Education Programs (CAAHEP)
- **Medical Laboratory Technology**: National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- **Medical Record Technology**: AMA Committee on Allied Health Education and Accreditation in collaboration with the American Health Information Management Association
- **Nursing**: National League of Nursing
- **Occupational Therapy Assistant**: Accreditation Council for Occupational Therapy
- **Opticianry**: Commission on Opticianry Accreditation
- **Physical Therapist Assistant**: APTA Commission on Accreditation in Physical Therapy Education
- **Radiologic Technology**: Joint Review Committee on Education in Radiologic Technology
- **Respiratory Therapy Technology**: Joint Review Committee for Respiratory Therapy Education and Commission on Accreditation of Allied Health Education Programs.
STATEMENT OF MISSION

Roane State’s vision is to enhance individual lives and regional economic development by serving as a model in the state for innovative and responsive delivery systems that take education to students wherever they live and work.

Roane State Community College is a comprehensive, public, two-year post-secondary institution and a member of the State University and Community College of Tennessee and is governed by the Tennessee Board of Regents. Roane State serves the higher education needs of an eight-county service area which includes Roane, Anderson, Loudon, Campbell, Scott, Cumberland, Morgan and Fentress counties and expands to include Knox and Blount counties for the delivery of health technologies. This area spans communities which differ significantly in geography, lifestyle, and economic and technological development. Through a firm commitment to access and to affirmative action for all protected groups, the college's goal is to alleviate barriers and bring educational opportunities to the widely diverse students who live in these different communities. At seven staffed centers, numerous teaching sites and with a wide range of distance learning offerings, the college is a leader in responding to student needs.

The college is committed to the success of its students and creates a learning environment which will help them achieve their immediate educational and career goals and prepare them for their futures with a firm foundation of knowledge, skills, and values. The college offers programs for the gifted as well as an exemplary program of remedial and developmental studies for those underprepared for postsecondary courses.

For students intending to transfer to a four-year institution, RSCC awards associate of arts and associate of science degrees, with courses designed to facilitate student transfer. For those students seeking immediate career opportunities or licensure, Roane State awards the associate of applied science degree as well as technical and academic certificates of credit. The college is distinctive regionally and nationally for the diversity and quality of its programs in the fields of health and the environment and also offers career programs in business-related fields.

Through the various divisions which support its continuing education and community service mission, Roane State offers a wide array of specialized courses, programs, and services. These range from rigorous customized training for business and industry to offerings for cultural, aesthetic, and recreational awareness and enjoyment. The development of educational partnerships with business/industry, the community, K-12, and other higher education institutions has positioned Roane State to become a leader in the economic and educational development of the area by providing a trained workforce equipped with the knowledge and skills critical for responding and adapting to a rapidly changing workplace.

Through its commitment to technology advancement, Roane State prepares its students for the rapidly evolving Information Age. In the Center for Instructional Technology, faculty receive training and assistance in the latest classroom teaching innovations to enhance student learning. Through technological advances in administrative and support services, students receive the benefit of the most convenient and effective methods to meet their needs, from registration to advisement to career planning.

Through its Quest for Quality initiative, Roane State has committed itself to the highest standards of instruction and service and to the change and evolution necessary to ensure continuous improvement. The ongoing assessment of educational outcomes and administrative objectives will enable the college to focus on its mission to enrich the lives of those who come to Roane State for learning and for service.
STATEMENT OF PURPOSE

Roane State Community College exists to provide a high-quality learning environment in which to meet the diverse educational, cultural, and economic development needs of the communities it serves. The college is committed to the fulfillment of this purpose through the realization of the following institutional priorities.

MISSION PRIORITIES

TEACHING AND LEARNING
providing a nurturing environment where students receive the individual attention they need to achieve their highest potential, where students are exposed to a variety of learning experiences as well as challenges and opportunities beyond the ordinary, and where students are encouraged and inspired to meet the high expectations and standards needed for responsible citizenship in the 21st century.

INNOVATION
increasing access and opportunity through expanded and innovative programs and services at convenient times and in convenient locations and using the latest in technological advances to teach and to serve.

ECONOMIC DEVELOPMENT
meeting workforce training needs proactively by providing flexible and responsive programming to serve the evolving economic development of the area.

COMMUNITY SERVICE
strengthening relationships with the community by providing a variety of educational, cultural, and recreational opportunities for people of all ages.

RESOURCE DEVELOPMENT
increasing awareness within our communities of the services and opportunities that we offer and continuing to build a strong base of support through friends and benefactors as well as federal and state sources of funding.

SOUND MANAGEMENT
ensuring fiscal and administrative support systems that enable the college to make responsible and forward thinking decisions for the benefit of the constituents it serves.

FACILITIES DEVELOPMENT
providing a safe and comfortable environment for students and employees with physical spaces adequate and appropriate for the latest learning and economic development activities.

STUDENT SUCCESS
guiding students toward the accomplishment of their academic and personal goals by providing programs and services designed to help them maximize the collegiate experience and help them make informed and responsible choices for their futures.

MODELING VALUES
providing, through our policies and actions, a model of institutional excellence for our students in which an appreciation of fairness and cultural diversity, information-sharing and working with others to solve problems, and the continual growth and professional development of all employees are measures of institutional success.

CONTINUOUS IMPROVEMENT
striving for quality at all levels and in every endeavor by using the results of evaluation and assessment to continually improve instruction and service and, thus, ensure our effectiveness as an institution.
ACADEMIC PROGRAMS

Roane State offers many challenging and rewarding degree programs. Detailed information about each program can be found beginning on page 61.

COMMUNITY SERVICE PROGRAMS

(423) 882-4509

In addition to credit courses, special non-credit courses reflecting community interest may be organized at the request of a sufficient number of interested persons. Individuals may pursue these special offerings for personal enrichment, for compliance with business or industrial opportunities and/or requirements, for specific technological information, and for general cultural benefits. Students taking non-credit courses are not required to follow the same admissions procedures as those students in degree courses.

The Community Service Program of the college includes a variety of activities which are offered in cooperation with community groups and agencies. The program offerings are in accord with the public's needs and interests and include lectures, clinics, short courses, conferences, forums, concerts, fine arts festivals, workshops, institutes, self-development functions, and community development functions. The college welcomes the opportunity to meet with representatives in our community (e.g. educational, governmental, industrial, and business organizations) to plan special types of training or activities that might be beneficial to an organization or our community.

COMPUTER TRAINING CENTER

(423) 483-8453

The Computer Training Center is a division of Community Services and offers short-term, non-credit classes in the latest computer applications and technologies. Customized training is also available to business and industry. No special registration requirements are required for enrollment. The CTC is located on the outer perimeter of the Oak Ridge Mall.

DISTANCE LEARNING

(423) 882-4602

Roane State's Distance Learning program provides educational opportunities for students through College at Home video/audio/telecourse and on-line courses and IDEA (Interactive Distance Education Access) live interactive courses. The Distance Learning Office is located on the second floor of the Roane County Library.

The College at Home program allows students to take courses with a multimedia approach of textbooks, study guides, audio/videotapes, broadcast television/local cablevision, or through the World Wide Web. The College at Home Testing Centers, located at the Roane County Campus Library and the Oak Ridge Emory Valley site, provide flexible hours day, evening and Saturdays to allow distance learners to test at their convenience.

IDEA students are linked to the instructor and class through two-way audio and two-way video transmission. There are IDEA classrooms at the Roane County, Oak Ridge, Campbell County, Cumberland County, Loudon County, and Scott County sites which allow students to attend classes at the site closest to their home or work.
Roane State has joined with three community colleges in East Tennessee (Chattanooga State, Cleveland State and Pellissippi State) to form the Tennessee On-Line Community College Consortium (TOCCC). TOCCC is designed to offer classes through the World Wide Web that will progress toward an associate's degree.

CENTERS FOR TRAINING AND ORGANIZATIONAL EXCELLENCE
(423) 882-4612

The Center is a division of Roane State's Office of Continuing Education and Distance Learning. The center provides training programs and services for business and industry in Roane State's eight county service area. Emphasis is placed upon employee development as a means to develop skills required for today's technological workplace. Customized training, assessment services, consulting and technical services are available through the center. Seminars, workshops and short courses can be offered on campus, in the plant or at a community site. The Center delivers both credit and non-credit programming.

EAST TENNESSEE AGRICULTURAL EXPOSITION CENTER

The Exposition Center is a multi-use facility designed primarily for use by the livestock industry. The center hosts many local and national livestock events which include various horse shows, rodeos, team ropings, cuttings, sales and clinics. Due to its unique design, the center is also able to host many other community events which include boat and marine shows, paintball and archery tournaments, hunting and fishing expositions as well as various other contests and seminars. Because of the community service commitment of the college, the Exposition Center also hosts several events each year for various non-profit community organizations for which there is no charge.

INSTITUTE FOR ENVIRONMENTAL HEALTH AND SAFETY
(423) 481-3493

In response to the needs of industry and various agencies of the government, Roane State Community College established the Waste Management Training Center in 1988. The responsibility of this center was to provide training programs for occupational health, hazardous materials management, asbestos management and related areas of health and safety. As the center grew in its course offerings, it was decided to change its name in 1994 to the Institute for Environmental Health and Safety to better identify with its areas of expertise.

The institute provides training to help in meeting health and safety needs in the environmental field, and courses are tailored to meet the demands of the market and to aid organizations to insure their compliance with all applicable regulations. The institute is a leader in providing courses which are required to meet the 29CFR 1910.120 standard of OSHA and EPA's AHERA and ASHARA Model Accreditation Program. We provide qualified instructors, excellent facilities and equipment for use in all courses.

The institute is located at 728 Emory Valley Road in Oak Ridge, Tennessee.

WRITING CENTER
(423) 882-4641 (Roane County)
(423) 481-2026 (Oak Ridge)

The Writing Center, provides free writing assistance to Roane State Community College students, faculty and staff, and to the community. The purpose of
the Writing Center is to promote excellence in writing. The center seeks to develop approaches that put writing at the center of the academic and professional enterprise and to foster the perception of writing as a vital means of communication, as an art form, and as a powerful mode of learning for all subjects.

**RSCC/LEAD INSTITUTION**

RSCC, designated a Lead Institution by the Tennessee Board of Regents, is charged with the responsibility of overseeing the development of a cohesive plan for the delivery of postsecondary vocational, technical, and career programs and with support services for technology centers in an eight-county area including Anderson, Campbell, Cumberland, Fentress, Loudon, Morgan, Roane, and Scott counties.

Roane State is responsible for providing support for the delivery of the following services: occupational and academic diagnostic services, developmental education (basic skills), job/vocational education and occupational training, special business and industry training, sub-baccalaureate or non-collegiate technical education, job placement and counseling, transfer for community college, and continuing education and community service.

As Lead Institution, RSCC also provides administrative support services for accounting and budgeting, purchasing, personnel, student records, financial aid, institutional research, and public relations for postsecondary technology centers.

**JOB TRAINING PARTNERSHIP ACT**

(423) 376-3799

Roane State Community College is the fiscal agent for the area Private Industry Council, which is a cooperative employee/employer training and assistance program of the Job Training Partnership Act (JTPA). JTPA is a federally mandated, cooperative effort on the part of business and industry, education, labor, and government operated statewide by the Tennessee Department of Labor. RSCC, Tennessee Technology Centers and technical institutes in the eight-county area are involved through the Tennessee Board of Regents to serve as partners by providing training facilities as they are needed.

**ROANE STATE FOUNDATION**

(423) 882-4507

The Roane State Foundation was founded in 1979 as a separate non-profit entity with the purpose of providing financial support for the students and programs of Roane State Community College. It seeks to enhance community awareness of the college, to secure private contributions and bequests, and to manage monies or properties given to the Foundation. Governed by a volunteer board of directors, the Foundation provides financial support for college activities. The executive director of the Foundation works with members of the college's Development Council and serves as the liaison between the board of directors and the college community.

The Roane State Foundation's current priorities include:

- Strengthening scholarship endowments
- Providing support services to students
- Acknowledging outstanding faculty and staff for service and leadership
- Encouraging adult learners
- Fostering participation in cultural and community activities
- Developing facilities and special capital projects
• Providing perpetual trusteeship of capital funds donated to the college
• Supporting special projects which cannot be funded by public funds.

There are many ways to participate in Roane State Community College's giving program through the Foundation. Gifts of cash provide immediately accessible capital for the college. Contributors of appreciated assets such as securities, life insurance, real estate or personal property are excellent vehicles for making a charitable gift, and may also offer significant tax benefits to the donor. Such contributions may be made outright or through deferred gifts or bequests. Donors are encouraged to consult with their financial advisors for the method or combination of methods best suited to their own situations.
At the Oak Ridge Branch Campus, build a schedule to meet your individual needs...

Weekend College, traditional classes, College at Home.
ADMISSION TO THE COLLEGE

RSCC can aid in the intellectual development of anyone who wants to take advantage of a high-quality, low-cost, state-supported educational experience. The following pages describe in detail the costs and procedures for admission to Roane State Community College.

STEP 1 — Apply for admission
STEP 2 — Be accepted into one of the general student classifications
STEP 3 — Enroll - Register for classes

The information included in this section of the catalog is provided to guide you through these steps. If you have questions which are not explained, please contact the Center for New Student Admission at (423) 882-4523 or 1-800-343-9104.

College tours may be scheduled at the Center for New Student Admission or at any off campus location.

ADMISSION REQUIREMENTS

All applicants who graduated from a regionally accredited high school in or subsequent to 1989 must meet the following requirements in addition to those listed in the student's selected program of study. All requirements must be met prior to being awarded the associate degree in a university parallel program. Applicants who received a GED certificate in 1989 and thereafter are considered to have met all high school unit requirements except those in foreign language and visual or performing arts.

Applicants who are found to be deficient in any of the above areas may be admitted on a provisional basis and will be required to remove any deficiencies prior to being granted an associate of arts or associate of science degree. Questions regarding this policy should be forwarded to the Coordinator of Admissions.

*1 course must be Biology I or II,
Chemistry I or II,
or Physics

SELECTIVE SERVICE REQUIREMENTS

(1) Pursuant to federal law, every male who is between the ages of eighteen (18) and twenty-six (26), and is a citizen of the United States or a resident of the United States must register with the Selective Service.

(2) Notwithstanding the provisions of paragraph (1), the requirement to register shall not apply to any alien lawfully admitted to the United States as a nonimmigrant under Section 101(a)(15) of the Immigration and Nationality Act, as amended, for so long as he continues to maintain a lawful nonimmigrant status in the United States.
ROANE STATE COMMUNITY COLLEGE

COLLEGE ADMISSION PROCEDURES

Roane State Community College subscribes to the “open door” policy for admissions; however, admission may be granted on a “controlled” basis if ACT or SAT scores and/or placement assessment results indicate any academic deficiencies. Regular admission is granted to those students whose ACT or SAT scores and/or placement results indicate there are no academic deficiencies.

The following general requirements apply, and more specific requirements are found under “General Student Classifications.”

1. Graduate from a state approved high school or receive a GED high school equivalency diploma and file with the Records and Registration Office an official high school transcript or an official copy of GED scores.

2. File an application for admission and submit a non-refundable application fee of $5 which must accompany the application form. The application form must have all appropriate spaces completed. Failure to complete all appropriate spaces accurately may result in expulsion from the college.

3. The Health Information Section is optional but students are encouraged to complete the form to assist Health Services in case of an emergency. Contact the nurse to obtain exemption instruction if you have a health problem that may exempt you from physical education.

4. All freshman applicants under 21 years of age must submit ACT or SAT scores. Information on the ACT may be obtained from the high school counselor, the Counseling Office at RSCC, or by writing to American College Testing, Inc., P.O. Box 168, Iowa City, Iowa 52242. Roane State Community College’s ACT Code Number is 3985. This number should be used to request that scores be sent to RSCC.

5. Students who have graduated from a Tennessee high school and who have not earned one credit in American history while in the high school program are required to complete 6 semester hours of American history during their first 30 hours of regular enrollment at Roane State. This requirement does not affect the student who enters the college with a GED certificate.

6. Applicants seeking degree or academic certificate status who graduated from a high school which has not been approved by the State of Tennessee or accredited by the Southern Association of Colleges and Schools must validate their eligibility for admission by achieving a composite score of 19 or above on the Enhanced ACT or the equivalent SAT score. Applicants who fail to achieve this score must successfully complete the GED Test (Score 45 with no sub-score below 35).

7. Transcripts for graduates from Tennessee public high schools must provide evidence that the student passed the required proficiency test battery. Persons who wish to submit the GED score necessary for the equivalency high school diploma in lieu of a high school diploma for college admission may do so.

All correspondence concerning your admission file should be addressed to:

Director of Records and Registration
276 Patton Lane
Roane State Community College
Harriman, Tennessee 37748

A candidate for admission should request application forms early enough to allow ample time for required materials to be forwarded to the Director of Records and Registration.

When all admissions papers have been received in the Records and Registration Office, the applicant will be sent a letter indicating that he/she has been accepted for admission or he/she will be advised by letter that further
action is necessary in order to establish eligibility for admission. Applicants will be advised when to appear for testing, counseling, and registration.

ADDITIONAL ADMISSION AND RETENTION REQUIREMENTS ARE IN EFFECT FOR HEALTH SCIENCE PROGRAMS. PREFERENCE FOR ADMISSION WILL BE GIVEN TO RESIDENTS OF THE STATE OF TENNESSEE. SEE PAGE 93 FOR FURTHER INFORMATION.

GENERAL STUDENT CLASSIFICATIONS

I. Degree or Academic Certificate Student: Applicants who will take courses for credit which will apply toward a degree or certificate.

A. First-time college student (new, beginning freshmen)

1. All applicants must submit official high school transcripts or official copy of GED scores. A certified copy must be mailed directly to the Records and Registration Office, Roane State Community College.

2. All applicants under 21 years of age must submit ACT or SAT scores. Roane State prefers the ACT but will accept the SAT. These scores will be used to determine the areas in which the student will be required to undergo placement assessment.

   a) Students whose composite score is less than 19 on the Enhanced ACT or less than 720 total score on the SAT will be assessed in the area of reading.

   b) Students whose English sub-test score is less than 19 on the Enhanced ACT or less than 360 verbal score on the SAT will be required to take the writing sample portion of the placement assessment.

   c) If the student’s mathematics sub-test score is less than 19 on the Enhanced ACT or less than 380 math score on the SAT, or if a student in a transfer program does not have two years of high school algebra, the math portion of the placement assessment will be required.

3. All applicants 21 years of age and older must undergo placement assessment. Students 21 years of age and older may choose to take the ACT and be assessed according to the above-mentioned guidelines. The ACT or SAT must have been completed within the last three years.

4. All students enrolled in Composition I will be evaluated during the first week of classes. Students showing deficiencies will be referred to testing for possible placement in appropriate remedial or developmental courses.

5. Placement in DSS 089 College Success Strategies is required for either (1) students who are placed in at least two subject areas at the remedial level or (2) students who are placed in three subject areas including remedial or developmental levels. Beyond this mandatory placement, students with two deficiencies - either both developmental or one developmental and the other remedial - have the option to elect placement in College Success Strategies. Course enrollment is limited to students in these categories.

6. Enrollment in the courses indicated by results of the assessment is mandatory.

B. Transfer Student: A degree-seeking applicant who has attended another college or university will be considered a transfer student. An
evaluation of college credit for transfer will be completed. Transfer students may be exempt from EDU 100, Orientation to College.

1. If less than 60 semester hours have been accumulated, an official high school transcript or GED scores must be submitted.

2. Official transcripts from each college previously attended must be submitted. Transcripts are not accepted from students. A certified copy must be mailed directly to the Records and Registration Office, Roane State Community College.

3. Transfer students under the age of 21 must submit ACT or SAT scores. If fewer than 60 semester hours have been attempted, ACT or SAT scores will be used to determine the areas in which the student will be required to undergo placement assessment. Grades in courses completed will also be taken into consideration for proper placement assessment determination. Enrollment in courses indicated by results of the assessment is mandatory.

4. Transfer students age 21 and older, who have less than 60 semester hours of credit, will have their course records evaluated for proof of competency in the areas of reading, writing, and mathematics. Students lacking college course work in these areas will be required to undergo placement assessment. Enrollment in courses indicated by results of the assessment is mandatory.

5. Transfer applicants who do not meet the Roane State retention standards or whose last term of enrollment results in academic probation will be admitted on academic probation and may be required to undergo placement assessment. Enrollment in the courses indicated by results of the assessment is mandatory.

6. Transfer applicants whose last term of attendance resulted in academic suspension within the past calendar year must meet with the Admission and Retention Committee to request admission. If admission is recommended by the committee, the applicant may be required to undergo placement assessment. Enrollment in the courses indicated by results of the assessment is mandatory.

7. Credits for courses not corresponding with the curriculum at Roane State may be entered on the transcript as elective credit.

C. Readmitted Student: An applicant for readmission is one who has previously applied for classes at Roane State Community College, but who has not been enrolled for at least one semester prior to the semester of requested readmission.

1. An application for readmission must be filed with the Records and Registration Office.

2. Degree or academic certificate seeking students must submit official transcripts from all colleges or universities attended since their enrollment at Roane State.

3. All applicants whose last semester of attendance resulted in academic suspension and who are seeking readmission within one calendar year of that suspension must meet with the Admission and Retention Committee to appeal the suspension prior to readmission. If reinstated, these students may be required to undergo placement assessment. Enrollment in the courses indicated by results of the assessment is mandatory.

4. Effective spring 1992, readmit students who took courses at RSCC prior to fall 1985 are no longer exempt from fulfilling Academic Development requirements in AAPP placement testing and course completion.
D. **International Student:** An applicant who is a citizen or a permanent resident of a country other than the United States is classified as an international student.

1. International students under 21 years of age must submit ACT or SAT scores.
2. Placement assessment may be required dependent upon age, admissions category (new or transfer), and ACT/SAT scores. The above-stated policies for first-time college students and transfer students will be adhered to. Enrollment in courses indicated by results of the assessment is mandatory.
3. All applicants whose native language is not English are required to furnish test results of the Test of English as a Foreign Language (TOEFL). A minimum score of 500 on this test is required.
4. All transcripts, test scores, and other credentials must be accompanied by an official English translation of these documents and must be on file in the Records and Registration Office at least 60 days prior to the beginning of the term in which the applicant wishes to enroll.
5. Evidence of financial resources adequate for all expenses for at least one year of enrollment is required. (A statement verifying these resources from a bank in the United States will fill this requirement.)
6. The international student must be familiar with the regulations of the Immigration and Naturalization Service and assume responsibility for complying with these regulations.
7. All international students are required to have health and accidental insurance from an RSCC approved U.S. company. Applications are available from Records and Registration Office.

All international students applying for admission pursuant to a student visa shall submit a certificate from a licensed physician or other qualified medical authority verifying freedom from tuberculosis within thirty (30) days from the first day of classes. Failure to submit such certification shall result in denial of further enrollment or admission. In the event that a student either has tuberculosis or has potential tuberculosis requiring medical treatment, continued enrollment will be conditioned upon the determination by a licensed physician that further enrollment does not present a risk to others and upon the student's compliance with any prescribed medical treatment program.

Applicants in categories A, B, C, and D whose enrollment in Remedial Studies (RS) or Developmental Studies (DS) courses is mandated by placement assessment are admitted on a “controlled admission” basis.

**Variances in State Policies and Procedures**

1. Students whose assessment results require enrollment in Remedial Studies courses may not enroll in regular college-level courses until they have satisfactorily met the exit criteria for their remedial courses, unless the Associate Dean of Academic Development agrees that the deficiency will not handicap the student's likelihood of success in the particular regular course.
2. SAT scores may be submitted in lieu of ACT scores. Verbal and Math sub-scores will be used to determine the areas of required placement assessment.

II. **Non-Degree Student:** Applicants who do not wish to work toward a degree or academic certificate may be admitted as Non-Degree Students.
This category includes:

A. Those students who meet the minimum requirements for admission (high school graduation or GED) but who do not wish to work toward an associate degree.
   1. An application for admissions along with a non-refundable $5 application fee must be submitted.
   2. A transient student must provide a signed statement from his/her native institution verifying enrollment in a degree program at that institution rather than submit a transcript.
   3. No assessment is required
      (a) unless the student wishes to enroll in a college-level math or English class or one that has college level math or English prerequisites or
      (b) if the student is enrolled in a technical certificate of credit program. Technical Certificates of Credit are available in the following areas:
         Air Quality Control
         Computer Art & Design
         Emergency Medical Technology/Paramedic
         Health Physics
         Industrial Hygiene
         Medical Transcriptionist
         Office Information Technology
         Police Management
         Security Management
         Waste Management

B. Those students who do not meet the requirements for admission as a regular student and who wish to audit course work at Roane State Community College. These may include disabled or elderly students who qualify for a special fee rate.
   1. Transcripts of previous school work are not required.
   2. Students in this category who wish to be reclassified must submit appropriate transcripts and undergo placement assessment. A change of status form must be completed in the Academic Advisement Center. Reclassification will not occur until all requirements of the desired admissions category are met.
   3. A student may not change status during the first term of enrollment.

C. Students who have passed their twenty-first birthday and who do not have a regular high school diploma or GED.
   1. Students must undergo placement assessment and take the prescribed remedial and developmental courses.
   2. Students may change to degree-seeking status by successfully completing the GED and requesting a change of status in the Academic Advisement Center.

D. Students who have passed their eighteenth birthday, who are not currently enrolled in high school, and who wish to pursue the GED through academic development instruction.

E. Advanced Studies Students: Upon completion of the sophomore year in high school, a student may be admitted as an Advanced Studies student when the criteria below are met:
   1. Submit an Advanced Studies application AND an application for admission to the Center for New Student Admission.
2. The high school principal and/or counselor initiates the request for admission to the program for potential students.

3. Students nominated for this program should have a 3.2 GPA or better on a 4.0 scale or 2.75 on a 5.0 scale.

4. The students nominated must submit ACT scores. The ACT composite must not fall below 20 and subscores in English and mathematics must be 19 or higher.

5. The course load may not exceed 6 semester hours, except in cases where a sequence may be 8 semester hours.

6. Courses satisfactorily completed will count as credit for those who submit a high school transcript showing evidence of high school graduation. Advanced Studies students must submit a high school transcript verifying high school graduation prior to enrolling as degree students.

F. Academically Gifted Students: To qualify as an applicant for this admissions category, students in grades 9, 10, 11, or 12 must be classified as "academically gifted" by evaluation through the multi-disciplinary team process. Admission will be contingent upon the following criteria:

1. A grade point average of 3.2 or better on a 4.0 scale.
2. Approval of the high school principal and the Director of Records and Registration.
3. Enrollment only in those courses designated in the student’s Individual Education Program (IEP) developed by the multi-disciplinary team.

ACADEMIC FRESH START

Purpose

The Academic Fresh Start program is designed to assist those students who have had a minimum 4-year separation from college and who demonstrate a greater level of academic maturity as a result of that separation. Students who did not realize their full academic potential during their first attempt at the college experience are being given a second chance to meet their educational goals without penalty. Through the Academic Fresh Start program, students are given a second chance to begin their academic careers by removing all previously taken courses from the current academic statistics. Although the courses will not be physically removed from the student’s academic record, they will no longer be calculated in the quality point average computation and will no longer apply toward the fulfillment of any college requirement.

Guidelines

1. A student must not have been enrolled at a college or university for a minimum of 4 calendar years.
2. The student must accumulate 18 semester hours with a minimum GPA of 2.5.
3. Academic Fresh Start applies to all RSCC courses taken prior to the 4-year separation. All work attempted before the date of separation will be removed from consideration toward fulfillment of degree requirements. Previously satisfied Academic Assessment and Placement Program (AAPP) requirements will not be forfeited.
4. All grades/courses preceding the re-enrollment period will be given inactive status and will remain listed on the transcript but will not be calculated in current academic statistics (earned hours, attempted hours, cumulative grade point average).

5. The student must apply for Academic Fresh Start at the time of admissions/readmission and must be pursuing a degree program. Only those students pursuing an associate degree are eligible for Academic Fresh Start.

6. Academic Fresh Start may be granted only once, and when granted, is irrevocable.

Procedure

1. A student who is eligible for Academic Fresh Start must make that request in writing to the Records and Registration Office.

2. A student must apply for Academic Fresh Start at the time he/she applies for admission/readmission to Roane State.

3. The Director of Records and Registration will review the student's transcript at the time the student accumulates the required number of hours to verify that the student has met policy guidelines.

4. The student will be notified of the results of his/her application for Academic Fresh Start. Notification will be made in writing from the Records and Registration Office. All written documents will be placed in the student's file.

5. Upon approval by the Director of Records and Registration, the transcript will be updated to reflect "ACADEMIC FRESH START" with the effective date.
ACQUIRING CREDIT

The following explains ways enrolled students may receive credit other than taking the specific classes at RSCC.

COURSE EXEMPTION

Students with an ACT sub-score of 27 or better in English may enroll for both English 101 and 102, attend English 102, and receive six semester hours credit with the grade earned in English 102.

PHYSICAL EDUCATION EXEMPTION

Physical education exemptions may be granted to students who are medically disabled. Such students must substitute another course for the exempted activity classes. To apply for this exemption/substitution:

1. Requests for this exemption/substitution must be made in writing to the Director of Health and Disability Services.
2. Physician’s documentation must be submitted to Health and Disability Services to identify and verify this need.
3. Consult with an advisor about substituting a two hour health/physical education course to meet the degree requirement. Substitution choices include HEA 221 and 242, PED 175, and HEC 131.
4. A course that is not already required in the degree plan must be selected. It is advisable to consult with the advisor early in the scheduling process to coordinate the substituted classes into the student’s schedule.

ADVANCED PLACEMENT

Roane State offers course credit for successful completion of Advanced Placement examinations administered by the College Entrance Examination Board to high school students. Course credit will be granted to students presenting Advanced Placement examination grades of three or higher. Inquiries concerning Advanced Placement should be forwarded to the Records and Registration Office. A letter grade of “P” (Pass) will be assigned for credit granted.

CHALLENGE EXAMINATIONS

1. Currently enrolled students desiring to obtain credit by successfully completing challenge examinations must apply to the appropriate division and arrange to take the examination. A Credit-By-Proficiency form will be used.
2. The student must take the form to the Business Office and pay the appropriate fee prior to taking the test. Students will be required to pay a fee equal to $20 per hour times the number of credit hours. This fee is in addition to maintenance fees paid for courses in which the student is actually registered.
3. After fees are paid the student will take the form to the appropriate department for completing the test. When the test is complete, the grades assigned, and the appropriate signatures in place, the form will be sent to the Records and Registration Office for recording of credit. A letter grade of “P” (Pass) will be assigned for credits earned.
4. Fees are waived if the student desires to validate credit by examination for earned hours from an unaccredited institution or vocational school.
Students must verify by official transcript that the credits have been earned previously when arranging to take the examination.

**CLEP GENERAL AND CLEP SUBJECT AREA EXAMINATIONS**

Have official scores sent from CEEB to the Records and Registration Office. An evaluation for possible credit will be made, and a copy of this evaluation will be mailed to the student. For information about taking CLEP examinations, contact the University of Tennessee Counseling Center. A letter grade of "P" (Pass) will be assigned for credit granted.

*These examinations are based on subject matter covered during the clinical year of training of medical technology students.

*These examinations are based on subject matter covered during the first year of a two-year Associate of Applied Science Degree in the Nursing Program.
COURSE CREDITS FOR PASSING THE CPS EXAMINATION

Persons passing the Certified Professional Secretary examination will be granted 18 hours of credit at Roane State for the following courses which will apply to a degree in Business Management Technology or Office Administration:

- OAD 105 Business Communications I ..................... 3
- BUS 221 Principles of Accounting I ...................... 3
- BUS 251 Legal Environment for Business ................. 3
- BUS 261 Psychological Aspects of Management .......... 3
- ECO 201 Principles of Economics I ....................... 3
- OAD 201 Administrative Office Management ............. 3

18 Credits awarded are subject to change when the actual content of the CPS examination no longer corresponds to course content or when courses at RSCC are revised substantially.

In order to receive credit for these courses, the CPS applicant must follow the procedures listed below:

1. The CPS holder will apply to the Records and Registration Office and pay the application fee required, and enroll for classes.
2. The CPS holder will present his/her test scores to the Records and Registration Office upon application as sufficient proof of his/her CPS status. A letter grade of "P" (Pass) will be assigned for credit granted.

TRANSFER OF CREDIT

Roane State Community College will accept credits transferred from regionally accredited colleges and universities. Certified transcripts of all previous records must be sent to the College at the time of application. Credits for courses not corresponding with the curriculum at Roane State Community College may be entered on the transcript as elective credits. Credit from an institution of higher education that is not fully accredited may be accepted provisionally if the institution is in the process of attaining accreditation.

Generally, no academic credit may be transferred to Roane State Community College from a non-accredited institution (an acceptable accrediting agency for an institution would be a regional accrediting agency such as the Southern Association of Colleges and Schools).

Transfer grades have no bearing on the required average for graduation or graduate honors. A minimum of 24 of the final 36 semester hours of course work must be completed in residence at Roane State.

Veteran students who have more than one year of honorable military service may be awarded up to four hours of physical education activity credit and up to six hours of Military Science credit. Other students who have completed basic military training of at least 8 weeks may be awarded up to two hours of physical education activity credit. In either case, the student must submit a copy of the DD 214 to the Records and Registration Office and file a petition for this credit.

Advisement and information regarding inter-institutional articulation are available in the Academic Advisement Center.

CORRESPONDENCE AND EXTENSION CREDIT

A student may not be enrolled at another college for correspondence or extension work while enrolled at Roane State unless special permission has been granted. All extension or correspondence work in progress upon admission must be reported to the Records and Registration Office at the time of the student's first registration.
A maximum of 30 semester hours credit for correspondence or extension courses, credit for Advanced Placement, CLEP, or CPS tests, and/or credit resulting from military service may be counted toward a degree. All correspondence or extension work must have the written, documented approval of the Director of Records and Registration.

EXPERIENTIAL CREDIT

A currently enrolled student at Roane State Community College may petition the granting of credit for work experiences in the field in which a degree is being pursued. This credit is not to exceed 18 hours.

The student is responsible for assembling and presenting the portfolio of materials to support the request. The portfolio must include but is not limited to:*:
1. Specific course numbers and course names for credit requested
2. Copy of the job description under which work was performed
3. Complete description of the work performed
4. Number of clock hours over which the work experience extended
5. Copy of instrument used or method employed to verify competencies
6. Signature of company official indicating the accuracy of the submitted documents.

When the portfolio is complete and prior to submitting, the student must apply to the appropriate division and receive a Credit-By-Proficiency form.

The student will take the portfolio to the appropriate Associate Dean. The Associate Dean may enlist the assistance of any faculty member(s) in the evaluation process. When the evaluation is complete, grades assigned, and the appropriate signatures in place, the form will be sent to the Records and Registration Office for the recording of credit. A letter grade of “P” (Pass) will be assigned for credits earned.

A special fee for experiential credit is assessed.

*See a full-time faculty advisor (in the department from which credit is requested) for specific departmental requirements for the portfolio.

COOPERATIVE EDUCATION
(423) 882-4695

The Cooperative Education program provides students with meaningful work experience related to their major field of study. The Placement Office at Roane State works with area employers to develop cooperative education experiences for Roane State students. These experiences allow the student to get practical on-the-job training prior to entering the work force. Cooperative Education work assignments may be on a consecutive or alternate basis. Most cooperative education work assignments at Roane State are consecutive, meaning that the student is pursuing an associate degree while working.

Students must be in good academic standing and have completed 12 semester hours of coursework in their major. A student may earn a maximum of 12 semester hours of co-op credit which may then be used toward elective credit in the program of study. Students interested in receiving co-operative education credit must be registered with the Placement Office, however registration does not guarantee a successful co-op placement.

Co-op students must work a minimum of 10 hours per week over a 15-week period to receive co-op credit. While most co-op experiences are paid positions, some grant academic credit only.

All participants will be evaluated by the employing supervisor and will receive a letter grade at the conclusion of the semester. Students are also asked
to evaluate the employer and write a summary of the co-op experience. For more information, contact the Placement coordinator at 882-4695 or 483-0816.

TECH PREP

(423) 882-4528

Tech Prep (Technology Preparation) is a sequence of study beginning in the ninth grade of high school and continuing through at least two years of postsecondary study. The program parallels the college prep program and presents an alternative to the four-year college degree. It prepares students for high-skill technical occupations for the future, such as Business Management, Health Science, Environmental Science and Engineering Technologies.

The Tech Prep program integrates academic and occupational subjects, placing major emphasis on articulation from secondary to postsecondary education. Articulation between Roane State, State Area Vo-Tech schools and high schools encompasses a competency-based curriculum which teaches essential skills without duplication or repetition. The advanced skills required for completion of an associate degree at the postsecondary level build on the strong academic and technical foundation at the secondary level. The curricula currently being developed for Tech Prep/Associate Degree programs will prepare students to be better educated thus allowing for greater opportunities for future employment.

ARTICULATION AGREEMENT

High Schools/Technology Centers

Roane State has articulation agreements with many area high schools and technology centers. Contact your Academic Advisor for more information.

Colleges and Universities

Roane State has entered into articulation agreements with Tennessee Technological University and the University of Tennessee, Knoxville. Students interested in transferring to either of these institutions should follow the curriculum specified in the articulation agreement. Please see your academic advisor for more information. Programs included in the articulation agreements are listed on pages 63 and 64.

STUDENT RECORDS

Records of each student's grades are kept on permanent file in the Records and Registration Office. Since these records are permanent and are frequently referenced for the purpose of supplying information to legitimate sources, all students should be acutely conscious that they are building their future and that their good attitude and diligent study will become a part of their resume for future education and work opportunities. No changes may be made to a student's academic record after one year.

Requests for non-credit transcripts need to be made in writing to the Office of Continuing Education. In all cases, obligations to the college must be fulfilled before a transcript will be issued.
FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act of 1974 is a Federal Law which provides that the educational institution will maintain the confidentiality of the student education record. No one outside the institution shall have access to nor will the institution disclose any information from student's educational records without written consent of students except to personnel within the institution who have legitimate educational interest, to officials of other institutions to which students seek to transfer, to persons or agencies providing students financial aid, to accrediting agencies executing the duties of their assignment, to persons in compliance with a court order, or during an emergency, to persons in order to protect the health or safety of students or other persons. The Act provides for those exceptions.

Responsibility for maintaining the confidentiality of student educational records resides with the Director of Records and Registration. At its discretion the institution may provide Directory Information in accordance with the provisions of the Act to include: student names, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, the most recent previous educational agency or institution attended by the student, participation in officially recognized activities and sports, and weight and height of members of athletic teams. Students may withhold Directory Information by notifying the Director of Records and Registration in writing. Requests for non-disclosure will be honored by the institution for one academic year; therefore, requests to withhold Directory Information must be submitted each Fall semester.

The Act provides students the right to inspect and review information contained in their education records, to challenge the content of their education records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in their files if they feel the decision reached in the hearings are unacceptable. The Director of Records and Registration has been designated by the institution to coordinate the inspection and/or review procedures for student education records, which include admissions, personal, academic and financial files.

ENROLLMENT VERIFICATIONS

The Records and Registration Office cooperates with various lending agencies by certifying that their student clients are enrolled at Roane State Community College.
Even veteran officers find there's still plenty to learn in police science, one of the many career opportunities at the Campbell County Higher Education Center.
PLANNING AN EDUCATIONAL PROGRAM

The responsibility for selecting an educational program rests with each student. The faculty and counselors take pride in assisting students in program planning and course selection. Students who are planning to transfer from Roane State to a senior institution at the conclusion of two years' work should secure a copy of that institution's catalog to use in planning their transfer program. Final responsibility for direct planning of courses and every preparation necessary to graduate from RSCC or to transfer to other colleges and universities rests with the student.

ACADEMIC ADVISEMENT

(423) 882-4528

The faculty at Roane State Community College are committed to providing the best possible academic advisement; however, the ultimate responsibility for enrolling in appropriate courses lies with the student.

First-time students who apply to Roane State will be invited to attend an Orientation Program. These students will have the opportunity to take the ACT Test or AAPP test and will meet with an academic advisor prior to registering for classes.

All degree-seeking students, including those who have transferred from other institutions, are assigned an academic advisor based upon the student's educational goals. Non-degree students may be assigned an advisor on request.

All freshmen are encouraged to meet with an academic advisor prior to registering for classes. Although sophomores (those who have accumulated more than 26 hours) are not required to meet with an advisor, it is strongly recommended that lines of communication remain open with faculty in the student's chosen field of study.

HONORS PROGRAM

(423) 481-2000, ext. 216

The Honors Program provides opportunities for enriched and indepth study for those who desire an academic challenge and qualify with a 3.5 GPA. Courses are offered in humanities, language and literature, social science, environmental science, and math/science.

Honors students enjoy benefits such as field trips, social gatherings, cultural events, special programs and presentations. Eligible members of the program receive scholarships and discount rates for the annual European Studies trip and the Southwestern field trip. Members of the Honors Program are invited to join Phi Theta Kappa International Honor Society, which provides many transfer scholarships to four-year institutions.

Those who earn twelve hours of Honors credit and maintain at least a 3.3 GPA graduate as an Honors Associate and receive a certificate. Those who earn eighteen hours and maintain a 3.3 GPA graduate from the Honors Program and receive an Honors diploma. All Honors graduates and Phi Theta Kappa members receive special recognition at graduation.

Students who have a 3.0 GPA may take one course for Honors credit per semester on a provisional basis with special permission from the director of the Honors Program and the instructor of the course. Provisional Honors students may participate in Honors activities but are not eligible for scholarships.
ON-COURSE

Students wanting to know the courses they need to complete a particular degree program or how their courses meet the requirements of another degree program should take advantage of ON-COURSE, Roane State's advisement assistant. This computer program merges a student's academic record with the degree requirements for a particular major. Information included on the printout includes: academic requirements remaining, requirements completed or in progress, and work that is not applicable to a particular major. Students can obtain an ON-COURSE printout from their academic advisor, the Counseling and Career Resource Center, Records and Registration, Academic Advisement Center, or any off-campus location.

ATTENDANCE REGULATIONS

1. Attendance of classes and other official appointments is expected.
2. An explanation of absences should be given to instructors. This information should be presented in advance if possible.
3. Absences are counted from the first scheduled meeting of the class.
   IMPORTANT: Non-attendance does not constitute a withdrawal from classes or from the college. Procedures to formally drop a course or to withdraw from the college must be followed. FOLLOWING THESE PROCEDURES MAY PREVENT AN UNDESIRE"F" ON A STUDENT'S TRANSCRIPT.
4. Some Health Science programs may have attendance requirements. Contact the program director with any questions.

REGISTRATION FOR COURSES

The printed schedule of courses also contains registration information. Roane State Community College provides early registration via telephone - Instant Registration Information Service (IRIS) - each semester for the currently enrolled and readmitted students. New students register after current and returning students. Procedures specified at the time must be followed during all registration. No student is officially enrolled until he/she has completed all requirements of enrollment including the payment of fees. Registration after the regular catalog published date may be permitted for one calendar week following this date. Only by exception as may be granted for good cause by the Vice President for Academic and Student Affairs may students be allowed to enroll in or add a class after this time. Late registration requires payment of the late fee. No student shall receive credit for a course for which he/she is not properly registered. A STUDENT MAY NOT BE ALLOWED TO REGISTER UNTIL ALL REQUIRED DATA HAVE BEEN RECEIVED BY THE OFFICE OF ADMISSIONS AND RECORDS.

CHANGE OF REGISTRATION/DROP-ADD

A student is allowed to change registration during the "Drop-Add" period at the beginning of each semester. The following procedures are to be followed in adding or dropping courses:

1. Prepare a schedule adjustment form from the Office of Records and Registration.
2. Secure approval from an Academic Development counselor, if the student has not completed all required academic development courses.
3. Present the completed form to the Business Office and pay appropriate fees.
4. Return two copies of form to the Office of Records and Registration and receive one copy which must be shown to the instructor whose course is being added. Failure to follow these procedures will result in an "F" in a course the student did not attend or in the student taking a course without receiving credit.

NOTE: Students enrolled in Remedial/Developmental courses will not be permitted to drop these courses unless extenuating circumstances exist. Approval must be granted by the Associate Dean of Academic Development or a designee.

**PROGRESSION STANDARDS**

The Tennessee Board of Regents' Committee on the Improvement of Student Writing made many recommendations that were implemented during the 1985-86 academic year. Of direct importance to incoming freshmen are the progression standards for English composition courses. The recommendation is as follows:

"Any full-time degree-seeking student at any TBR institution must be enrolled in a core (or developmental) English course each term until that student completes core writing requirements. Any part-time degree-seeking student at any TBR institution must be enrolled in a core (or remedial or developmental) English course for each 12 hours taken. Students may not withdraw from a core or a remedial or developmental English course unless they withdraw from school."

Full-time students required to take EDU 100 - Orientation to College, must take the course during the first semester of attendance at the college. Part-time students are required to take the course within the first year of attendance at the college.

Students transferring to Roane State who have completed 12 hours at another college or university are exempted from EDU 100-Orientation to College. However, the student must still meet the credit hour requirement for the degree.

**COURSE LOAD**

The average semester hour load for a student should be 16 hours of credit. Individual programs may require more or less than 16 hours per semester for degree completion. A full-time student is one who is carrying 12 or more semester hours of credit. The following criteria apply to semesters by course loads:

1. Students may register for 20 hours of credit upon verification of a 2.5 cumulative grade point average by the Office of Records and Registration.
2. Students may register for 21 hours of credit subject to verification of a 3.0 cumulative grade point average by the Office of Records and Registration.
3. Students wishing to enroll for 22 hours or more must have the approval of the Dean of Student Services.
4. Any exceptions to the above guidelines must have the approval of the Vice President for Academic and Student Services.

**REPEATED COURSES**

A student may repeat a course with the intent of improving the grade previously earned. In computing the quality point average of a student who has repeated one or more courses, **only the last grade received in the repeated course or courses will be used.** The hours attempted will be counted only once, provided that the number of repeats in any single course does not exceed two (three attempts). **In the event that a student attempts a course more than three times, the third and subsequent grades shall be used in determining quality point average.**
In order that grade point averages may be adjusted appropriately, the student repeating a course may file a course repeat form with the Office of Admissions and Records.

Veterans or other eligible persons repeating courses for which they have a passing grade ("D" or higher) and for which they have been paid are cautioned not to claim this course for pay the second time.

Students may be permitted to repeat a course in which a grade of "B" or higher was earned only with the approval of the Dean of the College.

**COURSE ELECTIVES**

The following subject areas should be used in selecting elective courses:

**Humanities**
- Art
- Foreign Languages
- Humanities Seminar
- Journalism
- Music
- Philosophy
- Theatre
- Literature

**Physical Science**
- Chemistry
- Physics-Calculus Based
- Astronomy

**Social Science**
- Economics*
- Geography
- History
- Political Science
- Psychology
- Police Science (Career Ed)
- Social Science Seminars
- Sociology

**Natural Science**
- Biology
- Chemistry
- Geology
- Physics

*Business program majors must select a Social Science elective other than economics.

**General Electives**
Electives which are not specified in the course of study may be selected from any college level course numbered 100 or above.

**COURSE SUBSTITUTIONS**

Course substitutions require the approval of the student's advisor, the appropriate associate dean, and the Vice-President for Academic and Student Affairs. A form for this approval is available from the Academic Advisement Center and should be processed prior to registering for the course in question.

Students in a transfer program should consult with their senior institution prior to submitting a substitution. Senior institutions may or may not honor substitutions.

**PHYSICAL EDUCATION ACTIVITY COURSE EXEMPTION AND SUBSTITUTIONS**

Physical education exemptions may be granted to students who are medically disabled. Such students must substitute another course for the exempted activity classes. To apply for this exemption/substitution:

1. Requests for this exemption/substitution must be made in writing to the director of Health and Disability Service.
2. Physician's documentation must be submitted to Health and Disability Service to identify and verify this need.
3. Consult with an advisor about substituting a two-hour Health/P.E. course to meet the degree requirement. Substitution choices include HEA 221, HEA 242, PED 175, and HEC 131.

4. A course that is not already required in the degree plan must be selected. It is advisable to consult with the advisor early in the scheduling process to coordinate the substituted classes into the student's schedule.

CANCELLATION OF SCHEDULED CLASSES

Any scheduled class may be discontinued by the college. The right is reserved to cancel when the number enrolled is deemed insufficient. For further information, contact the Office of Records and Registration.

GRADING SYSTEM

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points Awarded Per Semester Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outstanding</td>
<td>4</td>
</tr>
<tr>
<td>Above average</td>
<td>3</td>
</tr>
<tr>
<td>Average</td>
<td>2</td>
</tr>
<tr>
<td>Passing but below average</td>
<td>1</td>
</tr>
<tr>
<td>Failing</td>
<td>0</td>
</tr>
</tbody>
</table>

The scholastic standing of a student is expressed in terms of quality point ratio. A quality point ratio is the total number of quality points divided by the total number of semester hours attempted, less the number of hours repeated. To meet degree requirements a student must maintain an overall quality point average of 2.00.

Generally, letter grades are awarded according to the following scale:

- A: 90 - 100
- B: 80 - 89
- C: 70 - 79
- D: 60 - 69
- F: 0 - 59

Some specific exceptions to the above scale do apply and the college reserves the right to adjust it accordingly. Students enrolled in Health Sciences programs may not follow the scale as outlined above.

Other markings which may appear on the grade report and/or transcript are as follows:

- I: Incomplete
- AU: Audit, no grade or credit
- R: Repeated
- P: Pass
- X: No grade reported

The grade "X" indicates that the student has enrolled but never attended class. The "X" carries no quality points and is not included in computing the grade point average. A student who stops attending classes and fails to follow the proper withdrawal procedure does not receive a grade of "X". Rather, the student will be carried on the roll until the end of the semester and a grade of "F" will be recorded.

The grade "I" indicates that the student was passing at the end of the semester but has not completed the work of the course as required by the instructor. The student is thus on notice that he/she should contact the instructor immediately in an effort to complete course requirements. An "Incomplete" must be removed during the succeeding semester, with the exception of Summer Semester. Courses attempted which are incomplete are reflected on the academic record as hours attempted for which there is no credit established. This in turn affects the quality point average in the same manner as a failing grade. Should the
"Incomplete" not be removed, the quality point average will continue to reflect the "I" as an "F" grade and will be interpreted as such.

At the discretion of the Vice President for Academic/Student Services, selected courses may be offered using a pass-fail grading system. A "P" indicates a passing grade in such cases. Credit resulting from military service or from tests such as Advanced Placement, the College Level Entrance Examination Program, the Certified Professional Secretary, or other proficiencies will not be assigned quality points for computing the grade point average, and a letter grade of "P" (Pass) will be assigned for this credit.

If a student wishes to appeal a final grade in a course, he or she should discuss the matter first with the instructor of the course. If the issue cannot be resolved at that level, the student may take the problem to the appropriate associate dean and finally to the Vice President for Academic/Student Services.

DEAN'S LIST

The Dean's List is the official medium for the institution to recognize outstanding academic achievement by students. Full-time students (those completing 12 or more semester hours of college-level courses) with a quality point average of 3.5-4.00 are identified each semester on the Dean's List.

WITHDRAWALS AND HONORABLE DISMISSALS

Students finding it necessary to withdraw from the college must do so officially to maintain good standing and to assure honorable dismissal and/or readmission. Withdrawal procedures are as follows:

1. Obtain withdrawal form from the Office of Records and Registration to initiate withdrawal procedure.
2. Secure clearance from all college departments specified by the Office of Records and Registration.
3. Take withdrawal form to the Business Office for clearance.
4. Return white copy to Office of Records and Registration for final withdrawal clearance.

After the drop deadline date, no student will be permitted to withdraw from the college or drop classes and receive the designation of "Dropped" without providing documented proof of one of the following conditions and verification that the mitigating circumstances developed after the drop deadline:

1. Illness or injury of the student or serious personal problems as verified by the RSCC Student Health Service, the attending physician, or a psychologist.
2. Necessary change in work schedule verified in writing by the student's employer.
3. New employment as verified in writing by the employer.

Students may apply for withdrawal from a completed semester by supplying the same information as above. If granted by a committee of the Dean of Instruction, Dean of Students, and Director of Records and Registration, all grades for the semester will be recorded as "W."

NOTE: Students enrolled in Remedial/Developmental courses are not allowed to withdraw from these courses unless extenuating circumstances exist. Approval must be granted by the Associate Dean of Academic Development or a designee.

All equipment belonging to the college must be accounted for or paid for and all financial obligations met. If it is impossible for the student to take these steps in person, they should be completed by a person acting as an agent for the
student. The student may withdraw from the college with the designation of "Dropped" through the dates specified on the calendar. Withdrawal from or dropping of courses after this date must be approved by the Director of Records and Registration. The request for a late drop or withdrawal MUST be made on or before the last day of classes. Requests made after the semester has ended will not be approved. A student who stops attending classes and fails to follow the proper withdrawal procedure will be carried on the roll until the end of the semester and a grade of "F" will be recorded.

ACADEMIC PROBATION AND RETENTION STANDARDS

A student who fails during any term to attain a cumulative quality point average at or above the level indicated below for the hours attempted (inclusive of any remedial or developmental courses) will be placed on academic probation for the following term.

<table>
<thead>
<tr>
<th>Semester Hours Attempted</th>

</tr>
</tbody>
</table>

ACADEMIC SUSPENSION

At the end of the following term of enrollment, a student on academic probation who has failed to attain: 1) the above cumulative standard OR 2) a 2.0 grade point average for the current term will be suspended. Students who have satisfied the 2.0 GPA but have not yet achieved the standards as listed above will remain on academic probation for subsequent terms until the standards have been achieved. Students on probation or suspension who fail to attain the cumulative standard and the 2.0 GPA for the subsequent term will be placed on suspension.

Suspension terms are as follows:

- First time suspension: One term (semester)
- Second suspension: Two terms
- Third suspension: Dismissal

In all instances, the summer term does not apply as a term served for suspension. For the student who is suspended at the end of the spring semester, the following fall semester is considered to be the term of suspension.

A third suspension of "Dismissal" may be appealed to the vice-president of Academic and Student Affairs after a period of two years absence from enrollment at the college.

APPEALS

A student who has been suspended either from RSCC or is currently suspended from another college or university may request an appeal through the Admissions and Retention Committee. If the student feels that there were extenuating circumstances (e.g. errors in their transcript, documentable medical or psychological problems, court or military duty, etc.) that caused the academic problems, they may appeal to the committee for reinstatement.
To request an appeal the student must contact the Records & Registration Office for an appointment with the committee. If the Admissions and Retention committee grants the reinstatement, the conditions imposed by the committee will be clearly stated. These may include a reduced course load, regular meetings with an advisor or counselor, and course suggestions.

Students who voluntarily serve the time imposed by their suspension will be reinstated automatically and do not need to meet with the Admissions and Retention Committee.

TRANSFER STUDENTS

Students on academic suspension from another college or university must clearly designate this information on their application to Roane State. Falsifying this information may lead to dismissal. Students who are transferring to RSCC are subject to the same standards for appeal as RSCC students.

While individual courses may transfer to RSCC and can count towards fulfilling degree requirements, the number of credit hours and quality points do not count towards calculating the GPA for academic probation and suspension.

ACADEMIC DEVELOPMENT PROBATION/SUSPENSION

Students who have been suspended from RSCC or any other TBR college or university as a result of remedial or developmental courses should consult page 50 of this catalog.

GROUND FOR DISMISSAL

A student may be dismissed from the college for any one or more of the following reasons:
1. Failure to meet minimum academic standards as stated in the above section.
2. Conduct of an unacceptable nature (Refer to Student Services section of this catalog).
3. Failure to meet Academic Development requirements for satisfactory progress through course requirements.

DEGREE REQUIREMENTS

Roane State awards the following degrees:

- Associate of Arts (AA)
- Associate of Science (AS)
- Associate of Applied Science (AAS)

A Technical Certificate of Credit may be awarded to a student who completes an approved program of study in which the prescribed program requires less than is necessary for completion of an Associate Degree. Generally, technical certificate programs require fewer than 32 credit hours or no more than one year of study.

The general requirements for any Associate Degree at Roane State are as follows:
1. Not less than 64 semester hours of credit.
2. A minimum of 24 of the final 36 semester hours of course work completed in residence at Roane State.
3. A minimum overall quality point average of 2.00 on all college level work attempted at Roane State. This also applies to students pursuing any
Technical Certificate of Credit. Only Roane State course credit is computed into the graduation grade point average.

4. Completion of specific course requirements as given in outlined Programs of Study. (Substitutions in programs must be approved by the Vice-President for Academic & Student Affairs.)

5. A student is permitted to graduate using the catalog in effect when he/she was admitted to the degree program or applied for readmission to the college. A graduating student may decide to follow the current college catalog. Students will be required to take competency tests designed to measure general education achievement and/or achievement in selected major areas as a prerequisite to graduation for the purpose of evaluation of academic programs. Unless otherwise required for an individual program, no minimum score or level of achievement is required for graduation. Participation in testing will be required for all degree-seeking students. Certificate students are exempt from testing.

STUDENT TESTING

A student may, as a prerequisite for graduation, be required to take one or more tests designed to measure achievement in general education and in the major for the purpose of evaluating the effectiveness of the institution or the program as required by public policy. Participation in testing may be required of all students, of students in selected programs, and of students selected on a sample basis. In order to comply fully with this provision, the student must authorize the release of his or her scores to the institution. Unless otherwise provided for in an individual major, however, no minimum score or level of achievement is required for graduation and individual student scores will be treated as confidential.

GRADUATION

All students must complete the general requirements as prescribed by the college and specific requirements set forth for the associate degree or certificate sought. Refer to the Degree Requirements section of this catalog and also appropriate program requirements for graduation. Each student must file an Intent to Graduate Form in the Academic Advisement Center a semester prior to the semester in which the student expects to graduate. Each student must complete 24 of the final 36 hours at Roane State to receive a degree from Roane State.

Graduation exercises are held at the end of the Spring Semester only. Students who anticipate completing their work during the following summer are eligible to participate in graduation exercises if a grade point average is sufficient for graduation and an Intent to Graduate Form has been officially processed. Fall graduates will be invited to attend the following spring exercises.

A student may complete requirements for more than one option within a degree program by successfully completing all course requirements. Only one diploma will be requisitioned for each degree.

Requirements for more than one degree may be met. A minimum of 16 semester hours beyond requirements for the first degree must be completed as well as all course requirements for the additional degree. The $25 graduation fee must be paid for each separate degree and a diploma may be requisitioned for each degree.

Graduation with Distinction

Degree seeking students who have fulfilled all graduation requirements are eligible for designation as honor graduates. Those who have a quality point average of 3.5 but less than or equal to 3.69 will be graduated cum laude; those who have
a quality point average of 3.70 but less than or equal to 3.89 will be graduated **magna cum laude**; those who have a quality point average of 3.90 or above will be graduated **summa cum laude**. A transfer student, in order to be eligible, must have made the required average on all work taken at Roane State Community College. Certificate students are exempt from receiving academic honors.

**ACADEMIC DEVELOPMENT POLICIES AND GUIDELINES**

**BASIC SKILLS ASSESSMENT**

In an effort to provide more effective educational services for students, the College participates in the Board of Regents’ Academic Assessment Placement Program (AAPP) to assess basic skills. Through this assessment, Roane State can identify the students’ academic strengths and weaknesses in reading, writing, and mathematics skills. This information is used along with the student’s past educational history to provide advisement and placement in courses that best help the individual student to improve skills in these areas, as well as study skills.

All Tennessee State Board of Regents colleges and universities require that all first time degree-seeking students undergo assessment. Transfer students who have not successfully completed college-level reading, writing, and mathematics courses must also undergo assessment. Further information regarding basic skills assessment can be obtained by contacting the Counseling and Career Resource Center on the Roane County or Oak Ridge campuses.

**ACADEMIC DEVELOPMENT LABORATORIES**

Academic Development (AD) laboratories are available to provide an opportunity for students to improve their skills in mathematics, English, reading, and study skills so that they may succeed in college-level courses. Classes are taught each semester and students may work in the labs individually on specified problems. These laboratories offer personalized instruction on the latest audiovisual equipment including computers, and video and cassette recorders. The labs are open every day and some evenings each semester.

**Limited Enrollment**

Students whose assessment results require enrollment in Remedial Studies courses may not enroll in regular college-level courses until they have satisfactorily met the exit criteria of all of the components of the Remedial Studies program. All students assessed must enroll in the remedial/developmental (R/D) classes indicated by the results of the AAPP. Students may not delay AD classes in order to enroll in college-level classes. The Academic Development Appeals Committee will advise the Academic Development program director relative to the disposition of requests for exceptions to this rule.

Students whose assessment results require enrollment in Academic Development (AD) courses may not enroll in a regular college level course which requires that competency as a pre-requisite until they have satisfactorily met the exit criteria of the appropriate AD courses. The Academic Development Appeals Committee will hear any requests for deviation from this policy, and the committee will make recommendations to the Academic Development program director for a resolution of the appeal.
Two-Attempt Rule

Students who have twice previously attempted a remedial or developmental studies course and failed to meet the minimum standards for progression will not be allowed to re-enroll in college for one academic semester (summer semester cannot count as the suspension). Students who have had three unsuccessful attempts in a remedial or developmental studies course and failed to meet the minimum standards for progression will not be allowed to re-enroll in college for one academic year. Such students will not be permitted to return to Roane State Community College or to transfer to another Tennessee Board of Regents school until the terms of the suspension have been satisfied.

Any student who is suspended from the program has the right to appeal to the Academic Development Appeals Committee for reinstatement. The conditions of the reinstatement imposed by the committee must be followed. These may include reduced course load, tutoring and regularly scheduled academic counseling sessions.

AD Appeals Committee

The Academic Development Appeals Committee shall be composed of an AD counselor, two Academic Development faculty members, and if necessary, a representative of the Records and Registration Office.

College Success Strategies

Placement in College Success Strategies is required for either (1) students who are placed in at least two subject areas at the remedial level or (2) students who are placed in three subject areas including remedial or developmental levels. Beyond this mandatory placement, students with two deficiencies - either both developmental or one developmental and the other remedial - have the option to elect placement in College Success Strategies. Course enrollment is limited to students in these categories.

Classroom Assessment

All students enrolled in introductory college level courses will be evaluated during the first week of classes. Students showing deficiencies will be referred to testing for possible placement in appropriate remedial or developmental courses. Enrollment in the courses indicated by results of the assessment is mandatory.

Attendance

The Academic Development Program is required by the Tennessee Board of Regents to have a mandatory attendance policy. The Academic Development Program recognizes that some legitimate absences may occur during the semester. Students who must miss a class should meet with the instructor prior to the absence if possible and arrange for early completion of assignments. Completion of assignments must be accomplished within one week of the absence. Students who miss more than ten percent of their academic development class sessions may be required to undergo course reassessment. If the assessment shows units of deficiency, these units will be repeated before the student advances in the course objectives.
You'll find plenty of resources "just down the road" at the permanent Cumberland County Higher Education Center, to be completed fall '98.
BUSINESS OFFICE REGULATIONS

(423) 882-4515

Tuition and fees are assessed and payable at registration each semester. Registration is not considered to have been completed until all assessed tuition and fees have been paid. Tuition and fees paid by check are not considered to have been paid until the check has cleared the bank. Students who have not met all financial obligations to the College will not be permitted to attend classes. No student will be permitted to re-enroll, graduate, or receive a transcript until all financial obligations to the college have been satisfied. All tuition and fees are subject to change by direction of the Tennessee Board of Regents. The current semester class schedule should be consulted for current tuition and fee rates. Any student who has a question or problem concerning tuition, fees, or other monetary transactions pertaining to the College should contact the Business Office.

MAINTENANCE FEE — REFUNDABLE

All students, both resident and non-resident, will be assessed a maintenance fee. The maintenance fee rate for the 1997-98 academic year is $45 per semester hour, not to exceed $512 per semester.

<table>

TUITION — REFUNDABLE

Tuition is free to all residents of the State of Tennessee. Students classified as non-residents will be assessed tuition. The semester tuition rate for the 1997-98 academic year is $134 per semester hour, not to exceed $1,536 per semester. The definition of residency as determined by the Tennessee Board of Regents will apply. Information concerning residence classifications may be obtained from the Director of Records and Registration. Non-resident students will be accepted if space permits.

SUMMER TERM FEES

The Summer Term consists of a full-semester term and two separate terms of approximately four weeks each.

Students may register for the entire semester or for the two separate terms or any combination thereof. Tuition and fees for the entire Summer Semester are the same as for other semesters. For any student registering for any course(s) or adding any course(s) during the Summer Semester, the assessment of course fees, late fees, and schedule change fees is determined by courses (if any) for which the student registered on or before the published registration date. The key to this determination is whether the student is registering for courses or adding courses. For this purpose the following definitions shall be used:
Registering for courses — A student registers for a course or courses only if he/she is not already enrolled in a course or courses meeting the same term or some concurrent term as the course(s) for which he/she is registering.

Adding courses — A student adds courses when he/she is already enrolled in a course or courses meeting in a term in which all or part of the term runs concurrently with the term in which the added course or courses meet.

AUDIT FEE

Fees for courses being audited are the same as those taken for credit. Auditors are not required to take examinations and receive no credit.

MISCELLANEOUS FEES

Application Fee (Non-Refundable). Each student applying for admission to the College for the first time will be assessed a $5 application fee. This fee is a one-time only fee and must accompany the application for admission.

Campus Access Fee (Non-Refundable). This fee will be assessed in addition to the Student Activity Fee.

1. Each student who registers for classes at any college campus or center will be assessed a $4 campus access fee each semester. This will include students registering for credit classes as well as Community Service-Continuing Education classes. Students registering for non-credit programs that meet fewer than twelve weeks, or fewer than twelve clock hours, or for which fees are not charged will be issued a temporary parking permit but not assessed an access fee.

2. Faculty and staff will be assessed an annual campus access fee of $10. Persons who are employed Spring Semester or after will be assessed a campus access fee of $5.

3. All faculty, staff, and students who pay the campus access fee will be given a parking decal. Additional decals will be available at a cost of $1.

4. All vehicles parked or operated by any person in connection with their employment or attending classes of the college must be registered with the Office of the Associate Dean of Student Services. All other persons on campus who are not short-term visitors must have a temporary parking permit.

Change of Schedule (Drop/Add) Fee (Non-Refundable). Students changing schedules will be assessed a fee of $5 per form. No charge is made if the change is initiated by the College or by the student through the Instant Registration Information Service (IRIS). Students withdrawing from school entirely are not required to pay the fee.

Graduation Fee. Graduating students are assessed a fee of $25 to cover the cost of a diploma and other related costs. This fee must be paid at the time the Intent to Graduate is submitted and is refundable only if the student does not graduate and no costs are incurred by the College. No graduation fees will be refunded if requested after one calendar year. There is no additional fee for completion of more than one option within a degree program and no additional diploma will be ordered. An additional $25 fee will be required for each degree if the student plans to receive an additional diploma. The fee for a replacement diploma is $10.

I.D. Card (Non-Refundable). There is no charge for the original I.D. card issued a student. A charge of $1 will be made for replacement.
Individual Instruction in Music (Refundable). Semester fees for individual instruction in music are assessed as follows:

1 lesson per week $55
2 lessons per week $100

These fees are refundable on the same basis as maintenance fees.

Late Registration Fee (Non-Refundable). Students failing to complete the registration requirements prior to the late registration period will be assessed a late registration fee of $10.

Liability Insurance Fee (Non-Refundable). A liability insurance fee will be required for students in the health occupation programs. The liability insurance will be purchased at a reduced group rate.

Lock or Key Replacement Fee (Non-Refundable). $3

Locker Deposit (Refundable). A $5 deposit is required for locker rentals. Deposit is refundable upon return of the lock to the Business Office.

Locker Rental (Non-Refundable). $1 per semester, small locker $1.50 per semester, large locker

Miscellaneous Fees (Refundable). A fee for certain courses which are conducted in facilities not owned by the College will be assessed at a rate based on the amount charged by the owner of the facility. This fee is refundable on the same basis as maintenance fees.

Motor Vehicle Registration. All staff and students are required to properly register all vehicle(s) driven on campus and properly display parking decal(s) issued at that time. (See Traffic Regulations)

Returned Check Fine (Non-Refundable). A fine of $20 is assessed for each check returned to the College by the bank. A student may contest this fee successfully by presenting a letter from the bank in which it is clearly indicated that the check was returned through error by the bank. The College reserves the right to refuse to accept a check from any person.

Student Activity Fee (Refundable). A student activity fee of $5 per semester will be assessed for each credit student enrolled in classes at any college campus or center. This fee was adopted by the Student Government Association to provide funds for a variety of student activities. This fee is refundable on the same basis as maintenance fees.

Technology Fee (Refundable). A fee of $1 per credit hour not to exceed $12 per semester is assessed all students to provide and maintain computer labs and other advanced technology instructional equipment. This fee is refundable on the same basis as maintenance fees.

Telecourse/Audio Course Fee (Refundable). A fee of $20 per course is assessed for each audio/video tape checkout and cable television telecourse or audio course. Proceeds from this fee are used to pay the licensure/royalty fees related to each course. This fee is refundable on the same basis as maintenance fees.

Transcript Fee. A reasonable number of transcripts are provided by the College at no charge to the student. However, a charge of $2.00 each will be assessed for requests totaling more than ten (10) in any term.

REFUNDS

Regular Sessions — Students withdrawing from school entirely or dropping one or more classes may be entitled to a refund as follows:
75% of eligible fees will be refunded for drops or withdrawals for a period of 14 calendar days beginning with and inclusive of the first official day of classes or within an equivalent period for a short term course.

25% of eligible fees will be refunded following expiration of the 75% refund period, for a period of time extending 25% of the time period covered by the term. No refunds will be made beyond the 25% refund period.

100% of eligible fees will be refunded for classes canceled by the institution.

100% of eligible fees will be refunded for drops or withdrawals prior to the first official day of class as published in the academic calendar.

100% of eligible fees will be refunded in case of death of the registered student.

**Summer Sessions** — Summer session refunds will be based on the above with short terms being prorated as a percentage of a regular term.

**General Refund Policy** — No refund is due on courses which are dropped unless the sum of the remaining hours calculated at the hourly rate is less than the total amount paid for tuition and/or maintenance fees.

Refund calculations are based on the computer processed date for courses dropped via the Instant Registration Information Service (IRIS) or the processed date that appears on the official change of schedule form. Failure to follow proper procedures for dropping courses may result in forfeiting all rights to a refund.

Refunds can be expected approximately four weeks after the date the course is dropped.

**Financial Aid Refunds** — Refunds for students who receive assistance from Title IV financial aid programs are refunded to each grant and/or loan account in accordance with applicable federal regulations. Special refund policies may apply to first-time students who receive assistance under Title IV financial aid programs. For additional information, contact the Business Office.

**Refund Appeals Process** — Students may appeal a refund by submitting a written request outlining the basis for the appeal to the Business Office. Refund appeal requests will be decided by the Director of Fiscal and Auxiliary Services. The student will be notified in writing of the decision within ten (10) working days of receipt of the written appeal request. Students may appeal the decision of the Director of Fiscal and Auxiliary Services to the President by submitting a written request for a refund appeal review to the Vice President for Financial Services. The student will be notified in writing of the President’s decision within ten (10) working days of receipt of the request for refund appeal review.

**Community Services Activities: Withdrawals and Refunds**

**Withdrawal Policy** — Registrants must notify the appropriate Continuing Education Unit, either by phone or in writing, of the intent to withdraw from a non-credit program. Failure to attend does not constitute withdrawal.

**Refund Policy (Non-credit Courses)** — For courses that meet on a weekly basis, registration may be canceled without penalty prior to the first class meeting. After the first class and prior to the second class, an 80% refund will be given. No refund will be made after the second class meeting.

For one and two day courses, withdrawals received prior to the first class meeting will be refunded in full. No refunds will be given after the course begins.

Courses canceled by Roane State Community College will be refunded in full or the registrant may elect to transfer into another general interest course.

**Refund Policy (Non-credit Conferences, Workshops or Seminars)** — Registrants in conferences, workshops or seminars should make withdrawals no later than five
working days prior to the activity start date in order to receive a complete refund. If a notification of less than five working days is given, a refund, less 10% of the registration fee, will be returned to the registrant. No refunds will be made after the activity begins. Substitutions can be made without prior notification. Registrants should check all literature on the activity for any special exceptions.

**Special Exceptions** — Some non-credit courses, conferences, workshops or seminars may have special deadlines and/or requirements established for registration or refunds. Registrants should check all literature received on the activity for exceptions to the general policies.

**BOOKS AND SUPPLIES**

The cost of books and supplies will vary from one program to another. The Bookstore sells both new and used books. Students are encouraged to take advantage of savings which result when purchasing used books. The estimated cost of books and supplies is $125-$300 per semester. The College Bookstore will buy back used books in good usable condition in quantities limited to the anticipated needs for ensuing semesters. Book buy back periods are announced at the end of each semester. Students selling books back to the bookstore will be required to furnish a Roane State Community College ID card.

**CHECK CASHING/ACCEPTANCE POLICY**

Both the Bookstore and the Business Office provide a free check cashing service. Personal checks may be cashed for any amount up to $10 for students and up to $20 for faculty/staff. However, 1) only one personal check per day may be cashed, 2) two party checks will not be accepted, 3) student checks will not be cashed by either the Business Office or the Bookstore anytime during the final two weeks of the semester, and 4) a validated ID card is required.

A $20 fine will be levied on all “returned checks.” The return of a third check will result in the person’s name being placed on the “no check list” and in the forfeiture of check cashing privileges.

If a check written for payment of a student’s maintenance fee is returned, the student has ten (10) days in which to make restitution to the College via payment by cash, certified check, cashier’s check, or postal money order. Failure to make such restitution will result in immediate disenrollment. Suspension from classes could also result from checks returned on the purchase of books or payment of other fees.

Until all financial obligations are satisfied, the student becomes ineligible for all benefits and services provided by the College such as receiving grades, receiving or sending transcripts, registering, and graduating.

The College reserves the right to refuse to cash any check. Appeals concerning the cashing of checks may be made to the Vice President for Financial Services.

**STUDENT FINANCIAL SERVICES**

(423) 882-4545

The Student Financial Services Program at Roane State Community College is designed to aid students who would find it difficult or impossible to attend college without financial assistance. Roane State offers a comprehensive program of financial aid in the form of scholarships, part-time employment, grants and loans. Major emphasis is placed upon financial need, academic achievement, character, and promise of future success.
When determining financial aid, the evaluating committee will consider the financial resources of the family as well as any unusual financial problems. The college will assist all qualified students as resources permit on a first-come, first-served basis. Therefore, it is important for students to apply for financial aid as early as possible after January of each year.

HOW TO APPLY FOR FINANCIAL AID

All federal financial aid programs require the assessment of financial need, which is based on the ability of the parents and/or the student to contribute toward educational expenses. Students should complete the Free Application for Federal Student Aid. This form is available through the Student Financial Services Office at the college and through guidance offices at area high schools.

A student must be fully admitted to college before any awards will be made. Renewal of aid is not automatic. Each student must reapply each year.

SOURCES OF FINANCIAL AID

SCHOLARSHIPS

The Scholarship for Academic Service is authorized by Roane State Community College. These scholarships, in the amount of maintenance fees for the academic year plus $150 per semester for books, are awarded on the basis of academic achievement. Students ranking in the upper 10% of their high school graduating class will receive priority in the awarding of these scholarships. Recipients must maintain a grade point average of 2.5 to remain eligible for renewal.

The Scholarship for Academic Service recipients are required to work approximately 150 hours per academic year. An effort is made to give recipients work assignments related to their academic interests. Residents of the State of Tennessee who believe they are qualified should submit the application for scholarship after the first semester of their senior year in high school and before the following May 1.

PRIVATE SCHOLARSHIPS

Roane State has a limited number of private scholarships. In selecting recipients for these scholarships, emphasis is placed upon scholastic achievement, character, future promise, and financial need. Additional scholarships will be established as interested groups and individuals desire. Those wishing to establish a scholarship fund are urged to contact the Director of Student Financial Services at the college, or the Executive Director of the Roane State Foundation.

MINORITY STUDENT SCHOLARSHIPS

Black students who are residents of Tennessee and are enrolled as full-time students may apply for the Minority Student Scholarship. The scholarship will provide money to pay maintenance fees and provide money to help pay for textbooks. Applicants must have a 2.0 Grade Point Average.

ATHLETIC SCHOLARSHIPS

The college annually awards a number of athletic scholarships. For detailed information contact the Director of Athletics, (423) 882-4581.
SENIOR CITIZENS AND DISABLED PERSONS

Disabled persons and persons 60 years of age or older, who are domiciled in Tennessee, are eligible to enroll in courses for AUDIT without payment of tuition, maintenance, technology or student activity fees. All special course fees will be assessed at the normal rate.

Disabled persons and persons sixty-five years of age or older, who are domiciled in Tennessee, are eligible to enroll in courses for CREDIT at the rate of one-half the credit hour fee per semester hour, up to a maximum of $45. This rate applies to maintenance fees and technology fees. Special fees (such as graduation fees, student activity fees, campus access fees, telecourse/audio course fees, etc.) will be assessed at the regular rate. Arrangements should be made well in advance of registration day to provide documented evidence of disability or age. Students registering using these classifications must register within the late registration period.

Fees for all Community Service courses must be paid at the regular rate.

VIETNAM CONFLICT VETERANS DEPENDENTS

All tuition, maintenance, activity, and other fees are waived for the children of Vietnam conflict veterans if the conflict veteran died while serving in Vietnam or as a result of injury sustained while serving in Vietnam, or was officially declared missing in action or declared a prisoner of war in Vietnam. Special age and residency requirements must be met. Documented evidence will be required.

HIGHER EDUCATION EMPLOYEES — PUBLIC CHAPTER 191

Full-time employees of the Tennessee Board of Regents and the University of Tennessee are eligible to enroll, on a space available basis, in one credit class per term without payment of tuition, maintenance, technology, student activity, or access fees. Information on this program is available from the Personnel Office. An application for Waiver of Fees — Public Chapter 191 (fully executed by the employing institution) must be presented at the time of registration.

STATE EMPLOYEE FEE WAIVER PROGRAM

Full-time employees of the State of Tennessee are eligible to enroll, on a space available basis, in one credit course per term without paying tuition charges, maintenance fees, technology fees, debt service fees, student activity fees, or registration fees. At the time of enrollment, the state employee must present a completed "Public Higher Education Fee Waiver for Employees of the State of Tennessee" form certifying that the applicant is a full-time employee with at least six months continuous service. Registration for a course in this program is allowed only during the late registration period. Information on this program and related eligibility requirements is available from the Business Office.

FEE DISCOUNT PROGRAM FOR SPOUSES AND DEPENDENT CHILDREN OF TBR EMPLOYEES

Spouses and dependent children of certain retired employees and regular employees of Tennessee Board of Regents institutions who have been employed for at least one continuous year and work at least one-half time are eligible for up to a 50% discount on maintenance and technology fees. The amount of the maintenance fee discount is 50% for full-time employees. Spouses and dependent children of part-time employees will receive a pro-rata portion of the 50% discount
based on the employee's percentage of work effort. This program is applicable only to undergraduate credit courses. Certain special conditions must be met to qualify for this program. Information on the program is available from the Personnel Office. A Request for Fee Discount for Spouse and/or Dependent form (fully executed by the employing institution) must be presented at the time of registration.

**FEE DISCOUNT PROGRAM FOR CHILDREN OF CERTIFIED PUBLIC SCHOOL TEACHERS AND FOR CHILDREN OF STATE EMPLOYEES**

Children under the age of twenty-four (24) whose parent is employed as a full-time licensed teacher in any public school in Tennessee or as a full-time employee of the state of Tennessee are eligible for a twenty-five percent (25%) discount on maintenance and technology fees. At the time of enrollment, the student must present a completed "Public Higher Education Fee Discount for Children of Certified Public School Teachers and Children of State Employees" form certifying eligibility for the program. Fee discounts will not be retroactive; eligibility for the fee discount is available only by application and approval prior to the beginning of the term for which assistance is being sought. Information on this program and related eligibility requirements is available from the College Business Office.

**FEDERAL PELL GRANTS**

This is an entitlement program made available by the federal government through the Title IV Student Financial Aid Programs. Eligibility for the Federal Pell Grant is based upon the financial situation of the student and the student's family. Students should apply for the Federal Pell Grant as the primary source of financial aid since all other sources of assistance are based upon eligibility for the Federal Pell Grant.

**FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS**

**FEDERAL WORK-STUDY PROGRAM**

These grant programs are part of the Campus-based Programs of the Title IV Programs. Students may be considered for inclusion in these programs after eligibility for the Federal Pell Grant has been determined. These programs have limited funding and application must be made by the specified priority date of May 1. Awards from these programs are made in the fall semester of each year.

**TENNESSEE STUDENT ASSISTANCE AWARD**

The Tennessee Student Assistance Award is a grant made available to Tennessee residents attending college in the State of Tennessee. This program is administered by the Tennessee Student Assistance Corporation. An application deadline is assigned by the corporation each year. The Student Financial Services Office will be aware of the deadline date early in the application period.

**STUDENT LOANS**

If students are interested in applying for the student loan programs, they should initiate the process by completing the Free Application for Federal Student Aid. Specific information from this need analysis must be on hand before eligibility for the student loan can be determined.

The Federal Stafford Loan Program is available to students who have been determined eligible through the above-mentioned need analysis system. This is a variable interest loan for the first-time borrowers. Repayment of the loan does not
begin until six months after the cessation of college attendance. The limits of the loan are a minimum of $500 and a maximum of $2,625 for freshmen and $3,500 for sophomores. The amount of eligibility is determined by the Student Financial Services Office.

Special arrangements through Tennessee state designated lenders have been made for loan applicants who are unable to obtain loans from local lenders. This information is available in the Student Financial Services Office.

VETERANS BENEFITS

Roane State Community College cooperates with the Veterans Administration in providing educational opportunities for veterans. The Director of Veterans Affairs at Roane State is available for help to determine eligibility, in the selection of a major, and to prepare the required forms for VA benefits and any other matters pertaining to college attendance under the “G.I. Bill.” Veterans who have not completed high school or who do not have a high school equivalency diploma should contact the Director of Veterans Affairs for help in planning a program of study and admission to Roane State.

Veterans desiring to attend Roane State under any of the educational assistance laws administered by the Veterans Administration should contact:

Director of Veterans Affairs  Veterans Administration
Roane State Community College  Regional Office
276 Patton Lane  110 Ninth Avenue South
Harriman, TN 37748  Nashville, TN 37203

Once enrolled, veterans and other eligible persons should maintain close contact with the Office of Veterans Affairs. Veterans and other eligible persons may receive educational benefits under Title 38, U.S.C. (the “G.I. Bill”) only when classified as a regular degree student. Other classifications, i.e., special student-credit and student non-credit do not qualify.

Current Veterans Administration regulations require that veterans classified as regular degree students maintain the prescribed cumulative GPA listed under Probation and Retention Standards in this catalog.

Courses for which the veteran and other eligible persons have received a passing grade, either at Roane State or a transfer institution, may not be claimed for pay the second time. Courses in which the veteran and other eligible persons receive a grade of “F” may be repeated and claimed for pay. Elective hours beyond those allowed by the curriculum of the declared major or courses taken for audit may not be claimed for pay. Only those courses which count toward the veteran’s declared major may be claimed for pay. Course substitution forms must be processed and approved as described in this catalog before the substituted course is claimed for payment.

Veterans and other eligible persons can receive pay for deficiency classes when a need can be shown. The pay received is taken from the total entitlement.

Veterans and other eligible persons desiring educational benefits under the “G.I. Bill” must file a claim form with the Veterans Affairs Office at the time of pre-registration each semester. The claim form must be adjusted to reflect any changes in the class schedule.

Further information is available at the Veterans Affairs Office.
Staff members help students explore transfer and career options at the Loudon County Career Center. At Roane State, you get a quality education at a reasonable cost.
TRANSFER PROGRAMS
(423) 882-4528

ASSOCIATE OF ARTS/ASSOCIATE OF SCIENCE PROGRAMS

Students who desire to earn a Bachelor of Arts or Bachelor of Science degree at a four-year college or university may complete the first two years of study at Roane State by enrolling in an Associate of Arts or Associate of Science degree program. The advantages of taking the first two years at Roane State include:

• Roane State’s maintenance fees are among the lowest of any fees charged by Tennessee’s colleges and universities.
• Roane State’s class enrollments are generally smaller which lends itself to more individualized instruction.
• Obtaining an Associate of Arts or Associate of Science degree allows a student to have credentials for employment while completing his/her baccalaureate degree.

Roane State has developed cooperative relationships with other four-year institutions to assist students in transferring courses. Course-by-course transfer equivalency tables exist for the following schools:

- Austin Peay State University
- Carson-Newman College
- Cumberland College (KY)
- East Tennessee State University
- Lincoln Memorial University
- Maryville College
- Middle Tennessee State University
- Tennessee Technological University
- Tennessee Wesleyan College
- Tusculum College
- University of Tennessee - Chattanooga
- University of Tennessee - Knoxville
- University of Tennessee - Martin

ARTICULATION

Articulation programs, also called 2+2 programs, exist between Roane State and the University of Tennessee-Knoxville and Tennessee Technological University. Roane State students can follow an articulation program, obtain an Associate of Arts or Associate of Science degree and be guaranteed admission into a specific program at the university, provided all GPA and entrance requirements are achieved. All articulation programs fulfill Roane State’s requirements for either an associate of arts or associate of science degree. Roane State Associate of Arts and Associate of Science degrees do not constitute an articulation program.

Students can obtain a copy of the specific articulation program from:

- Academic Advisement Center
- Off-campus Locations
- Counseling and Career Resource Center
- Academic Departments
Students planning to pursue any of the following majors at UTK can follow the articulation program sheet and obtain the first two years of general education requirements at Roane State.

Students who have attempted more than 12 college-level semester hours at any college or university other than Roane State or UTK are not eligible to participate in the UTK articulation agreement. However, the articulation sheets are still a good checklist of transferable courses for UTK and the specific major.

| Total Required Hours                            | 65 (Minimum)   |

*Check with your senior institution or articulation program for the appropriate course selection.

**NOTES:**

1. Fifteen hours of electives should be taken at the 200 level.
2. Six hours of Social Science elective hours are recommended.
3. Check with senior institution for courses that will transfer.
4. Students following articulation programs should follow the prescribed program for their major. Classes listed in an articulation program will fulfill the degree requirements for the AA/AS degree.
5. Students obtaining the Associate of Arts degree must take 6 hours of foreign language as part of their elective hours.
6. Credit hours earned in remedial or developmental courses or courses used to fulfill high school deficiencies are institutional credit; they are not applicable to credit hours required for an associate or baccalaureate degree.
7. Completion of the second year of foreign language is highly recommended for students seeking the Associate of Arts degree, and for students transferring to UT-Knoxville in the College of Business or College of Arts and Sciences.

If no program articulation agreement is available for a particular school or major, students may follow one of the Curriculum Guides found on the following pages. The Curriculum Guides are suggested courses of study that include general education courses and a foundation of courses designed for particular majors.

Curriculum Guides are not intended to represent a particular major at any particular college or university. Students should obtain a copy of the catalog for the senior institution they plan to attend and use it during advisement sessions to assist with the selection of courses that meet requirements for selected majors at senior institutions.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

The agriculture curriculum is designed for the student planning to complete a baccalaureate degree at a four-year college or university. The plan of study allows only for the general education requirements of the four-year institution. More specific courses within the major will be offered at the senior institution during the junior and senior years.

Art

Degree: Associate of Arts Or
Associate of Science

The art curriculum is designed primarily for the general enrichment of the student as well as providing professional art and liberal arts course work for transfer to a four-year institution. This program is designed to develop fundamental skills in technique and creative expression. An art major planning to transfer to a senior institution should plan a program to meet specific requirements for the lower division at that institution. The art department reserves the right to retain student work for exhibition.

Biology

Degree: Associate of Science

The biology curriculum is designed for the student planning to complete the bachelor's degree at a four-year institution. This program generally meets the transfer requirements for students entering any one of the state's major universities. Before entering this plan of study, each student should become acquainted with any pre-transfer requirements the receiving institution may stipulate. The current job market gives highest priority to the graduate degree in biology.

Business Administration

Degree: Associate of Science

The business administration program includes professional studies and courses in the liberal arts. Upon completion of this two-year program, a student may transfer to a senior institution to complete the requirements for the bachelor’s in accounting, business management, or related fields.

1 A higher level math course may be substituted. Consult with an advisor.

2 For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

3 Students transferring to UTK should consider scheduling foreign language courses while attending Roane State.

Students pursuing this area of study will be advised by the Business and Environmental Technologies Department.
Curriculum Guides

*Curriculum Guides* are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

### Business Education

**Degree: Associate of Science**

The business education program includes professional studies and courses in liberal arts. Upon completion of this two-year program, a student may transfer to a senior institution to complete the requirements for the bachelor's degree in business education.

Chemistry

Degree: Associate of Science

The chemistry curriculum is designed for students planning to complete the bachelor's degree at a four-year institution. This program generally meets the transfer requirements for students entering any one of the state's major universities. Before entering this plan of study, each student should become acquainted with any pre-transfer requirements the receiving institution may stipulate.

1 Students planning to transfer to Tennessee Technological University or UTK should consult an advisor for the appropriate curriculum.

1 If mathematics background or ACT math score is not adequate, consult an advisor about taking MAT 130 (Pre-Calculus).

1 Students must check with transfer institution for appropriate course selection.

* Consult an advisor about substituting PHY 201, 202 for PHY 211, 212. Also, check with the senior institution about most recent requirements.

Students pursuing this area of study will be advised by the Math/Sciences Department.
**Curriculum Guides**

*Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.*

**Computer Art and Design**

**Degree:** Associate of Arts Or Associate of Science

The A.A. or A.S. degree with an emphasis in computer art and design is geared toward those students desiring to transfer to four-year institutions to pursue advanced degrees in graphic design, fine arts, or computer enhanced design. This program will also provide an excellent two-year degree base for those wishing to pursue further work in related fields such as interior design, communications, or television. To complete requirements for graduation from the A.A. or A.S. degree in Computer Art and Design, students must pass competency tests in six areas: basic computer skills; pagination; Raster Graphics; Vector Graphics; 2-D animation; and 3-D animation. In addition students must pass an advanced exam in one area of specialization. An internship is also required.

Early Childhood Education

The early childhood education curriculum is designed for a student who wishes to complete the first two years of a program toward teacher certification. This curriculum will meet the lower division requirements for transfer to a senior institution granting the bachelor's degree in early childhood education. Due to varying requirements at four-year institutions, students are encouraged to select courses in consultation with an education advisor.

Students pursuing this area of study will be advised by the Social Science/Education/PE Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

English

Degree: Associate of Arts Or Associate of Science

Students in the English curriculum will develop skills as critical thinkers and writers, using the broad foundation of the curriculum to focus on specialized writing situations. These skills will be further emphasized by the study of a wide range of literature and career-oriented writing.

Forestry

Degree: Associate of Science

The forestry curriculum is designed for students planning to complete a bachelor's degree at a university after receiving an associate's degree from Roane State. This program will generally meet university transfer requirements. Because of varying requirements at universities, students should meet with an advisor to determine specific requirements of the transfer university before starting this program.

Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RS CC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RS CC degree requirements appear on page 65.

Mass Communications

Students in the mass communications curriculum will develop skills as critical writers and thinkers, using the broad foundation of the curriculum to focus on specialized writing situations within the journalistic media. These skills will be further emphasized by practical experience in the media.

1 For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

2 Required for Associate of Arts (AA) degree only. Students seeking an Associate of Science (AS) degree should select a general elective appropriate for a senior institution.

Students pursuing this area of study will be advised by the Humanities Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Mathematics or Physical Science

Degree: Associate of Science

The mathematics or physical science curriculum will allow students to transfer to four-year colleges or universities and work toward a bachelor's degree in mathematics, physics, or any area which has similar requirements for the first two years.

¹ Follow the above curriculum for mathematics or physics emphasis.
² Students majoring in mathematics may substitute two semesters of biology.
³ Students must check with transfer institution for appropriate course selection.
⁴ Students may substitute other computer related courses with the approval of their academic advisor.
⁵ Required for mathematics majors only.

Students pursuing this area of study will be advised by the Math/Sciences Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCE degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCE degree requirements appear on page 65.

Music

Degree: Associate of Arts Or Associate of Science

A music major planning to transfer to a senior institution should become familiar with the specific lower division requirements at that institution. The curriculum in this degree is designed to give the performing music major a sound basis for continuing music study at a senior institution.

NOTE: All music majors must have a major applied area at the college; all music majors must pass a piano proficiency examination equivalent to two years of college piano; all music majors must attend all solo classes and other selected performances; all music majors must register for MUS 010 - Solo Class (for no credit) - every semester and MUS 020 - Recital (for no credit) - the last semester before graduation.

Students pursuing this area of study will be advised by the Humanities Department.

\(^1\) Students transferring to Tennessee Technological University should take EDU 101.

\(^2\) For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

\(^3\) Students are encouraged to take Music Ensemble as an added elective during their fourth semester.

Students pursuing this area of study will be advised by the Humanities Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Pre-Engineering

Degree: Associate of Science

The basic pre-engineering curriculum is designed for students who want to earn bachelor’s degrees in any engineering field at a four-year institution. Upon the successful completion of the basic program, the student can transfer to any college with an engineering program. These programs include: aerospace, biomedical, chemical, civil, electrical, engineering mechanics, engineering physics, engineering science, fire protection, industrial, mechanical, nuclear, environmental.

²The Fundamentals of Engineering Graphics course (ERG 161) includes application of computers for computer aided design and will satisfy the computer instruction requirements for this program.

³Students are advised to also take MAT 251; check with your advisor.

⁴For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

⁵Students planning to transfer to UT Knoxville should take PHY 205 and PHY 207.

⁶Students planning to transfer to UT Knoxville should take ESC 121 in fall semester of freshman year and ESC 131 in spring semester of freshman year instead of ESC 211 and 212.

⁷Students planning to transfer to UT Knoxville should take these courses in their sophomore year instead of freshman year.

Students pursuing this area of study will be advised by the Math/Sciences Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Pre-Medicine
Pre-Dentistry

Degree: Associate of Science

This unified basic curriculum in pre-medicine and pre-dentistry is designed to prepare students for schools of medicine and dentistry such as the University of Tennessee or a similar institution, where admission requirements are two years of college experience. Medical college usually requires three or four years of college experience. Roane State students should consult the catalog of the university or professional school of his/her choice and his/her advisor to determine specific requirements for admission.

</table>

For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

If mathematics background or ACT math score is not adequate, consult an advisor about taking MAT 130 (Pre-Calculus).

Consult an advisor about substituting PHY 201, 202 for PHY 211, 212. Also check with the senior institution about most recent requirements.

Students pursuing this area of study will be advised by the Math/Sciences Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RS CC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RS CC degree requirements appear on page 65.

Pre-Nursing

The pre-nursing curriculum is designed for students planning to complete bachelor's degrees at four-year institutions. Before entering this plan of study, students should become knowledgeable of specific pre-transfer requirements of other transfer institutions. Since many programs accept a limited number of applicants early in the school year for the next year's class, application should be made at the end of the freshman year at Roane State.

1 If mathematics background or ACT math score is not adequate, students must complete MAT 130 (Pre-Calculus) prior to enrolling in MAT 141.
2 Students may substitute other computer related courses with the approval of their academic advisor.
3 Check with advisor and transfer institutions; some colleges require accounting.
4 Students must check with transfer institution for appropriate course selection.
5 Consult an advisor about substituting PHY 201, 202 for PHY 211, 212. Also check with the senior institution about most recent requirements.
6 Psychology, sociology, economics, anthropology and political science are usually acceptable choices. Check with your advisor.

Students pursuing this area of study will be advised by the Math/Sciences Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Pre-Veterinary

Degree: Associate of Science

This course of study covers the first two years of the pre-professional work for students who plan to study veterinary medicine. At least one year of additional college level study will be required to meet the minimum requirements for admission to veterinary medicine. It is strongly advised that pre-veterinary students plan their courses so that as well as fulfilling the veterinary medicine prerequisites, they are simultaneously fulfilling the requirements for a bachelor's degree. Most veterinary medicine colleges require students make a satisfactory score on the Veterinary College Admission Test (VCAT). Please consult your advisor.*

Actual RSCC degree requirements appear on page 65.

Secondary Education

Degree: Associate of Science

The secondary education curriculum is designed for a student who wishes to complete the first two years of a program toward teacher certification. This curriculum will generally meet the lower division requirements for transfer to a senior institution granting the bachelor's degree in secondary education.

<sup>1</sup>For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

<sup>2</sup>Electives should be taken in areas of certification.

Students pursuing this area of study will be advised by the Social Science/Education/PE Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Social Science

Degree: Associate of Arts Or Associate of Science

The social science curriculum is designed to assist students planning to complete the bachelor’s degree at a four-year institution in any one of the following: geography, history, political science, psychology, and sociology. In order to meet lower division requirements for transfer to any one of the state’s major universities, students should select social science courses from their choice of emphasis and related social science disciplines. Students should also follow the advice of their faculty advisor and become acquainted with any pre-transfer requirements the senior institution may require.

\(^1\) Students planning on entering UTK’s College of Arts and Sciences, College of Communication, or College of Architecture should be aware that HIS 111 and 112 are required.

\(^2\) An Associate of Arts (AA) degree requires 6 hours of the same foreign language. Students pursuing an Associate of Science (AS) degree should take humanities courses recommended by the senior institution.

\(^3\) At least 12 hours of social science should be taken at the 200 level.

\(^4\) For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

Students pursuing this area of study will be advised by the Social Science/Education/PE Department.
Curriculum Guides

Curriculum Guides are suggested courses of study which may include more or less than the RSCC degree requirements. They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Special Education

Degree: Associate of Science

The special education curriculum is designed for a student who wishes to complete the first two years of a program toward teacher certification. This curriculum will generally meet the lower division requirements for transfer to a senior institution granting the bachelor's degree in special education.

They are not intended to represent requirements for any particular college or university. Students should consult articulation agreements, the catalog of the school to which they intend to transfer, and their advisor for specific degree requirements. Actual RSCC degree requirements appear on page 65.

Wildlife and Fisheries

Degree: Associate of Science

The wildlife and fisheries curriculum is designed for students planning to complete a bachelor's degree at a university after receiving an associate's degree from Roane State. This program will generally meet university transfer requirements. Because of varying requirements at universities, students should meet with an advisor to determine specific requirements of the transfer university before starting this program.

1 If mathematics background or ACT math score is not adequate, students must complete MAT 130 (Pre-Calculus) prior to enrolling in MAT 141.
2 For specific course recommendations, students should consult the catalog of the senior institution they plan to attend.

Students pursuing this area of study will be advised by the Math/Sciences Department.
## Removal of Entrance Deficiencies

To enroll in a transfer program leading to an associate of arts or an associate of science degree, and eventually a bachelor's degree, the Tennessee State Board of Regents requires the completion of specific high school courses. Students with academic deficiencies will be notified by the Admissions/Records Office. Deficiencies must be removed prior to receiving an associate degree. Courses used to remove deficiencies cannot be used to fulfill program requirements.

CAREER PREPARATION
ASSOCIATE OF APPLIED SCIENCE DEGREE

The Associate of Applied Science programs listed on the following pages are designed primarily for the student who wishes to seek employment after two years of college. Unless noted otherwise, these programs are not designed for transfer to a senior institution although many of the courses in these programs will transfer and all are college courses. Students planning to graduate with an Associate of Applied Science Degree are required to complete the general education courses of the core curriculum for career preparation programs listed at the beginning of this section.
The two-year programs in Business Management Technology are designed to prepare the interested student to become a specialist in many phases of the business field. Upon graduation, the student may seek employment in accounting; banking and savings associations; computer science; insurance; quality management; and general business fields. The program also facilitates the process for many students to move into management and supervisory positions. Business Management Technology programs are not designed for transfer to senior institutions.

Students pursuing any of the Business Management Technology programs will be advised by the Business and Environmental Technologies Department.
A.A.S. ENVIRONMENTAL HEALTH TECHNOLOGY

The Environmental Health Technology Program is designed to train students to perform as technicians who are employed to resolve environmental health and safety issues. Students who wish to enroll in the program may choose from among four options: Air Quality Control, Health Physics, Industrial Hygiene, and Waste Management. With the exception of AQC 101, HPT 111, IHT 101 and WMT 101, only students who have submitted an application and have been approved by the admissions committee may enroll in Environmental Health Technology classes.

Students pursuing any of the Environmental Health Technology options will be advised by the Business and Environmental Technologies Department.

Admission to the Program

1. The applicant must meet one of the following minimum academic requirements:
   a. Students 21 years old or younger must attain a composite score of 20 or above on the Enhanced American College Testing Program (ACT);
   OR
   b. Attain a GPA of 2.50 or better after completion of at least 8 semester hours of general education courses required in the program.

2. The applicant must complete an Application for Environmental Health Technology and submit it to the Office of Admissions and Records by May 15 for next fall’s enrollment. THIS IS A COMPETITIVE ADMISSION PROGRAM. MEETING MINIMUM REQUIREMENTS DOES NOT GUARANTEE ACCEPTANCE.

3. Final selection of students will be made by the Environmental Health Admissions Committee.
A.A.S. ENVIRONMENTAL HEALTH TECHNOLOGY
AIR QUALITY CONTROL OPTION

The Air Quality Control program is designed to produce graduates knowledgeable in all areas of air quality management including clean air laws and regulations, performance based implementation, pollution prevention, and air emission inventory techniques.

*NOTE: Internships are optional and vary in credit hours. Approval of the instructor must be obtained before a student may enroll in any internship.

*Students may substitute other computer related courses with the approval of their academic advisor.

Students pursuing any of the Environmental Health Technology options will be advised by the Business and Environmental Technologies Department.
A.A.S. ENVIRONMENTAL HEALTH TECHNOLOGY
HEALTH PHYSICS OPTION

The Health Physics Technology Program is designed to prepare individuals with skills and knowledge in nuclear radiation protection necessary to assist a health physicist in supervising other individuals to work safely with radioactive materials and radiation-producing machines, and in minimizing radioactive contamination of the environment. The students are trained in the proper use of radiation instruments used in both field survey and laboratory analysis. The students learn techniques in both internal and external dosimetry as well as environmental monitoring.

A.A.S. ENVIRONMENTAL HEALTH TECHNOLOGY
INDUSTRIAL HYGIENE OPTION

Students enrolled in the Industrial Hygiene Option become familiar with the techniques used to anticipate, recognize, evaluate and control those factors of environment which could pose a hazard to workers and the governmental regulations and agencies designed to promote worker health and safety.

A.A.S. GENERAL TECHNOLOGY

The AAS General Technology degree program is designed to assist business and industry in meeting their employment needs for highly-skilled technicians, as well as providing general education courses. The program provides a foundation for students who wish to pursue individual career goals and an alternative for currently employed adults who wish to continue their formal education. Students may submit a portfolio of employment experience or record of completion of employer-sponsored training programs for evaluation for up to 18 hours of experiential credit to be applied to technical elective credit. Technical elective credit may be granted for credit earned in RSCC Technical Certificate Programs. Students must seek advisement from faculty within their area of technical skill in order to choose appropriate technical electives.

Students who wish to pursue the Associate of Applied Science in General Technology with emphasis in Emergency Medical Technology should contact the Director of the Emergency Medical Care Services Program.

\(^2\)Students should contact their academic advisors for appropriate electives.
HEALTH SCIENCE A.A.S. PROGRAMS

Admission to the Programs

Due to limited enrollment, there are special admission policies for Health Science programs. The following policies are for: Dental Hygiene Technology, Medical Laboratory Technology, Medical Record Technology, Occupational Therapy Assistant, Opticianry, Physical Therapist Assistant, Radiologic Technology, and Respiratory Therapy Technology.

1. The applicant must meet one of the following minimum academic requirements:
   a. Students under 21 years of age must attain a composite score of 20 or above on the ACT taken within the last 3 years; OR attain a GPA of 2.50 or better after completion of at least 8 semester hours of general education courses required in the program.
   b. Students 21 years of age or older must attain a GPA of 2.50 or better after completion of at least 8 semester hours of general education courses required in the program.

2. The applicant must complete a Health Science application and submit it to the Center for New Student Admission.

3. Final selection of students will be made by the Health Sciences Admissions Committee.

4. Some programs have work experience requirements, or give special consideration to applicants with work experience. Contact the program director for details.

5. Admission to the program is required prior to enrolling in most health science program courses.

6. All remedial and developmental courses must be completed prior to enrolling in specialty courses.

All students meeting minimum criteria will be considered competitively, based on ACT score or GPA in required general education courses completed in some Health Science programs. Completing math and science courses required in some Health Science programs with a grade of A or B, could enhance your chance of being accepted. It will be to your benefit to complete as many general education courses as possible by application deadline. MEETING MINIMUM REQUIREMENTS DOES NOT GUARANTEE ACCEPTANCE. Students that do not meet minimum requirements will only be considered under special circumstances and on a space available basis. Preference will be given to Tennessee residents.

Applications should be submitted by the third Friday in January for the applicant to have priority consideration for entrance into the Health Sciences Programs for the following Fall Semester. Incomplete applications will not be processed. Any applications received after the deadline will be considered by the Health Science Admissions Committee on a space available basis. All transcripts must be received in the Records Office by January 16, 1998. It is the student’s responsibility to assure that all records and documentation are received by the deadline.

Retention Policies

A student must maintain the following standards or he/she will be dismissed from his/her respective program:

1. A grade of “C” or better in each specialty course.
2. Completion of specialty courses as specified by the degree checklist.

A student must be able to complete courses with the class in which he/she was admitted. A student who cannot graduate with the class in
which he/she was admitted will be dropped from that class and must re-apply to a subsequent class.

3. Evidence of malpractice insurance and physical examination prior to clinical training.

4. Be physically and mentally capable of performing the essential functions of the program as defined in each Health Science program's Core Performance Standards.

**Readmission Procedures**

1. A student may be considered for readmission to a Health Science program if all of the following criteria are met:
   A. The applicant must complete an application for Health Science programs and submit to the Center for New Student Admission.
   B. Only one readmission to a Health Science program will be permitted.
   C. The applicant must interview with the program director of the specific program before the date of the review by the Admissions Committee for consideration for readmission. An acceptable level of competency may need to be demonstrated prior to readmission. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty.
   D. A student must repeat the specialty course or courses for which he/she was dismissed and attain a "C" or better. Students may repeat a course only once, and on a space available basis.
   E. The student must attain a GPA of 2.50 or better in eight or more hours of general education course work required in the program.
   F. Readmission to a Health Science Program is contingent upon the availability of space.

2. Final selection of students will be made by the Health Science Admissions Committee.

Successful admission and completion of any RSCC Health Science program does not guarantee state or national licensure or registration to practice as there may be additional state/national criteria to be met for attainment of various allied health licenses/registrations.

**A.A.S. DENTAL HYGIENE TECHNOLOGY**

The Dental Hygiene Program includes a background of general studies, dental science, and clinical skills with which the student becomes a proficient provider of oral health care while working under the supervision of a dentist.

In addition to the special admission policies for Health Sciences programs, the Dental Hygiene Program utilizes the following factors in ranking and acceptance of applicants:

1. The number of required science courses (BIO 222, 231, 232; CHE 101) completed.
2. The student's GPA for required science courses completed.
3. Work experience in the field of Dentistry. If work experience is to be considered, the applicant must bring to the interview a current resume with permission to contact employers. If the applicant is a Certified and/or Registered Dental Assistant, a copy of Certification and/or Registration must be brought to the interview. It is highly recommended that applicants without work experience in dentistry spend time observing a dental hygienist. During this observation, the applicant should gain a full understanding of the dental hygienist's duties and responsibilities, as well as an understanding of OSHA regulations on bloodborne pathogens. All observation time should be completed prior to the interview.
4. Results of a personal interview. Interviews will be granted only to applicants who have met the minimum requirements for admission to the Health Science programs. Interviews will be conducted during the latter part of the spring semester. After the applicant's files have been reviewed, the interviews are scheduled by telephone. It is the applicant's responsibility to make certain that we have work and/or home telephone numbers that will be current for this time period. If your telephone number or numbers have changed from those provided on your Health Science application, you must send the changes in a timely manner to the DHT program director at 728 Emory Valley Road, Oak Ridge, TN 37830.

**All DHT courses must be taken in sequence.** All required science courses (BIO 222, 231, 232; CHE 101) must be taken in the sequence listed in the curriculum if applicant is admitted to the program OR any of the courses may be completed prior to the beginning of the program in August. Admission to the DHT program is required prior to enrolling in any DHT courses. All DHT courses are taught on the Oak Ridge Campus.

There are additional expenses for the Dental Hygiene Program for instruments, uniforms, Student Association dues (membership is mandatory), radiation badges, recommended vaccinations and other program-related expenses.

Students are responsible for obtaining patients necessary to meet clinical requirements.

The program in dental hygiene is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education.

1. Higher level math course may be substituted.
2. PHL 231 Medical Ethics recommended.

Students pursuing this option will be advised by the Health Science Department.
The Medical Laboratory Technology Associate of Applied Science Degree program is designed to qualify students to work as medical laboratory technicians. The curriculum combines general education and science courses with clinical laboratory course and clinical laboratory experience. Students graduating from the program are eligible for national certification and State of Tennessee licensure. The program is accredited by the NAACLS (National Accrediting Agency for Clinical Laboratory Sciences). A passing score on a comprehensive examination will be required of all students graduating from this program. See admission requirements on page 109.

All MLT courses are taught on the Knoxville Campus.

\(^1\)Higher level math course may be substituted.

\(^2\)Speech elective may be chosen from the following: SPE 201, 211, or 221.

Students pursuing this option will be advised by the Health Science Department.
MEDICAL LABORATORY TECHNOLOGY
(FOR MLT-C GRADUATES)

Graduates of a NAACLS accredited MLT-C program will be eligible for an Associate of Applied Science in Medical Laboratory Technology by completing the following requirements in the order as given:

1. Providing an official record of completion of an accredited MLT-C program.
2. Providing a written notification of intent to pursue the MLT Associate of Applied Science Degree.
3. Complete all required general education coursework.
4. Passing Part I of a comprehensive exam and thereby receiving transfer credit for 28 credit hours of medical laboratory technology coursework (see MLT Credit by Transfer).
5. Passing Part II of a comprehensive examination and thereby receiving Credit by Proficiency for 20 credit hours of medical laboratory technology coursework (see MLT Credit by Proficiency).

### MLT Credit by Transfer

Eligible MLT students passing Part I of the comprehensive exam will receive transfer credit for the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>

TOTAL SEMESTER HOURS

Students pursuing this option will be advised by the Health Science Department.
A.A.S. MEDICAL RECORD TECHNOLOGY
(Health Information Technology)

The Medical Record Technology program emphasizes specialized skills in the management of health information. The medical record technician ensures completeness, accuracy and efficiency in the management of health information in all healthcare settings maintaining patient information. In smaller health facilities, the medical record technician may be in charge of the medical record/health information department. Application of the didactic instruction is provided through clinical experience in area health facilities. The program is accredited by the Committee on Accreditation of Allied Health Education Programs (CAAHEP), in collaboration with the American Health Information Management Association’s (AHIMA) Council on Accreditation.

Admission to the program is required prior to enrolling in any MRT course except MRT 105. MRT courses must be taken in sequence. MRT professional courses are primarily taught on the Roane County campus, however occasional MRT courses may be taught at other sites. Special admission requirements exist for this program. (See Health Science admission policies.)

¹Higher level math course may be substituted.
²Prerequisite: MRT 105, one year of high school typing or OAD 101.

Students pursuing this option will be advised by the Health Science Department.
A.A.S. OCCUPATIONAL THERAPY ASSISTANT

The Certified Occupational Therapy Assistant (COTA) is a health professional who uses purposeful activity with individuals who are limited by physical injury or illness, psychosocial dysfunction, developmental or learning disabilities, poverty and cultural differences of the aging process. The COTA works under the supervision of a registered occupational therapist (OTR) and collaborates with others to maximize independence, prevent disability and maintain the health of individuals requiring services. Students are trained in the skills and techniques necessary to participate in the treatment and testing of patients. The educational program includes lecture and laboratory experiences as well as practice in clinical settings.

ADMISSION TO THE OTA PROGRAM IS REQUIRED PRIOR TO TAKING ANY OTA COURSES. Twenty-four (24) hours of volunteer or work experience with an occupational therapist or an occupational therapy assistant is required prior to admission to the program. A form evaluating and verifying 24 volunteer hours must be submitted to the OTA department BY THE SUPERVISOR prior to the application deadline. Admission to the program is competitive and meeting minimum requirements does not guarantee acceptance. The program is designed to be taken in sequence, individual circumstances may permit variations. All OTA courses are taught on the Oak Ridge Campus.

The Occupational Therapy Assistant Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. AOTA’s phone number is (301) 652-AOTA. Graduates of the program will be able to sit for the national certification examination for the occupational therapy assistant administered by the American Occupational Therapy Certification Board (AOTCB). After successful completion of this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). Most states require licensure in order to practice; however, state licenses are usually based on the results of the AOTCB Certification Examination.

NOTE: All OTA students must complete Level II Fieldwork within 18 months following completion of academic preparation.

1May be taken in either the spring or summer semester.

2Higher level math course may be substituted.

Students pursuing this option will be advised by the Health Science Department.
The Opticianry program is a two-year associate of applied science degree career preparation program. Graduates of this program will be eligible to sit for the Tennessee State Board Examination in Ophthalmic Dispensing and the national board certification examinations. The total educational program will include general studies, technical, and field work components.

Opticians design and fit glasses, contact lenses and other specialized optical devices, based on the doctor’s prescription and the patient’s visual needs. Fashion is also a factor in designing eyewear.

The Opticianry program is nationally accredited by the Commission on Opticianry Accreditation.

Admission to the program is required prior to enrolling in any OPT course. Courses must be taken in sequence. All professional opticianry courses are taught at the main campus in Harriman.

1Higher level math course may be substituted.

2Business elective may be chosen from the following: BUS 221, 278 or 281.

Students pursuing this option will be advised by the Health Science Department.
A.A.S. PHYSICAL THERAPIST ASSISTANT

This program prepares students with the necessary knowledge and skills to assist in the treatment and testing of physical therapy patients under the supervision of a registered physical therapist. Training includes the use of exercise, therapeutic modalities and special treatment procedures in classroom, laboratory and clinical settings. This program is accredited by the Commission on Accreditation in Physical Therapy Education.

The curriculum is designed in a new 1+1 format - first year for prerequisites and second year for physical therapy courses. All first-year prerequisites (PRE-PTA status) must be completed prior to being considered for admission into the second year. There is an open admissions policy for enrolling in the PRE-PTA classes. The second year (PTA STATUS) lasts one calendar year — August to August of the next year. Classes taken the second year must be taken in sequence and require a full course load.

Selection for the second year will be based on GPA in the prerequisites, anatomy and physiology grades, and documentation and rating on physical therapy observation experience (40 hours are required). An interview will be offered the top 40 applicants. Twenty-four students will be selected to enter the second year. Those not accepted can apply for the following year or seek advisement on other possible career options.

All admission materials except Spring grades (i.e. Spring 1999 for Fall 1999 acceptance) should be submitted by the third Friday of January for the following fall semester. Spring grades need to be received by May 30. Students that turn materials in after these deadlines cannot be considered for admission.

Here are some other things to keep in mind for the second year. Clinical courses during the second year might require travel to other cities for extended periods of time at the student's expense. Once accepted into the second year, it is the student's responsibility to maintain certification in both basic first aid and CPR. This can be done through the Red Cross and/or American Heart Association.

All PTA classes are taught at the Emory Valley site of the Oak Ridge Branch Campus.

NOTE: The academic year 1997-98 will be the transition year. Second-year students (under the old two-year integrated format) will graduate in May of 1998. The students accepted Spring 1997 (under the new 1+1 format) will complete all prerequisites during Fall 1997 and Spring 1998 semesters. The first 1+1 class will begin Fall 1998 and graduate in August 1999. This transition plan will allow graduation of one class per year.

Students pursuing this option will be advised by the Health Science Department.
A.A.S. RADIOLOGIC TECHNOLOGY

The radiographer is a healthcare professional that performs radiographic procedures that provide information to assist in the diagnosis and treatment of the patient. The Radiologic Technology Program consists of six semesters of full-time study which includes supervised clinical course work in a radiology department. The clinical courses include assignments during the intersessions between semesters. The program is affiliated with seven area hospitals. Each student is assigned to one of the seven hospitals for their two years of clinical course work. Clinical assignments are based on proximity to the student’s home.

Applicants for the program may begin working on the general education courses at any time. Official acceptance to the program is required prior to enrollment in the professional courses. The professional courses must be taken in sequence and are offered only at the Oak Ridge Branch Campus. Remedial and developmental courses need to be completed prior to entering the program.

Applicants are encouraged to spend a minimum of 4 hours of observation time in a radiology department. Students that provide a letter of documentation of the observation time to the program director will be given special consideration. Special consideration will also be given to those applicants that make an A or B in required science courses.

The program is accredited by the Joint Review Committee on Education in Radiologic Technology. Graduates of the program are eligible to take the certification examination administered by the American Registry of Radiologic Technologists.

ADVANCED STANDING
A.A.S. RADIOLOGIC TECHNOLOGY'
(For Registered Technologists)

This program is designed for the technologist that is registered with the American Registry of Radiologic Technologists and is seeking to complete a degree in Radiologic Technology. Applicants must apply to the Health Science Admissions Committee for official acceptance to the program.

Applicants accepted to the program will be given course credit for the following Radiologic Technology courses after submitting a copy of the ARRT certificate to the program director and completion of the Credit by Proficiency form available in the Records Office:

The following courses will be assigned course equivalency:

A.A.S. RESPIRATORY THERAPY TECHNOLOGY
RESPIRATORY CARE

The Respiratory Care program prepares an individual to perform the staff responsibilities of the respiratory care profession. General education courses and respiratory care courses which include supervised clinical experience in area hospitals make up the building blocks of this exciting curriculum. Graduates are eligible to take the credentialing examinations offered by the National Board of Respiratory Care. The AAS Respiratory Care Technology degree program is accredited by CAAHEP and JRCRTE, committees on Allied Health and Education.

Along with the general entrance requirements for the Health Science programs, the applicants for Respiratory Care must also complete ten (10) hours of observation in designated respiratory therapy departments. Please contact the program director for more information. The completed forms from the observation time must be sent back to the program director prior to the application deadline—the third Friday in January. The forms may be obtained from the Health Science Office or Respiratory Care faculty.

At the beginning of fall semester, students that have been admitted into the program must attend an orientation to the Respiratory Care program prior to the first day of class. Students must submit physical examination forms and proof of CPR certification at this time. Students who fail to attend orientation or submit physical examination forms and CPR verification will be dropped from the program. All RTT courses are taught at the Harriman campus.

All students must pass the mock written registry and clinical simulation examinations to graduate from RSCC.
# RESPIRATORY THERAPY TECHNOLOGY

The following courses will be required prior to taking RTT 114.

Students pursuing this option will be advised by the Health Science Department.
ADVANCED STANDING
RESPIRATORY THERAPY TECHNOLOGY

For an individual to be classified for advanced standing in the Respiratory Therapy Program, he/she must be a graduate of an AMA accredited technician program. Applicants must complete the following requirements in order to be considered for advanced standing in this program:

1. All individuals applying for advanced standing in the Respiratory Therapy Program must have already completed the general education courses required in the first year of the curriculum:
   - BIO 231, 232-Human Anatomy and Physiology I and II
   - ENG 101-English Composition I
   - MAT 110-College Algebra
   - BIO 222-Microbiology
   - CHE 121-General Chemistry I
   - MRT 105-Medical Terminology
   - NSG 116, 117-Pharmacology in Nursing I and II or
   - NSG 126-Pharmacology in Nursing

2. Complete the general application form for admission to Roane State.

3. Complete the application for Health Science Programs indicating Respiratory Therapy Advanced Standing as the program of choice.

4. Provide an official transcript from the accredited technician program from which they graduated.

5. Provide verification from the National Board for Respiratory Care (NBRC) that he/she holds the Certified Respiratory Therapy Technician (CRTT) credential.

6. Have a personal interview with program key personnel.

All candidates fulfilling the above requirements will be considered for acceptance into the program by the Health Sciences Admissions committee. Acceptance is contingent upon the availability of space. Upon acceptance, the CRTT credential earned through the NBRC will be assigned course equivalency with the following courses in the curriculum of the Respiratory Therapy Program at Roane State:

<table>

</tr>
</tbody>
</table>

The advanced standing student will follow the sequencing of coursework for the second year as listed in the degree checklist.

Students pursuing this option will be advised by the Health Science Department.
ADMISSION POLICIES FOR ASSOCIATE OF SCIENCE NURSING PROGRAM

The two-year Associate Degree Nursing Program qualifies students to take the State Board Examination to become Registered Nurses.

The RSCC Academic Council has established (for both beginning and transfer students) the following requirements in considering applicants for admission into the Associate of Science Degree Nursing Program:

I. Applicants must:
   A. Apply and be accepted to RSCC.
   B. Submit high school transcripts or GED equivalent and transcripts of all previous college work to the Admissions Office.
   C. Take the ACT exam (for student applicants under 21 years of age).
   D. Complete Academic Development courses prior to application to the nursing program as determined by the requirements specified on page 22 of the RSCC catalog under "General Student Classifications."
   E. Pass a pre-admission test.

II. In addition to requirements above, applicants must meet requirement A or B or C below.
   A. Complete at least 12 hours of work from the general education requirements in the Nursing curriculum with a minimum 2.75 GPA. These hours must be completed prior to the application deadline (third Friday in January.) A "C" or better must be attained in each required science course.
   B. Students under 21 years of age must attain a composite score of 20 or above on the ACT battery.
   C. Licensed Practical Nurses may be admitted by fulfilling the following:
      1. Meet requirements I. A, B, C, and D above.
      2. Complete twenty six (26) hours of general education courses from the nursing curriculum prior to registration for Nursing 221.
      3. Graduate from state approved LPN program and have a current valid LPN license.
      4. Pass a Fundamentals of Nursing proficiency examination with a grade of at least seventy-five (75).
      5. Complete the course "Pharmacology in Nursing" with a grade of at least "C".
      6. Complete "Intermediate Nursing" with a grade of at least "C".

III. Only nursing courses which were completed within three years prior to applying for admission or readmission will be accepted. Science courses more than ten years old will not be considered.

IV. At the beginning of fall semester, a mandatory orientation to the nursing program will be scheduled prior to the first day of classes. At this orientation students must submit:
   A. A completed physical examination and a pre-clinical drug screen providing evidence of physical status necessary for practice in all areas of nursing care.
   B. Proof of current CPR certification that includes one-person, two-person and infant and child CPR. Students must submit a copy of certification.
   C. Students who do not attend this orientation and submit physical examinations and proof of CPR certification will be dropped from the program.
V. Health:
A. Even though preliminary admission to the Nursing Program has been
granted, a student will be required to undergo a physical exam/health
verification before final admission to the program. Students will be re-
quired, during the course of the program to demonstrate their physical
and/or emotional fitness to meet the essential requirements of the pro-
gram. Such essential requirements include freedom from communicable
diseases, the ability to perform certain tasks and suitable emotional
fitness. Any appraisal measures used to determine such physical
and/or emotional fitness will be in compliance with Section 504 of
the Rehabilitation Act of 1973 and the Americans with Disabilities Act of
1990. Core performance standards for admission and progression
which comply with the Americans with Disabilities Act of 1990 are
available from the office of the Nursing Program.
B. Students will be required to meet all health guidelines of the affiliating
agencies. For example, health insurance may be required by some
affiliating agencies. Not having health insurance could limit a student's
educational experience. Students are responsible for costs incurred from
injury or illness while in the Nursing Program.

VI. Other
A. Individuals who are admitted to the program whose use of alcohol or
consciousness-altering drugs interferes with their performance of nursing
education activities will be referred for a drug screen and counseling.
Please refer to the Nursing handbook for further information. Failure to
correct the problem will result in termination from the Nursing Program.
B. Students will be required to provide nursing care under supervision, for
patients with infectious diseases. Any student refusing assignment to an
infectious patient may be subject to dismissal from the program.
C. The applicant must report if any license in any health care field has
been suspended, revoked or denied.
D. Additional testing and counseling may be recommended on an indi-
vidual basis.

A Nursing Admissions Committee considers all eligible applicants and rec-
ommends applicants for acceptance into the Nursing Program.

Students who have not met minimum requirements will not be consid-
ered. All students meeting minimum criteria will be considered competi-
tively, based on ACT score or GPA in required general education courses
completed. It will be to your benefit to complete as many general educa-
tion courses as possible by application deadline. The earlier application
date will also be considered if other criteria are equal. MEETING MINI-
MUM REQUIREMENTS DOES NOT GUARANTEE ACCEPTANCE.
Preference will be given to Tennessee residents.

RSCC General Student classification admission policies for transfer stu-
dents apply to transferring nursing students. Transfer students must meet
RSCC general admissions requirements in addition to those of the
Nursing Program. A letter of recommendation including evidence of clini-
cal and lab competency must be submitted from the director of the previ-
ous nursing program. Transfer students may seek placement in the nursing
sequence by taking a proficiency examination subject to the approval of
the nursing faculty. No nursing courses earned in a school of practical
nursing may be credited by transfer, although academic courses, if earned
through a college or university, will be evaluated for transfer. Nursing
courses from an NLN accredited or state approved School of Nursing will be evaluated for transfer on an individual basis.

Financial Aid may be available. Questions should be directed to the Financial Aid Office.

Uniforms are required. Information and forms are included in letters of acceptance into the Nursing Program. Fees for the nursing students are the same as for other students with an addition: an annual fee for professional liability insurance is required.

Retention Policies

1. The student must maintain a cumulative GPA of 2.0 or better. A "C" must be achieved in each science course in order to progress to the second year of the nursing program.
2. The student must attain a numerical grade of 75 or better in each nursing course. Failure of a clinical rotation will result in a "D" or "F" for the course.
3. A student must satisfactorily complete each clinical rotation each semester in order to continue in the program. A grade of "incomplete" must be removed prior to the first clinical day of the following semester in order to progress to the next nursing course.
4. The student must carry professional liability insurance while enrolled in nursing courses.
5. The student must maintain CPR Certification while enrolled in the nursing program.

Readmission Procedures

1. Only one readmission to the nursing program is permitted. Readmission to the nursing program is also contingent upon the availability of space. Requirements for initial admission to the nursing program must be met in order for a student to be considered for readmission. Students with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the nursing faculty. Students seeking readmission to the nursing program must state their intention in writing to the Associate Dean for Nursing at least 30 days prior to summer semester, or 90 days prior to Fall or Spring semester.
2. If two "D" grades or below are received in nursing courses, the student will be dismissed from the program, and the person receiving such grades may not be eligible for admission into the nursing program of any other TBR institution.
3. Those students who fail to maintain a cumulative GPA of 2.0 may be considered for readmission to the nursing program only after removing all grades of less than "C" in required general education courses.
4. Students repeating nursing courses must repeat both theoretical and clinical components of the course.

Legal Limitations for Licensure

A graduate of an approved school of nursing who has been convicted of a violation of the law other than a minor traffic violation may be denied a permit and/or a nursing license. A graduate's eligibility for licensure is determined on an individual basis. Students are advised to consult with the licensing board regarding their licensure eligibility.
Academic Advisement

Nursing faculty provide academic advisement for prospective nursing students as well as for those students admitted into the program. The faculty assist students with scheduling classes and dealing with academic concerns. Faculty members have office hours posted on their office doors. Students should contact a faculty member for advisement as needed. It has been recommended that students experiencing academic difficulties make an appointment and discuss this with a faculty member as soon as possible.

ROANE STATE COMMUNITY COLLEGE
DEPARTMENT OF NURSING
CORE PERFORMANCE STANDARDS FOR ADMISSION AND PROGRESSION

The Roane State Community College Nursing Program has adopted the following core performance standards. Admission to and progression in the nursing program is not based on these standards, rather they will be used to assist each student in determining whether accommodations or modifications are necessary.

If a student believes that he or she cannot meet one or more of the standards without accommodations or modifications, the nursing program will determine, on an individual basis, whether or not the necessary accommodations or modifications can be made reasonably.

A.A.S. NURSING

The two-year, Associate of Applied Science degree program in Nursing emphasizes patient-centered approaches to nursing care. The graduate nurse is able to provide highly skilled nursing care for patients and families in a variety of health care delivery settings. The program of learning includes the study of clinical application of nursing theory and principles. The graduate is eligible to take the State Board examination to become a registered nurse.

Students pursuing this option will be advised by the Nursing Department.
LPN CAREER MOBILITY

This program is designed to facilitate the achievement of a registered nurse level education by LPNs who qualify for admission. LPNs who wish to qualify for this program are required to pass a proficiency examination. The examination will cover fundamentals of nursing and maternity nursing.

Examination scores are valid for three (3) years. Candidates who do not enter the program after three (3) years will be required to repeat the examination process.

Candidates are required to present an active Tennessee Practical Nurse license to be admitted to the examinations. Candidates should arrive 30 minutes before test-time. ID must be verified before admission to the examination is permitted.

Admission to the Career Mobility program is not automatic. Academic qualifications as well as test scores will be considered in the selection process. Admission is also contingent on available space in the program.

**Academic Advisement** LPN Mobility students must have an academic advisement conference with the nursing program director prior to beginning NSG 221.

*Must be completed prior to entering Nursing III.*

Students pursuing this option will be advised by the Nursing Department.
The two-year program in Legal Assisting is designed to prepare students to be proficient in paralegal duties and responsibilities. Students who complete the coursework will be able to apply basic law concepts and become familiar with Tennessee's basic court system. Objectives include skills in writing, research, problem solving, and social interaction. Students will participate in an externship for practical application experience. Admission to this program will require students to meet the minimum course standards for other two-year technical degree programs.

*The LAW courses will be centered primarily at the Cumberland County Higher Education Center in Crossville.

*MAT 110 or higher.

Students may substitute other computer-related courses with the approval of their academic advisor.

Students pursuing this option will be advised by the Social Science/Education/PE Department.
A.A.S. OFFICE ADMINISTRATION

The two-year Office Administration program is designed for students seeking employment and for those who are currently employed. The curriculum develops the knowledge, skills, and values needed to secure positions and to succeed in the rapidly changing workplace.

The curriculum integrates interpersonal and technological skills and emphasizes competency-based training in preparing students in all aspects of today's culturally diverse, technological business environment. This curriculum is based on research and is built on a solid partnership between education and business, and it includes up-to-date courses that provide the foundation for students to succeed in the world of work.

To develop leadership skills and practice what is being learned, students are encouraged to join and participate in Collegiate Secretaries International™ (CSI™), an organization for students sponsored by Professional Secretaries International™ (PSI™).

See "Admissions Procedures" on page 35 for information on semester credits awarded for passing the Certified Professional Secretaries™ (CPS™) examination.

*Medical emphasis, choose MRT 105 and MRT 121. Other emphasis, choose OAD, CST, BUS, or COE courses. (See your academic advisor for help in scheduling.)

Students pursuing this option will be advised by the Business and Environmental Technologies Department.
A.A.S. POLICE SCIENCE

The two-year Police Science Technology program is designed for students interested in career opportunities in Police Science and Corrections. The Corrections Option is designed to serve the educational needs of the region by preparing students for entry into a rapidly growing correction system which will continue to accelerate in the near future with the addition of area correctional institutions—both juvenile and adult. The Police Science Option is designed to meet the needs in society for personnel capable of entry and advancement in the law enforcement field. The two-year curriculum emphasizes an academic approach to law enforcement rather than a training approach.

1 Students may substitute other computer related courses with the approval of their academic advisor.

Students pursuing these options will be advised by the Social Science/Education/PE Department.
Many Roane State students find that the road to success begins at the Scott County Higher Education Center.
TECHNICAL CERTIFICATE PROGRAMS

Students in these programs should apply for admission as special credit students. The AAPP test and/or academic development courses are not required of students in these programs.

CHILD SUPPORT ENFORCEMENT

TECHNICAL CERTIFICATE OF CREDIT

This certificate program is designed to prepare graduates to be proficient in legal casework in a Title IV-D Child Support enforcement office setting in any judicial district in the state of Tennessee and to easily adapt to any Title IV-D office setting in the country. The student will learn and be able to apply basic child support law and will become familiar with basic court systems in Tennessee. The student will fully understand the child support enforcement process and all federal and state policies and mandated performance standards. The student will have a basic knowledge of related human service programs and understand the interaction of child support enforcement and these other programs. Proficiency in initial legal assessment of a child support case, preparation and filing of legal pleadings, interaction with clients, negotiation and filing of the final order, and mastery of TCSES — a statewide child support computer system, will be accomplished by the certificated student.

COMPUTER ART & DESIGN

TECHNICAL CERTIFICATION OF CREDIT

The Technical Certificate of Credit in Computer Art and Design is especially geared toward these individuals: 1) those already holding BFA's, MFA's, or other degrees who need a structured program of computer skills to enhance or secure employment, or 2) those who wish to quickly enter the job market on a technical level and pursue further education along with their employment.

To complete requirements to receive the technical certificate of credit in Computer Art and Design, students must pass competency tests in six areas: Basic computer skills; pagination; Raster Graphics; Vector Graphics; 2-D animation; and 3-D animation. In addition, students must pass an advanced exam in one area of specialization. An internship is also required.
The following courses are required:

ART 101, 102, 103 Studio Fundamentals: 6
  Drawing I, II, III
ART 141 Beginning Graphic Design 3
ART 142, 143, 144 Computer Art I, II, III 9
ART 181 Visions Seminar I 2
ART 191 Practicing Artists Seminar 3

**TOTAL SEMESTER HOURS** 23

Students pursuing this certificate will be advised by the Humanities Department.

**EMERGENCY MEDICAL TECHNOLOGY-PARAMEDIC**

**TECHNICAL CERTIFICATE OF CREDIT**

The Emergency Medical Services curriculum is designed to prepare graduates to perform patient assessments and render emergency care in the pre-hospital and hospital setting. First Responder students will learn basic life support skills necessary by a combination of classroom teaching with practice in laboratory sessions. Emergency Medical Technician (EMT) and EMT-Paramedic students will learn basic and advanced life support skills necessary by a combination of class lectures, laboratory training, clinical experience and the pre-hospital management of the ill or injured with local Ambulance Services.

As students progress through the curriculum, they become eligible to take licensure examinations for First Responder, EMT, EMT-IV, and EMT-P given by the State of Tennessee Department of Emergency Medical Services. All programs have limited enrollment.

The Paramedic Program is nationally accredited by the American Medical Association’s Joint Review Committee on EMT-Paramedic Educational Programs. All our Emergency Medical Care Programs are approved by the Tennessee Emergency Medical Services.

**Admission to the First Responder Class**

A prospective student seeking admission to the First Responder Class must complete the following procedures according to the State of Tennessee, Department of Emergency Medical Services and Roane State Community College guidelines.

1. Complete an Application for Admissions/Readmission and submit it to the Office of Admissions and Records, Roane State Community College, 276 Patton Lane, Harriman, TN 37748. Remember to include your $5 application fee which is a one-time fee. Do not send this fee with your program application. This fee is not necessary if you have previously attended RSCC.

2. Complete a program application specific to the First Responder Class. The program application must be returned to the Emergency Medical Services Department, 8373 Kingston Pike, Knoxville, TN 37919.

**Admission to the Basic Emergency Medical Technician-Basic Program**

A prospective student seeking admission to the Emergency Medical Technician program must complete the following procedures according to the State of Tennessee, Department of the Emergency Medical Services, and Roane State Community College guidelines.
1. Complete an Application for admission/readmission and submit it to the Center for New Student Admission, Roane State Community College, 276 Patton Lane, Harriman, TN 37748. Remember to include your $5 application fee which is a one-time fee. Do not send this fee with your EMS program application. This fee is not necessary if you have previously attended RSCC.

2. Complete a program application specific to the EMS program. The program application must be returned to the Department of Emergency Medical Services, 8373 Kingston Pike, Knoxville, TN 37919.

3. Applicants should have completed a course that includes one-person, two-person and infant and child CPR certification and submit a copy of certification with the program application. Call 539-6905 for information on CPR classes.

4. First Responder is recommended but not required for acceptance.

5. The program applications will be reviewed by the Department of Emergency Medical Services for approval of enrollment utilizing the following priority order:
   a. applicants employed full time by a primary licensed ambulance service
   b. applicants employed full or part time, no less than 12 hours per week, by an emergency agency (e.g. fire department, rescue squad)
   c. applicants volunteering with an emergency agency
   d. applicants employed with public safety organizations or hospitals
   e. licensed Tennessee First Responder or eligible
   f. applicants not belonging to any of the previous categories

6. All other documentation must be submitted to the Department of Emergency Medical Services. (See #2 for address)

Admission to the Emergency Medical Technician-Accelerated Program

A prospective student seeking admission to this program must complete the following procedures according to the State of Tennessee, Department of the Emergency Medical Services, and Roane State Community College guidelines.

1. Complete an application for admission/readmission and submit it to the Center for New Student Admission, Roane State Community College, 276 Patton Lane, Harriman, TN 37748. Remember to include your $5 application fee which is a one-time fee. Do not send this fee with your EMS program application. This fee is not necessary if you have previously attended RSCC.

2. Complete a program application specific to the EMS program. The program application must be returned to the Department of Emergency Medical Services, 8373 Kingston Pike, Knoxville, TN 37919.

3. Applicants should have completed a course that includes one-person, two-person, and infant and child CPR certification and submit a copy of certification with the program application. Call 539-6905 for information on CPR classes.

4. Applicants must be an RN, LPN or other Allied Health training approved by the EMS director, or a current Tennessee Certified First Responder or eligible.

5. The program applications will be reviewed by the Department of Emergency Medical Services for approval of enrollment utilizing the following priority order:
   a. applicants employed full time by a primary licensed ambulance service
   b. applicants employed full or part time, no less than 12 hours per week, by an emergency agency (e.g. fire department, rescue squad)
   c. applicants volunteering with an emergency agency
d. applicants employed with public safety organizations or hospitals  
e. licensed Tennessee First Responder or eligible  
f. applicants not belonging to any of the previous categories

6. All other documentation must be submitted to the Department of Emergency Medical Services. (See #2 for address)

Admission to the Emergency Medical Technician-Paramedic Program

A prospective student seeking admission to the Emergency Medical Technician-Paramedic Program must complete the following procedures according to the State of Tennessee, Department of Emergency Medical Services, and Roane State Community College guidelines.

1. Complete the “Application for Admission/Readmission” form and submit the application form, with $5.00, to the Center for New Student Admission.
2. Submit to the Emergency Medical Services Program Director the application specific to the Paramedic program.
3. Submit an official copy of high school transcript or GED certification to the Center for New Student Admission.
4. Submit official college transcripts to the Center for New Student Admission if previous college credit has been earned.
5. Be currently licensed as an Emergency Medical Technician. The applicant must submit a copy of a current EMT card to the Emergency Medical Services Program Director.
6. Applicants should have completed a course that includes one-person, two-person and infant & child CPR and submit a copy of certification to the Department of Emergency Medical Services.
7. Submit written evidence, on appropriate form, of a physical examination within the past six months showing the applicant is in good physical and mental health and that the applicant possesses no physical handicaps or disabilities which would impede the applicant’s ability to fulfill the functions and responsibilities of a paramedic as defined by the Tennessee EMS Board. The form must be returned to the Emergency Medical Services Program Director.
8. Successfully complete the Paramedic entrance examination. This exam will be administered by the Regional EMS consultant and conducted at Roane State. The exam must be taken each year. For dates and times, call 539-6905.
9. Applicant must take a psychological examination given by a licensed psychological examiner named by Roane State. The report must state emotional stability and psychological fitness to perform the duties of a paramedic. This report should be returned to the Emergency Medical Services Program Director. The exam must be taken within one year of interview date.
10. The screening process includes a personal interview with the EMT-Paramedic Admissions Committee. The applicant is rated by each committee member on appearance, motivation, maturity, knowledge of profession, EMS related experience, communication ability, and poise.
11. The individual must take the Academic Assessment Placement Program (AAPP) examination or an examination acceptable to the board to determine academic eligibility into the program unless he/she meets the requirements through ACT scores or accumulated college credits. For more information contact the Emergency Medical Services Program Director.
12. Scores are placed on interview, psychological exam, field experience, and paramedic entrance exam.
13. Evidence of current vaccinations or testing including Hepatitis B, TB testing (within three months), tetanus, and MMR after 1980, must be submitted prior to interview.
14. Final student selection is by the EMT Paramedic Admissions Committee.

Retention Policies
Students’ grades will be evaluated at the end of each semester. A student must maintain the following standards or he/she will be dismissed from his/her respective program:
1. A grade of "C" or better in each specialty course must be maintained.
2. Must adhere to the EMS Program attendance policy.

Students wishing to pursue an AAS in General Technology with emphasis in Emergency Medical Services, should consult with a Health Sciences advisor.

ENVIRONMENTAL HEALTH TECHNOLOGY CERTIFICATE OF CREDIT

The Environmental Health Technology certificate program is designed to prepare individuals with a strong background in mathematics and science to enter the environmental health field. Certificate options include Air Quality, Industrial Hygiene, Health Physics and Waste Management.

Applicants must complete an application for admission to the program and submit it to the RSOC Admissions Office. Final selection is made by the Environmental Health Admissions Committee. Individuals considering the program should contact an Environmental Health faculty advisor before submitting an application. Applicants with inadequate mathematics or science background will be required to take additional coursework in these areas prior to being admitted in the program.

MEDICAL TRANSCRIPTION
TECHNICAL CERTIFICATE OF CREDIT

The Medical Transcriptionist Program is a nine month certificate program. In addition to classroom lecture and transcription practice, two days a week are spent during the second semester in a health care facility affording the student valuable work experience in Medical Transcription. Graduates obtain employment in hospitals, clinics, doctor’s offices, and transcription services. Graduates are eligible to take the American Association for Medical Transcription certificate examination. MDT courses must be taken in sequence.

Admission Requirements
1. High school diploma or equivalent.
2. Recommend typing skills of 45 words per minute; typing/keyboarding skills are required.
3. Pass a high school level grammar, punctuation and spelling test.
4. Completed RSCC application and admission requirements for special student category.
5. Completed Health Sciences application.
6. Completed health form.
7. Be accepted by the Health Sciences Admissions Committee.

Retention Policies
Students’ grades will be evaluated at the end of each semester by the Health Sciences Admissions committee. A student must maintain the following standards or he/she will be dismissed from his/her respective program:
1. A grade of “C” or better in each specialty course.
2. Completion of specialty courses as specified by the degree checklist. A student must be able to complete courses with the class in which he/she was admitted. A student who cannot graduate with the class in which he/she was admitted will be dropped from that class and must re-apply to a subsequent class.
3. Evidence of malpractice insurance and physical examination must be provided prior to clinical training.

Readmission Procedures
1. A student may be considered for readmission to a Health Sciences Program if all of the following criteria are met:
   A. The applicant must complete an application for Health Sciences programs and submit to the Admissions and Records Office.
   B. Only one readmission to Health Sciences Program will be permitted.
   C. The applicant must interview with the program director of the specific program before the date of the review by the Admissions Committee for consideration for readmission. A student with previous unsatisfactory clinical performance must be recommended for readmission by consensus of the program faculty.
   D. A student must repeat the specialty course or courses for which he/she was dismissed and attain a “C” or better in the course.
   E. Readmission to a Health Sciences Program is contingent upon the availability of space.
2. Final selection of students will be made by the Health Sciences Admissions Committee.
MEDICAL TRANSCRIPTION
TECHNICAL CERTIFICATE OF CREDIT

**Fall Semester**
- MDT 102 Medical Terminology 3
- MDT 103 Anatomy Concepts in Medical Transcription 2
- MDT 104 Basic Medical Transcription 5

**Spring Semester**
- MDT 111 Advanced Medical Transcription 5
- MDT 112 Clinical Practicum 6
- MDT 113 Pharmacology Concepts in Medical Transcription 2

**Total Semester Hours** 23

PLEASE NOTE: Alternative scheduling is available for a limited number of students meeting special criteria. Please contact the program director for specific details. All Medical Transcription classes are held at the Oak Ridge campus.

Students pursuing this certificate will be advised by the Health Science Department.

OFFICE INFORMATION TECHNOLOGY
TECHNICAL CERTIFICATE OF CREDIT

This one-year program is designed for students interested in office positions. The program emphasizes the development of skills that build the foundation for an entry-level position.

**Fall Semester**
- EDU 100 Orientation to College 1
- CST 102 Computer Concepts & Applications 3
- OAD 101 Keyboarding/Formatting 3
- OAD 105 Business Communications I 3
- OAD 121 Word/Information Processing I 3
- BUS 111 Business Math 3

**Spring Semester**
- OAD 102 Document Processing 3
- OAD 122 Word/Information Processing II 3
- OAD 111 Machines 3
- OAD 132 Word Processing on the Microcomputer 3
- OAD 201 Administrative Office Management 3

**Total Semester Hours** 31

Students pursuing this option will be advised by the Business and Environmental Technologies Department.
PHLEBOTOMY
TECHNICAL CERTIFICATE OF CREDIT

The Phlebotomy certificate program is designed to train students within a 16 week period to work as phlebotomists. Graduates of this program will be eligible for employment in various health care settings including hospitals, clinics, physician offices, commercial blood bank facilities, home health care agencies. The program combines lectures, laboratories, and 120 hours of clinical training in a health care facility. On completion of this program, students will be eligible for certification by the American Society of Clinical Pathologists or National Certification Agency as phlebotomists.

Admission Requirements

1. High school diploma or equivalent.
2. Completed Health Science application form and requirements for special student category.
3. Completed RSCC application and requirements for special student category.
4. Interview by the phlebotomy program faculty.
5. Acceptance by the Health Science Admission Committee.

POLICE MANAGEMENT
TECHNICAL CERTIFICATE OF CREDIT

This program is designed to provide state-of-the-art education in the areas of procedural law and police management. The curriculum provides an opportunity for police supervisory personnel to receive training in a non-degree credit program. The Police Management certificate program is not designed to provide entry-level skills in police science. Students interested in a career preparation program should refer to page 131.

The following courses are required:

Students pursuing this certificate will be advised by the Social Science/Education/PE Department.
SECURITY MANAGEMENT
TECHNICAL CERTIFICATE OF CREDIT

This program is designed to meet the regional manpower needs for security inspectors and managers by providing currently employed security personnel with an opportunity to improve their knowledge of the field. The Security Management certificate program is not designed to provide entry-level skills in police science or security. Students interested in a career preparation program should refer to page 132.

Students pursuing this option will be advised by the Social Science/Education/PE Department.
WORKFORCE PREPAREDNESS
TECHNICAL CERTIFICATE OF CREDIT

Graduates of the Workforce Preparedness Certificate will have the basic knowledge and skills to enter the area workforce and assume responsible positions in the economy. Students will gain a basic understanding of the meaning or work, develop personal and occupational problem solving skills, and acquire adequate Workkeys skills to succeed in the work place. Students should leave the program with a greater understanding of not only the basic tenets of work skills and behaviors, but the economy and their position in it. Also, in consultation with an advisor, students can choose four technical courses in a designated option to create a technical specialty in a chosen field. These options are accounting, office administration, retailing, computer, teacher's aid/childcare, and gerontology.

Learn in your car, on your computer, in your home, in an interactive classroom ... and "just down the road" on the information superhighway.
COURSE DESCRIPTIONS
The courses are listed in the following format:
Dept., Course No., Title, Semester Hours
Brief description, & term in which it is normally taught.

F = Fall
Sp = Spring
Su = Summer

AIR QUALITY CONTROL

AQC 101 — Introduction to Air Quality ....................... 3 Credits
Introduces the student to the profession of Air Quality Control. Provides an overview of sources of airborne contaminants, federal and state clean air legislation, and air pollution abatement and remediation. F

AQC 201 — Environmental Toxicology ........................ 3 Credits
A study of the courses, sources, effects, and detection of environmental pollution. Special attention is given to the treatment, abatement, and remediation techniques. Sp

AQC 111 — Air Sampling and Instrumentation I ............... 3 Credits
Teaches the principles of operation and use of portable field instrumentation. Introduces the basic concepts of sampling techniques, data interpretation, and definition and characterization of various categories of air contamination. F

AQC 112 — Air Sampling and Instrumentation II ................ 3 Credits
Continuation of the concepts of AQC 111 (Air Sampling and Instrumentation I) with particular emphasis on identifying and quantifying air contaminants. Hands-on use of equipment in real-world situations is emphasized. (Prerequisite: AQC 111) Sp

AQC 242 — Internship ................................... 1-5 Credits
Work experience designed to familiarize students with application of air quality control principles while working on the job. Efforts will be made to place students in an area which supports their career goals. No student may enroll in an internship without the approval of the instructor.

ALLIED HEALTH

ALH 254 — Human Cross-Sectional Anatomy ................... 3 Credits
A study of the human body in a cross-sectional context. Emphasis will be placed on major anatomical features and radiologic landmarks. Students also explore soft tissue details as resolution allows. This course will serve to prepare students for conventional tomographic radiology, computer tomography, position emission tomography, magnetic resonance scanning and ultrasonography. Sp

3 hours lecture — demonstration exercises

ANIMAL SCIENCE

ASC 110 — Fundamentals of Horsemanship I .................... 1 Credit
This course introduces the student to proper riding, handling, mounting and dismounting. The emphasis of the course will be upon the care of the horses. May be substituted for a physical education elective. A special course fee may be required for this course. Please consult the Semester Class Schedule for specific fee information.

ASC 120 — Fundamentals of Horsemanship II .................... 1 Credit
This course is a continuation of ASC 110. May be substituted for a physical education elective. Prerequisite: ASC 110 or consent of instructor. A special course fee may be
required for this course. Please consult the Semester Class Schedule for specific fee information.

ASC 130 — Theory of Horsemanship .......................... 3 Credits
A discussion of the evolution, history, breeding and basic requirements in owning and caring for pleasure horses as a personal riding mount.

ASC 140 — Stable Management .............................. 3 Credits
Management of a teaching and training stable and the preparation of horses and riders for the show ring.

ART

ART 101 — Studio Fundamentals: Drawing ..................... 2 Credits
Development of observational skills and perception of reality. Fundamental aspects of drawing—line, tone, space, form, and composition. Primarily for art, architecture, interior design, and art education majors. Additional work may be required outside class. F 2 hours lecture — 2 hours laboratory

ART 102 — Studio Fundamentals: Two Dimensional Design ........ 2 Credits
Surface composition and color. Primarily for art, architecture, interior design, and art education majors. Additional work may be required outside class. Sp 2 hours lecture — 2 hours laboratory

ART 103 — Studio Fundamentals: Three Dimensional Design ....... 2 Credits
Projects dealing with real space and three dimensional materials. Primarily for art, architecture, art education, and interior design and housing majors. Additional work may be required outside class. F, Su 2 hours lecture — 2 hours laboratory

ART 104 — Introduction to Illustration .......................... 3 Credits
Illustration is a design-related career field dealing with the production of pictorial material accompanying and enhancing text through the rendering of scenes, objects and people. Illustration may also include producing maps, charts and diagrams. 2 hours lecture — 2 hours laboratory

ART 105 — Illustration II ................................... 3 Credits
A continuation of ART 104 with a more self-actualized course of instruction. 2 hours lecture — 2 hours laboratory

ART 111 — Drawing I: Survey of Drawing ...................... 3 Credits
Exploration and refinement of fundamental aspects of drawing with emphasis on composition, techniques, and concepts. A minimum of two hours drawing outside class is required. 2 hours lecture — 2 hours laboratory

ART 113 — Painting I: Introduction ............................. 3 Credits
An introduction to the techniques, materials, and tools of oil and acrylic painting. F, Sp 3 hours lecture — 3 hours laboratory

ART 114 — Painting II ......................................... 3 Credits
A continuation of ART 113 with an emphasis on individual experimentation. F, Sp 3 hours lecture — 3 hours laboratory

ART 121 — Art Appreciation ................................ 3 Credits
Form and meaning in the visual arts, lecture-discussion. Especially for non-majors. F, Sp

ART 131 — Photography I ...................................... 3 Credits
Introduction to the art of black and white photography. Field and studio shooting, history of photography, basic developing, and enlarging techniques. Some outside lab work will be necessary. F, Sp 3 hours lecture — 3 hours laboratory

</table>
ART 191 — Practicing Artists Seminar ..........................3 Credits  
Visiting artists who have achieved mastery in a wide variety of computer applications or 
areas of production such as graphic design, illustration, three dimensional modeling, 
animation and simulation will conduct each class. Sp

ART 201 — Survey of Art History I ............................3 Credits  
Survey of major monuments in Western art, with an emphasis on the art of Europe from 
prehistoric through the Middle Ages. F

ART 202 — Survey of Art History II ............................3 Credits  
Survey of major monuments in Western art, with an emphasis on Europe and America 
from 1400 to the present. Sp

ART 203 — Survey of Contemporary Art .....................3 Credits  
History of development of modern art from Impressionism through present day move­
ments. F

ART 211 — Watercolor I: Introduction .......................3 Credits  
Techniques, materials, and tools of transparent watercolor. A minimum of two hours 
painting outside class will be required. (Prerequisites 101, 102, 103 for art majors, none 
for non-art majors) Sp  
2 hours lecture — 2 hours laboratory

ART 212 — Watercolor II ................................... 3 Credits  
Further study of the techniques of transparent watercolor, with attention to individual 
exploration of surface, space, and concept. A minimum of two hours painting outside 
class will be required. Sp  
2 hours lecture — 2 hours laboratory

ART 221 — Portfolio Preparation ............................. 2 Credits  
Planning and execution of a body of cohesive work under the in-class supervision of an 
instructor. Slides of serious, contemporary art works will be presented and critiqued as 
examples of the desired level of portfolio work. Covers matting and presentation skills, 
logistics of exhibition, and critique of work.  
2 hours lecture

ASTRONOMY (See Physics)

BANKING

The BNK prefix will be used to offer various service courses to the banking 
industry. These courses will use the course descriptions furnished by the industry 
and credit will be granted based upon the recommendations of the American 
Council of Education (ACE). For more information contact the division head of 
Business and Economics.

BIOLOGY

For a student to receive credit for a biology course, the lecture section must 
be accompanied by a laboratory session during the same semester.

BIO 111 — General Biology I .................................4 Credits  
Biochemistry of cell function, plant and animal anatomy and physiology. F, Sp, Su  
3 hours lecture — 2 hours laboratory

BIO 112 — General Biology II ...............................4 Credits  
Plant and animal reproduction, genetics, evolution, ecology and behavior. BIO 111 rec­
ommended, but not required to be taken in sequence. F, Sp, Su  
3 hours lecture — 2 hours laboratory
BIO 113 — Introduction to Radiation Biology .................... 3 Credits
Introductory study of the structure and function of the human body with emphasis on basic concepts important to understanding the effects of radiation and other environmental considerations on various target body systems. (Prerequisite: BIO 111) Sp

BIO 201 — Environmental Science ........................................... 3 Credits
A course which takes an ecological approach in analyzing the impact of human activities upon natural systems. Attention is given to scientific resource management principles in such areas as forestry, wildlife, soils, and water. (This Course fulfills the 3 hour science requirement in various career education programs such as Business Management Technology and Office Administration. Course credit cannot be received for both BIO 201 and GGY 221.) F, Sp

BIO 211 — Field Biology ................................... 3 Credits
An elective field-oriented course covering fauna and flora identification, basic ecological principles, and outdoor skills. This course will generally be offered as a two week camping experience. A special fee will be assessed to cover equipment, food, and transportation.

BIO 212 — Cell Biology .................................... 4 Credits
Organization and function of the cell. (Prerequisites: BIO 111, 112, or the equivalent of 2 years of high school biology and CHE 121 and 122) F
3 hours lecture — 3 hours laboratory

BIO 213 — General Genetics ................................ 4 Credits
Classical and modern principles of heredity; laboratory experiments involving a variety of organisms. (Prerequisites: BIO 111-112, or the equivalent of 2 years of high school biology and satisfactory ACT scores, or consent of instructor; CHE 121-22 and BIO 111, 112 recommended) Sp
3 hours lecture — 3 hours laboratory

BIO 220 — Pathophysiology of Substance Abuse ................. 3 Credits
A survey of the disease concept of chemical dependency and how it leads to the dysfunction of the body’s systems.
3 hours lecture

BIO 221 — Pathophysiology ............................... 2 Credits
An introduction to the disease processes and mechanisms of the human body and to the dysfunction of the body’s systems.
2 hours lecture

BIO 222 — Microbiology ................................... 3 Credits
An introductory course in microbiology dealing with bacteria, fungi, yeast, and viruses to include discussions of cell structure, identification, taxonomy, metabolism, genetics, resistance, infection, disease, and immunity. (Prerequisite: BIO 111 or 231 or equivalent college level biology) F, Sp, Su
2 hour lecture — 2 hour laboratory

BIO 231 — Human Anatomy and Physiology I ................... 4 Credits
A study of basic biological chemistry, cellular structure and function (including cellular respiration protein synthesis and cell division), histology, and integumentary, skeletal and the nervous system. The laboratory will provide experiments to illustrate principles covered in lecture. Note: Students are to bring latex or rubber gloves to the 1st class session. F, Sp
3 hours lecture — 3 hours laboratory

BIO 232 — Human Anatomy and Physiology II ................... 4 Credits
A study of the anatomy and physiology of the muscular, circulatory and immune systems, respiratory, digestive, excretory, endocrine and reproductive systems. The laboratory will provide anatomical investigation of and physiological experimentation with these systems. (Prerequisite: BIO 231, Human Anatomy and Physiology I) Note: Students are to bring latex or rubber gloves to the 1st class session. Sp
3 hours lecture — 3 hours laboratory
BIO 253 — General Ecology ................................................. 4 Credits
Relations between organisms and their environments, including human environmental problems. (Prerequisites: BIO 111 or the equivalent of 2 years of high school biology and satisfactory ACT scores) F, SP
3 hours lecture — 2 hours laboratory/field work

BIO 254 — Human Cross-Sectional Anatomy ............................ 3 Credits
A study of the human body in a cross-sectional context. Emphasis will be placed on major anatomical features and radiologic landmarks. Students also explore soft tissue details as resolution allows. This course will serve to prepare students for conventional tomographic radiology, computer tomography, position emission tomography, magnetic resonance scanning and ultra-sonography. F
3 hours lecture — demonstration exercises

BIO 251-269 — Independent Scientific Investigation .............................. 2 Credits
Independent laboratory/library research in biology by qualified students under the supervision of a faculty member. Especially designed to develop interest in and to apply techniques of scientific research. Up to six (6) credit hours may be earned. (Prerequisite: Consent of the faculty member)

BUSINESS AND COMMERCE

BUS 101 — Introduction to Business ........................................... 3 Credits
Orientation course designed to give an overall view of business as a framework for further detailed study into accounting, data processing, marketing, management, etc. Included are vocational/career opportunities, business terminology, and the functions that are used in the business process. F, Sp, Su

BUS 111 — Business Mathematics ............................................. 3 Credits
A course dealing with mathematics as applied to business operations. Included are mathematics of trading, operating, finance, ownership and investment, and summary and analysis. F, Sp, Su

BUS 112 — Personal Finance ....................................................... 3 Credits
A course designed to aid the student in practical money management. Topics included are charting financial objectives; budgeting; consumer borrowing, renting, and buying; investing; employee benefits and taxation. F, Sp

BUS 201 — Principles of Real Estate I ............................................. 2 Credits
A fundamental real estate course covering the basic laws and principles of Tennessee Real Estate, giving understanding, background, and terminology necessary for advanced study in specialized courses. This course and BUS 206 satisfies the state commission of real estate’s prerequisite for Affiliate Broker’s license examination. (Corequisite: BUS 206) F, Sp

BUS 202 — Real Estate Law ......................................................... 2 Credits
A study of Tennessee Real Estate Law, including rights incident to property ownership and management, agency, contracts, and applications to real estate transfer, conveyances, probate proceedings, trust deeds, and foreclosure, as well as recent legislation governing real estate transactions. Applied toward educational requirement for affiliate brokers. Sp

BUS 203 — Real Estate Finance ..................................................... 2 Credits
Institutional and governmental funds for financing real estate transactions. Applied toward continuing education requirement for affiliate brokers. Sp

BUS 204 — Real Estate Appraisal .................................................. 2 Credits
Theories, functions, and purposes of appraisal to include the economic approach, the replacement approach and comparative values for all types of real estate. F

BUS 206 — Principles of Real Estate II .......................................... 2 Credits
A continuation of BUS 201. (Corequisite: BUS 201) F, Sp
BUS 208 — Real Estate for New Affiliates .......................... .2 Credits
Course topics include prospects for buying and selling, establishing and maintaining client/customer records, protocol with agents, the contract, and case study exercises.

BUS 209 — Office Brokerage Management .......................... .2 Credits
Examination of history of agency, agency in real estate, creating agency, problems, relationships, brokerage, listing agreements, termination, property management, pricing, contractual agreements, transfer of ownership, federal regulations, state regulations, duties owed others, regulated activities, and sanctions.

BUS 210 — Introduction to Quality Management .................... .3 Credits
This course covers the Deming Philosophy, his System of Profound Knowledge, global pressures, continuous improvement, quality tools, quality systems; and the cultural, organizational, socio-technical, and implementation requirements of Total Quality Management. This course utilizes a team-based approach to quality understanding and problem solving. F, Sp

BUS 211 — Resource Management ...................................... .3 Credits
Explains the theory, design, implementation, and maintenance of MRP and MRP II computerized manufacturing control systems; including bills of material, item master, and schedule files. This course will help in the preparation for certification by the American Production and Inventory Control Society. Elective credit only. F (odd years)

BUS 212 — Just-In-Time .................................................. .3 Credits
Explains the company-wide philosophy of "only the right parts, of the best quality, in the right place, at the time" through the elimination of waste and non-value added activities; includes the Kanban system of stockless production. This course will help in the preparation for certification by the American Production and Inventory Control Society. Elective credit only. F (even years)

BUS 213 — Attaining World Class Status .............................. .3 Credits
This course addresses the contemporary manufacturing strategies and techniques required for competitive success in the 21st century as a world class organization. Teams research and discuss the strategic and tactical applications of such topics as the quality perspective, quality engineering, concurrent design techniques, a responsive supplier network, the evolving role of supervision, and the empowered workforce. Sp (odd years)

BUS 214 — Kaizen, Continuous Improvement .......................... .3 Credits
Kaizen addresses the elimination of waste and non-value added activities to increase quality and productivity, while reducing costs. Commitment to and the pursuit of continuous, on-going improvement is critical to the success of a company-wide quality effort. Course also covers TQC, TEI, SPC, as well as problem solving techniques. Learning partners work in teams on a semester long continuous improvement project. F (odd years)

BUS 215 — Business Ethics ............................................... .3 Credits
A course concerned with the relationship between business goals and practices and the good of society. Of specific concern will be matters such as fair pay, safe working conditions, well-made products at fair prices and environmental issues. Elective credit only. F

BUS 217 — Developing a Quality System ............................ .3 Credits
This course uses the criteria of the Malcolm Baldrige National Quality Award as a framework for an integrated, organizational quality system. Each of the 7 criteria, 28 examination items, and 91 areas to address are examined in an application orientation. Learning partners participate as teams to assess an actual organization, determine criteria scoring, and make recommendations for improvement. F (even years)

BUS 221 — Principles of Accounting I .................................. .3 Credits
Basic principles and procedures in accounting relating to the complete accounting cycle for both service and merchandising companies owned as sole proprietorships and as corporations. Also, detailed analysis of assets and liabilities and owner's equity. F, Sp, Su
BUS 222 — Principles of Accounting II ............................. 3 Credits
Continues with corporate accounting and long-term liabilities, cash flow statement, and analysis of financial statements. Also, an emphasis on managerial and cost accounting for making sound business decisions. (Prerequisite: BUS 221; a grade of C or better is strongly recommended in BUS 221) F, Sp

BUS 224 — Cost Accounting ........................................ 3 Credits
Principles of manufacturing and distribution cost accounting. Material, labor, and overhead costs in job order and process cost accounting, budgeting analysis of cost distribution, standard costing, and related problems. (Prerequisite: BUS 222; a grade of C or better is strongly recommended in BUS 222) Sp

BUS 225 — Income Tax Accounting — Personal ................... 3 Credits
Federal income tax laws with emphasis on the preparation of returns for individuals. Both manual and computerized tax returns will be prepared. (Prerequisite: BUS 222 or permission of instructor; a grade of C or better is strongly recommended in BUS 222) F

BUS 226 — Income Tax Accounting — Business ..................... 3 Credits
Federal income tax laws with emphasis on the preparation of returns for business. Both manual and computerized tax returns will be prepared. (Prerequisite: BUS 225 or permission of instructor; a grade of C or better is strongly recommended in BUS 225) Sp

BUS 227 — Fund Accounting ..................................... 3 Credits
The theory and practice of a fund accounting system used by a not-for-profit entity. Emphasis is on the budget process, appropriations and revenue funds for governmental agencies, schools, charities, and not-for-profit medical facilities. (Prerequisite: BUS 222 or consent of instructor; a grade of C or better is strongly recommended in BUS 222) F

BUS 230 — Quality Management Seminar ............................ 1 to 5 Credits
Various perspectives in quality management examined. Topical material studied in course will be identified in appropriate class schedule. Sp (odd years)

BUS 231 — Intermediate Accounting I ............................... 3 Credits
Extensive analysis of the principal elements of accounting systems and statements with emphasis on the asset side of the balance sheet. (Prerequisite: BUS 222; a grade of C or better is strongly recommended in BUS 222) F

BUS 232 — Intermediate Accounting II .............................. 3 Credits
Extensive analysis of the principal elements of accounting systems and statements with emphasis on the liability and stockholder’s equity side of the balance sheet. (Prerequisite: BUS 231; a grade of C or better is strongly recommended in BUS 231) Sp

BUS 251 — Legal Environment for Business .......................... 3 Credits
Emphasis is placed on classification of laws, historical background of our systems of laws, duties, buying services, insurance, consumer protection, negotiable instruments, and business organization. F, Sp

BUS 252 — Business Law ............................................ 3 Credits
Designed to acquaint the student with the privileges and responsibilities of the individual under business law. Topics studied will include the uniform commercial code, contracts, sales, agency, partnerships, corporations, and negotiable instruments.

BUS 255 — Microcomputing Accounting Applications I ............ 3 Credits
A course designed to acquaint business management majors with common microcomputer applications in the field of accounting. (Prerequisites: BUS 221 and CST 102; a grade of C or better is strongly recommended in BUS 221) Sp

BUS 256 — Microcomputing Accounting Applications II ............ 3 Credits
A course designed to acquaint the student with commercial accounting software using the microcomputer for medium size companies. Includes tracking of receivables, payables, inventory, and financial statement preparation (Prerequisite: BUS 221 and CST 102; Bus 255 is strongly recommended; a grade of C or better is strongly recommended in BUS 221) F
BUS 261 — Psychological Aspects of Management ............... 3 Credits
This course applies psychological principles to business and other organizations concerned with effective management. Topics covered include leadership and supervision; communications and human relation skills; scientific and humanistic management and motivation skills, group dynamics and coping with change. F, Sp

BUS 262-270 — Business Seminar ........................................1 to 4 Credits
Exploration of specialized business interests. Topical material studied in course will be identified in the class schedule.

BUS 271 — Sales .......................................................... 3 Credits
A course emphasizing the relationship of product and market, industrial and consumer sales, methods of market analysis, sales and sales methods. F, Sp

BUS 272 — Retailing ...................................................... 3 Credits
A study of the principles and practices of retailing including planning, policies, and procedures of distribution. Sp

BUS 273 — Marketing .................................................... 3 Credits
A general but critical survey of the field of marketing, covering international industries and commerce, distribution of resources, factors of distribution and transportation, and the marketing functions. F, Sp

BUS 274 — Marketing Opportunity Analysis ....................... 3 Credits
The purpose of this course is to provide a link between theory and practice by evaluating current and future market conditions in order to identify marketing opportunities. This is accomplished by introducing the student to patterns and plans which integrate the major goals, policies, and action sequences of the organization into a cohesive whole, allocating its resources into a unique posture within the internal and external environmental conditions. Students will be able to devise a marketing plan which exploits the opportunity so identified. They will also be able to estimate the consequences of implementing this plan. (Elective credit only)

BUS 278 — Small Business Management ......................... 3 Credits
An introductory course designed to provide an overview of the business environment and requirements for successfully operating a small business. Topics covered include forms of business, credit management, utilizing professionals, information management, etc. Students must secure departmental approval to take this course. Sp

BUS 281, 282 — Management and Supervision I, II ............... 3 Credits
This two course sequence is designed to introduce the basic aspects of supervisory development, to include the functions of management, communication skills, interpersonal relations, motivation, morale, discipline, leadership training and evaluation, decision-making and self-development. BUS 281 F, Sp, Su; BUS 282 Sp

BUS 284 — Management Seminar ..................................... 3 Credits
Consideration of current problems, issues, and developments in the area of management. Students are guided through individual projects and outside research related to their area of concentration and employment training. Sp

BUS 285 — Strategic Management .................................... 3 Credits
This course is designed for students who have entered or will be entering fields requiring skills in virtually every area of management including marketing, operations, accounting, and financial, ethical, political, and quantitative dimensions. Each dimension will be addressed in lectures, classroom discussions, and class presentations. The primary purpose of the course is to introduce the student to patterns and plans which integrate the major goals, policies, and action sequences of an organization into a cohesive whole, allocating its resources into a unique and viable posture within the framework of internal and external environmental alterations, anticipated and unanticipated changes, and contingent moves by intelligent opponents. (Elective credit only)

BUS 290 — Basic Statistical Process Control ....................... 3 Credits
This course covers basic statistics, control chart construction and interpretation, variation identification and reduction, and how SPC fits into the Total Quality Management
system. Project teams apply SPC techniques in organizations to identify and reduce process variation, select appropriate control charts, and perform capability studies. Sp (even years)

**BUS 292 — Contemporary Leadership I** .......................... 3 Credits  
Course covers human resource management in areas of leadership, interpersonal and formal communication, and team building examining shared leadership, leadership effectiveness, empowerment, trust, rewards, risks, ethics, role modeling, interpersonal communication, listening, self-presentation, interviewing, motivation, team building, problem solving, goal setting, communication, pressure, and other areas. (Elective credit only) Offered as required.

**BUS 293 — Contemporary Leadership II** .......................... 3 Credits  
Course covers leadership, competition, conflict resolution and negotiation examining the impact of leadership on self-esteem, the importance of performance appraisals, organizational effectiveness and development, healthy and destructive competition, resolving conflict, mediation techniques, and negotiating techniques and tactics. Elective credit only. Offered as required.

**BUS 294 — Customer Service Excellence** .......................... 3 Credits  
Presents methods and techniques for measuring customer satisfaction. Topical materials covered include use of customer expectations for goal setting, customer driven management techniques, creating employee ownership of the customer service process, exceeding customer expectations, and establishing continuous customer feedback and immediate resolution of complaints. Elective credit only. Offered as required.

**CARDIOVASCULAR INTERVENTIONAL TECHNOLOGY**

**CIT 101 — Procedures I** .......................... 3 Credits  
This course covers an overview of anatomy and physiology, practical applications of interventional procedures, vascular correlations, and surgical intervention for specific disease processes.  
3 hours lecture

**CIT 110 — Procedures II** .................................. 3 Credits  
This course covers theory and practice of physiological monitoring, emergency care, and pharmacology.  
3 hours lecture

**CIT 120 — Procedures III** .................................. 3 Credits  
An overview of patient care and legal considerations, equipment and instrumentations, image quality and control, sterile techniques and isolation procedures.  
3 hours lecture

**CIT 150 — CIT Review** .................................. 3 Credits  
This course provides the Radiologic Technologist with CIT experience, an extensive review to sit for the ARRT examination in Cardiovascular Interventional Technology.  
3 hours lecture

**CHEMISTRY**

To receive credit for a chemistry course, the lecture section must be accompanied by a laboratory session during the same semester.

**CHE 100 — Fundamentals of Chemistry** .......................... 4 Credits  
This course is designed for students desiring to enter a science, engineering or pre-med (veterinarian, pharmacy, etc.) program but who have had no high school chemistry or are not recent high school graduates. The emphasis will be on the fundamental concepts of chemistry, nomenclature, equation writing, simple stoichiometric calculations, bonding, gas laws and property of solutions. (NOTE: This course cannot be used to fulfill a natural/physical science requirement where a sequence is indicated. It can be used if a
sequence is not required.) (Prerequisite: 2 years of high school algebra or DSM 082 - Intermediate Algebra) F, Su
3 hours lecture — 3 hours laboratory

**CHE 101 — Introduction to Chemical Principles**
Introductory chemistry dealing with the basic principles such as atomic structure, periodic law, states of matter, chemical bonding, types of compounds, gas laws, solutions, acids and bases, equilibrium. (Prerequisite: 2 years of high school algebra and 1 year high school chemistry or 2 years of high school algebra and CHE 100) F
3 hours lecture — 3 hours laboratory

**CHE 102 — Basic Organic and Biochemistry**
Aliphatic, aromatic, and heterocyclic organic chemistry with emphasis on structure, nomenclature, and functional groups. Introductory biochemistry concerning lipids, carbohydrates, proteins, and nucleic acids. (Prerequisite: CHE 101) Sp
3 hours lecture — 3 hours laboratory

**CHE 121 — General Chemistry I**
A study of fundamental principles of chemistry, such as mathematical calculations of chemical relationships, atomic structure, periodic relationships, molecular structure, bonding, and the chemistry of oxygen, hydrogen, and water, Kinetic Molecular Theory, physical states of matter, solution chemistry. (Prerequisite: 2 years of high school algebra and 1 year high school chemistry or 2 years of high school algebra and CHE 100) F, Sp
3 hours lecture — 3 hours laboratory

**CHE 122 — General Chemistry II**
Electrolytes, oxidation-reduction, electrochemistry, molecular and ionic equilibria, nuclear chemistry, and brief survey of organic chemistry. (Prerequisite: CHE 121) Sp, Su
3 hours lecture — 3 hours laboratory

**CHE 202 — Quantitative Analysis**
The study of the basic theories of quantitative analysis, with stress on the theories of neutralization, precipitation, volumetric, and gravimetric analysis. (Prerequisite: CHE 122) Sp, on demand
3 hours lecture — 6 hours laboratory

**CHE 211 — Qualitative Analysis**
Theory and practice of qualitative analysis, chemical equilibrium and solubility product. Laboratory practice in the identification of the major cations and anions. (Prerequisites: CHE 121, 122)
3 hours lecture — 3 hours laboratory

**CHE 221 — Organic Chemistry I**
A study of the properties, preparations, reactions, and spectroscopy of aliphatic and aromatic compounds, including reaction mechanisms and the relationship between structure and reactivity. (Prerequisite: CHE 122) F
3 hours lecture — 3 hours laboratory

**CHE 222 — Organic Chemistry II**
A continuation of CHE 221, covering carbanion condensations, heterocyclics, fats, carbohydrates, amino acids, and proteins. (Prerequisite: CHE 221) Sp
3 hours lecture — 3 hours laboratory

**CHE 235 — Chemistry of the Radioisotopes**
Introduction to the theory of nuclear stability and nuclear decay processes. Detection, safe handling and use of radioisotopes will also be studied. (Prerequisite: CHE 122) Sp
3 hours lecture

**CHE 240 — Internship-Environmental Chemistry**
This work experience is designed to familiarize students with applications of environmental chemistry. Efforts will be made to place students in an area which supports their career goals. (A minimum of 300 contact hours are required.) No student may enroll in an internship unless the approval of the instructor is granted. Offered as needed.
CHE 242 — Internship-Analytical Chemistry ..........................5 Credits
This work experience is designed to familiarize students with applications of analytical chemistry. Efforts will be made to place students in an area which supports their career goals. (A minimum of 300 contact hours are required.) No student may enroll in an internship unless approval of the instructor is granted. Offered as needed.

CHE 231-259 — Independent Scientific Investigation .................3 Credits
Independent laboratory/library research in chemistry by qualified students under the supervision of a faculty member. Especially designed to develop interest and to apply techniques of scientific research. Up to six credit hours may be earned. (Prerequisite: Consent of the faculty member)

CHILD SUPPORT ENFORCEMENT

LES 1010 — Introduction to Child Support Law ..........................3 Credits
This course will give the student an overview of domestic law in Tennessee with an emphasis placed upon those aspects of the law which pertain to child support establishment and enforcement. Upon completion of the course, the student will have been exposed to legal actions and forms used in the establishment and enforcement of child support.

LES 105 — Introduction to Title IV-D of the Social Security Act ........3 Credits
This course will introduce the student to federal and state law requirements for the administration of the Title IV-D Office. Upon completion of the course, the student will understand why and how Title IV-D offices exist and requirements for their management and administration. The student will understand the relationship of the IV-D program to other human service programs, such as Aid to Families with Dependent Children, JOBS, and Medicaid. The student will understand basic rights of the custodian of a child and noncustodial parent to the child support services and benefits provided by federal and state government.

LES 110 — Introduction to Casework ........................................3 Credits
This course will introduce the student to the inner workings of the child support office and to basic clerical skills. Upon completion of the course, the student will have been introduced to and will have practiced telephone skills, filing skills, copier skills, the diary and tickler system, interpersonal relationships with other child support personnel and will have an initial “walk-through” of a typical child support file from beginning to end. The student will learn about the importance of independent work habits, will be introduced to resource materials for the Title IV-D office (state and local manuals), will learn the hierarchy of employees and management in a Title IV-D Office. This course will prepare the student to enter the workplace in the second semester internship and will be designed to equip the student with practical skills for use in that internship.

LES 120 — In-Depth Study of a Child Support Action ...................3 Credits
This course will provide a detailed study of procedures utilized in the Title IV-D Office in the administration of required services. An intense examination of specific legal actions and the individual steps necessary from start to finish of a typical child support case will be accomplished by each student. Upon completion of the course, along with the companion TCSES course, the student will be acclimated to the Title IV-D Office and will be prepared to begin working basic child support files.

LES 130 — Internship in a Title IV-D Office Review
and Modification Procedures ...........................................3 Credits
This course will allow the student to apply basic clerical skills and knowledge of child support law and Title IV-D policies and procedures in the actual child support office setting. The student will spend weekly time in the child support office actually working cases needing evaluation for review and modification requirements of Title IV-D of the Social Security Administration Act. The student will have an opportunity to practice a broad spectrum of child support caseworker duties.
LES 140 — Tennessee Child Support Enforcement System ........ 3 Credits
This course will allow the student to apply the knowledge of case management that was obtained in previous child support courses through the interaction with the state mainframe. Upon completion of the course, the student will have not only the knowledge of how to access and use the state mainframe but also understand how the system will interact in the daily operations of the Child Support Enforcement Office.

COMPUTER SCIENCE TECHNOLOGY

To receive credit for CST 201, 211, and 261 the lecture section must be accompanied by a laboratory section during the same semester. Students selecting the Computer Science Option may expect programming or lab assignments requiring 9 or more hours of computer use per week.

CST 102 — Computer Concepts & Applications ....................... 3 Credits
An introductory course including fundamental computer concepts, terminology, and applications. Included in this course is a basic familiarization with a microcomputer, an operating system, and the more popular microcomputer application such as word processing, spreadsheets, and others. F, S, SU

CST 103 — Computer Presentations .......................... 3 Credits
An introductory course in the use of presentation software such as Powerpoint and Harvard Graphics. Preparation of graphs, charts, slides, and transparencies is included. Students are required to make oral and written presentations with the use of presentation software. (Prerequisite: CST 102) F, Sp

CST 105 — Database Management ........................... 3 Credits
Database system design, implementation, querying and application development in a microcomputer environment. SQL techniques are included. Course integrates the database functions of spreadsheets and spreadsheet macros during the coverage of database system applications. (Prerequisite: CST 102) F, Sp

CST 113 — Introduction to Programming I ......................... 4 Credits
An introductory course using the C programming language. Topics include C syntax, top-down program development, predefined C functions, user-defined functions, repetition statements, arithmetic operators and operator precedence and associativity, variable declarations and assignment statements, C data types including pointer variables, passing, storing and using addresses, relational and logical operators, decision statements, and arrays. Good program documentation is emphasized. (Prerequisite: reading and math requirements have been completed in Academic Development. Students completing the Computer Science Option in the A.A.S. Business Management Technology Program must take CST 102 as a corequisite with CST 113 or have Computer Science advisor’s approval.) F, Sp

CST 114 — Introduction to Programming Using FORTRAN ......... 4 Credits
Problem solving and algorithm development, introduction to programming using FORTRAN. Organization and characteristics of modern digital computers. Devices, software packages, tools. Emphasis on developing good programming habits. Sp

CST 131 — Microcomputer Applications in Business .............. 3 Credits
An intermediate course covering the use of Windows, spreadsheet, and database on the microcomputer. (Students attending this class are expected to have working familiarity with computer hardware and have an operational knowledge of the Windows environment. CST 102) As required.

CST 135 — Introduction to Spreadsheets .......................... 3 Credits
Designed to introduce students to fundamental operations of a spreadsheet including formula development, graphics, data base management, and design. Course will expose students to windows based spreadsheet such as Excel. F, Sp
CST 140 — Beginning Windows ........................................1 Credit
An orientation to Windows. Course provides an introduction to hardware and Windows concepts and terminology. Students are given an overview of Windows features and its basic accessories. Lab activities introduce use of mouse, clicking, dragging, selecting, help, groups, format, copy, drive specifications, the Control Panel to customize Windows features, and print functions.

CST 141 — Intermediate Windows ..................................1 Credit
Major features of Windows are explored including object linking and embedding. Course covers extended use of File Manager, Accessories, such as Write, Paintbrush Notepad, Calendar, Object Package, and Cardfile, and customization of program groups and start up features of Windows. (Prerequisite: CST 140 or Computer Science Advisor's Approval)

CST 144 — Beginning DOS ......................................1 Credit
Fundamental concepts of the DOS operating system are covered. Command models and DOS syntax, file management commands, and directories are discussed and used in lab.

CST 145 — Intermediate DOS ....................................1 Credit
Covers directory management commands, Autoexec.Bat, Config.Sys, Vsafe, Chkdsk, Doubling disk size, Memmaker, Undelete, Xcopy, and other specialized functions in the latest versions of DOS. (Prerequisite: CST 144 or Computer Science Advisor's Approval)

CST 146 — Beginning Spreadsheet Applications for Windows ....1 Credit
Exposes students to Excel for Windows. Course covers the fundamental strategies in the Spreadsheet Application Development Cycle while introducing the basic features of the Windows based spreadsheet. (Prerequisite: CST 140 or CST 102 or Computer Science Advisor's Approval)

CST 147 — Intermediate Spreadsheet Applications for Windows ......1 Credit
An in-depth examination of such topics as functions, graphics, and database are explored using Excel for Windows. Principles of good spreadsheet design is emphasized. (Prerequisite: CST 146 or Computer Science Advisor's Approval)

CST 148 — Advanced Spreadsheet Applications for Windows ......1 Credit
Advanced features of Excel are introduced covering such topics as object linking, scenarios, and macros. (Prerequisites: CST 146, CST 147 or Computer Science Advisor's Approval)

CST 149 — Beginning Word Processing Applications for Windows ....1 Credit
Students are exposed to the fundamental features of Microsoft Word's menu bar and tool bar while creating and editing documents. (Prerequisite: Adequate keyboarding and computing skills. OAD 100 and CST 140 or CST 102 recommended)

CST 150 — Intermediate Word Processing Applications for Windows ....1 Credit
Covers document formatting in depth, use of graphics, object linking, and embedding. (Prerequisite: CST 149 or Computer Science Advisor's Approval)

CST 153 — Beginning Desktop Publishing for Windows .............1 Credit
Principles of good design and layout are introduced as students integrate text and graphics to create a brochure, flyer, and newsletter in a Windows environment. 1 Credit Hour (Prerequisites: Adequate keyboarding and computing skills. OAD 100 and CST 102 or CST 140 recommended)

CST 155 — Beginning Database Applications for Windows .............1 Credit
Fundamental concepts are integrated with hands on exercises to introduce students to the commands and query features of a database applications package for the Windows environment. (Prerequisites: Adequate keyboarding and computing skills. OAD 100 and CST 102 or CST 140 recommended)

CST 156 — Beginning Internet ......................................3 Credits
Introduces students to services and information featured in Internet. Gopher, FTP, Netscape, and Telnet are explored. (Prerequisite: Adequate keyboarding and computing skills. OAD 100 and CST 102 or CST 140 recommended) F, Sp
CST 157 — Beginning Network Management ............... 1 Credit
Designed to introduce students to network systems management concepts common in such network environments as Novell's Netware and Microsoft's Windows for Workgroups. (Prerequisites: Adequate keyboarding and computing skills. CST 100 and CST 102 or CST 140 recommended.)

CST 158 — Seminar on Applications in the DOS Environment ....... 3 Credits
Instructor will select an application from the popular DOS software packages in an area such as word processing, database, finance, or spreadsheets and introduce fundamental through advanced concepts and uses of the program. The specific software used in class will be indicated in the course title when it is placed in the class schedule. (Prerequisites: Adequate keyboarding and computing skills. CST 100 and CST 144 recommended or Computer Science Advisor's Approval.)

CST 159 — Seminar on Applications in the Windows Environment ... 1-4 Credits
An introductory course on the fundamental concepts, commands and uses of a Windows based application package. This class explores one of many different applications in the Windows environment such as financial planning, time scheduling, stock market analysis, presentation graphics, etc. The specific software package used in class will be indicated in the course title when it is placed in the class schedule. (Prerequisites: Adequate keyboarding and computing skills. CST 100 and CST 102 or CST 140 recommended or Computer Science Advisor's Approval.)

CST 160 — Preparation for On-line Courses at RSCC .............. 1 Credit
Covers the prerequisites for using a modem and the VAX to transmit and receive class materials during a student's enrollment in an on-line/modem course. Students learn how to use the hardware and software required to participate in the class. Instruction is given for setting up a modem protocol package, how to dial into the RSCC computer, and how to use RSCC's electronic mail, conferencing, and word processing to communicate to the class and instructor. (Requisites: To be taken one time concurrently with first time enrollment to any modem course or the semester prior to enrollment in the modem course.) F, S

CST 201 — Data Structures .................................. 3 Credits
Structured programming, data structures and applications, I/O techniques, lists, queries, trees, tables, streams, algorithms, files. (Prerequisites: CST 113, Introduction to Programming I)
2 hours lecture — 3 hours laboratory

CST 203 — Principles of Programming II ....................... 3 Credits
A continuation of Introduction to Programming I and the C Language. Course content includes coverage of data types such as pointers, arrays, linked lists, strings, constructed types, arrays of arrays, arrays of pointers, and other characteristics of data structures. Students are also exposed to an object oriented programming language. (Prerequisites: CST 113) Sp

CST 205 — Data Communications .............................. 3 Credits
Principles of communications including the selection and use of modems, communications software, script development, terminal emulation, networking, electronic mail, and use of the Internet. (Prerequisite: CST 102 or Computer Science Advisor's Approval) F, Sp

CST 207 — Microcomputer Hardware .......................... 2 Credits
Maintenance and configuration of microcomputers including installation of disk drives, CD drives, tape drives, memory, NICs, power supplies, sound cards, power supplies, UPS, and other hardware. IRQ and DMA settings and conflicts are included as is the use of diagnostic software. Good preventative maintenance practices are emphasized. (Prerequisite: CST 102 or Computer Science Advisor's Approval) F, Sp

CST 209 — GUI Programming I .................................. 3 Credits
Programming for the Graphical User Interface (GUI) including the use of Visual BASIC, Visual C, and C++. Designed to introduce the student to the features of an object oriented programming language. Students design and create object illustrating properties such as encapsulation, inheritance, and polymorphism. The language or languages included will be determined by the instructor as needed. (Prerequisite: CST 203 or Computer Science Advisor's Approval) F
CST 210 — GUI Programming II and Applications Development ..... 4 Credits
Integrates theoretical and practical approaches to real-world problems using object-oriented programming techniques in windowed operating systems. This course builds on the C, Visual BASIC, and Windows API work of the prerequisites, continuing students' understanding of GUI principles and techniques. The use of C++ and a commercial class library is contrasted with other modern GUI languages and development systems such as HTML, VBScript, and Java, to be determined by the instructor. (Prerequisite: CST 209)

CST 211 — COBOL ........................................ 3 Credits
Computer programming in COBOL. File handling, disk data sets. (Prerequisite: CST 102 or CST 113 or consent of instructor)
2 hours lecture — 3 hours laboratory

CST 212 — Advanced Microcomputer Applications ............... 3 Credits
Exposure to a wide variety of applications software and programming techniques beyond those covered in CST 105 Database Management and 209 GUI Programming I. (Prerequisite: CST 105, CST 209 or Computer Science Advisor’s approval) Sp

CST 215 — Operating Systems ................................ 3 Credits
In depth experience on the operations of DOS, Unix, VMS, and Local Area Networking. Students learn to apply, navigate through, and use operating system commands and directory structures. (Prerequisite: CST 102, CST 113, and CST 205 or Computer Science Advisor's Approval) Sp

CST 217 — Data and File Management ............................ 2 Credits
Topics covered include basic familiarization with file types and conversions, backup, disaster recovery, and EDP audit. (Prerequisite: CST 209) Sp

CST 221-229 — Seminar in Computer Applications ................ 1-4 Credits
Covers special topics in computer applications. Check with your academic advisor for courses offered each semester.

CST 231 — RPG Programming .................................. 3 Credits
RPG Programming (Report Program Generator) is a problem-oriented language for maintaining and manipulating files and generating reports. This course will provide exercises with problems directed at various applications in a business system.

CST 241 — Systems Analysis .................................... 3 Credits
Fundamentals of systems analysis. The role of the systems analyst in the life-cycle of computer-based business systems. Tools and techniques of systems analysis. Case studies dealing with system study, design, development, and operation.

CST 261 — Computer Organization .............................. 3 Credits
Number systems, internal representation of numbers in computers, hardware components, hardware organization, introduction to assembly language, microprogramming control units. Computing with register machines, introduction to digital circuits. (Prerequisite: CST 113)
2 hours lecture — 3 hours laboratory

COMPUTER TOMOGRAPHY

CTR 101 — Computer Tomography ............................... 3 Credits
This course is designed to prepare the Radiologic Technologist with CT experience to take the advanced level examination in Computerized Tomography administered by the American Registry of Radiologic Technologists.
3 hours lecture

COOPERATIVE EDUCATION

COE 101 — Cooperative Education I ............................ 3 Credits
COE 102 — Cooperative Education II ........................... 3 Credits
COE 201 — Cooperative Education III ......................... 3 Credits
COE 202 — Cooperative Education IV .......................... 3 Credits
A sequence of experiential learning that takes place in real employment situations. The student must be approved by the Placement Coordinator, the academic division of the student's major or area that is being explored, and the employer for full-time or part-time paid employment in industry, business or government. A minimum of ten (10) hours of actual work experience per week throughout the appropriate semester is required to receive credit. The work experience will be jointly evaluated by the Placement Coordinator and the employer. For further information contact the Placement Coordinator in the Counseling and Career Resource Center.

CORRECTIONS
COR 101 — Introduction to Corrections ........................ 3 Credits
This includes the history of criminal corrections in the United States; analysis of the crime problem; identification of the correctional client; correctional methods used in the United States; and emphasis on correctional goals in the criminal justice system. Sp

COR 111 — Juvenile Delinquency ............................ 3 Credits
A study of new attempts geared toward the rebellious youthful offenders in the areas of treatment, experimentation, innovative programs, and theories of causation. F, Su

COR 112 — Emerging Rights of Prisoners .................... 3 Credits
An attempt to systematically identify and analyze the practical implications of recent court decisions affecting civil rights and due process for prisoners. Sp

COR 201 — Correctional Administration and Supervision ........ 3 Credits
A study of the organizational structure, training techniques, cultural developments, and administrative concepts of incarceration. Special emphasis will be placed upon supervision, responsibility, authority, and accountability in the operation of penal institutions. F

COR 202 — Treatment in Corrections .......................... 3 Credits
A study of various methods used in counseling to include principles and techniques for both group and individual therapy. A variety of therapies will be discussed including behavior modifications, guided group interaction, transactional analysis, and reality therapy. Sp

COR 211 — Practicum in Corrections .......................... 3 Credits
The placement of a student in correctional institution or detention facility to observe and participate in its operation. Participation will include activity in all functions required to operate a correctional institution. Attention will be given to the implementation of state-of-the-art techniques in traditional incarceration problem areas. Sp

DENTAL HYGIENE
NOTE: All DHT courses must be taken in appropriate sequence, as listed in the degree checklist. Admission to the Dental Hygiene Technology program is required prior to taking any DHT courses.

DHT 101 — Preclinical Dental Hygiene ......................... 5 Credits
This course introduces the student to basic concepts and techniques of performing oral health services. The student will demonstrate knowledge and skill of learned techniques in a supervised preclinical setting. F
3 hours lecture — 8 hours laboratory/week

DHT 111 — Dental Science I ................................. 3 Credits
This course covers topics in tooth morphology; head, neck and oral anatomy; oral embryology and oral histology; oral and basic pathology; periodontology. F
3 hours lecture/week

DHT 112 — Dental Science II ................................. 3 Credits
This course is a continuation of Dental Science I. Sp
3 hours lecture/week
DHT 121 — Clinical Dental Hygiene I ...........................................2 Credits
Supervised clinical practice of previously learned dental hygiene techniques. S
120 total hours of clinic

DHT 132 — Dental Radiography .........................................................3 Credits
This course covers topics in the theory, practice and interpretation of radiography. Safety concerns will be addressed. Students will demonstrate proficiency in the use of dental radiography equipment. Sp
2 hours lecture — 2 hours laboratory/week

DHT 133 — General and Oral Pathology .............................................4 Credits
This course covers general pathological concepts and a study of oral pathology. Su
7 1/2 hours lecture/week

DHT 141 — Principles of Dental Hygiene I ...........................................3 Credits
This course is a continuation of the concepts and techniques outlines in DHT 101. Sp
3 hours lecture/week

DHT 161 — Biochemistry and Nutrition .............................................3 Credits
This course presents the basic principles of the biochemistry of nutrition and the application of these principles to clinical Dental Hygiene. (Prerequisite: CHE 101) Sp

DHT 171 — Dental Materials ...........................................................3 Credits
This course investigates the characteristics, physical properties, manipulation, uses and care of materials used in dentistry. Su
4 hours lecture — 6 hours laboratory/week

DHT 201 — Pharmacology and Pain Control .......................................3 Credits
This course includes the study of drugs used in dentistry and pain control measures used in dentistry. F
3 hours lecture/week

DHT 211 — Dental Hygiene Seminar ..................................................2 Credits
This course covers topics of professionalism for the dental hygienist including legal aspects of practice, ethics and dental office practices. Sp
2 hours lecture/week

DHT 212 — Community Health .........................................................3 Credits
This course covers concepts of public community health and includes field experiences in a variety of community health settings. Sp
2 hours lecture — 3 hours laboratory/week

DHT 221 — Clinical Dental Hygiene II ..............................................3 Credits
Continuation of the supervised clinical practice of previously learned dental hygiene techniques. F
180 total hours of clinic

DHT 222 — Clinical Dental Hygiene III ..............................................3 Credits
Continuation of the supervised clinical practice of previously learned dental hygiene techniques. Sp
180 total hours of clinic

DHT 241 — Principles of Dental Hygiene II .......................................1 Credit
This course is a continuation of DHT 141. F
1 lecture hour/week

DHT 242 — Principles of Dental Hygiene III .......................................1 Credit
This course is a continuation of DHT 241. Sp
1 lecture hour/week

DHT 251 — Periodontology ............................................................1 Credit
This course presents advanced concepts in the treatment of periodontal disease. F
1 lecture hour/week
DEVELOPMENTAL STUDIES

NOTE: Courses in this program cannot be used to satisfy the minimum number of hours required for graduation. Evidence of competencies in these areas is prerequisite for college courses numbered 100 or above.

DSE 080 — Effective Writing ......................................................... 3 Credits
This course will emphasize journal writing, vocabulary enrichment, critical thinking, and integrated writing skills. F, Sp, Su

DSM 081 — Elementary Algebra .................................................... 5 Credits
This course is designed to provide students basic algebraic skills on a pre-college level. Satisfactory completion of this course or other evidence of competencies in these areas is a prerequisite for DSM 082 Intermediate Algebra. F, Sp, Su

DSM 082 — Intermediate Algebra .................................................... 5 Credits
This course is designed to provide students advanced algebraic skills on a pre-college level. Satisfactory completion of this course or other evidence of competencies in these areas is a prerequisite for appropriate college level mathematics courses. F, Sp, Su

DSE 083 — Writing Fundamentals .................................................. 3 Credits
This course is designed to develop writing skills with special emphasis on paragraph patterns and short essays. (Prerequisite or Corequisite: DSE 080) F, Sp, Su

DSR 085 — Developmental Reading .................................................. 3 Credits
This course provides individualized instruction for the improvement of college reading skills with special emphasis on assessment and remediation. F, Sp, Su

DSR 086 — Critical Reading ............................................................. 3 Credits
This course is designed to develop college-level reading competence through lecture, discussion, and small-group instruction. Primary focus is given to the development of inferential and critical reading ability. (Prerequisite or Corequisite: DSR 085) F, Sp, Su

DSS 089 — College Success Strategies ............................................. 2 Credits
This course reviews the speaking, listening, and study skills techniques which will facilitate successful participation in college courses. F, Sp, Su

ECONOMICS

ECO 201 — Principles of Economics I ............................................. 3 Credits

ECO 202 — Principles of Economics II .............................................. 3 Credits
A continuation of economics with the special emphasis on microeconomics. An introduction to individual demand. Production planning and the related effect upon market structures, resource allocation, and income distribution; e.g., wages, rent, interest, and profits. Sp

EDUCATION

EDU 100 — Orientation to College ................................................. 1 Credit
Valuable information to promote the student’s success in college. Includes registration and advisement procedures; financial aid; counseling and other student services; study habits; and other topics that should contribute to student success. (It is advised that EDU 100 be taken concurrently with ENG 101) F, Sp

EDU 101 — Introduction to the Teaching Profession ........................... 2 Credits
Survey of the roles and responsibilities in the teaching profession and of current educational issues, practices, and problems. Information on employment opportunities, legal issues, and changing social expectations of educational institutions. F
EDU 111 — Introduction to Educating Exceptional Children ........ 2 Credits
Examination of categories of exceptionality (mental retardation, giftedness, deafness, blindness, emotional disturbance, orthopedic impairment, etc). Brief review of educational strategies used with particular problems. Site visits to acquaint the student with services, settings, and teacher roles.

EDU 121 — Introduction to Early Childhood Education ............. 3 Credits
Societal factors involved in the development of early childhood education, historical perspectives, major theories and application of theories, establishing appropriate educational environments, and related issues.

EDU 210 — Human Development ..................................... 3 Credits
Comprehensive overview of human physical, psychological, and social development from prenatal to late adolescent development. F, Sp

EDU 211 — Educational Psychology ............................... 3 Credits
Focus on making classroom education more effective by applying specific principles from the following areas of psychology: development, learning, motivation, evaluation, individual differences, and adjustment. Cross-listed as PSY 211. Sp

EDU 220 — Creative Activities for Young Children ............... 3 Credits
Planning and executing appropriate developmental activities for young children in a wide range of curriculum areas.

EDU 221, 222 — Trends and Issues in Education I, II .............. 3 Credits
In-depth analysis of a particular topic, concern, or problem in education.

EDU 230 — Administration of Early Childhood Education Programs ............ 3 Credits
Administrative and managerial procedures relevant to the operation of early childhood education programs.

EDU 231 — Field Experiences I ..................................... 2 Credits
EDU 232 — Field Experiences II ................................... 2 Credits
A cooperative classroom experience for the student and local school systems. Student exposure to duties, responsibilities, and requirements of the teaching profession. (Prerequisite: EDU 101 or permission of instructor) F, Sp

EMERGENCY MEDICAL TECHNOLOGY-PARAMEDIC

EMT 102 — Emergency Medical Technician Basic-Part I ............ 5 Credits
(EMT Basic Part I)
Covers all emergency medical techniques currently considered to be within the responsibilities of the basic EMT providing emergency care with an ambulance service. Areas to be included are cardiopulmonary resuscitation, splinting, bandaging, medical emergencies, and childbirth. Also covered are the functions of the Emergency Medical Services, the legal aspects, emergency driving techniques, and medical ethics. This class meets for a total of 75 hours — 30 hours are lab. (Prerequisites: Students must have approval of the program director to obtain admission to this course, a CPR card and an EMS application filed with the Program Director.) Class size is limited. F
Combination lecture/lab (5 hours/week)

EMT 106 — Emergency Medical Technician Basic-Part II ............ 6 Credits
(EMT Basic Part II)
A continuation of the training course for the basic EMT. Upon successful completion the student will have satisfied one of the eligibility criteria for taking the Basic EMT licensure examination given by the Tennessee Department of Health and Environment, Division of Emergency Medical Services. This class meets for a total of 90 hours — 30 hours are lab. (Prerequisite: EMT 102) S
Combination lecture/lab (5 hours/week) 2 hours clinical
EMT 107 — Vehicle Extrication and Rescue .......................... 3 Credits
This course covers all aspects of vehicle rescue, crash rescue and extrication. The course also deals with, and stresses personal safety during extrication operations. Facts on late model car structure and extrication methods and patient protection will be emphasized. Successful completion of this course allows the student to sit for the certification examination given by the Tennessee Association of Rescue Squads. (Prerequisite: EMT 101) F
3 hours lecture

EMT 108 — Emergency Medical Dispatcher (EMD) ...................... 6 Credits
This course covers all aspects of the Emergency Medical Dispatch curriculum, maintaining D.O.T. standards. The course covers CPR, First Aid, Basic Telecommunication skills, and Basic EMD skills. Successful completion of this course certifies the student as a EMD, recognized by the D.O.T. (no prerequisites) F
6 hours lecture

EMT 109 — First Responder ............................................. 4 Credits
This initial training course in the art of pre-hospital emergency medical care follows the guidelines set by the Department of Transportation (D.O.T.). Successful completion enables the student to sit for licensure examination given by the Department of Health and Environment, Division of Emergency Medical Services. First Responders are individuals trained to assess patients, provide emergency care, and when necessary, move patients without causing injury. This class is 60 hours long — 16 hours are lab. (Prerequisites: Students must have approval of the program director to obtain admission to this course, and an EMT Program application filed with the EMS Program Director.) Class size limited. F, Sp, Su

EMT 110 — Intravenous Therapy for EMT’s ........................... 4 Credits
This course studies fluids and electrolytes in the body with emphasis placed upon the manifestation of fluid and electrolyte imbalances. The manifestations of dehydration and overhydration are included. The course also deals with the causes, signs, and symptoms of shock, fluid administration through intravenous techniques and the application of medical anti-shock trousers (MAST). Successful completion of this course allows the student to sit for certification examination given by Department of Health and Environment, Division of Emergency Medical Services. This class meets for a total of 60 hours — 9 hours are lab. (Prerequisites: Students must hold current Tennessee licensure as an EMT or be licensure eligible. Students must have an EMS application filed with the EMT Program Director.) F, Sp
Combination lecture/lab (4 hours/week)

EMT 114 — Cave Rescue .................................................. 4 Credits
This course is designed to familiarize rescue and EMS personnel with the proper techniques for negotiating entrance and in-cave pits. Students will learn how to select and assemble their personal vertical and horizontal caving equipment, rig, rappel and ascend drops in a safe manner.

EMT 115 — Advanced Cardiac Life Support - ACLS .................... 1 Credit
An introduction to common medical emergencies encountered by pre-hospital care providers. Emphasis is on the recognition and management of emergencies relating to the respiratory and cardiovascular systems. Students must show proficiency in EKG recognition and the advance treatment of the patients in cardiopulmonary arrest. Upon successful completion of this course, students will be ACLS trained by the American Heart Association. This course is available to EMTs, paramedics, nurses, respiratory therapists, and physicians.

EMT 116 — Basic Trauma Life Support - BTLS .......................... 1 Credit
A study of the assessment and treatment of victims suffering traumatic injury. Emphasis is on airway maintenance with cervical spine immobilization and currently accepted treatments for life threatening injuries related to the cardiopulmonary, musculo-skeletal, gastro-intestinal, and nervous systems. Upon successful completion of the BTLS course, students will receive certification by the Tennessee Chapter of the American College of
the Emergency Physicians. This course is available to EMTs, paramedics, nurses, respiratory therapists, and physicians.

**EMT 117 — Pediatric Advanced Life Support - PALS**
1 Credit
A study of medical and trauma emergencies as related to pediatric patients. Emphasis is on the assessment and treatment of children by the health care provider in a pre-hospital setting. Diseases commonly associated with children such as epiglottis, croup, asthma, and febrile seizures are discussed. The specific areas of obstetrical emergencies and neonate care are included. Upon completion of the PALS course, students will receive certification by the American Heart Association. This course is available to EMTs, paramedics, nurses, respiratory therapists and physicians.

**EMT 118 — Pre-Hospital Trauma Life Support - PHTLS**
1 Credit
A study of the assessment and treatment of victims suffering traumatic injury. Emphasis is on airway maintenance with cervical spine immobilization and currently accepted treatments for life threatening injuries related to the cardio-pulmonary, musculo-skeletal, gastro-intestinal, and nervous systems. Upon successful completion to the PHTLS course, students will receive certification by the American College of Surgeons. This course is available to EMTs, paramedics, nurses, respiratory therapists, and physicians.

**EMT 130 — Tactical Medical Operations**
4 Credits
Special operations including ballistics, weapons orientation, medical threat assessment, evidence assessment and patient care, care under fire, hostage survival, physical assessment during sensory deprivation, situation expedient extraction, and physical fitness. Team operations will be emphasized. F.

3 hours lecture — 3 hours laboratory

**EMT 135 — Advanced Rope Rescue**
4 Credits
Types of rope, knots, harnesses/slings, anchors, ascending and descending techniques, lowering and raising, rigging, packaging victims, victim evacuation, and equipment familiarity will be covered. This knowledge will be blended with patient care considerations for the uniqueness of the environment in which the rescue operations occur. F, Sp

3 hours lecture — 3 hours laboratory

**EMT 147 — Wilderness EMS**
4 Credits
This course provides the licensed EMT with the medical knowledge and skills to complement their existing level of training in wilderness areas. Areas covered include patient assessment, prolonged transport, medical rescue equipment, trauma, environmental medicine, backcountry medicine and wilderness rescue training. (Prerequisite: First Responder, EMT, EMT-IV, paramedic, LPN, RN, or physician)

3 hours lecture — 3 hours laboratory

**EMT 151 — Emergency Medical Technician (accelerated)**
11 Credits
An accelerated Basic Emergency Medical Technician course. Parts I and II (EMT 102 and 106), combined into one semester. Upon successful completion the student will have satisfied one of the eligibility criteria for taking the Basic EMT licensure examination given by the Tennessee Department of Health and Environment, Division of Emergency Medical Services. This class is 157 hours long — 70 hours are lab. (Prerequisites: Certification as a First Responder and an EMS Program application filed with the EMS Program Director.) Class size is limited. F, Sp

Combination lecture/lab (10 hours/week) — 2 hours clinical

**EMT 155 — EMT Bridge Program**
1 Credit
This course covers all aspects of the required Tennessee EMS update curriculum. This curriculum is required for all currently licensed EMTs and EMT-IV's in the state of Tennessee during their re-licensure period. The curriculum content includes AED, Epi-Auto injector, Albuterol treatment and Combi-tube training. (Prerequisite: EMT, EMT-IV)

1 hour lecture

**EMT 211 — Paramedic I**
13 Credits
First of a 3 part series to prepare the student for Paramedic Certificate. Topics include paramedic role and responsibilities, EMS system, medical/legal consideration, EMS communications, medical terminology, general patient assessment, airway and ventilation,
pathophysiology of shock, general pharmacology, major incident response and stress management. (Prerequisite: PRIOR admission to the Paramedic Program; Corequisite: EMT 221) F

8 hours lecture — 6 hours laboratory

EMT 212 — Paramedic II .................................................. 13 Credits
Second of a 3 part series to prepare the student for Paramedic licensure. Topics include trauma, burns, respiratory care, cardiovascular care, endocrine emergencies, neurological emergencies, acute abdominal distress, anaphylaxis, toxicology, alcoholism, drug abuse, infectious disease, environmental injuries, geriatrics, pediatrics, behavioral emergencies, OB/GYN and neonatal care. (Prerequisite: EMT 211; Corequisite: EMT 222) Sp

8 hours lecture — 6 hours laboratory

EMT 216 — Paramedic III .................................................. 4 Credits
Third of a 3 part series to prepare the student for Paramedic Certification. Topics include rescue, and certification in the following: ACLS, BTLS, PALS. (Prerequisite: EMT 212; Corequisite: EMT 223) Su

2 hours lecture — 6 hours laboratory

EMT 217 — Comprehensive Advanced Cardiac Life Support ......... 3 Credits
An introduction to common cardiac emergencies encountered by pre-hospital care providers. Emphasis is on the recognition and management of emergencies relating to the respiratory and cardiovascular systems. This course covers interpretation of EKG rhythm strips, identifying and recognizing acute injury, ischemia infarct on 12-lead EKG, interpretation of ABG’s. Upon successful completion of this course, students will be ACLS trained by the American Heart Association. This course is available to EMTs, paramedics, nurses, respiratory therapists, and physicians.

3 hours lecture

EMT 221 — Clinic I .......................................................... 3 Credits
Clinical experience in area hospitals and ambulance services. (Corequisite: EMT 211) F

135 Clinical Hours

EMT 222 — Clinic II .......................................................... 3 Credits
Clinical experience in area hospitals and ambulance services. Continuation of EMT 221. (Corequisite: EMT 212) Sp

135 Clinical Hours

EMT 223 — Clinic III .......................................................... 4 Credits
Clinical experience in area hospitals and ambulance services. Emphasis will be upon making patient care decisions and directing patient care in the pre-hospital setting, within the scope of training. (Corequisite: EMT 216) Su

180 Clinical Hours

EMT 300 — Dysrhythmia Recognition & Treatment ................. 3 Credits
Designed for nurses, paramedics, physicians, or other interested persons who need to be able to identify and treat most common dysrhythmia. Topics include anatomy and physiology of the heart, all major common dysrhythmia, medications, and other forms of treatment. 12-Lead interpretation will also be included. May be helpful preparation for the advanced cardiac life support (ACLS) course. F

3 hours lecture

ENGINEERING CORE

ERG 101 — Elementary Mechanics ................................. 3 Credits
Statics of particles and rigid bodies, resultants of force systems, vector algebra, equilibrium, friction, centers of gravity, centroids, and moments of inertia. (To be taken by special certificate students only) (Prerequisite: MAT 110 - Algebraic 0016 Reasoning)

ERG 161 — Fundamentals of Engineering Graphics I ............... 3 Credits
Technical sketching, geometries construction with emphasis on plane surface analysis: presentation of engineering data; graphical solution of three dimensional space problems:
primary and secondary auxiliary views. Application of computer-aided Design and Drafting (CADD) in solving engineering problems. Three two-hour periods or two three-hour periods, including one hour of lecture per week.

**ERG 162 — Fundamentals of Engineering Graphics II** ............. 3 Credits
Continuation of Fundamentals of Engineering Graphics I with emphasis on CAD applications in three dimensional drawing, working drawings, assemblies and details, CAD component evaluation and use. Selected problems from the engineering sciences utilizing special drawing techniques on electronic mediums. Offered as needed.

**ERG 211 — AutoCAD I** ........................................ 3 Credits
The utilization of microcomputers in the design and drafting process using AutoCAD. The selection of CAD component, the command and syntax structure, basic drawing and editing techniques, two-dimensional and three-dimensional drawing techniques. Two three-hour periods or three two-hour periods, including two hours lecture per week.

**ERG 212 — AutoCAD II** ........................................ 3 Credits
CAD systems management, customization and productivity techniques, introduction to AutoLISP, data file exchange solid modeling, advanced 3-D drawing techniques. Two three-hour periods or three two-hour periods, including two hours lecture per week.

**ERG 221 — Surveying I** .......................................... 4 Credits
Introduction to surveying, chaining and pacing, direct and profile leveling, measurements of angles, transit-tape-traversing, traverse analysis, calculation of areas, adjustment of instruments. (Corequisite: MAT 111 - Algebraic Reasoning)

**ERG 241-249 — Independent Engineering Investigation** ............ 3 Credits
Independent research and development in engineering by qualified students under the supervision of a faculty member. Intended to develop interest and skill in the techniques of engineering research and development. Transfers as elective credit only. (Consent of the faculty member is required.)

**ENGINEERING SCIENCE**

**ESC 111 — Survey of Engineering** ............................. 1 Credit
Overview of the required skills, types of jobs, and specialty areas in engineering. An overview of the goals, objectives, methods, and ethics of the engineering profession in all the major engineering disciplines is presented.

**ESC 112 — Computer Aided Engineering** .......................... 3 Credits
Introduction to computers in engineering using structured programming in BASIC, Visual BASIC, and C to create solutions to typical engineering applications. Applications of computer packages such as engineering spread sheets, graphics, and word processors will be included.

**ESC 121 — Mechanics I: Statics** ................................. 3 Credits
Vectors, forces and moments; equivalent force systems, free body diagrams, equilibrium, frames, trusses and friction. (Corequisite: MAT 141)

**ESC 131 — Mechanics II: Particle Dynamics** .......................... 3 Credits
Kinematics, simple harmonic motion; kinetics, Newton's laws, work-energy, impulse-momentum; impact. (Prerequisite: ESC 121. Corequisite: MAT 142)

**ESC 201 — Numerical Techniques** ................................. 2 Credits
Use of FORTRAN in the development of algorithms for roots of equations, systems of linear equations, curve fitting, numerical integration, simulation and solution of ordinary differential equations. (Prerequisites: ESC 112, 211; MAT 142)

**ESC 202 — Introduction to Materials Science and Engineering** .... 3 Credits
Correlation of atomic structure, crystal structure and microstructure of solids with mechanical, physical and chemical properties of engineering significance. (Prerequisite: CHE 121)
ESC 205 — Rigid Body Dynamics .............................................. 3 Credits
Kinematics of rigid bodies; center of mass; kinetics of systems of particle; mass moments of inertia; kinetics of rigid bodies; Newton's laws, work-energy, impulse-momentum. (Prerequisite: ESC 131, MAT 142)

ESC 211 — Statics ............................................................. 3 Credits
Statics of particles and rigid bodies, resultants of force systems, static equilibrium, friction, moments, and application to trusses. (Prerequisites: MAT 141, Calculus I; Corequisites: PHY 211, Physics I)

ESC 212 — Dynamics .......................................................... 3 Credits
Dynamics of particles and rigid bodies, kinematics, kinetics, Newton's laws, work and energy, and impulse and momentum. (Prerequisite: ESC 211 - Statics)

ENGLISH

ENG 101 — Composition I .................................................. 3 Credits
Composition I is designed to develop proficiency in essays based on several rhetorical modes of writing, such as narrative (personal experience) and expository (informative) essays. The majority of the essays are applicable to major fields of study and societal issues. Research paper required.

ENG 102 — Composition II .................................................. 3 Credits
Writing based on literature and library research. Interpretation and analysis of fiction, drama, poetry, and the novel. (Prerequisite: ENG 101)

ENG 201 — World Literature I .............................................. 3 Credits
Survey of world literature from the ancient world to the Renaissance. Includes sections from the Bible, Greek and Roman classics, Dante, Chaucer, Cervantes, Shakespeare, and Milton. (Prerequisite: ENG 102)

ENG 202 — World Literature II ............................................. 3 Credits
Survey of world literature from the Renaissance through the Modern period. Includes selections from Moliere, Voltaire, Swift, the Romantic Poets, Flaubert, Dostoevsky, Tolstoy, Ibsen, and contemporary world authors. (Prerequisite: ENG 102)

ENG 203 — Appalachian Literature ....................................... 3 Credits
An introduction to the literature of the Southern Appalachian Mountains through the reading of past and present works. Emphasis is placed on how outsiders view the area, how the mountaineers view themselves and how both views have and are changing. An understanding and appreciation of the area should be gained. Cross-listed as HUM 291.

ENG 211 — American Literature I ......................................... 3 Credits
Survey of American literature from the Colonial Period to the Civil War. Includes such authors as Poe, Hawthorne, Thoreau, and Whitman. (Prerequisite: ENG 102)

ENG 212 — American Literature II ......................................... 3 Credits
Survey of American literature from the Civil War through the Modern period. Includes such authors as Twain, Frost, Eliot, and Faulkner. (Prerequisite: ENG 102)

ENG 213 — Introduction to Poetry ......................................... 3 Credits
Poetry as a distinct genre of artistic expression. Critical analysis of poems with a writing emphasis.

ENG 223, 224, 225 — Seminar in Creative Writing .......................... 3 Credits
Theory and practice of the creation of poetry and prose by the analysis of models and student manuscripts in a workshop setting.

ENG 231 — Technical Writing ................................................ 3 Credits
An intensive study in the principles of exposition and practice in writing letters, technical reports, outlines, abstracts, and a research paper related to the student's field of specialization. (Prerequisite: ENG 101)

HONORS: Composition II and World Literature I and II are offered in an Honors format. Admission to Honors classes is by permission.
ENVIRONMENTAL HEALTH

EHT 111 — Environmental Instrumentation I ............................ 3 Credits
Provides training in evaluation of hazards present in the industrial and waste management areas. OSHA standards are presented. (Prerequisite: MAT 110) F

EHT 201 — Environmental and Occupational Law and Regulations  .... 3 Credits
Survey of federal and state regulations relating to waste management, occupational health, air and water pollution, environmental management, and radiological safety. Sp

EHT 205 — Directed Case Study ........................................... 3 Credits
This course is designed to give the student an in-depth study of a particular topic in one of the Environmental Health Technology disciplines (Health Physics, Industrial Hygiene, Waste Management or Air Quality Control.)

EHT 211 — Safety and Emergency Response ............................ 3 Credits
Review federal, state, and local emergency response guidelines, evaluate simulated emergency situations, and recommend appropriate response procedures. Sp

EHT 222 — Environmental Instrumentation II .......................... 3 Credits
Provides training in techniques designed to evaluate contaminants in water, wastewater, sludge, soil and air. (Prerequisite: CHE 121) Sp

FRENCH

FRE 101 — Beginning French I ........................................... 3 Credits
Elementary grammar, pronunciation, and conversation through textbooks supplemented by audio cassettes, filmstrips, computer programs, and videotapes. (No prerequisite)

FRE 102 — Beginning French II ........................................... 3 Credits
Continuation of Beginning French I. (Prerequisite: FRE 101)

FRE 201 — Intermediate French I .......................................... 3 Credits
Advanced grammar and conversation through use of textbooks supplemented by audio cassettes, filmstrips, computer programs, videotapes, and selected readings. (Prerequisite: FRE 102)

FRE 202 — Intermediate French II ........................................ 3 Credits
Continuation of Intermediate French I. (Prerequisite: FRE 201)

GEOGRAPHY

Geography is a subject which in its broadest sense studies the earth-atmosphere system and human activities therein. As such, geography provides an unusual blend of social science and natural science. Prospective students should note that the 3-credit-hour courses in geography generally are classified as social science credits. The 4-credit-hour sequence (GGY 101, 102, Geography of the Natural Environment I, II) fulfills the natural/physical science requirements in most liberal arts programs.

GGY 101 — Geography of the Natural Environment I .................. 4 Credits
A study of the processes which govern atmospheric activity and of the characteristics of world climatic patterns. Subjects of interest include storms, oceanic influences, climatic change, and analysis of weather maps. Special attention is given to human interaction with the climatic environment.

3 hours lecture — 3 hours laboratory

GGY 102 — Geography of the Natural Environment II ................. 4 Credits
An investigation of the earth as a system comprised of landforms, soils, vegetation, and animals, each interacting with climate to create a world pattern of environments of importance to humankind.

3 hours lecture — 3 hours laboratory
GGY 201 — World Geography I ...........................................3 Credits
A study of the major organizing concepts and their applications in the different subfields of human geography, including regional analysis, population, political, cultural, urban, and economic geography. Special attention is given to analysis of current world problems and issues. As needed.

GGY 202 — World Geography II ...........................................3 Credits
Selected world regions, especially those with problems or situations of contemporary interest, are used to illustrate geographical concepts, points of view, and techniques of analysis.

GGY 205 — Physical Geography ...........................................3 Credits
A study of the global earth, the tools of the discipline, the atmosphere, the hydrosphere and the biosphere.

GGY 211 — Environmental Science ...........................................3 Credits
A course which takes an ecological approach in analyzing the impact of human activities upon natural systems. Attention is given to scientific resource management principles in such areas as forestry, wildlife, soils, and water. (This course fulfills the 3 hours science requirement in various career education programs such as Business Management Technology and Office Administration. Course credit cannot be received for both BIO 201 and GGY 211.)

GGY 221 — Introduction to Economic Geography .......................3 Credits
A study of location and spatial organization of the world's major types of economics, including agriculture, energy and mineral production, manufacturing, transportation, trade, and services.

GEOLOGY

The geology sequence offers students an additional branch of science which will fulfill natural/physical science curriculum requirements. Geology provides a perspective about the earth that may be very helpful in numerous other fields of study including archaeology, anthropology, forestry, soil science, biology, and engineering. The courses listed below do not have to be taken in sequence, and there are no prerequisites.

GEO 161 — General Geology I ...........................................4 Credits
An introduction to the physical processes acting within and upon the Earth's surface to create its many different features. Topics of interest include identification of minerals and rocks, plate tectonics, mountain building, volcanoes, stream activity, glaciation and regional land-form development. F

3 hours lecture — 3 hours laboratory

GEO 162 — General Geology II ...........................................4 Credits
The study of the Earth's physical and biological history as interpreted from the rock and fossil record. Topics include an introduction to fossils, evolution and ancient environments, stratigraphy, and a review of earth history. S

3 hours lecture — 3 hours laboratory

GEOGRAPHIC INFORMATION SYSTEMS

GIT 101 — Introduction to Geographic Information Systems Technology ...........................................3 Credits
An introductory course dealing with the basics of using computerized map information in science, education, social science, and business applications. Students will learn to organize their own projects using Windows or Macintosh based mapping software, local data, and a variety of geographic information technologies and tools. Business, education, and social science applications emphasize demographic data while scientific
applications emphasize environmental and facility management issues. (Prerequisite: Working knowledge of Windows or Macintosh based PC systems) F

3 hours lecture — exercise

GIT 105 — Cartography and Digital Image Analysis ................. 3 Credits
An introduction to the properties, uses, symbology design and computer production of maps. Covers the use of maps, aerial photographs and satellite imaging in geographical analysis. (Corequisite: GIT 101)

GIT 110 — Geographic Database Technology ......................... 3 Credits
Geographic Information Systems (GIS) need access to a great variety of data to be of any value for decision making. This introductory course will cover major aspects of capturing, manipulating, and using geographic and related data. Topics include hierarchical vs. flat-file databases, data tables, geographic objects and attributes, relational databases, geographic data organization, data conversions, import-export, and data quality assessment. The student will learn to construct queries using SQL and query-by-example tools to answer simple and more complex problems. Data used includes TIGER/Line, DLG/DEM. DWG and ASCII. Database software used includes FoxPro, Access, MapInfo, ArcView, Intergraph, and Maptitude plus various conversion software.

3 hours lecture — exercise

GIT 210 — Imaging and Global Positioning Technology ............. 3 Credits
Using Global Positioning System (GPS) technology, this course will introduce topics of data capture (including scanning), editing, registration and rectification to provide an image for the extraction of geographic data such as property boundaries, streets, streams and structures. Uses of GPS in this course are to provide reference points for registering and rectification of images, verifying and correcting map data as well as creating real-time maps with the use of laptop computers. (Prerequisites: GIT 101 and GIT 110 or with consent of the instructor)

GIT 220 — GIT Demographic Applications .......................... 3 Credits
The student will focus on developing a coherent framework for using the vast quantities of data made available by government and other sources along with his/her own data. The student will explore multiple views of a single issue or set of information by looking for new possibilities. (Prerequisites: GIT 101 and GIT 110)

GIT 230 — GIT Map/Envir/Util & Loc Govt Ap ....................... 3 Credits
The student will focus on developing a coherent framework for using the vast quantities of data made available by government and other sources along with his/her own data. The student will explore multiple views of a single issue or set of information by looking for new possibilities. Learning outcomes include gaining and enhancing the ability to effectively match data and task appropriately and to identify appropriate types and sources of information needed to solve a problem. (Prerequisites: GIT 101 and GIT 110)

GIT 290 — Directed Research Project ............................... 3 Credits
This capstone course will consolidate the student's learning experiences in geographic information systems technology. Students will develop and complete an original, comprehensive project that encompasses geographic and computer mapping fundamentals learned in previous courses. (Prerequisite: Permission of the instructor)

GERMAN

GRN 101 — German I ........................................... 3 Credits
Essentials of German, developing listening and reading comprehension, speaking and writing. (No prerequisite)

GRN 102 — German II ........................................ 3 Credits
Continuation of Beginning German I. (Prerequisite: GRN 101)

GRN 201 — Intermediate German I .............................. 3 Credits
Review of German grammar and a continuation of the approach used in GRN 101 and 102. Selected readings. (Prerequisite: GRN 102)
GRN 202 — Intermediate German II .......................... 3 Credits
Continuation of Intermediate GRN 201. (Prerequisite: GRN 201)

GERONTOLOGY

GER 201 — Behavior Problems of the Institutionalized
and the Cognitively Impaired Client .......................... 3 Credits
Addresses how to observe, understand and respond to the elderly client in a long-term
care facility. Discusses communication techniques, behavioral problems, confusion,
depression and agitation. May be used for elective credit only. F

GER 202 — Physical Assessment ............................... 3 Credits
Explores physical changes associated with normal aging and the specific needs that
accompany these changes. Discusses skills needed for assessment of the changes and
pharmacological management of them. Additional discussions focus on laboratory values
and their implications. May be used for elective credit only. F

GER 203 — Toward Healthy Aging .............................. 3 Credits
Addresses the many factors of healthy aging, including activity, self esteem, nutrition,
sexuality, spirituality and cultural diversity. May be used for elective credit only. F

GER 204 — Nutrition and Nutritional Assessments ............... 3 Credits
Describes risk factors associated with poor nutritional status and outlines nutritional status
screening, malnutrition-related problems, and interventions related to nutrition and the
elderly. May be used for elective credit only. S

GER 205 — Chronic Illness ........................................ 3 Credits
Identifies factors of chronic illnesses, preventive measures, and interventions for maxi­
mum functioning for daily living. May be used for elective credit only. S

GER 206 — Psychological Aspects of Aging ......................... 3 Credits
Addresses the psychological components common in aging adults, including depression,
grief, loneliness, isolation and suicide. Discusses cognitive dysfunction, organic prob­
lems, and common intervention strategies such as group therapy, peer support, and psy­
chotropic medications. May be used for elective credit only. S

HEALTH

HEA 221 — Safety, First Aid and CPR ............................ 3 Credits
This course will provide the knowledge and skills necessary to sustain life, reduce pain
and minimize the consequences of illness or injury until medical help arrives. Upon
satisfactory course completion, students will receive American Red Cross Responding
To Emergencies and Community CPR course completion certificates.

HEA 223 — Safety in the Workplace ............................. 1 Credit
This course will provide an overview of chemical, biological, physical and ergonomic
stresses in the workplace. Hazard recognition, evaluation, and control are also pre­
sented. Employee rights to a safe workplace are discussed.

HEA 241 — School Health ........................................ 2 Credits
This course for prospective teachers is designed to investigate current school health
issues. This course will include health instruction, health services and healthful school
environment.

HEA 242 — Stress Management ................................... 2 Credits
This course will introduce the student to a variety of stress management techniques
which include self-care, visual imagery, proper breathing and progressive relaxation. (Does
not fulfill PED activity requirement.)
HEALTH SCIENCE

ALH 201 — Aging and Health .......................................................3 Credits
The emphasis for this course will be on ways to promote health and optimal functioning. This course will examine the myths associated with ageism, some of the theories of aging, normal body changes that are associated with aging, medication use, chronic and acute illnesses, mental health, nutrition, the roles of physical activity and sexuality, and grief, loss and death. This is a course that will not only be useful to nursing students, but for those who are preparing for any health related area, as well as social work, psychology, or any service related field.

HEALTH PHYSICS TECHNOLOGY

HPT 111 — General Health Physics I .................................................3 Credits
Reviews mathematics and introduces the basic concepts of atomic and nuclear structure, radioactive decay, ionizing radiation, and biological effects of ionizing radiation. (Prerequisite: 2 years of high school algebra; Corequisite: MAT 110) F
3 hours lecture

HPT 112 — General Health Physics II .................................................3 Credits
Covers internal and external dosimetry, shielding, radiation detection, and environmental monitoring. (Prerequisite: HPT 111; Corequisite: MAT 119) Sp
3 hours lecture

HPT 121 — Instrumentation and Measurement I ........................................3 Credits
Teaches the principles of operation and the use of portable radiation survey instruments, counting room instrumentation including GM and proportional counters, and liquid scintillation. Introduces gamma ray spectroscopy. (Corequisites: HPT 112 and MAT 119) Sp
3 hours lecture — 3 hours laboratory

HPT 201 — Applied Radiological Control Technology ...............................3 Credits
Study of the core academic knowledge and skills required of entry level radiation control technicians. Includes applying skills in mathematics, algebra, physical sciences and life sciences to the control of occupational exposure of workers to ionizing radiation. Topics include radiation mathematics, physical sciences, nuclear physics, sources of radiation, biological effects of radiation, radiological protection, exposure control, and radiation detector theory and operation. (Enroll by permission of instructor.) Elective credit only.
3 hours lecture

HPT 221 — Instrumentation and Measurement II ........................................3 Credits
A continuation of the concepts of HPT 121 with particular emphasis on identifying and quantifying radioactive materials. Extensive training in the use of multi-channel analyzers in alpha, beta and gamma spectroscopy is provided. Also the advanced techniques of X-Ray Fluorescence Analysis and Neutron Activation Analysis are covered. (Prerequisites: HPT 111 and HPT 121) F
3 hours lecture — 3 hours laboratory

HPT 242 — Internship ..........................................................1-5 Credits
This work experience is designed to familiarize the student with application of health physics principles on the job. Efforts will be made to place students in an area which supports their career goals. (A minimum of 300 contact hours) No student may enroll in an internship unless the approval of the instructor is obtained. F, Sp, Su

HISTORY

HIS 100 — Survey of American History ...................................................3 Credits
This is a one semester college-level course designed to remove the high school unit deficiency in U.S. History. The course will examine the political, social, cultural and economic development of the United States from the colonial period through the present. This course will not fulfill the college's core curriculum requirement for history. (Offered as needed; permission of instructor required.)
HIS 111 — History of Western Civilization I .................. 3 Credits
A general survey of the major political, social, economic, and cultural developments in Western Civilization from the Ancient World to 1715. Emphasis on the Greek World, the Roman Empire, feudal Europe, Renaissance, Reformation, constitutional monarchy in England in the 17th century and the triumph of absolute monarchy in France under Louis XIV.
F
NOTE: HIS 111 H, Honors is also offered which is a more in-depth study of these themes and is taught primarily as a discussion, rather than a lecture, class. (Prerequisite: Consent of instructor)

HIS 112 — History of Western Civilization II .................. 3 Credits
A general survey of the major political, social, economic, and cultural developments in Western Civilization from 1715 to the present. Emphasis on the Enlightenment, French Revolution and Napoleon, national unification of Germany and Italy, world wars of the 20th century, Russian Revolution, and post-1945 Europe. Sp
NOTE: HIS 112 H, Honors is also offered which is a more in-depth study of these themes and is taught primarily as a discussion, rather than a lecture, class. (Prerequisite: Consent of instructor)

*HIS 161 — World History I .................................. 3 Credits
The study of human history from prehistory to c. 1500 A.D., covering the beginnings of civilization c. 3000 B.C. and investigating the economic, social, political, and cultural institutions developed by humans prior to the beginning of European expansion.

*HIS 162 — World History II ................................ 3 Credits
The study of human history from c. 1500 A.D. (shortly after Europeans began their expansion) to the present, and including the investigation of the economic, social, political, and cultural institutions developed by humans both in response to European expansion and independent of European influence.

*Accepted for history sequence requirement at UTK, UTC, and MTSU.

HIS 211 — United States History to 1877 ..................... 3 Credits
An exploration and analysis of major themes and events in the political, cultural, social, economic, and intellectual history of the United States to 1877. F, Sp, Su
NOTE: HIS 211 H, Honors is also offered which is a more in-depth study of these themes and is taught primarily as a discussion, rather than a lecture, class. (Prerequisite: Consent of instructor)

HIS 212 — United States History Since 1877 ................. 3 Credits
Continuation of History 211. F, Sp, Su
NOTE: HIS 212 H, Honors is also offered which is a more in-depth study of these themes and is taught primarily as a discussion, rather than a lecture, class. (Prerequisite: Consent of instructor)

HOME ECONOMICS

HEC 131 — Elementary Nutrition ............................. 2 Credits
Applying principles of nutrition in the selection of food for health promotion and maintenance.

HUMANITIES

HUM 261-290 — Humanities Seminar .......................... 1-3 Credits
This course is designed for those students who are interested in pursuing an in-depth study of some particular humanities problem.

INDUSTRIAL HYGIENE

IHT 101 — Industrial Hygiene I ............................... 3 Credits
A study of basic industrial hygiene concepts including threshold limits, dose response, and general recognition of occupational hazards. Special emphasis is placed on the anatomy and physiology of human systems that are most susceptible to industrial hazards. F
IHT 102 — Industrial Hygiene II ...........................................3 Credits
Methods of evaluating the occupational environment are studied along with the methods of control of occupational health hazards. The establishment of occupational safety programs are included. Sp

IHT 221 — Occupational Safety and Protection .............................3 Credits
A study of the principles of basic occupational safety, safety management and the development of safety programs involving hazardous materials including handling and disposal techniques. F

IHT 242 — Internship ......................................................1-5 Credits
Work experience designed to familiarize students with application of industrial hygiene principles while working on the job. Efforts will be made to place students in an area which supports their career goals. (A minimum of 300 contact hours) No student may enroll in an internship unless the approval of the instructor is obtained. F, Sp, Su

INSURANCE
The INS prefix will be used to offer various service courses to the insurance industry. These courses will use the course descriptions furnished by the industry and credit will be granted based upon the recommendations of the American Council of Education (ACE). For more information contact the division head of Business and Economics.

JAPANESE

JPN 101 — Beginning Japanese ...........................................3 Credits
Elementary structure, pronunciation, and conversation (No prerequisite)

JPN 102 — Beginning Japanese II ......................................3 Credits
Continuation of Beginning Japanese I. (Prerequisite: JPN 101)

JOURNALISM

JRN 111 — Introduction to Mass Communications ........................3 Credits
An overview of systems of mass communications, with an emphasis on American media, their ownership, legal and social controls, role and effects. Advertising, broadcasting, journalism and publishing, and public reactions will be examined and placed in the context of theories of mass communications.

JRN 121 — Journalism Practicum I ......................................1 Credit

JRN 122 — Journalism Practicum II .....................................1 Credit

JRN 221 — Journalism Practicum III ....................................1 Credit

JRN 222 — Journalism Practicum IV ....................................1 Credit
Laboratory courses offering practical experience for students working on the student newspaper, yearbook, other campus publications and off-campus publications. Each course carries one hour credit, and students may earn up to four credits.

JRN 201 — Editing, Design and Management ..............................3 Credits
Covers the development of the basic skills needed to produce a journalistic publication, specifically a newspaper or magazine. Emphasis on the methods and practices of reporting, editing copy, designing a publication, and production management.
2 hours lecture — 2 hours laboratory

JRN 231 — Writing for Mass Media ......................................3 Credits
Information gathering and writing under deadline for print and broadcast media, including news and promotional copy. Preparation of news, advertising and persuasive text. Comparison of styles and organization techniques. Grammar, usage, and style workshop. (Prerequisites: ENG 102 and typing proficiency or permission of instructor)
JRN 241 — Publicity and Public Relations .................. 3 Credits
Principles and practice of writing for print media. Public information campaigns for organizations and institutions. (Prerequisite: ENG 102)

JRN 251 — Advertising Principles ........................... 3 Credits
Survey of the role of advertising in American business and society. Study of the relationship between advertising and marketing and of the functional components of the advertising process: research, media, creative copy, and management.

LAW
(Legal Assisting)

LAW 101 — Basic Law I ........................................ 3 Credits
Philosophy and history of law; legal decision making; the American judicial system; business organizations; bankruptcy; real property; civil procedure; criminal law and procedure; legal research and writing. F

LAW 102 — Basic Law II ....................................... 3 Credits
Training and role of law office personnel; ethical and professional practice standards; legislation, administrative process; government regulation of business, anti-trust, and consumer law; torts; contracts; investigations; domestic relations; wills, estates, and trusts. S

LAW 140 — Legal Research .................................... 3 Credits
Legal bibliography including codes, administrative regulations, reporters, digests, encyclopedias, citators, law reviews, and treatises; analysis and synthesis of cases. (Prerequisite: LAW 101) S

LAW 150 — Legal Writing ..................................... 3 Credits
Legal writing skills including precision and clarity, legal citation, and format; drafting of law office and trial memoranda, trial court brief, appellate brief, and abstracting depositions; analysis and synthesis of legal materials. (Prerequisite: LAW 140)

LAW 160 — Torts ............................................ 3 Credits
Non-contractual obligations which an individual in society owes others according to common law and statute; emphasis on intentional acts violating legally protected interest.

LAW 170 — Criminal Law .................................... 3 Credits
Substantive aspects of criminal law including general principles of criminal liability, specific analysis of particular crimes; subjective defenses to crime. Cross-listed with PST 221. F

LAW 201 — Domestic Relations .............................. 3 Credits
Laws, procedures, and documents involved in domestic relations; breach of promise to marry; marriage; annulment; divorce; adoption; child custody/support. (Prerequisite: LAW 102 or permission of program director) S

LAW 211 — Business Organizations .......................... 3 Credits
Sole proprietorships, partnerships, corporations, and other business vehicles; formation of various types of business entities; preparation of appropriate documents. (Prerequisite: LAW 102 or permission of program director) S

LAW 221 — Civil Trial and Appellate Practice I ............... 3 Credits
Procedural law; preparation and use of pleadings and other documents involved in the trial and appeal of a civil action. (Prerequisites: LAW 101 and 102) F

LAW 222 — Civil Trial and Appellate Practice II .................. 3 Credits
Procedural law; preparation and use of pleadings and other documents involved in the trial and appeal of a civil action. (Prerequisite: LAW 221)
LAW 231 — Estates and Trusts I .......................... 3 Credits
Effects of various types of ownership upon passage of property at owner death, with or without a will; administration, taxation of estates and inheritances; basic requirements for trusts, wills, guardianships, and conservatorships; administration of a decedent's estate including income tax consequences; case analysis; preparation of necessary documents. (Prerequisite: LAW 102 or permission of program director)

LAW 232 — Estates and Trusts II .......................... 3 Credits
U.S. Estate Tax, Tennessee Inheritance Tax, U.S. Gift Tax provisions, estate planning, changes in asset ownership and tax advantages through removal of assets or fixation of values; problem-solving activities. (Prerequisite: LAW 231 or permission of program director)

LAW 240 — Legal Externship ............................. 3 Credits
Supervised activities in a law firm, agency, or corporate legal department as a legal assistant for a total of sixty hours; includes weekly seminar. (Prerequisite: Second semester sophomore standing in the Legal Assisting program)

LAW 241 — Real Property ................................. 3 Credits
Freehold estates, concurrent ownership, leases, real estate contracts and deeds, recording system, title assurance, easements, lateral support, water rights, zoning, and eminent domain; practical aspects of conveyance from drafting of purchase and sale agreements to passing of papers; mechanics of title examining; preparation of documents for mortgages, foreclosures, recordings, and closing. (Prerequisite: LAW 101)

LAW 251 — Public Benefits/Administrative Advocacy .......................... 3 Credits
Substantive law and procedures for public benefits applications and appeals from agency administrative decisions; includes Medicare, Medicaid, supplementary security income, OASDI, food stamps, structure of administrative agencies, administrative procedures and advocacy skills.

LAW 261 — Creditor Rights and Bankruptcy .......................... 3 Credits
Bankruptcy procedure including initial filing, meetings of creditors, adversarial proceedings and the final discharge hearing; operation of the automatic stay; adequate protection; confirmation of a Chapter 13 Plan; Chapter 7 and Chapter 11 proceedings; debtors obligations and rights; secured and unsecured creditors priorities, preferences, fraudulent transfers. (Prerequisite: LAW 101 or permission of program director)

LAW 271 — Investigations/Pretrial Advocate .......................... 3 Credits
Investigative techniques, interviewing skills, fact analysis, courses of evidence, records access, judgement collection, missing persons, background investigation, case planning, analysis and strategy. (Prerequisite: LAW 102 or permission of program director)

LAW 275 — Income Tax ................................. 3 Credits
Survey of federal income tax laws emphasizing preparation of returns for individuals, sole proprietorships, and partnerships. Overview of corporate tax law, administrative and judicial tribunals, jurisdiction, and tax controversies.

LAW 280 — Special Topics in Law .......................... 1-6 Credits
Detailed study of a specific topic in law or paralegal studies.

LAW 290 — Independent Studies in Legal Assisting .......................... 1-9 Credits
Independent studies in legal assisting. Students may take more than one independent or individualized study in a given discipline up to a maximum of nine credit hours.

MAGNETIC RESONANCE IMAGING

MRI 110 — Introduction to MRI .......................... 4 Credits
This course is designed to provide students with a thorough basic understanding of magnetic resonance imaging theory and principles of operation. Students gain understanding of current MRI system components, hardware pulse parameters, and clinical significant. Forty-five hours of clinical are also required in this course.

3 hours lecture/3 hours clinical
MAMMOGRAPHY

MAM 110 — Mammographic Procedures ............................. 3 Credits
This course covers radiographic interventional procedures, anatomy, positioning, technique, quality control, and the Mammography Quality Standards Act. This course will prepare registered radiologic technologists to take the A.R.R.T. mammography registry. 8 week course.

4 hours lecture/4 hours laboratory

MAM 120 — Mammography Pathology ............................. 1 Credit
This course will cover radiographic pathology and abnormalities of the breast. It is designed to enhance knowledge of registered mammographers as well as those seeking to take the A.R.R.T. mammography registry. 8 week course.

2 hours lecture

MATHEMATICS

The State Board of Regents, governing board of Roane State Community College, has endorsed a provision aimed at strengthening mathematics in the System institutions. This provision states that the mathematics course taken to fulfill the requirement for graduation must carry high school prerequisites of two years of algebra and one year of geometry.

MAT 099 — Geometry ..................................... 3 Credits
A study of the most used theorems of two- and three-dimensional Euclidean Geometry. Topics include symmetry, congruence, similarity, right triangle relationships, and geometrical modes of thinking in problem solving.

NOTE: This course is required of all students majoring in a transfer program who have not had high school geometry or another advanced high school mathematics course with geometry as a major component and will not fulfill the requirement for graduation. F, Sp

MAT 103 — Mathematics for the Health Sciences ................ 3 Credits
This course is designed to prepare the allied health student to function in academic and clinical settings with mathematics competence. Topics of study include fractions, fractional equations and formulas, ratios and proportions, apothecaries and metric measurements, dosage calculations, logarithms, and statistics. (Prerequisites: Two years of high school algebra and one year of high school geometry or appropriate developmental mathematics courses) This course does not meet math requirement for AS/AA degree, nor does it carry transfer credit. F, Sp

MAT 110 — College Algebra ................................ 3 Credits
A course in algebraic functions, their properties and uses — equations, inequalities, graphs, systems of linear equations, analytical geometry including ellipse and hyperbola. Applications are in the mathematics of finance as well as the laws of growth and decay in other areas. (Prerequisites: Two years of high school algebra and one year of geometry or appropriate developmental mathematics courses) F, Sp, Su

MAT 115 — Statistical Reasoning ............................. 3 Credits
An introduction to probability and statistics without calculus. Topics covered include sampling, frequency distribution, elementary probability, hypotheses testing, linear regression and correlation, analysis of variance and non-parametric statistics. A scientific calculator is required. (Prerequisite: MAT 110 or consent of instructor) F, Sp, Su

MAT 116 — Concepts of Mathematics I ............................. 3 Credits
Designed for the education major, this course includes symbolic logic, logical reasoning and the nature of proofs, sets, language and rules of operations, history of early numeration systems, relations and functions, the systems of whole numbers, of integers, and of rational numbers. (Prerequisites: Two years high school algebra and one year of geometry or appropriate developmental mathematics) F
MAT 117 — Concepts of Mathematics II ....................... 3 Credits
A continuation of MAT 116 and designed also for education majors, this course includes
elementary number theory, irrational numbers, basic algebra, interest problems, plane
and solid geometry, the metric system, and basic statistics. (Prerequisite: MAT 116) Sp

MAT 119 — Trigonometry .................................. 3 Credits
Analysis of functions of angles, solutions of right and general triangles, graphs of trigono­
metric functions, identities and formulas, equation-solving techniques, DeMoive's Theo­
rem, polar coordinates, and exponential and logarithmic functions. A calculus sequence
student who is lacking in trigonometry background is strongly advised to take this course
either before or concurrent with MAT 141. A calculator with trig and log functions will
be needed by the student. (Prerequisites: Two years high school algebra and one year of
geometry, or appropriate developmental mathematics and MAT 110) F, Sp, Su

MAT 121 — Calculus for Business and the Life Sciences I ............ 3 Credits
A one-semester single-variable calculus course for students not planning to major in sci­
ence, engineering, mathematics, or computer science. This course is offered primarily
for students in the Business transfer programs. The calculus of algebraic, exponential,
and logarithmic functions with applications. (Prerequisites: Two years of high school
algebra and a year of geometry with an ACT score of 24 or higher or MAT 110 or MAT
130; students who have taken DSM 082 must take 110; students planning to transfer to
UT Business School should check with UT concerning the math requirements for their
particular major.) F, Sp

MAT 122 — Calculus for Business and the Life Sciences II ............ 3 Credits
A sequel to MAT 121 and designed also for the student in the Business transfer pro­
grams, this course includes multi-variable calculus, elementary matrix algebra, and
optimization. (Prerequisite: MAT 121 or 141; students planning to transfer to UT
Business School should check with UT concerning the math requirements for their par­
ticular major.) Sp

MAT 130 — Pre-Calculus ................................... 4 Credits
Designed primarily for students planning to enter the calculus sequence, but who need
more mathematical background. Topics include functions and graphing — algebraic,
trigonometric, exponential and logarithmic, equations, the binomial theorem, and conics.
A calculator with trig and log functions will be needed by the student. (Prerequisites:
Two years high school algebra and a year of geometry or appropriate RSCC courses,
e.g. developmental and MAT 110; regardless of high school background, an ACT of less
than 23 on the math component indicates that the student would profit from taking
MAT 130.) F, Sp

MAT 141 — Calculus I ....................................... 5 Credits
The standard course in single-variable calculus designed for students of science, engi­
neering, mathematics, and computer science. Topics included are rates of change, lim­
its, continuity, differentiation, applications of the derivative, integration and
applications of the definite integral. (Prerequisites: Two years high school algebra, one
year of geometry, and one year of advanced math (including trigonometry) plus satisfac­
tory ACT scores of 26 or above on the math component, or MAT 130) F, Sp
NOTE: Students deficient in trigonometry should take MAT 119 either before or concur­
rent with MAT 141.

MAT 142 — Calculus II ....................................... 5 Credits
This course includes the differentiation and integration of transcendental functions with
applications, additional methods of integration, analytic geometry, polar coordinates,
parametric equations, and infinite series. (Prerequisite: MAT 141) Sp, Su

MAT 201 — Probability and Statistics ............................ 3 Credits
This calculus-based course is designed primarily for students of Business and
Economics. It includes descriptive statistics, concepts of probability and probability dis­
tributions, binomial and normal distributions, linear correlation and regression, estima­
tion and significance tests for means, ANOVA, contingency tables and quality control.
A calculator is required. (Prerequisite: MAT 121 or MAT 141) Sp
MAT 221 — Discrete Mathematics I .......................................3 Credits
This course is designed for mathematics and computer science majors. It includes symbolic logic, sets, relations and functions, Boolean algebra, combinatorics, and the concept of proof in mathematics and elementary number theory (Prerequisite: MAT 141)

MAT 222 — Discrete Mathematics II ........................................3 Credits
A sequel to MAT 221, this course includes induction and recursion, elementary graph and tree theory, introductory abstract algebra, and matrices. (Prerequisite: MAT 221)

MAT 232 — Differential Equations ........................................3 Credits
A study of the solution of ordinary differential equations, first order equations, linear equations of any order, series solutions, applications, Laplace transforms, and Runge-Kutta methods. (Prerequisite: MAT 142) Sp

MAT 241 — Calculus III .........................................................3 Credits
This course is a continuation of the first-year calculus sequence. Topics included are partial differentiation, multiple integrals, vectors and vector calculus. (Prerequisite: MAT 142) F

MAT 251 — Matrix Algebra .....................................................3 Credits
A first course in the algebra of simultaneous linear equations and matrices. Includes Gaussian elimination, determinants, vector spaces, linear transformation, eigenvalues, eigenvectors and linear programming. (Prerequisites: MAT 141, MAT 142 or consent of instructor)

MAT 270-271-272 — Independent Study .....................................2 Credits Each
Independent study in mathematics by qualified students under the supervision of a faculty member. Especially designed to introduce students to techniques of mathematical research. Up to six credit hours can be earned. (Prerequisites: MAT 142 and consent of instructor on request and by prior approval of mathematics department)

MATH-SCIENCE

MSC 101 — Science Literacy ..................................................3 Credits
A broad course aimed at giving the student a general understanding of science and technology. The course expects to raise the students understanding of the public issues that involve science.

MSC 102 — Survey of Science ..................................................2 Credits
This course includes items in science as well as topics in astronomy, geology; discusses the nature of energy and matter and recent advances in biology.

MATH-SCIENCE SEMINAR

MSC 261-289 .................................................................1-3 Credits
This course is designed to give the student an in-depth study of a particular topic in any one of the math-science disciplines (Biology, Chemistry, Geography, Geology, Math, or Physics).

MEDICAL LABORATORY TECHNOLOGY

Completion of all but one general education course is required before taking any MLT courses during the second year of the program.

MLT 105 — Introduction to Medical Laboratory Technology ...........4 Credits
An introduction to the clinical laboratory sciences which includes orientation to the clinical laboratory, duties of the medical laboratory professional, medical terminology, medical ethics, quality control, urinalysis, laboratory safety, and basic laboratory math. (Prerequisite: MAT 110 College Algebra. Corequisites: CHE 122, General Chemistry II. Course open to students not accepted into the MLT program on a space available basis.) MLT 105 is a prerequisite to all other MLT courses. Sp

3.5 hours lecture — 2 hours laboratory
MLT 122 — Microbiology and Parasitology .......................... .5 Credits
Methods for the detection and identification of microorganisms of medical importance in humans. Bacteria, fungi, viruses, and parasites are studied with emphasis on procurement and handling of specimens, identification, drug sensitivity testing, and quality control.
3.5 hours lecture — 2 hours laboratory

MLT 202 — Hematology and Coagulation .......................... .5 Credits
The study of the principles and techniques of hematology and coagulation. This includes the formation and maturation of blood cells with emphasis placed on the disorders of the blood including the anemias and leukemias; the blood coagulation disorders and the techniques of blood collection.
3.5 hours lecture — 2 hours laboratory

MLT 213 — Chemistry .................................................. .5 Credits
The study of the principles and techniques of clinical chemistry with emphasis on the analysis of body fluids for chemical constituents of diagnostic importance. Includes study of the liver, endocrine, and kidney function as well as instrumentation, lab math, and quality control. (Prerequisite: General Chemistry I and II) F
3.5 hours lecture — 2 hours laboratory

MLT 222 — Immunology and Immunohematology ............... .5 Credits
Basic principles of antigen and antibody reactions with emphasis on basic serologic methods for the detection of infectious disease. The study of blood group antigens with emphasis placed on the ABO and RH systems and the study of principles and procedures of modern blood banking techniques.
3.5 hours lecture — 2 hours laboratory

MLT 253 — Clinical Education I ...................................... .7 Credits
Selected clinical experiences at medical laboratory facilities, which will provide the MLT student with the opportunity to develop competencies in hematology, immunology, immunohematology, microbiology, chemistry, and phlebotomy under the supervision of ASCP medical technologists. (Prerequisite: Completion of MLT core curriculum) Sp
333 hours/semester

MLT 254 — Clinical Education II .................................... .7 Credits
A continuation of MLT 253. Sp
333 hours/semester

MLT 255 — Clinical Education III .................................... .6 Credits
A continuation of MLT 254. Su
296 hours/semester

MLT 263 — Seminar I ................................................... .3 Credits
Orientation to the clinical laboratory. Case presentations in hematology, microbiology, clinical chemistry, immunohematology, urinalysis, immunology, and coagulation. Sp
45 hours/semester

MLT 264 — Seminar II .................................................. .1 Credit
A continuation of MLT 263. Su
16 hours/semester

MEDICAL RECORD TECHNOLOGY

MRT 102 — Introduction to Medical Records .......................... .3 Credits
Introduction to the medical record profession and the health care delivery system. Orientation to the content of the health record, numbering, filing, microfilm, accreditation and certification standards. Laboratory practice in the assembly and analysis of medical records and numbering and filing systems. F
2 hours lecture — 3 hours laboratory/week
MRT 103 — Coding & Classification Systems .................. 3 Credits
An introduction to various coding and classification systems used in health care. This course will focus on ICD-9-CM coding. Laboratory practice time devoted to ICD-9-CM coding. (Prerequisite: MRT 102) Sp
2 hours lecture - 3 hours laboratory/week

MRT 105 — Medical Terminology ............................ 4 Credits
Greek and Latin elements of medical terminology, stems, suffixes, prefixes and root words. Medical terminology pertaining to each body system. F
4 lecture hours/week

MRT 106 — Health Data Systems ............................ 3 Credits
Introduction to health care data, indexes and registries. The calculation of rates and percentages used by health care facilities will be emphasized. Manual and automated techniques of maintaining data will be discussed along with data display techniques. (Prerequisite: MRT 102; Corequisite: MRT 103) Sp
3 hours lecture/week

MRT 108 — ICD-9-CM and CPT Coding Basics .............. 4 Credits
Entry-level course in ICD-9-CM disease and procedural coding and CPT coding. Students will learn the basics of both coding systems employed in health care facilities, coding rules and guidelines, and practice both coding systems utilizing practice exercises. This course is designed for students that have never utilized either the ICD-9-CM or CPT coding system or who have acquired their coding knowledge through on-the-job training without the benefit of formal coding instruction. This course is for elective credit and does not meet any degree requirement. (Prerequisite: students must be currently employed in a health care facility.)
4 hours lecture/week

MRT 110 — Business Aspects of a Medical Practice .......... 3 Credits
This course will focus on the essential aspects of management of a medical practice. Emphasis will be placed on methods of establishing an efficient front office, handling office accounting and payroll, personnel functions, and computer hardware and software analysis and selection. F
3 hours lecture

MRT 113 — Legal Aspects of Medical Records ............... 2 Credits
To provide the student a foundation in federal and state legislation regarding medical record release, retention, authorizations, and consents. The importance of confidentiality and professional ethics will be emphasized. The medical record in court and the medicolegal importance of accurate documentation will be presented. F
2 lecture hours/week

MRT 115 — Medical Record Practicum ........................ 1 Credit
Orientation to a hospital medical record department under the supervision of a medical record practitioner in an area hospital. Content of the practice will include chart assembly and analysis, release of information, filing, and the patient index. (Prerequisite: MRT 102; Corequisites: MRT 103, MRT 106) Sp
45 hours clinical experience

MRT 120 — Revenue Optimization Techniques in a Medical Practice .......................... 3 Credits
This course will focus on techniques and strategies for increasing revenue in a medical practice. Managed care concepts and strategies as well as general reimbursement methodologies in a medical practice will be emphasized. Essential aspects will include effective billing and collection procedures, insurance claims processing and monitoring, accurate and complete CPT and ICD-9-CM coding needed to appropriately reflect the level of care and services rendered and the documentation essential to support the claim. F
3 hours lecture
MRT 121 — Medical Transcription ........................................... 2 Credits
Additional study in medical terminology in conjunction with medical transcription. Practice transcription will include X-ray reports, medical history, physicals and summaries, plus operative reports. (Prerequisite: MRT 105, one year of high school typing or OAD 101) Sp
1 hour lecture — 3 hours laboratory/week

MRT 122 — Optimizing Reimbursement ................................. 3 Credits
This course will focus on the theory and methodology of the Prospective Payment System utilized for inpatient reimbursement under Medicare. Emphasis will be placed upon the official Coding Guidelines and sequencing rules established by the cooperating parties of the Health Care Financing Administration. Special attention will be given to optimization techniques and strategies through the utilization of actual medical records and an automated DRG Grouper. F
3 hours lecture

MRT 125 — Pharmacology for the Clinical Coder .................... 2 Credits
An introduction to generic and brand names of frequently prescribed medications, drug classifications, and their therapeutic use. Emphasis will be placed upon the types of drugs most commonly prescribed for frequently diagnosed processes. F
2 hours lecture

MRT 130 — CPT Coding .......................................................... 3 Credits
2 hours lecture — 3 hours laboratory/week

MRT 140 — Medical Office Procedures .................................. 2 Credits
An introduction to business aspects of a medical practice including third party payers, claims filing and processing, accounting and payroll functions. Sp
2 lecture hours/week

MRT 221 — Advanced Medical Record Procedures .................... 3 Credits
Introduction to medical record procedures in long-term care, ambulatory, home-health, hospice and psychiatric facilities. A study of the Problem Oriented Medical Record and the tumor registry is included. Medical record supervision, department productivity and quality control are introduced. Strategies for successful completion of the National Accreditation Exam and obtaining employment are included. Sp
3 hours lecture/week

MRT 222 — Pathology and Clinical Interpretations .................... 4 Credits
An introduction to common disease processes, their clinical signs, symptoms, and manifestations. Diagnostic radiology and laboratory examinations, pharmacological and other treatment modalities employed in the treatment of disease will be emphasized. F
4 hours lecture/week

MRT 231 — Directed Practice ................................. 3 Credits
Actual practice in an area hospital. Topics covered include chart assembly and analysis, coding, abstracting, release of information, and medical transcription. (Prerequisite: MRT 115) F
135 hours clinical experience

MRT 232 — Directed Practice II ............................................. 4 Credits
Clinical experience in quality assurance, utilization review, hospital committee functions, and medical record supervision. Practice is also obtained in specialized facilities such as long term care, psychiatric, ambulatory care, veterinary medicine, tumor registry, and epidemiological research. (Prerequisite: MRT 231) Sp
180 hours clinical experience

MRT 241 — Medical Record Computer Applications .................. 2 Credits
Practice time will be spent utilizing several different software packages specifically related to medical records. Medical record abstracting, DRG grouping, encoding, automated chart deficiencies, master patient indexes, and chart locators will be used by the student. (Prerequisites: MRT 103, MRT 251) Sp
2 hours/week — 30 clock hours
MRT 251 — Coding for Reimbursement ........................ 4 Credits
Advanced topics in ICD-9-CM coding focusing specifically on Official Coding Guidelines, sequencing skills and the use of ICD-9-CM in health care reimbursement. The prospective payment system theory and methodology will be the course focus. Ambulatory Patient Groups will be introduced. Laboratory practice in coding and optimization techniques using actual medical records and a computerized grouper. (Prerequisite: MRT 103) F
3 hours lecture — 3 hours laboratory/week

MRT 252 — Quality Resource Management ......................... 2 Credits
This course will emphasize current philosophy and methodology in conducting an effective utilization review and quality assurance program for a health care facility. Requirements of various governmental, third party payers, and accreditation bodies regarding appropriate utilization of resources and continuous quality improvement will be emphasized. (Prerequisite: MRT 103) F
2 hours lecture/week

MEDICAL TRANSCRIPTION

MDT 102 — Medical Terminology ........................................... 3 Credits
A study of medical terminology word elements including prefixes, suffixes and root words. Diagnostic, clinical, laboratory, pharmaceutical and surgical terms are also learned as they pertain to each body system. F
3 hours lecture/week

MDT 103 — Anatomy Concepts in Medical Transcription ............... 2 Credits
A study of basic anatomy and physiology of all body systems. F
2 hours lecture/week

MDT 104 — Basic Medical Transcription ................................. 5 Credits
Transcription practice utilizing dictated medical reports such as histories and physicals, consultations, operative reports, discharge summaries, x-ray and pathology reports. Transcription procedure is also learned. F
14 hours practice/week

MDT 111 — Advanced Medical Transcription ............................ 5 Credits
Advanced medical transcription with emphasis on speed and accuracy in a variety of types of medical transcription. Sp
15 hours laboratory/week

MDT 112 — Clinical Practicum ............................................. 6 Credits
Transcription experience in a medical facility. Sp
16 hours clinical/week

MDT 113 — Pharmacology Concepts in Medical Transcription ....... 2 Credits
This course will familiarize the student with the trade names and brand names of a variety of medications, drug classifications and general therapeutic use.
2 hours lecture/week

MILITARY SCIENCE

MIL 110 — Basic Military Science ........................................ 4 Credits
The formation and functioning of the American Defense Establishment, customs and traditions of the Army, introduction to the principles of war and current military threat faced by the United States. Practical exercises in military skills of marksmanship and mountaineering.

MIL 120 — Leadership Development Techniques ........................ 4 Credits
A survey of leadership theories and principles with particular attention to communications skills and factors affecting human behavior. Development of leadership qualities through practical exercises requiring both individual and group participation.
MIL 220 — Basic Officer Skills .................................. 4 Credits
Emphasis on small unit operating techniques to include familiarization with military
equipment, land navigation and first aid.

MUSIC

THEORY AND LITERATURE

MUS 110 — Music Theory I (Fall only) ......................... 3 Credits
MUS 120 — Music Theory II (Spring only) ..................... 3 Credits
Study of standard vocabulary of harmony, part writing, form, and analysis of common
practice music. Must be taken in sequence. (Prerequisite: Knowledge of Fundamentals of
Music.)

MUS 111 — Theory Practicum I (Fall only) .................. 1 Credit
MUS 121 — Theory Practicum II (Spring only) ............. 1 Credit
Development of proficiency in identifying and notating melodic, harmonic and rhyth­
mic dictation. Must be taken in sequence. Should be taken concurrently with MUS 110,
Music Theory I, and MUS 120, Music Theory II.

MUS 130 — Music Appreciation ................................. 3 Credits
Open to all students who desire a better understanding of music. In this one-semester
course, traditional art music will be explored through class lecture as well as weekly lis­
tening assignments. F, Sp, Su

MUS 131 — Pop Music in America ............................... 3 Credits
A survey of American music representative of the present day scene, focusing on the
evolution of rock music. Open to all students. F, Sp

MUS 140 — Fundamentals of Music ............................ 3 Credits
A beginning study of music, its terminology, and its elements such as notes, scales, intervals,
keys, triads, meter and smaller forms. Designed to acquaint the student with notation,
the keyboard, sight singing, and ear training.

MUS 210 — Music Theory III (Fall only) ...................... 3 Credits
MUS 220 — Music Theory IV (Spring only) .................... 3 Credits
Study of modulation, chromatic harmonies, 20th century harmonies, and other harmonic
procedures since the common practice period. Must be taken in sequence. (Prerequisites:
Music Theory I and II.)

MUS 211 — Theory Practicum III (Fall only) ............... 1 Credit
MUS 221 — Theory Practicum IV (Spring only) ............. 1 Credit
Development of proficiency in identifying and notating complex melodic, harmonic,
and rhythmic dictation. Must be taken in sequence. Should be taken concurrently with
MUS 210, Music Theory III, and MUS 220, Music Theory IV.

MUS 230 — Introduction to Music Literature I ............. 3 Credits
Study of music in Western civilization from antiquity through the Baroque era. Students
learn through class lecture, listening assignments, concert attendance, and performance
of representative literature. Offered for non-music majors who can read music; required
for music majors. Offered only in alternate Fall semesters.

MUS 240 — Introduction to Music Literature II ............ 3 Credits
A continuation of MUS 230, Introduction to Music Literature I, covering the Classic era
through 20th century. Offered for non-music majors who can read music; required for
music majors. Offered only in alternate Spring semesters.

MUS 250 — Choral Conducting ................................. 3 Credits
Study of choral conducting techniques; and management of church, school and com­
munity choral groups both vocally and organizationally. Offered for both music majors
and non-music majors. Students should be able to read music. Sp
APPLIED MUSIC: ENSEMBLES

Non-music majors are invited to participate in any of the music ensembles. Auditions are required only for MUS 163 - Celebration, MUS 164 - First Class, and MUS 168 - Jazz Band; all other ensembles are open to all students. Members are expected to attend all rehearsals and performances. Failure to do so may affect the student's grade for the course.

MUS 107 — Music Practicum ........................................1 Credit
Students can gain experience as support staff for various music functions and/or organizations (i.e. sound technician, business manager, music librarian). May be repeated for credit.

MUS 160 — Roane State Concert Choir ...............................1 Credit
Performs a variety of music, from pop to major choral works and selections from standard choral literature. Meets three hours per week. May be repeated for credit. Open to all students.

MUS 163 — Celebration ..................................................1 Credit
A contemporary show choir. Meets four hours per week. Meets in Summer (one session) and two weeks prior to the beginning of Fall semester. May be repeated for credit. Admission by audition only. (Auditions are held each spring for following year.)

MUS 164 — First Class ...................................................1 Credit
A pop-rock instrumental ensemble specifically designed to accompany Celebration. Meets four hours per week. Meets in Summer (one session) and two weeks prior to the beginning of Fall semester. May be repeated for credit. Admission by audition only. (Auditions are held each spring for following year.)

MUS 165 — Small Instrumental Ensembles .........................1 Credit
String, brass, and woodwind ensembles will rehearse three hours per week and perform three times during a semester. Classical literature for standard instrumentations will be emphasized. Rehearsal times arranged according to students' schedules. Assignment of groups to be determined by instructor. F, Sp

MUS 166 — Concert Band .................................................1 Credit
Performs traditional and contemporary wind ensemble literature. Open to all qualified students. Meets three hours per week. Open to all students who play band instruments. F, Sp

MUS 168 — Jazz Band .......................................................1 Credit
Performs arrangements for jazz in contemporary and jazz-rock styles. Performances regularly scheduled off-campus, as well as for student body. Meets two hours per week. No audition is required. May be repeated for credit.

MUS 173 — Celebration Choreography ..............................1 Credit
Staging rehearsal to learn choreography for Celebration show. Meets two hours per week. Meets in Summer (one session) and two weeks prior to the beginning of Fall semester. May be repeated for credit. Enrollment limited to those students accepted in Celebration by audition. (Cross-listed as PED 127)

MUS 174 — Gospel Choir ..................................................1 Credit
Perform traditional and contemporary gospel music designed for students who enjoy singing gospel music. Emphasis is placed upon public performances. Meets three hours per week. May be repeated for credit. Open to all students.

APPLIED MUSIC: CLASS INSTRUCTION

Class piano or class voice is offered for music major and non-music majors who wish to begin or continue basic instruction in these areas.

MUS 101 — Voice Class I ..................................................1 Credit
Group instruction in basic vocal techniques, focusing on vocal styles of the 20th century. Class meets twice per week.

MUS 102 — Voice Class II ..................................................1 Credit
Continuation of group instruction in voice, focusing on performance skills and stage presence. Class meets twice per week.
MUS 103 — Class Piano I ........................................ 1 Credit
MUS 104 — Class Piano II ........................................ 1 Credit
   Group instruction in basic keyboard technique for students with little prior training in
   piano, or for music majors preparing for a piano proficiency examination. Electronic
   pianos will be used. Class meets twice weekly. Daily practice required. Should be taken
   in sequence.

MUS 108 — Contemporary Guitar Class .................................... 1 Credit
   Group instruction in basic skills of guitar, focusing on contemporary and folk music.
   Class meets twice weekly.

MUS 175-185 — Music Seminar ........................................ 1-3 Credits
   This course is designed for those students who are interested in pursuing an in-depth
   study of some particular music area.

APPLIED MUSIC: INDIVIDUAL INSTRUCTION
   Private lessons in voice, organ, piano, or other instruments may be taken each
   semester for one or two semester hours credit. Any student may take private
   lessons. Scheduling preferences will be given to full-time music majors. Students
   receive 25 minutes of private instruction per week per semester hour of credit.
   Any student may take applied music instruction in a minor area.
   Requirements include one performance in solo class per semester (when regis-
   tered for two hours Individual Instruction Credit) and performance before a
   faculty jury at the close of each semester. A recital is required for music majors
   in their applied major field during their second year of study. All students taking
   applied music are required to attend all solo classes and other selected perfor-
   mances. The music department reserves the right to request qualified students to
   participate in recitals and other musical programs for the benefit of the college
   and the community. A minimum of 10 hours of practice per week is required of
   students in their major area of concentration. Five hours of practice per week is
   required of all others.

MUS 010 — Solo Class ........................................ No Credit
   Performance opportunity for all students enrolled in Individual Instruction. Required of
   all students enrolled for two hours credit in Individual Instruction, and for Music and
   Music Education Option Students each semester.

MUS 105 — Accompanying ........................................ 1 Credit
MUS 106 — Accompanying ........................................ 2 Credits
   Students with acceptable piano proficiency accompany voice lessons, ensembles,
   and/or recitals. Two voice students assigned per credit hour. Admittance by audition.
   May be repeated for credit. (Students enrolled in MUS 105 or MUS 106 are eligible for
   scholarship awards.)

MUS 020 — Recital ........................................ No Credit
   Required of all Music and Music Education majors in their performance area. Should be
   registered for the last semester before graduation.
   Each of the following courses may be repeated for credit. The course number
   identifies the type of college credit, instrument, and credit hours. Students
   registering for any of the following courses should contact the instructor to
   schedule the lessons.

NSG 111 — Nursing Process Through the Life Cycle I ...............10 Credits
Introduction to the nursing process as it is applied to individuals at various stages throughout the life cycle. Content areas will include the role of nursing and health care delivery, legal and ethical aspects of nursing, basic human needs, communication, application of the nursing process, promotion of comfort and safety, infection control, medication administration, fluids and electrolytes, elimination and oxygenation. Students will practice related skills in the campus laboratory and apply them in the clinical setting. (Prerequisites or Corequisites: NSG 116 and BIO 231)
6 hours lecture — 12 hours clinical

NSG 112 — Nursing Process Through the Life Cycle II .............7 Credits
A continuation of Nursing 111. Students will continue to apply the nursing process to individuals at various stages of the life cycle. New content areas will include homeostasis and adaptation to stress; rest, sleep, and freedom from pain; perioperative care; patient education; nutrition; grief, loss, and death; care of the child-bearing family; sexuality; and developmental responses to illness. Students will practice related skills in the campus laboratory and apply them in the clinical setting. (Prerequisites: NSG 121; Corequisites: NSG 117 and BIO 232)
3 hours lecture — 12 hours clinical

NSG 113 — Fundamentals of Nursing I .............................7 Credits
(Prerequisite: Admission to LPN Mobility Program)

NSG 114 — Fundamentals of Nursing II .............................7 Credits
(Prerequisite: NSG 113)

NSG 116 — Pharmacology in Nursing I .............................2 Credits
This course will introduce the student to drug standards and legislation pertaining to drug therapy; drug preparations; basic principles of drug action; application of the nursing process in drug therapy; pediatric and geriatric implications in drug therapy; distribution systems; drug orders; mathematical principles related to drug preparation and administration; routes of drug administration; drug classifications; basic mechanisms of action, therapeutic applications, and nursing implications. Fall Semester (Prerequisite: Admission into Nursing Program)

NSG 117 — Pharmacology in Nursing II .............................1 Credit
This course will be a continuation of Pharmacology in Nursing I. There will be continuation of discussion of specific drug classifications, basic mechanisms of action, therapeutic applications, and nursing implications. Spring Semester (Prerequisite: NSG 116)

NSG 126 — Pharmacology in Nursing ..............................3 Credits
Includes all content in NSG 116 and 117. (Prerequisites: BIO 231 and BIO 232)

NSG 221 — Nursing Process Through the Life Cycle III ...........10 Credits
Designed to present the student with a knowledge base for contemporary nursing practice. The course content has a pediatric, adult medical/surgical, and psychosocial health needs focus presented within the framework of the nursing process. Classroom and clinical experience are directed toward increasing the student's knowledge of
pathophysiologic disturbances and psychiatric dysfunctions and developing advanced nursing skills in assessment, planning, implementation and patient care. (Prerequisite: BIO 222)

6 hours lecture — 12 hours clinical

**NSG 222 — Nursing Process Through the Life Cycle IV** ......... **12 Credits**
A progression of NSG III with additional physiological and psychosocial health needs. Concurrent focus on exploration of nursing roles, organizational approaches to the delivery of nursing care and contemporary issues in nursing and health care. Clinical experiences focus on refinement of advanced nursing skills.

7 hours lecture — 15 hours clinical

**NSG 231 — Intermediate Nursing** .............................. **3 Credits**
Prerequisite Nursing I and II or equivalent. Intermediate nursing focuses on the role of the registered nurse with emphasis on application of the nursing process. The course also includes components of physical assessment, basic mental health concepts, patient education, fluid and electrolyte balance, intravenous therapy, and nutrition.

**OFFICE ADMINISTRATION**

**OAD 100 — Keyboarding for the Computer** ........................ **1 Credit**
A course designed for individuals with no prior keyboarding experience; develops touch mastery needed for information input; emphasis is on speed and accuracy. A pass-fail grading system will be used. NOTE: This course will not be accepted as part of the Office Administration degree. F, Sp

**OAD 101 — Keyboarding/Formatting** .............................. **3 Credits**
An introduction to keyboarding and basic formatting techniques; this course emphasizes speed and accuracy in developing touch mastery for alphabetic, numeric, and symbol information input. F

5 hours per week — lecture and laboratory

**OAD 102 — Document Processing** ............................. **3 Credits**
Building speed and accuracy; formatting letters, tables, manuscripts, and other business documents with emphasis on timed production. (Prerequisite: OAD 101) Sp

5 hours per week — lecture and laboratory

**OAD 104 — Document Production** ............................. **3 Credits**
Emphasis is placed on productivity, mastery of word processing functions, and the application of communication skills. Activities simulating a variety of different types of offices such as medical, legal, government, etc., are offered. (Prerequisite: OAD 102) F

5 hours per week — lecture and laboratory

**OAD 105 — Business Communications I** ........................ **3 Credits**
This course focuses on the fundamentals of English — parts of speech, word usage, punctuation, capitalization, abbreviations, numbers, spelling, proofreading, editing, etc. F

**OAD 106 — Business Communications II** ...................... **3 Credits**
This course is a study of the communication skills necessary to speak and write clearly in a business environment; emphasis is placed on composing business correspondence and oral presentations. (Prerequisite: OAD 105) Sp

**OAD 111 — Office Machines** ................................. **3 Credits**
This course covers machine transcription with emphasis on production of mailable correspondence and the electronic calculator with emphasis on business math applications. (Prerequisite: OAD 101) Sp

**OAD 121 — Word/Information Processing I** ................. **3 Credits**
This course is a study of the theory, basic concepts, and procedures of word/information processing and the application of basic text editing. (Prerequisite: OAD 101) F
OAD 122 — Word/Information Processing II ................... 3 Credits
This course covers advanced text editing with emphasis on timed production of mailable documents and the automated concepts of electronic mail, desk calculator, time and desk management. (Prerequisite: OAD 121) Sp

OAD 132 — Word Processing on the Microcomputer ............. 3 Credits
Students will learn to use word processing applications software to produce business documents. (Prerequisite: OAD 100 or OAD 101 and CST 102 or permission of instructor) Sp

OAD 133 — Desktop Publishing .................................. 3 Credits
This course covers the basics of desktop publishing and graphics. Terminology, concepts, and applications are included in the preparation of documents such as brochures, newsletters, graphs, and other business correspondence. (Prerequisites: OAD 102 and CST 102 or permission of instructor) Sp

OAD 141 — Notetaking I ........................................... 3 Credits
This course presents the principles of an alphabetic writing system and introduces dictation and transcription for office and personal use. (Prerequisite: OAD 101) F

OAD 142 — Notetaking II ........................................... 3 Credits
Emphasis is placed on developing speed and accuracy for taking light office dictation and transcribing mailable documents. (Prerequisite: OAD 141) Sp

OAD 201 — Administrative Office Management .................. 3 Credits
This course is an integration of in-depth discussion and practical applications of administrative support systems and procedures for the office professional in making contributions to the managerial functions of the electronic office. Sp

OAD 211-215 — Seminar in Office Administration ............... 1-3 Credits
An updating or analysis of a particular topic, concern, or problem in office administration. May include courses in preparation for the CPS exam and/or recertification.

OCCUPATIONAL THERAPY ASSISTANT

All OTA courses are required to be taken in sequence, as listed in the degree checklist. Admission to the program is required prior to taking OTA courses.

OTA 102 — Introduction to Occupational Therapy ............... 2 Credits
An introduction to the health care system and to the profession of occupational therapy. Included are the history and philosophical base of the profession and its personnel, an overview of medical terminology, application of learning style, and an orientation to ethics. F

2 hours lecture/week

OTA 103 — Therapeutic Activities ............................... 4 Credits
Analysis and performance of a variety of media emphasizing the concept of activity as therapeutic. Students will learn the grading and adaptation of selected activities and have the opportunity to order supplies, learn safety and maintenance of equipment, and to teach activities. F

2 hours lecture — 4 hours laboratory/week

OTA 104 — Rehabilitation Communication ........................ 2 Credits
This course includes information on written and oral communication used by rehabilitation professionals. Included are medical terminology, a study of the patient medical record, patient documentation, and use of focused professional literature to write abstracts and perform medical literature reviews. Emphasis will be on practical use of medical terminology and the medical documentation. Course prerequisite: Admission to OTA or PTA Program and ENG 101. F

2 hours lecture
OTA 110 — Theory and Treatment of Psychosocial Dysfunction ..... .5 Credits
Description of psychosocial dysfunctions commonly treated in occupational therapy. Theories of occupational therapy treatment will be explored and students will practice a variety of techniques used in identifying and treating psychosocial disorders. Sp
4 hours lecture — 3 hours laboratory/week

OTA 115 — Level I Psychosocial Fieldwork ......................... .2 Credits
Directed observation and participation in either psychosocial or pediatric setting to learn the clinical application of occupational therapy principles and techniques. Sp
15 hours lecture — 40 hours clinical fieldwork

OTA 116 — Neurological Theory and Treatment ..................... .3 Credits
Student will review basic neuroanatomy, neurophysiology and learn pathologies commonly seen in OT. Students will apply treatment principles in lab. Sp
2 hours lecture — 3 hours laboratory

OTA 210 — Theory and Treatment of Physical Dysfunction .......... .5 Credits
The student will learn about physical pathologies and disabilities commonly seen in occupational therapy as well as current treatment techniques and methods. Treatment applications and rationale will be explored in lecture and laboratory with simulated treatment practice. Sp and Su
4 hours lecture — 3 hours laboratory/week

OTA 212 — Occupational Therapy Practice Management ............ .2 Credits
Basic knowledge of the responsibilities of an OT department and in the health care setting. Planning and management of activity service is included. Current topics and issues in OT practice as well as the changing role from student to employee are explored. Sp
30 clock hours lecture/semester

OTA 216 — Pediatric Theory and Treatment ......................... .5 Credits
Descriptions of commonly treated disorders in children and developmentally disabled individuals. Occupational therapy treatment techniques, rationale and application are presented. Laboratory experience will include basic treatment skills and simulated treatment practice using purposeful activities. F
4 hours lecture — 3 hours laboratory

OTA 217 — Level I Physical Disability Fieldwork .................... .2 Credits
Students will participate in occupational therapy treatment of adults with physical dysfunctions in clinical setting. F
15 hours lecture — 40 hours clinical fieldwork

OTA 220 — Psychosocial Fieldwork ................................. .6 Credits
Supervised fieldwork in an approved psychosocial clinical setting. (Prerequisite: All required coursework must be completed.) Sp
240 total hours (40 hours per week)

OTA 225 — Physical Disability Fieldwork ........................... .6 Credits
Supervised fieldwork in an approved physical disability clinical setting. (Prerequisite: All required coursework must be completed.) Sp
240 total hours (40 hours per week)

OPTICIANRY

OPT 101 — Introduction to Opticianry ............................. .5 Credits
A general overview of the field of Opticianry, intended to provide the student with a broad base for more advanced study. Included is the history of Opticianry, the visual sense, basic geometric optics, normal and abnormal vision, lens theory and design, frame design and principles of decentration, government regulations and licensure, as well as an introduction to the ophthalmic dispensing clinic.
4 hours lecture — 3 hours clinic

<tbody>
<tr>
<td>OPT 110</td>
<td>Ophthalmic Dispensing I</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>A continuation of Introduction to Opticianry to include frame fit and adjustment, prescription analysis, visual acuity, resolving prisms, influence of vertex distance on prescription, and introduction to presbyopia.</td>
<td></td>
</tr>
<tr>
<td>OPT 120</td>
<td>Ophthalmic Materials I</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>This course is designed to introduce the student to the most commonly used ophthalmic devices, and the physical make-up of these devices. This includes single vision lenses, spectacle frames, and bifocal lenses, with special emphasis on how these devices are produced. Also included is an introduction to fabrication of lenses, developing a basis for layout, blocking, grinding, and verification procedures.</td>
<td></td>
</tr>
<tr>
<td>OPT 123</td>
<td>Geometric Optics for Opticians</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Surveys basic elements of geometric optics. Explores basic theories of light, shadow optics, mirrors, thin lenses, single spherical refracting surfaces. Deals with thick lenses, vergence angular magnification, and telescopes. Emphasizes ray tracing and calculations. (Prerequisite: MAT 110).</td>
<td></td>
</tr>
<tr>
<td>OPT 130</td>
<td>Contact Lenses I</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>An introduction to the fitting of contact lenses, following the history of contact and the development of new contact lens materials. Advantages and disadvantages of these materials are outlined, as well as indications and contra-indications to contact lens wear. Emphasis is placed on the optical principles behind contact lens correction, and the introduction of basic skills with related instrumentation.</td>
<td></td>
</tr>
<tr>
<td>OPT 140</td>
<td>Practicum</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Supervised fieldwork in a retail dispensary under a licensed optician, optometrist, or ophthalmologist.</td>
<td></td>
</tr>
<tr>
<td>OPT 143</td>
<td>Anatomy and Physiology of the Eye</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>A detailed study of the structures and functions of the eye and its adnexa, as well as an overview of common ocular pathologies.</td>
<td></td>
</tr>
<tr>
<td>OPT 210</td>
<td>Ophthalmic Dispensing II</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>A continuation of Ophthalmic Dispensing I to include the optical properties of spectacle lenses and their relationship to the patient's refractive error, the spectacle management of presbyopia, the spectacle management of high power prescriptions and prescription analysis.</td>
<td></td>
</tr>
<tr>
<td>OPT 220</td>
<td>Ophthalmic Materials II</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>A continuation of Ophthalmic Materials I, stressing: multifocal lenses - bifocals, trifocals, occupational, blended and progressives. Increased hands-on experience with lens edging, including insertion, removal, and bench adjustment of spectacles. ANSI standards applied to all lab work.</td>
<td></td>
</tr>
<tr>
<td>OPT 230</td>
<td>Contact Lenses II</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>Continuation of Contact Lenses I with increased attention to lens selection and design. Fitting philosophies of hydrogel and gas permeable contact lenses are put into practice, and follow-up care is stressed. Insertion, removal, and diagnostic skills are increased.</td>
<td></td>
</tr>
<tr>
<td>OPT 260</td>
<td>Ophthalmic Dispensing III</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>A continuation of Ophthalmic Dispensing II to include advanced prescription analysis, clinical astigmatism, fashion spectacle dispensing, aniseikonia, low vision care, clinical</td>
<td></td>
</tr>
</tbody>
</table>
types of hyperopia, ocular injuries and emergencies, visual field anomalies, orthoptics, prosthetic eyes, ophthalmic instrumentation, and theory of refraction.

4 hours lecture — 3 hours clinic

**OPT 270 — Ophthalmic Materials III**  ........................................... 4 Credits
A continuation of Ophthalmic Materials II to include cataract eyewear, glass lens tempering, high minus lens designs/materials, and a variety of specialty lenses. Practice management including: ordering, inventory, duty to warn, equipment maintenance, semantics and salesmanship. Licensed professional responsibilities are presented, along with the latest trends (fashion, technological breakthroughs). Advanced spectacle fabrication in the lab, to include: semi-rimless mounts, various repairs, progressive lenses, bifocal projects, and prism Rxs.

3 hours lecture — 3 hours laboratory

**OPT 280 — Contact Lenses III**  ........................................... 4 Credits
Continuation of Contact Lenses II, dealing mainly with special fitting problems and special lens designs. Practice management techniques are included, as well as continued use of all needed instrumentation.

3 hours lecture — 3 hours laboratory

**PHILOSOPHY**

**PHL 101 — Introduction to Philosophy**  ........................................... 3 Credits
A study of problems that confront humans as they deal with knowledge and the nature of the world and their interaction with it.

**PHL 111 — Elementary Logic**  ........................................... 3 Credits
Study of the principles of reasoning, deductive and inductive fundamentals, and the use of logic as a practical tool.

**PHL 121 — Elementary Ethics**  ........................................... 3 Credits
Critical analysis of the principal ethical theories and their application to the problems of life.

**PHL 130-150 — Philosophy Seminar**  ........................................... 1-3 Credits
This course is designed to give students an in-depth study of a particular topic in the contemporary branches of philosophy.

**PHL 201 — Introduction to Religions of the World**  ........................................... 3 Credits
Introduction to the study of religion through selected historical traditions, East and West.

**PHL 231 — Medical Ethics**  ........................................... 3 Credits
Deals with ethical issues in allied health fields such as abortion, euthanasia, patient-professional relationships, allocation of medical resources, genetic engineering, and related topics.

**PHLEBOTOMY**

NOTE: All Phlebotomy courses must be taken concurrently. Admission to the Phlebotomy program is required prior to taking any PLB courses.

**PLB 101 — Anatomy, Physiology, and Terminology**  ........................................... 2 Credits
This course introduces the student to basic human anatomy and physiology using a systems approach which integrates appropriate medical terminology.

2 hours lecture

**PLB 102 — Health Care Concepts**  ........................................... 2 Credits
This course introduces the student to the health care delivery system. It includes basic concept of communication, stress management, professional behavior, and legal concerns. It also includes an introduction to the function of the medical laboratory.

2 hours lecture
PLB 111 — Phlebotomy Techniques ........................................... 4 Credits
This course teaches basic technical skills necessary for a phlebotomist, including equipment use, venipuncture, capillary puncture, infection control, safety, and appropriate transportation of specimens.
3 hours lecture — 3 hours laboratory

PLB 112 — Phlebotomy Clinical ............................................. 4 Credits
This course consists of supervised clinical experience in phlebotomy.
120 clinical hours

PHYSICAL EDUCATION

PED activity classes meet twice a week for the entire semester, with the exception of the video course. Challenge exams and/or proficiency exams are NOT given for PED activity classes.

PED 110 — Fitness Walking .................................................. 1 Credit
Proper techniques for walking for fitness. Emphasis on health benefits of walking.

PED 112 — Slimnastics ....................................................... 1 Credit
For those interested in losing body fat and improving physical fitness.

PED 113 — Aerobics ............................................................. 1 Credit
A continuation of slimnastics, emphasizing cardiorespiratory endurance and changes in the body composition.

PED 117 — Basketball .......................................................... 1 Credit
Practice of fundamentals as well as the various types of play.

PED 118 — Bowling .............................................................. 1 Credit
Proper selection of equipment, correct method of approach and release of the bowling ball, and scoring. A fee will be charged for facility and equipment rental. F, Sp

PED 119 — Folk Dance .......................................................... 1 Credit
Instruction in dances from various countries, including square dances.

PED 121 — Golf ................................................................. 1 Credit
Acquaintance of the beginning player with correct swing, selection and use of the various clubs, and fundamentals.

PED 122 — Soccer .............................................................. 1 Credit
Instruction and practice in the fundamental skills of soccer.

PED 123 — Social Dance ......................................................... 1 Credit
Instruction, practice, and teaching in basic social dance steps.

PED 130 — Weight Training .................................................... 1 Credit
An introduction to the proper techniques and practices of weight training.

PED 132 — Racquetball ........................................................ 1 Credit
Instruction and practice in racquetball fundamentals. A fee will be charged for facility use.

PED 133 — Softball ............................................................. 1 Credit
Instruction and practice in the fundamentals of catching, batting, and backing up other positions. Rules and strategies.

PED 134 — Tennis .............................................................. 1 Credit
Instruction and practice in the development of basic strokes, rules, and terminology, with emphasis on learning to play singles and doubles.

PED 135 — Volleyball ........................................................... 1 Credit
Fundamentals, rules, and strategy of play.
PED 136 — Skiing ........................................... 1 Credit
Instruction and practice for the development of skiing skills. Class will be held at Ober-Gatlinburg on four sessions. A fee for facility use, ski rental, lift tickets, and insurance will be charged for this activity.

PED 175 — Concept of Wellness ............................ 2 Credits
A course that emphasizes a six-dimensional model of wellness (physical, emotional, occupational, social, spiritual, and intellectual). This course will stress the importance of creating a balance of these dimensions that make up our daily lives. This course will fulfill requirements of one physical education activity course.

PED 231 — Wilderness Camping ........................... 3 Credits
A course designed to inform the novice through the experienced outdoors-person on the latest equipment, techniques, and clothing for safe hiking and camping. Students may apply this course toward one of the required physical education activity courses.

PED 251 — Swimming ........................................ 1 Credit
Training for beginners in swimming, emphasizing recreational swimming. A special fee will be charged for this course based on facility rental charges.

PHYSICAL THERAPIST ASSISTANT
All PTA courses must be taken in appropriate sequence, as listed in the degree checklist. Admission to the PTA program is required prior to taking any PTA courses.

PTA 102 — Introduction to Physical Therapy ............... 2 Credits
This course introduces the student to the profession of physical therapy and the concepts of the total patient. It includes the purpose, philosophy and history of the profession of physical therapy. Current issues in health care which impact physical therapy are investigated and discussed. It provides information about the role of the physical therapist assistant in terms of professional, legal, and ethical standards. It also provides an introduction to the concepts of disability, cultural diversity and ethical decision making. F, Sp
2 hours lecture

PTA 121 — Kinesiology ..................................... 3 Credits
This course introduces the student to normal muscle and joint function as related to physiological and mechanical principles. It also includes the functional aspects of the musculoskeletal system. Practical applications and an introduction to abnormal function are included. F
2 hours lecture — 3 hours laboratory

PTA 141 — Patient Care Techniques ........................ 4 Credits
This course introduces the student to basic skills necessary for safe care of the patient and teaches the theory and techniques of basic patient care procedures. F
2 hours lecture — 6 hours laboratory

PTA 151 — Therapeutic Modalities .......................... 5 Credits
This course discusses the general principles of therapeutic heat, cold, electricity, light, massage, intermittent compression, hydrotherapy, pool therapy and traction. The physiologic effects, indications, contraindications and appropriate application of numerous modalities are presented. F
3 hours lecture — 6 hours laboratory

PTA 202 — Treatment of Orthopedic Conditions ............ 5 Credits
This course introduces the student to the fundamentals of therapeutic exercise and common orthopedic conditions and related therapeutic procedures, including the following: goniometry, skeletal and soft tissue conditions of the spine, upper extremities, and lower extremities, and generalized arthritic conditions. There will be opportunity to learn and practice specific treatment techniques for these conditions. F
4 hours lecture — 3 hours laboratory
PTA 212 — Treatment of Neurological Conditions ............... 5 Credits
This course introduces the student to common neurological pathologies and to concepts of rehabilitation and accepted treatment techniques. The student is introduced to basic techniques which the PTA may use and advanced techniques used by the physical therapist. Study of normal movement, abnormal movement, developmental sequence and muscle testing is included. F
4 hours lecture — 3 hours laboratory

PTA 214 — Treatment of Medical/Surgical Conditions ............. 3 Credits
This course introduces the student to common medical and surgical conditions and their management. Sp
3 hours lecture

PTA 222 — Treatment of Medical/Surgical Conditions ............ 5 Credits
This course introduces the student to common medical and surgical conditions and related therapeutic procedures, including the following: cardiac disease, respiratory disease, peripheral vascular disease, diabetes, AIDS, obstetrical and gynecological conditions, amputations and prosthetics, orthotics, burns, wound care, chronic pain, oncology and abdominal surgery. In addition, concepts of dealing with the pediatric and geriatric patient are investigated as well as principles of pharmacology and wellness. Sp
4 hours lecture — 3 hours laboratory

PTA 232 — Assessment Skills ........................................ 1 Credit
This concentrated course presents the background information and procedure for performing goniometric measurements, manual muscle testing and fitness screening. It includes the use of these skills by the physical therapist assistant for documentation of patient outcomes. The class requires hands on practice to achieve minimal competency. Sp
1 week/30 hours laboratory

PTA 235 — Advanced Physical Therapy Procedures I ........... 6 Credits
This course introduces the student to the fundamentals of therapeutic exercise. Rehabilitation concepts and procedures are discussed and practiced in terms of goals, indications, contraindications, progression, modifications, adaptations and documentation per patient status. Treatment of common orthopedic conditions, cardiovascular conditions and amputations are also presented. Sp
4 hours lecture — 6 hours laboratory

PTA 236 — Advanced Physical Therapy Procedures II ........... 6 Credits
This course introduces the student to the fundamentals of motor retraining in the adult and pediatric patient with neurological damage. Study of normal/abnormal movement, developmental sequence of gross and fine motor skills and motor skill acquisition across the life span are included. Treatment of common neurological, respiratory and ob/gyn conditions are presented. Rehabilitation concepts and procedures are discussed and practiced in terms of goals, indications, contraindications, progression, modifications, adaptations and documentation per patient status. Sp
4 hours lecture — 6 hours laboratory

PTA 237 — Clinical Preparation ..................................... 2 Credits
This course prepares the PTA student for their final clinical experiences and entry into the field as a physical therapist assistant. The basic principles of administration, management, the supervisory process, performance evaluations, and fiscal considerations are presented. Strategies for obtaining employment are discussed. Effective techniques for inservice presentation, resume writing, interview performance are presented and practiced. Cultural diversity and ethical decision making are reinvestigated. Sp
2 hours lecture

PTA 243 — Seminar ...................................................... 3 Credits
This course provides information directly related to clinical practice. Included is an overview of adjustment to disability and to the aging process. The basic principles of administration, management, the supervisory process, performance evaluations, and fiscal considerations are presented. Strategies for successfully completing the State
Licensure Exam and obtaining employment are discussed. Plans for the final clinical experience are completed. Sp

3 hours lecture

**PTA 244 — Seminar** .................................................1 Credit
This concentrated course completes the transition from student to physical therapist assistant. Case studies prepared by the students during their summer clinicals are presented and discussed. Additional attention to cultural diversity and ethical issues is provided. Strategies for successfully completing the State Licensure Exam are discussed. Employment issues are addressed and a mock board exam is offered. Su
1 week/15 hours

**PTA 249 — Clinical Education I** .........................................3 Credits
Supervised patient care and clinical observation for the PTA student. Included are some pre-clinical requirements; such as professional development evaluation and counseling, instruction in and proof of competency with the evaluation tools used to evaluate student performance. F
120 hours clinic

**PTA 252 — Clinical Education II** .........................................4 Credits
Supervised patient care and clinical observation for the PTA student. (Prerequisite: Clinical Education I) F
160 hours clinic

**PTA 253 — Clinical Education III** .........................................6 Credits
Supervised patient care and clinical observation for the final semester PTA student. (Prerequisite: Clinical Education II) Sp
240 hours clinic

**PTA 254 — Clinical Education II** .........................................5 Credits
Supervised patient care and clinical observation for the final-semester PTA student. Su
200 hours clinic

**PTA 255 — Clinical Education III** .........................................5 Credits
Supervised patient care and clinical observation for the final-semester PTA student. Su
200 hours clinic

**PHYSICS**

**PHY 101 — Survey of Physics** .........................................4 Credits
This survey course will touch on the basic principles of physics with an emphasis on understanding the concepts involved (as opposed to the calculational aspects). Math will be used when needed to understand physical relationships, or to familiarize you with some of the great concepts that changed the world. When you leave this course, you should be able to have informed opinions on current science issues.
3 hours lecture — 3 hours laboratory/recitation

**PHY 121 — Introductory Astronomy I** .....................................4 Credits
An introductory survey, with accompanying laboratory, treating the composition, structure, and dynamics of the universe and introducing the basic vocabulary of astronomy and the principles of the scientific method. Components of the solar system are discussed, and hypotheses and theories of the origin and evolution of the solar system are considered in the light of current knowledge and scientific reasoning. F
3 hours lecture — 2 hours laboratory

**PHY 122 — Introductory Astronomy II** .....................................4 Credits
A continuation of Introductory Astronomy I in which the sequence of stellar birth, evolution, and death is studied. Characteristics of galaxies and of the beginning of the universe are considered in view of modern astrophysics and particle physics. Principles of interpreting astronomical observations are reinforced through laboratory experience. (Prerequisite: PHY 121)S
3 hours lecture — 2 hours laboratory
PHY 201 — General Physics I ........................................... 4 Credits
Covers mechanics, wave motion, and heat. (Prerequisite: College algebra and trigonometry such as Pre-calculus, or equivalent) Must be taken in sequence. F
3 hours lecture — 3 hours laboratory

PHY 202 — General Physics II ........................................... 4 Credits
Covers electricity and magnetism, optics, and modern physics. (Prerequisite: PHY 201) Sp
3 hours lecture — 3 hours laboratory

PHY 205 — Fundamentals of Physics I ................................ 3 Credits
Electricity and magnetism for engineers and Arts and Sciences and for majors in mathematics and the physical sciences. (Prerequisite: ESC 121-131 of PHY 211. Corequisite: MAT 241)
2 hours lecture — 3 hours laboratory/recitation

PHY 207 — Fundamentals of Physics II ................................ 4 Credits
Wave motion, optics and Modern Physics. A continuation of PHY 205. (Prerequisite: PHY 205 or PHY 211. Corequisite: MAT 241)
3 hours lecture — 3 hours laboratory/recitation

PHY 211 — Physics I ......................................................... 4 Credits
Covers mechanics, wave motion, and heat (Prerequisite: MAT 141 -Calculus I.) Must be taken in sequence. F
3 hours lecture — 3 hours laboratory/week

PHY 212 — Physics II ......................................................... 4 Credits
Covers electricity and magnetism, optics, and modern physics. (Prerequisite: PHY 211) Sp
3 hours lecture — 3 hours laboratory/week

PHY 221 — Modern Physics ............................................... 3 Credits
Modern physics principles including wave and particle properties of matter and energy, relativity, structure of matter, quantum theory, and nuclear physics. (Corequisite: PHY 212) Sp
2 hours lecture — 3 hours laboratory

PHY 231- 259 — Independent Scientific Investigation ............. 2 Credits
Independent research and development in physics by qualified students under the supervision of a faculty member. Especially intended to develop interest and skill in the techniques of physics research and development. Up to six hours credit may be earned. (Consent of the faculty member.)

POLICE SCIENCE

PST 101 — Introduction to Law Enforcement .......................... 3 Credits
Philosophical and historical background; agencies and respective jurisdictions; police ethics, public relations and career orientation. F

PST 111 — Criminal Procedure ........................................... 3 Credits
A study of legal concepts and procedures, including the laws of arrest and search warrant procedure, beginning with the issuance of legal process to ultimate court disposition. Sp

PST 112 — Court Procedures .............................................. 3 Credits
An introduction and study of court procedures and specifically rules of evidence for all career areas of the criminal justice systems. Content will range from the basic considerations of relevancy through qualifications of witnesses to specific evidential problems. Sp

PST 201 — Police Administration and Organization ................ 3 Credits
A study of police organizations, their hierarchical structure, techniques of administration and management utilized in standard police organizations with emphasis on problems of supervision, responsibility and control of police units. F

PST 213 — Criminal Investigation ....................................... 3 Credits
Fundamentals of criminal investigation procedures; crime scene search and recording, collecting and preserving evidence; scientific and technical aids; case preparation. F, Su
PST 221 — Criminal Law ............................................ 3 Credits
An introduction to the theory and practice of basic scientific techniques utilized in the investigation and solving of crime. The procedures which will be presented by means of classroom lectures, demonstration sessions and practical laboratory periods will emphasize the proper handling and examination of evidence, fingerprinting, photography, glass fractures, casts and molds, narcotics and preparations, and crime scene searches. Sp, Su

PST 231 — Seminar in Police Problems .......................... 3 Credits
A course designed to consolidate the various learning experiences in police science. Emphasis is placed on special problems. Sp

POLITICAL SCIENCE

POL 101 — United States Government and Politics ............. 3 Credits
An introduction to the fundamental institutions and processes of American national politics including the constitution, civil liberties, political parties, voting, the presidency, congress, and the courts. F

POL 102 — Introduction to Political Science ........................ 3 Credits
An introduction to the analysis of politics and of political systems and political ideologies in various countries. Sp

NOTE: POL 102 H, Honors is an enriched introduction to Political Science with extra readings, less lecture and more discussion. (Prerequisite: Consent of instructor.) As needed.

POLYSOMNOGRAPHY

PSG 101 — Introduction to Polysomnography ....................... 4 Credits
Introduces the student to neuroanatomy and physiology, respiratory and cardiac functions, and medical guidelines.

4 hours lecture

PSG 110 — Basic Polysomnography .................................. 4 Credits
Introduces the student to the 10-20 System monitoring system, EEG waveforms and pattern recognition, electronics of the polygraph and EKG and arrhythmias.

4 hours lecture

PSG 120 — Advanced Polysomnography ............................. 4 Credits
Students will learn how to recognize artifacts and elimination, abnormal EEG patterns, localization and polarity, scoring, electrical safety and ancillary equipment.

4 hours lecture

PSG 130 — Clinical Polysomnography ............................. 5 Credits
Course consists of learning sleep disorders and treatments, calculations and computations, and troubleshooting problems. The student will also learn about Continuous Positive Airway Pressure (CPAP), Multiple Sleep Latency Test (MSLT), Nocturnal Penile Tumescence (NPT), and Nocturnal Polysomnogram.

16 hours clinical

PSYCHOLOGY

PSY 101 — General Psychology I .................................... 3 Credits
Definition of psychology and its relationship to the scientific method. Study of brain processes, sensation, perception, motivation, emotion, learning, memory, language, and thought as aspects of behavior. F, Sp, Su

NOTE:PSY 101 H, Honors General Psychology I, is an enriched introduction to psychology with extra readings, less lecture, and more discussion. (Pre-requisite: Consent of instructor)
PSY 102 — General Psychology II ........................................... 3 Credits
Continuation of PSY 101. Development, statistics, intelligence, personality, assessment, stress, abnormal behavior, psychotherapy, social psychology, and applied psychology. Sp

NOTE: PSY 102 H, Honors, General Psychology II, is an enriched completion of the survey of psychology with extra readings, less lecture and more discussion. (Prerequisite: Consent of instructor)

PSY 211 — Educational Psychology ........................................ 3 Credits
Focuses on making education in the classroom more effective by applying specific principles from the following areas of psychology: development, learning, motivation, evaluation, individual differences and adjustment. Cross-listed as EDU 211. (Recommended: PSY 101 and/or PSY 102) F, Sp

PSY 213 — Abnormal Psychology ........................................... 3 Credits
Definition of abnormal behavior. Survey of development and treatment of anxiety disorders, affective disorders, schizophrenia, paranoid disorders, personality disorders, organic mental disorders, somatoform disorders, dissociative disorders, childhood disorders, psychosexual disorders, and drug dependence. Recommended: PSY 101 and/or PSY 102. F

PSY 221 — Developmental Psychology: Childhood Through Early Adolescence ........................................ 3 Credits
Physical, cognitive, social, and emotional influences on normal growth and development during childhood and early adolescence. (Recommended: PSY 101 and/or PSY 102) F, Sp

PSY 222 — Developmental Psychology: Mid-Adolescence Through Adulthood ........................................ 3 Credits
Physical, cognitive, social, and emotional influences on normal growth and development during mid-adolescence and adulthood. (Recommended: PSY 101 and/or PSY 102) Sp

PSY 231 — Social Psychology ........................................... 3 Credits
Individual behavior as it is influenced by social context. Considers prejudice, attitude change, aggression, interpersonal attraction, and the individual in groups. Recommended: PSY 101 and/or PSY 102. As needed

RADIOLOGIC TECHNOLOGY

RDT 102 — Introduction to Radiologic Technology ......................... 4 Credits
Orientation to the profession, the radiology department, and the hospital. Major areas of study include: basic radiation protection, darkroom management, body mechanics, fire and electrical safety, medical ethics, patient care, and medical terminology. F
4 hours lecture

RDT 103 — Image Analysis I ................................................... 1 Credit
Evaluation of the image for positioning and technical quality. Identification of pertinent anatomical structures. Areas of study include: chest, abdomen, and contrast studies. F
1 hour laboratory

RDT 105 — Clinical Education I .............................................. 6 Credits
Practical application in the radiology department. Skills include application of technical factors, radiographic positioning, patient interaction, and professional behavior. Students must demonstrate competence by performing radiologic examinations unassisted. F
16 hour clinical experience

RDT 109 — Clinical Education II ............................................ 6 Credits
Continuation of Clinical Education I. Sp
16 hours clinical experience

RDT 110 — Image Analysis II ................................................... 1 Credit
Continuation of Image Analysis I. Areas of study include: upper and lower extremities, hip/pelvis, bony thorax, and vertebral column. Sp
1 hour laboratory

REAL ESTATE (SEE BUSINESS)

RECREATION

REC 201 — Social Recreation ........................................ 3 Credits
Introduces methods and materials for planning, organizing, and conducting social activities for groups of various sizes and ages in a variety of social situations. Emphasis is on the mechanics of planning and presenting a repertoire of activities for social recreation events. Major activities will be discussed, played, and/or demonstrated.

REMEDIAL STUDIES

NOTE: Courses in this program cannot be used to satisfy the minimum number of hours required for graduation. Evidence of competencies in these areas is prerequisite for college courses numbered 100 or above.

RSM 072 — Basic Mathematics Skills ................................ 2 Credits
Basic Mathematics stresses basic arithmetic, math concepts and is calculator-based. Fractions, decimals, percentages, and word problems are emphasized. Satisfactory completion of this course or other evidence of competencies in these areas is a prerequisite for DSM 081 - Elementary Algebra. F, Sp, Su

RSE 073 — Basic Writing Skills ........................................ 2 Credits
This course is designed to develop basic skills essential in writing standard English. Emphasis will be given to basic mechanics of spelling, punctuation, capitalization, pronoun usage, verb tense, sentence structure and paragraph development. Satisfactory completion of this course or other evidence of competencies in these areas is a prerequisite for DSE 080 (Effective Writing) and DSE 083 (Writing Fundamentals). F, Sp, Su

RSR 076 — Basic Reading Skills ........................................ 2 Credits
This course is designed to develop fundamental reading skills through systematic approaches to instruction in vocabulary and comprehension. Special emphasis is given to individual assessment and remediation. Satisfactory completion of this course or other evidence of competencies in these areas is a prerequisite for DSR 085 (Developmental Reading) and DSR 086 (Critical Reading). F, Sp, Su

RESPIRATORY THERAPY

RTT 114 — Respiratory Care I .......................................... 3 Credits
Course will discuss the following information: ethical/legal issues as they pertain to the respiratory care profession. Patient assessment techniques to include vital signs, cardio/thoracic assessment, radiographic, diagnostic, and laboratory tests and results. Introduction to charting, utilization of the SOAP technique, and other relative patient information. Principle, operation, maintenance, and troubleshooting of compressed gas sources and gas administration devices. An introduction of humidity and aerosol theories and therapies and an introduction to compressed gas monitoring equipment.
3 hours lecture — 3 hours laboratory

RTT 115 — Respiratory Clinics I ...................................... 1 Credit
Students will be introduced to the clinical sites, volunteer instructors, and will get an understanding of the clinical policies and procedures. Observation of the workings of
respiratory care departments will be noted by the student. Use and understanding of the patient medical record will be obtained by the student.

8 hours clinical experience

**RTT 116 — Respiratory Care II** ............................................. 3 Credits

Course will be a continuation of Respiratory Care I. In this course, the following will be discussed: therapeutic aerosol delivery both long and short term. Aspects of airway care to include: tracheal aspiration, types of uses of various airways, intubation/extubation techniques, cuff care, and trach care procedures will be discussed. Procedure and theory of hyperinflation therapy to include: deep breathing and coughing techniques, Sustained Maximal Inspiration SMI therapy, and Intermittent Positive Pressure Breathing (I.P.P.B.) will be discussed. Positive End Pressure (PEP) therapy will also be discussed in this course.

3 hours lecture — 3 hours laboratory

**RTT 117 — Respiratory Clinics II** ............................................. 3 Credits

Students will apply procedural methods learned in Respiratory Care I: this will include application of medical gases, oxygen delivery equipment, use of aerosol and humidity devices, patient assessment and vital signs. Continuation of patient studies using the medical record will be performed. Infection control and practice in communication skills with patients and medical personnel. Students will complete scheduled medical rounds with specific physicians.

16 hours clinical experience

**RTT 121 — Cardiopulmonary-Renal Anatomy and Physiology** .......... 4 Credits

An in-depth study of the structure and function of the cardiopulmonary and renal organ systems, including the study of hemoglobin, oxygen, carbon dioxide, and acid base balance in health and disease. (Spring Semester - First Year)

4 hours lecture

**RTT 131 — Pathology of Respiratory Diseases I** ............................. 2 Credits

A study of common respiratory abnormalities. Anatomical alterations of the lungs due to disease, the etiology of the disease, the major respiratory-related clinical manifestations associated with the disease process, and treatment of the disease will be studied. (Spring Semester - First Year)

2 hours lecture

**RTT 214 — Respiratory Care III** ............................................. 3 Credits

Course will primarily discuss the concepts and physiological effects of mechanical ventilation. The various types of ventilators from hand-held devices to computer controlled devices will be discussed. Various ventilator adjuncts such as P.E.E.P., C.P.A.P., S.I.M.V., Pressure Support, and others will be discussed in this course. Mechanical ventilation preparation, set-up, monitoring, and troubleshooting will be discussed in detail.

3 hours lecture — 3 hours laboratory

**RTT 215 — Respiratory Clinics III** ............................................. 5 Credits

Students will be introduced to critical care medicine during this rotation. Students will perform those procedures studied in Respiratory Care II. Continuation of medical rounds with physicians and studies and presentations of patient medical records.

16 hours clinical experience

**RTT 216 — Respiratory Care IV** ............................................. 3 Credits

This course will be a continuation of Respiratory Care III. Special ventilatory techniques will be discussed to include: inverse ratio ventilation, independent lung ventilation, high frequency ventilation, airway pressure release ventilation, pressure controlled ventilation, and other new ventilator modalities will be discussed. The theory, application, and troubleshooting of monitoring devices used in conjunction with mechanical ventilation will be discussed. This will include: pulse oximetry, capnography, P-100 studies, apnea monitors, metabolic studies, and other devices used to monitor ventilator patients.

3 hours lecture — 3 hours laboratory
RTT 217 — Respiratory Clinics IV ...........................................5 Credits
Students will begin work in the critical care areas. Procedures learned in Respiratory Care III will be used by the student. Students will continue physician rounds during this rotation. Students will gain experience in the use of advanced patient monitoring equipment and will begin working with various mechanical ventilators. Students will also gain knowledge in and perform in pulmonary function laboratories. Observation of special respiratory care procedures will be completed by the student.

16 hours clinical experience

RTT 218 — Respiratory Care V ...........................................3 Credits
This course will be designed to introduce the student to the special therapeutic and diagnostic procedures in respiratory care. Elements of home care to include: equipment, patient/environmental assessment, and state and federal regulations. Theory and introduction to special diagnostics such as bronchoscopy, chest tube care, stress testing, pulmonary rehabilitation, transporting patients, metabolic studies, and brachytherapy. Theory and procedure of ventilator weaning will be discussed in detail. Patient education methods will be introduced. Students will be introduced to research methods as they relate to respiratory care. Hyperbaric medicine and sleep medicine will be presented during this course. Care of patients in the sub-acute care will be introduced to the student.

3 hours lecture — 3 hours laboratory

RTT 219 — Respiratory Clinics V ...........................................7 Credits
Students will continue work in the critical care areas and will work with and perform those modalities discussed in Respiratory Care IV. The students will also gain experience in special respiratory care procedures: bronchoscopy lab, PFT lab, metabolic lab, hyperbaric lab, etc. Student will continue to complete scheduled medical rounds with physicians: to include working with the physician in the physician’s office and attending seminars and classes with the physician. Student will also gain knowledge of and work in the pediatric and neonatal intensive care areas. Rotations in pulmonary rehabilitation/sub-acute care will also be completed by the student. Student will also gain knowledge and experience in elements of respiratory home care therapy. Students must also complete a final clinical summation evaluation during this clinical rotation.

18 hours clinical experience

RTT 231 — Pathology of Respiratory Diseases II ..........................2 Credits
A continuation of Pathology of Respiratory Diseases I. (Summer Semester - First Year)

2 hours lecture

RTT 241 — Neonatal and Pediatric Respiratory Care I ..........................2 Credits
A detailed study of respiratory care concepts and techniques in neonatal and pediatric medicine. (Fall Semester - Second Year)

2 hours lecture

RTT 242 — Neonatal and Pediatric Respiratory Care II ..........................2 Credits
A continuation of Neonatal and Pediatric Respiratory Care I. A close look at advanced equipment used in this specialty area as well as disease processes. (Spring Semester - Second Year)

2 hours lecture

RTT 253 — Pulmonary Function Methodology .................................3 Credits
The study of pulmonary concepts and techniques including specialized studies and evaluations.

3 hours lecture

RTT 260 — Hemodynamics and Rhythms .................................3 Credits
This course will introduce the student to the following: Theory and application of cardiac output measurement. Arterial line insertion techniques, care, and hazards. Hemodynamic studies to include: insertion, care, and hazards of flow directed balloon tipped catheter and the central venous pressure catheter. Pressure monitoring will discuss central venous pressures, right arterial pressures, right ventricular pressures, pulmonary artery pressures, and pulmonary occluding pressures. Study will also introduce the student to equipment associated with hemodynamic monitoring such as: transducers and
monitoring devices. Waveform interpretation with clinical application will be discussed. Fundamentals of electrocardiography will be introduced to include: lead application, pharmacology for the cardiovascular problems, and tracing interpretation. Studies in fluid and electrolyte balance as it related to respiratory care will also be discussed.

3 hours lecture

RTT 261 — Respiratory Care Seminar ......................... 2 Credits
A review and practice of the NBRC Self Assessment Examinations including the entry level written registry, and the clinical simulation. Students must pass these examinations to receive a certificate of completion.

SAVINGS

The SAV prefix will be used to offer various service courses to the savings and loan industry. These courses will use the course descriptions furnished by the industry and credit will be granted based upon the recommendations of the American Council of Education (ACE). For more information contact the division head of Business and Economics.

SECURITY

SEC 101 — Introduction to Security ......................... 3 Credits
An overview of security functions, operations, methods and procedures in the private and industrial sector. F

SEC 111 — Legal Aspects of Security ......................... 3 Credits
Exposes the student to the legal guidelines and restrictions the modern security officer must operate within; examines liability concerns arising from private, industrial and governmental job performance. F

SEC 112 — Physical Security ............................. 3 Credits
Studies the various forms of perimeter barriers which impact upon security operations, examines insurance considerations, underwriters licensing certification, fire prevention and fire code regulations. Sp

SEC 113 — Security Investigation ............................ 3 Credits
Studies the various techniques, procedures, resources and technical aids used in security investigation. Sp

SEC 201 — Security Management ............................ 3 Credits
Examines the major management operations of planning, organizing, staffing, directing and controlling in the security field. Sp

SEC 202 — Special Topics in Security ......................... 3 Credits
Considers contemporary issues, problems, trends and controversies in the modern security field. F

SOCIAL SCIENCE

SS 100 — Social Science Seminar: Survey of Social Studies ....... 1-3 Credits
This is a one semester college-level course designed to remove the high school unit deficiency in Social Studies. The course will present an overview of the various disciplines designated as Social Studies, namely, anthropology, history, economics, political science, geography, psychology, and sociology. This course will not fulfill the college's core curriculum requirements of a social science course. (Offered as needed; permission of instructor required)

SS 210-290 — Social Science Seminar .......................... 1-3 Credits
In-depth analysis of a particular topic, concern, or problem in the social sciences. Courses may be oriented toward any one of the social science disciplines (history, political science, psychology, sociology-anthropology) or may be cross disciplinary in
nature combining several social sciences. Social Science elective credit only. Some examples of frequently offered Social Science Seminars include: African American History; The Civil War; Death and Dying; European Studies; Human Sexuality; North American Indians; The Southwest Field Trip; Women in Western Civilization; and World War II. As needed.

**SSC 116 — African-American History .................................................. 3 Credits**
A general survey of the position and contributions of African-Americans in American History from Colonial America to the present. Emphasis is on the social, cultural, economic and political development of African-American institutions within the larger context of American History. No prerequisite.

**SSC 119 — Women in Western Civilization ............................................. 3 Credits**
Women in Western Civilization is designed as an introduction to the field of women's history and as a study of the position of women in western society. The experiences of everyday women and of women who significantly contributed to the societies in which they lived are analyzed, based on the writings of any given historical period. This course also examines issues affecting women today. (Cross listed as HUM 288)

**SSC 120 — The Civil War ................................................................. 3 Credits**
The purpose of this course is to study and gain an understanding of the great central event of American history, the Civil War. Major political, economic, social, and military developments will be examined through use of a textbook, the PBS video series — "The Civil War," lecture, and class discussion.

**SSC 215 — World War II ................................................................. 3 Credits**
This course examines the largest single event in human history, the Second World War. The background to this conflict along with political, diplomatic, and military aspects will be studied through use of a textbook, "The World at War" video series, lecture, and class discussion.

**SSC 216 — Death and Dying ............................................................. 3 Credits**
An interdisciplinary (including contributions from Anthropology, Art, Ethics, Health Sciences, History, Literature, Philosophy, Public and Government Policy, Religion, and Sociology) and humanistic study of death, dying and bereavement, including key issues and concerns. (Cross listed as HUM 261)

**SSC 226 — Human Sexuality ............................................................ 3 Credits**
A survey course dealing with the facets of human sexuality. An overview of the historical, social, cultural and psychological elements of governing human sexual behaviors. No prerequisite.

**SSC 227 — Gender Roles in Society Today .......................................... 3 Credits**
A survey course designed to analyze the social construction of gender. Accounts of the historical, social and psychological underpinnings of gender will be covered. Special emphasis will be given to the changes occurring in contemporary society regarding gender roles and their elements. No prerequisite.

**SSC 239 — North American Indians ..................................................... 3 Credits**
A general survey of native American cultures with emphasis on cultural development, diversity, and comparative analysis. Topics include prehistory, social organization, kinship, politics, religion, and material culture, as well as discussion of current Native American concerns.

**SSC 270 — Appalachian Culture ......................................................... 3 Credits**
A general survey of the historical and cultural development of the region of Southern Appalachia. Emphasis will be placed on topics such as physiography, native Americans, historical settlement, rivers and transportation, folklore and crafts, farming and mining activities, and political and social developments. This course will include field trips to significant sites such as Cades Cove in the Great Smoky Mountains, the Blue Heron mining community in the Big South Fork National Recreation Area, and the Museum of Appalachia in Norris. As needed. No prerequisite.
SOCIOLOGY

SOC 201 — Introduction to Sociology ..................................3 Credits
This course focuses on the analysis of human social interaction, patterned social relationships, and social change. Emphasis is placed on the theoretical perspectives and principles of explanation used by sociologists, as well as the basic concepts such as culture, socialization, social organization, social deviance, and social stratification. F, Sp, Su

SOC 202 — Social Problems ...............................................3 Credits
This course focuses on the study of the scope and effects of a number of societal problems. Attention is given to research findings as well as social programs and policies that have been or can be taken to attempt to solve the problems. Some social problems examined include environmental abuse, population and resource challenges, war, social inequality, technology, and violence. F, Sp

SOC 211 — Cultural Anthropology ......................................3 Credits
This course is an introductory survey of the principles, concepts, methods, and scope of anthropology. Emphasis is placed on the nature of culture, sociocultural adaptation, language, kinship, social systems, subsistence patterns, art, ritual and belief systems, and the impact of change. F, Sp

SOC 212 — Prehistoric Archaeology .....................................3 Credits
This course is an introductory survey of human origins and prehistoric cultures. Emphasis is placed on the general principles, history, theoretical orientations, and methods of archaeology. This course will examine a number of prehistoric cultural lifeways from the beginnings of human culture to the rise of civilization. (As needed)

SOC 214 — Marriage and the Family .....................................3 Credits
This course is an examination of the family as a social institution. Emphasis is placed on comparative and historical approaches to the family, the relationship of the family to social organization, change and conflict within the family, and possible future developments. Other key social institutions may be examined in terms of the structural arrangements, changing interpretations and functions, and conflicts concerning social goals and values. Offered as needed.

SPANISH

SPA 101 — Beginning Spanish I ........................................3 Credits
Elementary grammar, pronunciation and conversation through the use of films, videotapes, cassette tapes, filmstrips and computer programs. (No prerequisite)

SPA 102 — Beginning Spanish II ........................................3 Credits
Continuation of Beginning Spanish I. (Prerequisite: SPA 101)

SPA 201 — Intermediate Spanish I ......................................3 Credits
Advanced grammar and conversation through use of films, videotapes, cassette tapes, filmstrips, computer programs and library readings. (Prerequisite: SPA 102)

SPA 202 — Intermediate Spanish II ......................................3 Credits
Continuation of Intermediate Spanish I. (Prerequisite: SPA 201)

SPEECH

SPE 201 — Basic Speech Communication ..............................3 Credits
Designed to introduce the student to the basic principles and techniques of public speaking. Emphasis in class is placed upon the selection of subjects and supporting materials, the organization of the speech, and the oral and physical aspects of delivery. One section of this course is designed specifically for students pursuing a career in the health sciences. Topics include medical-ethical questions, interviewing techniques, and interpersonal communication skill building. F, Sp, Su
SPE 211 — Interpersonal Communication ..............................3 Credits
Communication theory in its application to informal, face-to-face situations. Practical
application of the impromptu speech relative to interpersonal communication. F

SPE 221 — Business and Professional Speaking ........................3 Credits
Designed for students going into management, human relations, communications, person­
nel management and the sciences where the individual must work on a person-to-person
basis. Included in the course are units on presenting informative reports, using visuals,
interview and conference techniques, and manuscript speaking. (No prerequisite) Sp

SPE 231 — Fundamentals of Acting I ........................................3 Credits
Fundamentals of Acting will emphasize the mechanics (vocal and physical) of present­
ing a character on stage. F

SPE 232 — Fundamentals of Acting II .....................................3 Credits
Improvisations, use of acting techniques in extensive work. Emphasis placed on special
problems in contemporary roles. (Prerequisite: SPE 231 or permission of instructor)

SPE 241 — Introduction to Theatre .........................................3 Credits
A survey course in theatre covering the history and development of Western drama. This
course will emphasize drama as production rather than as literature. F

SPE 242 — Fundamentals of Theatrical Production .......................3 Credits
This course is designed to introduce students to the practical considerations of play pro­
duction. It emphasizes theory and practice in the various areas of design and stage con­
struction, introduces the students to meaningful rehearsal techniques and offers them
the opportunity to apply acquired classroom skills to actual stage experience. Sp

SPE 251 — Theatre Practicum I .............................................1 Credit
SPE 252 — Theatre Practicum II .........................................1 Credit
SPE 253 — Theatre Practicum III ........................................1 Credit
SPE 254 — Theatre Practicum IV .........................................1 Credit
SPE 255 — Theatre Practicum V ........................................1 Credit
SPE 256 — Theatre Practicum VI ........................................1 Credit
Field experience courses offering practical experience for students working in on-cam­
pus and off-campus technically oriented or performance oriented theatre activities.
Each course carries one hour credit, and students may earn up to six credits by
enrolling for one course each semester.

TECHNOLOGY

TEC 101 — General Technology I ........................................1 - 10 Credits
An in-depth analysis of a particular topic, concern or problem as it applies to modern
technology. May be used for experiential credit with prior approval from the Dean of
the College.

TEC 102 — General Technology II .......................................1 - 10 Credits
A continuation or extension of General Technology I.

TEC 201 — General Technology III .......................................1 - 8 Credits
A continuation or extension of General Technology II.

WASTE MANAGEMENT

WMT 101 — Intro to Waste Management .................................3 Credits
Waste Management issues such as hazwaste characterization, treatment and disposal, air
pollution, radioactive waste, recycling, and national environmental policies are discussed. F

WMT 121 — Environmental Sampling .................................3 Credits
Study of field sampling techniques and equipment for air, soil, and water media.
Overview of geologic transport mechanisms is provided. Sp
WMT 221 — Waste Reduction and Packaging Techniques ........ 3 Credits
Study of methods for collection and packaging for liquid, gaseous, and solid wastes. Course will include techniques for volumetric reduction, neutralization, labeling and transporting (DOT) of hazardous wastes. Also included will be cost benefit analysis. F

WMT 242 — Internship .............................................1-5 Credits
Work experience designed to familiarize students with application of waste management principles while working on the job. Efforts will be made to place students in an area which supports their career goals. (A minimum of 300 contact hours) No student may enroll in an internship unless the approval of the instructor is obtained. F, Sp, Su

WORKFORCE PREPAREDNESS

WKP 107 — Workkeys Communication I ..................................3 Credits
First course in a two-course sequence which provides whole language learning in communications. Combines instruction in reading, writing, speaking, listening, observing, and locating information in the workplace.

WKP 108 — Workkeys Communication II .................................3 Credits
Builds on skills developed in WKP 107. Combines whole language instruction in higher levels of reading, writing, speaking, listening, observing, and locating information for workplace application. (Prerequisite: WKP 107)

WKP 109 — Business/Manufacturing Math .................................3 Credits
Emphasizes the use of applied mathematics in the workplace. Concepts of numerical problem solving will be taught within the context of the work environment. Case studies and exercises will be stressed.

WKP 110 — Personal Workforce Skills Development ..................3 Credits
Readings and class assignments relate self-esteem, personal values, personal growth, and learning styles to the demands of the workplace. An emphasis is placed upon personal awareness and growth as factors in successful job performance.

WKP 120 — Professional Work Skills Development ....................3 Credits
An introduction to the skills necessary for job placement, retention, and upward mobility in the current labor market. Students will participate in role playing, workshops, employer visits, and job shadowing. Students will also maintain a portfolio to document competency attainments.

WKP 210 — Social Issues in the Workplace ..............................3 Credits
A survey of the social, political, and economic principles that relate to the workplace. Topics and issues covered will include civic responsibilities, social roles and expectations, workplace interaction, world economic competition, changing political policies, and social reform.
There's more to college than classwork. Organizations such as the Raider Corps provide opportunities for leadership, friendship and fun.
STUDENT SERVICES

FOOD SERVICES

The College Cafeteria is operated by a private contractor for the express purpose of providing students with good quality food. The cafeteria is open from 7:30 a.m. to 2 p.m. each day classes are in session. The cafeteria serves light breakfast items, hot entrees, vegetables, sandwiches, fruits, desserts, drinks, and several "fast food" items.

RSCC provides vending machines stocked with drinks, candies, chips, sweets, soup, and other items through a contractual agreement with a private vending contractor. To insure that all vending products are first quality, fresh, and good tasting, the vendor replaces all unsold machine items on a regularly scheduled basis.

LIBRARY

(423) 882-4553

Roane County

E-Mail address: LIBRARYSTAFF

The library serves primarily the students, faculty and staff, and, secondarily, members of the surrounding communities. In its collection of books, periodicals, microfilm and other material, the library makes resources available to support the curriculum and to provide for recreational use.

Library hours when classes are in session in Roane County are:
- 7:45 a.m. to 10 p.m. - Monday through Thursday
- 7:45 a.m. to 5 p.m. - Friday
- 9 a.m. to 1 p.m. - Saturday

When classes are not in session, changes in library hours will be posted at the entrance and circulation desk.

A book drop is available so that materials may be returned when the library is closed.

The library online catalog can be searched from any VAX terminal by entering the username LIBRARY. Terminals dedicated to this purpose are located on both floors of the library. Users dialing into the Roane State VAX may also log in to the catalog with the username LIBRARY.

Information available online includes:
- library catalogs of RSCC, UT, TTU and The Library of Congress
- periodical indexes (with full-text articles for some titles)
- Federal information via the Government Printing Office (U.S. Code, Federal Register, etc.)
- ERIC (Educational Resources Information Center)

The Library of Congress classification system is used and books are shelved in open stacks for self-service.

Books may be checked out for a two-week period and may be renewed. No fines are charged for overdue books, but they are subject to recall if needed for another borrower.

All books are to be returned by the end of each semester. Students who have overdue books from Roane State and all other libraries to which they have access as Roane State students will not receive grade reports or be allowed to register the following semester.

Borrowers are responsible for replacement of lost or damaged materials.
Periodicals and newspapers are to be used in the library and do not circulate. A photocopier is available for those who need copies at a cost of 10 cents per copy. Many periodicals are available on microfilm for which reader/copiers are provided.

Interlibrary loan service is provided to students, faculty and staff so that material not owned by the Roane State Library may be borrowed from another library. Information is available from any member of the library staff.

Microcomputers and software are available in the library for public use. The library has reciprocal borrowing agreements with other libraries for RSCC students and staff. Details are available at the library.

Oak Ridge

Students at Roane State Oak Ridge may use the Oak Ridge Public Library at no cost. Details are available at the RSOR administrator's office and the Oak Ridge Public Library. Daily courier service makes circulating materials from the Roane State Library readily available. The library collection, along with periodical indexes and several other information databases (see above), can be searched from designated terminals.

Satellite Centers

The library collection, along with periodical indexes and several other information databases (see above), can be searched from any satellite center. Some centers have a terminal reserved for this purpose; ask the center coordinator. Daily courier service provides delivery of materials to persons unable to go to the Roane County Campus Library. Requests for materials to be sent from the Roane County Campus Library may be placed through center receptionists or via e-mail to LIBRARYSTAFF.

Public libraries in each of the areas served by the off-campus centers have agreed to help serve RSCC students and staff.

The Howard H. Baker, Jr. Library at the Scott County Center contains a basic reference collection, periodicals, circulating books, CD-ROM information sources and career information.

INSTRUCTIONAL TECHNOLOGY CENTER

The Instructional Technology Center, a Tennessee Center of Emphasis for higher education, serves, primarily, the faculty and students and, secondarily, members of the surrounding communities. The purpose of the center is to promote the use of Instructional Technologies to enhance learning at Roane State Community College. The Instructional Technology Center is located on the second floor of the Library on the Harriman campus. The center has, available for use, an assorted collection of audio-visual materials including records, audio tapes, films, video tapes and laser discs. A media specialist is available for assistance using audio-visual materials. However, all audio-visual materials must be used in the library with the exception of faculty requests.

Instructional Technology Center hours are:
7:45 a.m. to 5:00 p.m. Monday through Friday
Closed during scheduled administrative closing days and holidays

Microcomputers and software are available in the library for public use. There are also several microcomputer laboratories available for student use.

The ITC is designed to provide the faculty and staff with near state-of-the-art instructional technologies emphasizing instruction to students and staff. The use
of these technologies will be supported through internal instructional workshops emphasizing hands-on use of the equipment and media as well as individual assistance during one-on-one training.

INCLEMENT WEATHER

RSCC recommends that students use their own discretion in attending classes when snow and icy conditions exist. Additional information on the cancellation of classes due to inclement weather is available from the local media each day.

BULLETIN BOARDS

College regulations require that all notices, posters, advertisements, announcements, and other bulletin board information be approved, signed, and dated by the Dean of Student Services (Roane County), Dean of Oak Ridge Branch Campus (Oak Ridge), or site coordinators at the Scott, Loudon, Cumberland, and Campbell Centers. Approval may be obtained during normal working hours. Notices may remain on display for fourteen days (two weeks) before being removed and discarded. Posted material may be saved through personal removal prior to the expiration date. Materials should be posted only on bulletin boards, not walls or window space.

To maintain clean and uncluttered bulletin boards, all notices and announcements must be typed or neatly hand printed. Students should remove all notices personally if posted information becomes obsolete prior to the expiration date.

CHANGE OF NAME OR ADDRESS

The Office of Records and Registration should be informed of all changes in the student's legal name for marriage or other reasons, place of residence, mailing address, and telephone number. The college is not responsible for a student's failure to receive official information due to his failure to notify the college of any change(s) stated above.

SMOKING

Roane State Community College will tentatively become a smoke-free campus. Smoking is permitted only in specific, designated areas on campus. It is not permitted in the classrooms, library, restrooms, laboratories, hallways, or any place on campus that poses a health hazard to other individuals. Receptacles are placed conveniently where smoking is permitted. New policy pending (see Fall 1997 RSCC Student Handbook/Calendar).

SOLICITING

No soliciting or sales, related to or affecting students, are permitted on the campus without securing prior written approval from the Dean of Student Services or a designee.

SUBSIDIARY USE OF THE COLLEGE CAMPUS

As a general rule, visitors who desire to visit the college campus in a casual and informal manner are welcome. Non-members of the college community who have not been authorized in writing to use the college facilities and who repeatedly visit or spend a large portion of their time on the college campus interfere with the normal activities of the college and will be asked to leave.
The buildings, facilities, and campus of the college are reserved and dedicated to educational use, and no use may be made of the facility which is inconsistent with that primary use.

The college, acting on its own or at the request of a registered and recognized campus organization, may invite speakers, performers, or entertainers to appear before audiences on the college campus. No non-member of the college community may speak, perform, or entertain before an audience on the college campus without such an invitation and the written approval of the college of the time, place, and manner of such appearance. Rental of college facilities by non-college personnel may be arranged through the Office of Maintenance and Security (Roane County) or the Dean of the Oak Ridge Campus.

No person or persons shall use any sound amplifying equipment on the college campus other than that requested by the college officials in carrying on the normal activities of the college.

No person shall take advantage of the large concentration and semi-captive audience of students and faculty to organize on the campus any assembly, moratorium, strike, sit-in, parade, demonstration or similar activity which substantially interferes with the normal activities of the college or the rights of others.

No person who threatens to substantially interfere with the normal activities of the college or to substantially interfere with or deny the lawful rights of others to use the facilities of the college shall enter or remain upon the college campus.

**Children should not be brought to class or left unattended in any area of the college.** Out of consideration to fellow students, faculty and staff, and for safety reasons, please secure appropriate babysitting services off-campus. There are RSCC sponsored programs which may be used for children while you are attending classes or taking care of college business. For more information on these programs call 882-4509.

Non-members of the campus community are required while on the campus to observe and comply with the rules and regulations adopted by the college or the Tennessee Board of Regents. Non-members of the campus community are also required while on the campus to identify themselves upon the request of either campus officers or campus security or other law enforcement officials in the performance of their duty.

**THE WRITING CENTER**

The Writing Center provides free writing assistance to Roane State Community College students, faculty, and staff, and to the community. The purpose of the Writing Center is to promote excellence in writing. The center seeks to develop approaches that put writing at the center of the academic and professional enterprise and to foster the perception of writing as a vital means of communication, as an art form, and as a powerful mode of learning for all subjects.

**Services**

The Writing Center provides these services:

1. One-on-one consultation between a writer and a professional writing consultant on manuscripts of any kind, whether for classroom assignments, professional development, or personal growth;
2. Workshops for classes or for college, public school, business, or community groups on special writing projects, such as resumes, business letters, memos, reports, articles for publication;
3. Word processing, revision, and graphics programs and instruction on Macintosh and IBM computers;

Oak Ridge - 1-423-481-2026
Consulting

Most Writing Center activity consists of one-on-one consultations in which a writing specialist works with an individual writer. Consultants do not edit or proofread course writing assignments. In discussing student writing, they focus on rhetorical and logical principles. Students are introduced to models of excellence in writing and challenged to think, clearly and critically so that they may achieve excellence in their own writing.

When possible, students should make an appointment in advance and should plan to spend a half hour in conference. To schedule an appointment, students may come by the center or call (423) 882-4641 in Roane County or (423) 481-2026 in Oak Ridge.

COUNSELING AND CAREER RESOURCE CENTER

COUNSELING

The Counseling and Career Resource Center (CCRC) was established to aid students in successfully completing their college work and establishing good foundations for future growth. The center is staffed by a professionally trained, licensed, and nationally certified counselors who provide services for a wide range of problems — educational, vocational, personal, and testing services. A career resource technician, and a placement coordinator are also on staff.

Confidentiality of counseling visits is assured so that students may feel free to discuss their concerns. Counselors also provide opportunities for students to develop interpersonal skills and to become more self-actualized using individual counseling, small group techniques, and workshops in human development. Situations which cause students undue concern may disrupt their interpersonal relations and affect academic achievement. CCRC provides the assistance and atmosphere to work through these problems.

CCRC services includes, but is not limited to the administration of interest or personality tests as requested by the student.

CAREER RESOURCE SERVICES

Roane State's Career Resource Center assists all students interested in exploring career options and selecting a major field of study. Through the availability of up-to-date resources, career decision making workshops and individual advisement, our students have the opportunity to learn the skills necessary to make appropriate career decisions that will directly affect their success in extending the academic world to the world of work.

It is Roane State's goal through the use of a wide variety of resources to give every student the opportunity to maximize his or her career development potential.

PLACEMENT OFFICE

Roane State's Placement Office offers a full range of services to students seeking employment. A listing of full-time, part-time and temporary jobs is maintained for those seeking employment while pursuing an education.

By promoting the quality of the college's training programs to local employers, it is Roane State's goal to provide its graduates with the best possible employment opportunities. The Placement Office provides a job referral service for those students nearing completion of their program and those who have recently graduated. To receive referral assistance, graduating students must develop a file and authorize the college to send their credentials to prospective employers.
The Placement Office assists students in resume preparation, letter writing and the improvement of interview skills. Individual counseling and group seminars are available to deal with all aspects of organizing a self-directed job search.

TESTING SERVICES

The Testing Center provides a wide range of services to both the college and the community. The center administers regularly scheduled tests and tests by special appointment.

REGULARLY SCHEDULED TESTS

AAPP (Placement Tests)

The placement exams are given on both campuses and at off-campus centers to Roane State applicants who have been admitted to the college.

College Base Test

Each graduating sophomore is required by the Tennessee Board of Regents to take a test of general competency. This test does not affect one's graduating status; rather it is a measure of how well Roane State educates its students. Students are encouraged to do their best since Roane State's evaluation and future funding are based on student performance. Students are advised that failure to meet this graduation requirement will result in having the student's diploma held until this condition is met.

ACT-Residual

The ACT exams are given on both campuses for students who (1) are enrolled, (2) have been admitted, or (3) are in the process of applying to Roane State. The ACT scores from this test are not available for reporting to other institutions or scholarship agencies.

ACT National

Roane State Community College serves as an area test center for the American College Testing Program (ACT). Tests are given on the Roane County campus on all five of the national test dates. Students wishing to have their scores reported to institutions other than RSCC should take this test. Registration applications are available through high school counselor's offices or the Counseling and Career Resource Center.

GED Test

The General Education Development (GED) Test for a high school equivalency diploma is administered at the Roane County and Oak Ridge campuses on a regular schedule. Appointments are necessary and may be made by calling 882-4546 in Roane County, 481-2003 in Oak Ridge or by visiting the Counseling and Career Resource Center on either campus.

To be eligible to take the test, an applicant must be (1) eighteen years of age, (2) dropped out or withdrawn from high school, and (3) able to furnish proof of age and identity. A current photo driver's license is the best source of identification. Applicants seventeen years of age with an approved age waiver are also eligible to test.
An equivalency diploma is issued by the State Department of Education upon passing the GED Test by obtaining an overall average score of 45 with no subtest score below 35.

Persons who feel inadequately prepared to take the GED test may contact their local school system or Tennessee Technology Center for GED preparation classes.

**LPN Challenge Test**

This test is administered once during the fall and spring semesters for licensed LPNs who wish to qualify for the LPN Career Mobility Program. Scores are valid for three years.

**Assessment Scheduled by Special Appointment**

- Strong Interest Inventory
- SIGI Plus
- Myers-Briggs Type Indicator

**SUCCESSFUL TRANSITIONS**

**An Enrichment Program for Single Parents and Displaced Homemakers**

Roane State offers a special program for single parents and displaced homemakers. The program is primarily designed to assist individuals who are suddenly forced into the work world as the sole support of themselves or their family due to divorce, separation, death or disability of a spouse or due to their choice to be a single parent.

The program is free and open to both males and females, students and non-students. The Single Parent/Displaced Homemaker Program provides:

- Individual counseling
- Support group meetings
- Assessments to match personality and interests to a specific career
- Career counseling
- Assistance in getting enrolled into college or vocational programs
- Workshops on assertiveness training, coping with stress, legal rights, career search, finding a job, financial planning, and other subjects of interest.

**HEALTH AND DISABILITY SERVICES**

A complete Health History Form is requested of all students enrolled at RSCC. Under the direction of a sponsoring physician, a clinic is maintained at the Roane County campus without direct cost to the student. A Registered Nurse administers first aid and palliative treatment in minor illness and offers suggested referrals when needed. Self-care stations are available at the Oak Ridge Emory Valley, Campbell County, Scott County, Cumberland County, and Loudon County sites. These provisions are for short term use in case of accident or illness that occurs during the school hours. In addition, the nurse schedules regular hours at the Oak Ridge Tumpike campus and visits other sites as needed. Health consultations and a variety of health programs are offered through the clinic at the Roane County and Oak Ridge campuses. Vision tests are conducted on request.

Since the college does not collect a health fee, each student is responsible for his/her medical bills for services rendered by private physicians/other facilities. Student accident and sickness insurance is available on a voluntary basis through a contract by the State University and Community College System of
Tennessee. Applications and claim forms may be obtained in the clinic or through the Student Services Office, or the site coordinator's office at off-campus sites. Roane State provides counseling and academic support services to insure that disabled students have access to educational opportunities provided by the college. Any student having a disability which restricts his/her participation in academic life is eligible for services which will be provided to meet the individual student's needs. Roane State serves in a liaison capacity with the Tennessee Division of Vocational Rehabilitation. Registration and other forms of administrative assistance and academic support are provided through Health and Disability Services. Participation in the services is on a voluntary basis; confidentiality is maintained. The following special services may be provided:

1. Special modifications will be made if it is determined that the mode of presentation of materials discriminates against the student. This may require re-structuring of materials, alternate methods of presentation, adjustment of physical facilities, extension of time allowed for tests or completion of coursework, etc. Modification should not alter academic requirements, and the student will be expected to show competency in the course material.

2. Individual files are maintained to serve as the guidelines for a particular student during his/her educational term at Roane State Community College. Documentation from a qualified professional must be submitted by the student to the director of Health and Disability Services prior to receiving accommodations.

If possible, students who have a disability requiring special services should contact the Director of Health and Disability Services three weeks before classes begin.

**STUDENT PROCEDURES FOR SPECIAL SERVICES**

To receive the special accommodations mandated in section 504 of the Vocational Rehabilitation Act, the learning and physically disabled are to meet the following guidelines.

1. Be identified as possibly learning or physically disabled. Any of the following ways is acceptable: self-referral, instructor referral, counselor referral.

   Any learning disabled student requesting assistance should be referred to the Director of the Counseling and Career Resource Center (CCRC). Physically disabled students needing support should be referred to the Director of Health and Disabilities Services.

2. Be verified as learning or physically disabled. The type and degree of the disability may be confirmed by a number of appropriate methods:

   a. High school record — IEP or resource classes as recorded on the high school transcript indicate diagnosis of a problem. A record of the diagnostic testing administered by school psychologist may be requested by the student and sent to the Director of the CCRC.

   b. Office of Vocational Rehabilitation — Students who have undergone academic evaluation through the Office of Vocational Rehabilitation may request that a summary of the diagnostic testing be sent to the Director of the CCRC.

   c. Private agency, clinical psychologist or medical doctor — Students seeking the services of private agencies (i.e. clinical psychologist for diagnostic testing) may request that a summary of the results with recommendations be sent to the Director of the CCRC. Students with
physical disabilities may request a summary of the particular needs with recommendations be sent to the Director of Health and Disabilities Services.

3. Documentation — Learning disability verification, provided by the student, will be filed in the CCRC. Pertinent documentation for the physically disabled student will be filed in Health and Disabilities Services.

Once the learning or physical disability is verified and documented, the student may receive special services from the college. The faculty works with Counseling and Disability Services to appropriately accommodate a student's disability without compromising the academic requirements of the curriculum.

HEALTH INSURANCE

Health and accident insurance coverage is available to all qualified students in the Tennessee University and Community College System. Students must be enrolled for at least 6 semester hours to be eligible for coverage. Plans are available for individuals or families. Enrollment forms are available in the Dean of Students’ Office.

TRAFFIC REGULATIONS

REGISTRATION OF VEHICLES

1. All vehicles parked or operated by any person in connection with their employment or attendance of classes at the college must be registered with the Office of the Dean of Student Services.

2. Vehicle registration must be renewed at the beginning of each fall semester and will be valid until the beginning of the following fall semester so long as the registrant remains a student or a college employee.

3. Expired campus registration decals must be removed. Current campus registration decals are to be affixed as indicated on the instruction sheet attached to the decal.

4. The person to whom the vehicle is registered is responsible for the vehicle and all violations and citations issued thereto. If the person operating the vehicle is other than the registrant, and a violation is committed, both he/she and the registrant may be fined.

5. Each student who registers for classes will be assessed a campus access fee each semester.

6. Faculty and staff will be assessed an annual campus access fee of $10.00. Persons who are employed spring semester or after will be assessed a campus fee of $5.00.

7. All faculty, staff, and students who pay the campus access fee will be given a parking decal. If a decal is lost or stolen, additional decals are available at a cost of $1.00 from the Business Office. The decal(s) issued will be valid from August through August of the following year.

8. If you are unable to drive your own vehicle on a particular day, leave an explanatory note on the dashboard (along with your decal number) to alert the security officer.

9. In case of an emergency, temporary permits are available in the Office of the Dean of Student Services at no cost.

10. Disabled students with a state issued disability placard for handicapped parking should clearly display the placard when parking in a handicapped space. In addition, a regular Roane State decal is required. Students with a temporary disability must have a special handicapped permit from the Director of Health Services to park in a handicapped space.
VISITORS

Visitors are defined as persons not connected with the college, but who occasionally have business or other reasons to be on the campus. Designated visitor space will be provided in parking areas.

ENFORCEMENT

1. Violation Citations must be paid in the Business Office or appealed in the Dean of Students' Office (Roane County) or Dean of Oak Ridge Branch Campus (Oak Ridge) within 72 hours. APPEALS WILL NOT BE ACCEPTED AFTER THAT TIME.
2. Illegally parked vehicles may be impounded or moved at the owner's expense.

PARKING

Regular parking on all college lots will be by permit only and only in designated areas.
1. STUDENT SIGNS indicate spaces or areas reserved for students. Students should park only in these spaces or areas. NO FACULTY OR STAFF PARKING.
2. FACULTY SIGNS indicate spaces or areas reserved for faculty and staff. Faculty and staff should park only in these spaces or areas. NO STUDENT PARKING.
3. SIGNAGE indicating spaces for the disabled are reserved for faculty, staff or students with disabilities.
4. VISITOR PARKING indicates NO FACULTY, STAFF, OR STUDENT PARKING.
5. LOADING ZONES, ON SIDEWALKS, STREETS, ON LAWN, WITHIN 15 FEET OF FIRE HYDRANT, OR RESERVED PARKING indicates NO PARKING (Cars will be towed away).

NOTE: Cars which have been towed away may be claimed by contacting the Superintendent of Maintenance and Security, and paying the cost of towing (between 8:00 a.m. and 4:30 p.m.).

DRIVING REGULATIONS

1. The speed limit on campus is 15 mph.
2. All traffic signs must be obeyed.
3. Motorists must yield the right-of-way to pedestrians.
4. All accidents involving injury to persons or damages to autos, equipment, etc., must be reported to the Superintendent of Maintenance and Security.

VIOLATION FINES — FACULTY, STAFF, STUDENTS AND VISITORS:

1. No decal displayed .................................. $10
2. Illegal use of decal .................................. $10
3. Improper display of decal ......................... $10
4. Parked in unauthorized area ..................... $10
5. Parked in driveway .................................. $10
6. Double parked ...................................... $10
7. Improper motorcycle parking .................... $10
8. Wrong way on one-way street .................... $10
9. PARKED IN AREA DESIGNATED FOR DISABLED $100

These fines are paid in the Business Office.
PENALTIES
1. Parking privileges for remainder of the school year will be revoked for any one who receives more than four parking violation citations within the academic year.
2. Students who persist in violating these regulations or commit a single violation under extreme circumstances will be referred to the Dean of Student Services Office for disciplinary action which may lead to suspension or dismissal from the college.

APPEALS
1. The Office of the Dean of Student Services handles all traffic appeals.
2. Students may appeal a violation citation by making application for appeal and answering this citation with forms furnished by the Office of the Dean of Student Services. All appeals must be made within 72 hours after issuance. Appeals will not be accepted after that time.
3. Failure to appear at a scheduled meeting without notifying the Office of the Dean of Student Services will result in forfeiture of right to appeal.
4. Failure to answer a citation within a 72 hour period will result in forfeiture of right of appeal.

STUDENT ACTIVITIES
In keeping with its dedication to the concept of total student development, Roane State Community College recognizes the importance of developing both a well-balanced program of student activities and avenues for responsible student input in the decision-making process.

For students to achieve their potential as well-rounded individuals, a broad-based activities program is essential. In addition, student involvement is imperative for effectively evaluating past programs and conscientiously planning future activities. Roane State integrates these two concerns through the sponsorship of various clubs and organizations, committees, publications, and academic and social activities.

However, continued growth and development of the college and its students is largely dependent upon the discovery of new ideas and ways to combat student apathy and complacency.

Roane State strongly urges each student to support, through participation in one or more campus activities, attempts to conquer the "There's nothing to do" syndrome. Involvement not only benefits the college but also makes the student's stay a more richly rewarding experience. For information regarding extracurricular activities contact the Director of Student Activities.

OTHER ACTIVITIES
I. Athletics
Roane State competes in men's and women's basketball, men's baseball and women's softball as a member of the Eastern Division of the Tennessee Junior College Athletic Association.

In order for a student to participate in athletics, eligibility requirements of the National Junior College Athletic Association must be met. Any inquiries about athletics should be directed to the Director of Athletics located in the gymnasium.

II. Intramurals
Roane State conducts a diverse program of activities to provide students and staff the opportunity to participate in organized activities. The program does not require the intensified training and high degree of skill
normally associated with varsity competition. An individual's playing ability is not considered as important as the desire to enter into the true spirit of competition for the purpose of fun and relaxation. Participants, however, are expected to display good sportsmanship at all times.

The intramural program includes physical activities such as volleyball, flag football, basketball, softball, and weight lifting.

The RSCC Intramural Director is vested with the final authority and responsibility on matters concerning scheduling, rule interpretation, and eligibility. In addition, the Intramural Director may take any other action deemed necessary to insure that all intramural competition is played within the intent of the rules and within the realm of good sportsmanship.

General Eligibility Requirements include:

1. Participant must be a current student or staff member at RSCC.
2. Participant must not be actively playing, practicing, or working out with any varsity athletic team in that sport. Automatic ineligibility results whenever a player is listed on the official team roster or "dresses out" on the date of any officially scheduled varsity contest.

Roane State Community College and its employees cannot assume responsibility for any injury(ies) incurred during practice for or participation in any one of the scheduled activities beyond the coverage extended to all students by Health Services. Any student whose physical condition or health status is such that participation might be detrimental to his/her health is ineligible to play unless expressed written permission from a licensed, practicing physician (approved by Health Services) is given to the Intramural Director prior to participation. Determining health status and getting permission is the sole responsibility of the student. It is strongly recommended that all participants have medical examinations prior to participating in any intramural/recreational activity and that each participant have private and/or student medical insurance for his/her protection.

III. College Publications

The following statement constitutes the operating papers of all student publications:

A. Purpose of Student Publications

The college news periodical is edited and published by students during the year to inform students and staff of pertinent upcoming events, to provide students with an expression of opinions and views, and to increase student awareness of campus life.

The literary magazine is organized and assisted financially by The Literary Club to promote interest in the literary efforts of the students of Roane State and the surrounding community.

All publications produced by students at Roane State may serve as forums for expression of ideas concerning issues and events of interest. Views expressed in the publications are not the views of the student body as a whole, the college, or the Tennessee Board of Regents.

B. Organization and Governance

The editor of the student newspaper is appointed from applicants by the Dean of Student Services and newspaper advisor. Other staff members are appointed from applicants by the editor. The editor and advisor have administrative responsibility for publication of the periodical with the Dean of Student Services acting as a consultant.

All college and Board of Regents financial and administrative policies and procedures shall be followed in establishing and maintaining the operation of the student newspaper.
The Roane State Literary Magazine shall be published as a project of a campus literary interest group. This group must have at least one Roane State faculty/staff advisor-editor. Students for staff and editorial positions will be selected by the Literary Magazine’s advisor(s). The editor(s) of the magazine must have a cumulative GPA of 2.25.

The Tennessee Board of Regents and the college administration recognize that all student publications at Roane State are guaranteed First Amendment freedom and that student editors have editorial control of the content of student publications. However, the editor also has responsibility to be knowledgeable of the meaning of First Amendment freedom and work closely with the advisor.

A Student Publications Committee shall be appointed by the Dean of Student Services and approved by the President. The Committee shall be made up of five voting members: two (2) faculty members from the Department of Humanities, one staff member, the Student Government Association President, and another representative from the student body. This group will hear and review plans, requests, or grievances and recommend appropriate action. Any publication with the Roane State name or logo on it must reflect what the college considers “good taste.” If any publication is questioned as being offensive to the general public, the Student Publications Committee shall review the material and make a recommendation to the President.

IV. Fine Arts

Concerts, lectures and special cultural events are sponsored by the college for the enrichment of the students and community.

V. Clubs and Special Interest Organizations

A well-rounded, integrated program of student activities is provided through student organizations. Students may choose from a variety of organizations depending on their individual interests. These organizations include scholastic honoraries, departmental groups, service organizations, and special interest groups.

CLUBS

AMERICAN CHEMICAL SOCIETY - RSCC STUDENT SECTION — This society promotes interest in chemistry and topics related to chemistry. The society generates materials, such as sample tests, problem sets, lecture notes, etc., which aid the students taking chemistry courses at RSCC. It sponsors guest speakers to inform the students on current topics in chemistry and related fields. The society monitors the chemistry program at RSCC in order to assure high quality and certification of the program. Members of the society are given certain privileges by the national American Chemical Society, such as magazines, resume writing aids and an employment clearing house.

BSU (Baptist Student Union) — The BSU promotes interfaith as a way of life among college students. It provides a ministry to individuals in the campus community who have need for a personal relationship with Jesus Christ or who have a need for Christian growth.

BUSINESS CLUB — The Roane State Business Club is open to all students who have an interest in business. The purpose is to acquaint students with different functions and opportunities in the business world.

COLLEGE REPUBLICAN CLUB — An organization formed to develop political skills and leadership abilities among Republican students as preparation for future service by them to the party and the community.
COLLEGIATE SECRETARIES INTERNATIONAL — CSI promotes the professional development of students preparing for careers in the administrative support profession or as business teachers by offering opportunities and responsibilities for development of and improvement in confidence, skills and abilities, initiative, culture, and refinement.

LITERARY CLUB — The Literary Club organizes and assists financially a literary magazine and promotes interest in the literary efforts of the students of Roane State and the surrounding community.

OCCUPATIONAL THERAPY STUDENT CLUB — The OTA Club has been formed to (1) promote the field of OT in the community and at RSCC; (2) promote participation in state and national OT organizations; (3) allow participation in campus fund raising activities; and (4) provide community service.

PHI THETA KAPPA — An international honor society for two-year colleges. Invitation to membership is extended by the local chapter. To be eligible, students must complete at least twelve hours of college credit leading to an associate’s degree (part-time students are eligible); have a grade point average of 3.5; and enjoy full rights of citizenship in your country. International, regional, and chapter programs provide opportunities in the areas of scholarship, leadership, service, and fellowship. Benefits of membership include eligibility for transfer scholarships, automatic nomination for the national Dean’s List publication of outstanding students, automatic enrollment in the PTK Transfer Database, which is made available to four-year and senior level institutions that actively recruit transfer students; and the privilege of wearing the honors stole and tassel at graduation.

NATIONAL ENVIRONMENTAL HEALTH ASSOCIATION (NEHA) — This organization is open to environmental health students and offers opportunities to expand their education through special speakers, environmental-related films, and involvement in current environmental issues. RSCC’s chapter promotes participation in club activities in hopes of familiarizing members with environmental issues outside the classroom while encouraging leadership skills and responsibility.

NURSING STUDENTS CLUB — Objectives for organizing the Nursing Students Club: 1) to promote participation in national and state level nursing organizations; 2) to increase visibility of the RSCC Nursing Program; and 3) to allow organized participation on campus of fund-raising activities.

PHYSICAL THERAPY STUDENT ASSOCIATION — The Physical Therapy Student Association has been formed to promote the field of physical therapy at Roane State and in the community.

PLAYMAKERS — The Playmakers Club is responsible for presenting plays on the Roane State campus.

RESPIRATORY THERAPY STUDENT ASSOCIATION — The Respiratory Therapy Student Association promotes the Respiratory Therapy Program at RSCC and in the community. The club is affiliated with the Tennessee Society for Respiratory Care.

S.T.A.R.S. ART CLUB — Purposes for the S.T.A.R.S. Art Club are: 1) to provide a social bond for students and staff with the common interest of art; 2) to provide a vehicle for learning experiences in art outside the classroom through programs and field trips; 3) to provide students with ready opportunities to exhibit their work and learn about the technicalities of the exhibiting process; 4) to raise scholarship funds for art students and hold competitions designed to distribute those funds; 5) to provide art-related services to the community on a limited
basis; and 6) to raise the art-consciousness of college and community by bringing quality work to the campus.

**STUDENT AMERICAN DENTAL HYGIENIST ASSOCIATION** — An organization assigned to promote the professional development of students preparing for a career in dental hygiene. Licensed hygienists who are students working toward a baccalaureate or graduate degree complementary to a career in dental hygiene are also eligible for student membership.

**WOMEN'S STUDENT ORGANIZATION** — The WSO increases women's awareness regarding opportunities available to them at Roane State while fostering a better understanding and appreciation, on the part of the administration, of the needs of women students at the college. In addition, the organization provides materials and programs to inform women students of 1) continuing education, 2) career planning, 3) financial aid, and 4) personal growth opportunities as well as personal support and guidance to current and prospective students.

**ORGANIZATIONS AND BOARDS**

**CAMPUS ACTIVITIES BOARD** — The Campus Activities Board (CAB), working with the director of Student Activities, will be responsible for planning and implementation of all campus activities funded through the Student Activities fees. There will be separate boards for the Roane County and Oak Ridge campuses. The board will also be responsible for the disbursement of the portion of the activities fees allotted to their respective campuses for clubs and organizations acting as the Campus Activities Fee Board. The board shall consist of five students chosen by an application and interview process. Three students will be selected in the spring semester for the following academic year, and two members will be selected in the fall semester.

**CELEBRATION** — Celebration is a group of singers selected through auditions that are open to all students. The group has represented Roane State at the local and national level.

**THE ROANE STATE CONCERT CHOIR** — This chorus is the official college choral organization. It performs a repertoire of standard choral selections at various college, public school, church, civic, and community functions.

**CHEERLEADERS** — The goal of the RSCC cheerleading squad is to promote spirit, enthusiasm, and support for the athletic department's basketball teams. Membership is open to both males and females, and members are chosen for the coming season during tryouts spring semester.

**STUDENT GOVERNMENT ASSOCIATION** — The SGA provides opportunities for students to offer constructive opinions, thereby promoting cooperation among students, faculty, and administration, and works for the common good of Roane State by assisting in the promotion of social activities and special campus projects. The SGA is organized into three (3) branches: 1) Executive Branch (President, Vice-President, and Cabinet); 2) Legislative Branch (Student Senate); and 3) Judicial Branch (Supreme Court).

For copies of the Student Government constitution contact the Student Government president, director of Student Activities or Dean of Student Services office.

**REGISTRATION OF STUDENT ORGANIZATIONS**

The college shall adopt and enforce such rules and regulations as it may deem necessary and proper with regard to the registration, recognition and function of
student organizations which operate on the college campus. The rules and regulations adopted by the college shall provide for the consistent application of reasonable standards and shall afford procedural due process by authorizing and providing for an appeal with the president of the college.

Membership in a student organization shall be limited to members of the college community; however, membership may include individuals from the professional and business communities. Membership shall be extended to such persons without regard to their race, religion, national origin, or sex.

The registration and recognition of a student organization by the college does not constitute college endorsement or approval of the policies or activities of the organization. No student organization shall represent or imply in any manner, in its contact with the public, that it speaks for or in the name of the college.

Student organizations and their members are subject to all state and federal laws and the rules and regulations adopted by the college and the Board of Regents. All student organizations are required to register with the Director of Student Activities.

The following procedures must be followed to register a student organization and gain active status:

1. Submit an application for the formation of a new club. Applications are available from the Dean of Students Office or the Director of Student Activities.
2. Secure a faculty advisor for the organization.
3. Secure approval from the Director of Student Activities to hold an organizational meeting.
4. Prepare and submit the Constitution of the organization which must contain the following: the name, purpose, proposed activities, rules of membership of the organization, officers, their terms and method of selection, nature and frequency of meetings, and financial plans including any proposed fees, dues and assessments.
5. A signed statement of compliance by the organization that it will comply with all rules and regulations, policies, and procedures of the board and the institution and with all federal and state laws and regulations.

To retain an active status all organizations must submit the following information annually to the Director of Student Activities.

1. A club roster containing the current officers and sponsors.
2. Changes in the Constitution or Bylaws.
3. An annual report outlining the organization's activities and accomplishments for the year.

An organization may be placed on probation or suspended for the following reasons:

1. Failure to maintain compliance with the initial registration requirements.
2. The organization ceases to operate.
3. The organization fails to submit any required reports.
4. The organization requests withdrawal of registration.
5. The organization operates or engages in any activity in violation of rules and regulations of the institution or federal or state laws.

All organizational members and advisors are responsible for being familiar with the guidelines and policies listed above.
STUDENT CONDUCT AND DISCIPLINARY SANCTIONS

I. Institution Policy Statement
College and university students are citizens of the state, local and national governments, and of the academic community, and are, therefore, expected to conduct themselves as law-abiding members of each community at all times. Admission to an institution of higher education carries with it special privileges and imposes special responsibilities apart from those rights and duties enjoyed by non-students. In recognition of the special relationship that exists between the institution and the academic community which it seeks to serve, the State Board of Regents has authorized the President of the College to take such action as may be necessary to maintain campus conditions and preserve the integrity of the institution and its educational environment.
Pursuant to this authorization, the College has developed the following regulations which are intended to govern student conduct on the campus. In addition, students are subject to all national, state, and local laws and ordinances. If a student's violation of such laws or ordinances also adversely affects the institution's pursuit of its educational objectives, the institution may enforce its own regulations regardless of any proceedings instituted by other authorities. Conversely, violation of any section of these regulations may subject a student to disciplinary measures by the institution whether or not such conduct is simultaneously violative of state, local, or national laws.

II. Disciplinary Offenses
A. Generally, through appropriate due process procedures, institutional disciplinary measures shall be imposed for conduct which adversely affects the institution's pursuit of its educational objectives, which violates or shows a disregard for the rights of other members of the academic community, or which endangers property or persons on institution-controlled property.

B. Individual or organizational misconduct which is subject to disciplinary sanction shall include but not be limited to the following examples:
   1. Conduct dangerous to others. Any conduct which constitutes a serious danger to any person's health, safety, or personal well-being, including any physical abuse or immediate threat of abuse.
   2. Hazing. Participation of students in hazing activities: any intentional or reckless act, on or off institutional property, by one student, acting alone or with others, which is directed against any other student, that endangers the mental or physical health or safety of that student, or which induces or coerces a student to endanger his or her mental or physical health or safety, and includes treatment of a violent, abusive, shameful, insulting or humiliating nature. Such action is prohibited when connected with initiation into, affiliation with or continuing membership in a group or organization and does not include participation in customary athletic events or similar competition.
   3. Disorderly conduct. Any individual or group behavior which is abusive, obscene, lewd, indecent, violent, excessively noisy, disorderly, or unreasonably disturbing to other groups or individuals. Specifically prohibited are both actions and language which tend to incite an immediate breach of the peace by making reference to another's race, religion or ethnic origin.
4. Obstruction of or interference with institutional activities or facilities. Any intentional interference with or obstruction of any institutional activity, program, event, or facilities, including the following:
   a. Any unauthorized occupancy of institution or institution controlled facilities or blockage or access to or from such facilities.
   b. Interference with the right of any institution member or other authorized person to gain access to any institution or institution controlled activity, program, event or facilities.
   c. Any obstruction or delay of a campus security officer, fireman, or any institution official in the performance of his/her duty.
5. Misuse of or damage to property. Any act of misuse, vandalism, malicious or unwarranted damage or destruction, defacing, disfiguring, or unauthorized use of property belonging to the institution including, but not limited to fire alarms, fire equipment, elevators, computer equipment, telephones, institutions keys, library materials and/or safety devices; and any such act against a member of the institution community or a guest of the institution.
6. Theft, misappropriation, or unauthorized sale. Any act of theft, misappropriation, or unauthorized possession or sale of institution property or any such act against a member of the institution community or a guest of the institution.
7. Misuse of documents or identification cards. Any forgery, alteration of, or unauthorized use of institution documents, forms, records, or identification cards, including the giving of any false information, or withholding of necessary information, in connection with a student's admission, enrollment, or status in the institution.
8. Firearms and other dangerous weapons. Possession or use of firearms or dangerous weapons of any kind is prohibited.
9. Explosives, fireworks, and flammable materials. The unauthorized possession, ignition, or detonation of any object or article which would cause damage by fire or other means to persons or property or possession of any substance which could be considered to be and used as fireworks.
10. Alcoholic beverages. The use and/or possession of alcoholic beverages on college owned, controlled, or temporarily leased property is prohibited.
11. Drugs. The unlawful possession or use of any drug or controlled substance (including any stimulant, depressant, narcotic, hallucinogenic drug or substance, or marijuana) or sale or distribution of any such drug or controlled substance. Includes any violation of the Drug Free School and Communities Act which is distributed to each student annually.
13. Financial irresponsibility. Failure to meet financial responsibilities to the institution promptly, including, but not limited to, knowingly passing a worthless check or money order in payment to the institution or to a member of the institution community acting in an official capacity.
14. Unacceptable conduct in hearings. Any conduct at an institutional hearing involving contemptuous, disrespectful, or disorderly behavior, or the giving of false testimony or other evidence at any hearing.
15. **Failure to cooperate with institutional officials.** Failure to comply with directions of institutional officials acting in the performance of their duties.

16. **Violation of general rules and regulations.** Any violations of the general rules and regulations of the institution as published in official institutional publications, including the intentional failure to perform any required action or the intentional performance of any prohibited action.

17. **Attempting or aiding and abetting the commission of offenses.** Any attempt to commit any of the foregoing offenses, or the aiding and abetting of the commission of any of the foregoing offenses (an "attempt" to commit an offense is defined as the intention to commit an offense coupled with the taking of some action toward its commission).

18. **Violations of state or federal laws.** Any violation of state or federal laws or regulations proscribing conduct or establishing offenses, which laws and regulations are incorporated herein by reference.

C. Disciplinary action may be taken against a student for violations of the foregoing regulations which occur on institutionally owned, leased, or otherwise controlled property, or which occur off-campus when the conduct impairs, interferes with, or obstructs any institutional activity or the missions, processes, and functions of the institution. In addition, disciplinary action may be taken on the basis of any conduct, on or off-campus, which poses a substantial threat to persons or property within the institutional community.

D. For the purposes of these regulations, a "student" shall mean any person who is registered for study at the College for any academic period. A person shall be considered a student during any period which follows the end of an academic period which the student has completed until the last day for registration for the next succeeding regular academic period and during any period while the student is under suspension from the institution.

III. **Academic and Classroom Misconduct**

A. The instructor has the primary responsibility for control over classroom behavior and maintenance of academic integrity and can order the temporary removal or exclusion from the classroom of any student engaged in disruptive conduct or conduct violative of the general rules and regulations of the institution. Extended or permanent exclusion from the classroom or further disciplinary action can be effected only through appropriate procedures of the institution.

B. Plagiarism, cheating, and other forms of academic dishonesty are prohibited. Students guilty of academic misconduct, either directly or indirectly through participation or assistance, are immediately responsible to the instructor of the class. In addition to other possible disciplinary sanctions which may be imposed through the regular institutional procedures as a result of academic misconduct, the instructor has the authority to assign an "F" or a zero for the exercise or examination, or to assign an "F" in the course.

If the student believes that he or she has been erroneously accused of academic misconduct, and if his or her final grade has been lowered as a result, the student may appeal the case through the Dean of Students Office.
IV. Disciplinary Sanctions

A. Upon a determination that a student or organization has violated any of the rules, regulations, or disciplinary offenses set forth in the regulations, the following disciplinary sanctions may be imposed, either singly or in combination, by the appropriate institutional officials.

B. Definition of Sanctions

1. Restitution. A student who has committed an offense against property may be required to reimburse the institution or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to actual cost of repair or replacement.

2. Warning. The appropriate institutional official may notify the student that continuation or repetition of specified conduct may be cause for other disciplinary action.

3. Reprimand. A written reprimand, or censure, may be given any student or organization whose conduct violates any part of these regulations. Such a reprimand does not restrict the student in any way, but does have important consequences. It signifies to the student that he or she is in effect being given another chance to conduct himself or herself as a proper member of the institution community, but that any further violation may result in more serious penalties.

4. Restriction. A restriction upon a student's or organization's privileges for a period of time may be imposed. This restriction may include, for example, denial of the right to represent the institution in any way, denial of use of facilities, parking privileges, or participation in extracurricular activities, or restriction of organizational privileges.

5. Probation. Continued enrollment of a student on probation may be conditioned upon adherence to these regulations. Any student placed on probation will be notified of such in writing and will also be notified of the terms and length of the probation. Probation may include restrictions upon the extracurricular activities of a student. Any conduct in violation of these regulations while on probationary status may result in the imposition of a more serious disciplinary sanction.

6. Suspension. If a student is suspended, he or she is separated from the institution for a stated period of time with conditions of readmission stated in the notice of suspension.

7. Expulsion. Expulsion entails a permanent separation from the institution. The imposition of this sanction is a permanent bar to the student's readmission to the institution.

8. Interim or summary suspension. Though as a general rule the status of a student accused of violations of these regulations should not be altered until a final determination has been made in regard to the charges against him, summary suspension may be imposed upon a finding by the appropriate institutional official that the continued presence of the accused on campus constitutes an immediate threat to the physical safety and well-being of the accused, or of any other member of the institutional community or its guests, destruction of property, or substantial disruption of classroom or campus activities. In any case of immediate suspension, the student shall be given an opportunity at the time of the decision or immediately thereafter to contest the suspension, and if there are disputed issues of factor cause and effect, the student shall be provided a hearing on the suspension as soon as possible.
9. **Counseling or rehabilitative treatment.** Counseling sessions with Roane State's Counseling personnel or outside sources may be recommended.

C. The President of the College is authorized, at his or her discretion, to subsequently convert any sanction imposed to a lesser sanction or to rescind any previous sanction, in appropriate cases.

RSCC recognizes that disciplinary proceedings should play a secondary role to guidance and counseling and makes every effort to keep open the avenues of communication between students, faculty, and staff which provide for the transmittance of constructive ideas toward the solution of problems.

However, whenever violations of standards of conduct occur, the institution may initiate judicial proceedings through the power vested in its Discipline Committee. In all cases, disciplinary action becomes a part of the student's permanent record, and proper procedural safeguards will be used to assure due process. Notification of disciplinary action is by letter from the Dean of Student Services to the student and (when appropriate) to the parents and to other college officials.

**Tennessee Uniform Administrative Procedures Act.** All cases which may result in (1) suspension or expulsion of a student from the institution, a program, or a course for disciplinary reasons, (II) assignment of a grade which results in the grade of “F” in a course for academic misconduct, or (III) revocation of registration of a student organization during the term of the registration are subject to the contested case provisions of the Tennessee Uniform Administrative Procedures Act and shall be processed in accordance with the uniform contested case procedures adopted by the Board of Regents unless the student waives those procedures in writing and elects to have his or her case disposed of in accordance with college procedures established by these rules.

**PROCEDURAL DUE PROCESS**

Due process is not a technical concept with a fixed content unrelated to time, place and circumstances. It is an elusive concept in that its exact boundaries are indefinable and its content varies according to specific facts. The nature of the right involved, the nature of the proceedings and the possible penalty are all considerations which must be taken into account. The very nature of due process negates any conception of inflexible procedures universally applicable to every imaginable situation. There is no requirement of a formal type judicial hearing. Any college procedure which is reasonably calculated to be fair to the accused and to lead to a reliable determination of the issues is acceptable.

The requirements of due process are flexible in different cases and will require different procedural safeguards. The nature of the hearing will vary depending upon the circumstances of the particular cases.

The following fundamental safeguards are required in every proceeding at Roane State Community College that may lead to a serious penalty.

1. The student should receive timely, written notice of the specific charge against him, and the date and time of the hearing. This charge should be sufficiently precise as to enable the student to understand the grounds upon which the college seeks to impose a penalty against him and to enable him to adequately prepare any explanation or defense which may be available to him. The student will be allowed to have an advisor accompany him.

2. The student shall be given an opportunity to respond to the evidence against him. He shall have an opportunity to present his position, make such admissions, denials, or explanations as he thinks appropriate and testify or
present such other evidence as is available to him. The technical rules of
evidence normally followed in civil and criminal trials shall not apply.

3. The decision of the Disciplinary Committee should be based upon the
evidence presented at the hearing and a finding of guilt must be based
upon substantial evidence.

4. Cases of alleged sexual assault. In cases involving alleged sexual assault
both the accuser and the accused shall be informed of the following:
A. Both the accuser and the accused are entitled to the same opportu­
nity to have others present during a disciplinary proceeding; and,
B. Both the accuser and the accused shall be informed of any discipli­
nary proceeding involving allegation of sexual assault.
GROUNDs FOR APPEAL: A decision or judgment of the Disciplin­
ary Committee may be appealed by the aggrieved party upon the following

A. Prejudicial error committed during the hearing whereby the aggrieved
was deprived of a fair hearing.
B. Noncumulative material and relative evidence new or newly discovered
which with reasonable diligence could not have been produced at
the hearing.
C. The decision or judgment is not supported nor justified by the evidence.
NOTICE OF APPEAL: A Notice of Appeal shall be in writing and shall be filed
with the President of the College, to whom the appeal is taken, within ten (10)
calendar days from the promulgation and filing of the decision or judgment on
which the appeal is based. Failure to timely file the above mentioned notice
shall constitute a waiver of any right to appeal.

The President of the College will review the case and render a decision based
upon his/her findings.

Statutory Authority: T.C.A. Section 49-3239.

SEXUAL, RACIAL OR OTHER HARASSMENT

Harassment: Any form of harassment including, but not limited to, racial
harassment, sexual harassment, or stalking, is prohibited by the Title VII of the
Civil Rights Act of 1964. Any student who believes he or she has been subjected
to harassment at Roane State should present the charge to the Dean of Student
Services. Applicants for employment or employees should report such charges to
the Affirmative Action Officer in the Human Resources Office.

Any present employee or student, former employee or student, or applicant
for employment or admissions at Roane State Community College who believes
that discrimination has been practiced against him or her, or any employee or
student who feels that practices at Roane State Community College will result in
discrimination against him or her should report these charges to the Affirmative
Action Office.

NONDISCRIMINATION ON THE BASIS OF SEX IN EDUCATION
PROGRAMS AND ACTIVITIES

It is the policy of the State Board of Regents that, Pursuant to Title IX of the
Education Amendments of 1972, Sections 799A and 845 of the Public Health
Service Act, and Regulations adopted pursuant thereto, no institution or school
shall discriminate on the basis of sex in the education programs or activities of
the institution or school, including health-related training programs. Institutions
and schools shall ensure that equal opportunity and nondiscrimination exist on
the basis of sex for students in all education programs and activities, including
but not limited to, the following: (1) recruitment and admission; (2) academic, extracurricular, research, occupational training, health-related training, and other education programs; (3) rules on student life activities; (4) housing; (5) facilities; (6) access to course offerings; (7) counseling; (8) financial assistance; (9) employment assistance; (10) health and insurance benefits and services; (11) rules on marital or parental status; and (12) athletics. In addition, in conjunction with Board Policy No. 5:01:02:00, each institution and school shall ensure that no person, on the basis of sex, is excluded from participation, denied the benefits of, or subjected to discrimination in employment under any education program or activity. Nondiscrimination in employment on the basis of sex shall include, but not be limited to, the following areas: (1) employment criteria; (2) recruitment and hiring; (3) promotion, tenure, demotion, transfer, layoff, termi-
nation, nepotism policies, and rehiring; (4) compensation; (5) job assignments, classifications, and descriptions, lines of progression and seniority lists; (6) leave; (7) fringe benefits; and (8) all other terms, conditions, and privileges of employment.

**COMPUTER RESOURCES**

Computer facilities at Roane State Community College are available to all students, faculty, and staff upon approval by the Director of Computer Services or an instructor of computer science. It is the responsibility of Computer Center personnel to maintain a stable operational environment for all users and to provide security for all programs and files currently residing on available computer systems. Cooperation of all users in the form of ethical and responsible behavior is required at all times so that all may share resources freely and equitably.

The following college rules and regulations are to define all users' limitations. These rules are separate and apart from the code of conduct as approved by the State Board of Regents. Any violations shall be termed "computer misuse," and the offender shall be referred to the appropriate college supervisor, or in the case of students, to the Vice President for Academic Affairs.

**COMPUTER MISUSE**

Theft or other abuse of computer time, including but not limited to:
1. unauthorized entry into a file, to use, read, or change the contents, or for any other purpose.
2. unauthorized transfer of a file.
3. unauthorized use of another individual's identification and password.
4. use of computing facilities to interfere with the work of another student fac-
ulty member or college official.
5. use of computing facilities to send obscene or abusive messages.
6. unauthorized disclosure of student's user name and password to another individual.
7. any attempt to access a system on the internet for which the user is not authorized.
8. any use of computer facilities for commercial purposes.

The dispositions listed below (not an all-inclusive list) are examples drawn from the sanctioned policy of the State Board of Regents Code of Conduct.
1. Revoking of the individual's right to use the computer, either on a tem-
porary or permanent basis.
2. Probation.
3. Suspension.
4. Expulsion.
5. Financial assessment for computer services.
6. Legal prosecution.

In the event that other college regulations are violated, additional penalties may be imposed.

Unauthorized use of the computer by an individual other than the college community may be adjudged a felony, and the individual may be liable to legal prosecution.

COLLEGE AND UNIVERSITY SECURITY INFORMATION ACT

Pursuant to the requirements of the College and University Security Information Act and the Campus Security Act, the following information is available and will be provided to you upon request: A. Annual crime statistics and rates for crimes occurring on this campus, B. Copies of Board of Regents and/or institutional security related policies and procedures and certain other related information. Contact the Office of the Dean of Students at Roane State Community College, Rt. 8 Box 69, Harriman, Tennessee 37748 (telephone (615) 882-4550) to obtain any or all of this information.

STUDENT COMPLAINTS

Roane State Community College is committed to providing a quality educational experience for all students. Students are encouraged to take advantage of all relevant services and programs offered by the college. RSCC is therefore concerned that all students receive the best treatment possible by college personnel. However, if a student feels he/she has not received fair treatment, or has a complaint regarding some situation or condition (financial aid, tuition refunds, parking tickets, advisement, records, admissions, facilities, classroom concerns, student conduct, etc.) at the college, the student may address the complaint in writing to the Dean of Student Service’s Office. The Dean of Students will investigate the complaint, consulting with other RSCC personnel as needed and will notify the student of the outcome. If the student is not satisfied with how the Dean of Students has tried to resolve the issue, the student may be heard by the Vice President of Academic Affairs and Student Services. Please review the RSCC catalog (Student Services section) for detailed procedures regarding the appeal process for disciplinary matters.

STUDENT RESPONSIBILITY

There are a number of established policies and regulations, student-right-to-know information, developed by the college as well as mandated by the Tennessee Board of Regents, that exist for the welfare of both students and the college. This information is described in the following publications: The RSCC catalog, the Student’s Guide to Safety, and the upcoming Student Handbook/Calendar, which are available and accessible to students at all RSCC campus locations. This information is also presented in the New Student Orientation sessions, and in credit Orientation courses. Students should contact the Center for New Student Admission, Academic Advisement Center, or the Dean of Students Office, for copies if needed. Although the college provides this information to the student, it is the student’s responsibility to become familiar with the policies and regulations outlined in these publications. Students may see the Dean of Students for clarification of these policies and regulations.
Policymaking and the Student

Students have the right to voice their opinions and ask questions concerning current issues or policies of the college. RSCC students may participate in the decision-making process through the Student Government Association, by representation on some standing college committees, as well as participation on the Academic Curriculum Council. In addition, RSCC has an “open door policy” which allows students the opportunity to express their views through college administration.

DUNHAM, BRUNDERLAI ..................... Assistant Professor of Spanish
B.A., University of Tennessee — Spanish
M.A., University of Tennessee — Spanish (1978)

DYER, BARBARA A. .......................... Associate Professor of English
B.A., Hamline University — Physical Education & Health
M.Ed., Colorado State University — Reading Education (1976)

EASTRIDGE, DARRELL M. .................. Associate Professor
Respiratory Therapy Clinical Director
A.S., Cleveland State Community College
Certified Respiratory Therapy Technician
Registered Respiratory Therapist
B.A., Ottawa University — Health Care and Education
M.A.T., Carson Newman College
Ed.S., Lincoln Memorial University — Curriculum Instruction (1994)

EAVES, STEPHEN R. ......................... Assistant Professor of Music
B.M., Union University — Music Education
M.M., University of Mississippi — Choral Conducting (1990)

EDWARDS, LINDA M. ........................ Associate Professor of Biology
B.S., University of Tennessee — Botany
M.S., University of Tennessee — Botany (1967)

EISELSTEIN, MARY SUZIN .................. Associate Professor of English
B.S., Middle Tennessee State University — English
M.A., Middle Tennessee State University — English (1977)

ELEAZER, ELLEN .............................. Division Chair of Humanities
Associate Professor of Music
B.A., Tennessee Wesleyan College — Piano
M.M., University of Tennessee — Conducting (1978)

EVANS, JANET C. ............................ Laboratory Technician of Academic Development
B.S., Purdue University — Home Economics
M.S., University of Tennessee — Curriculum and Instruction, English Education (1994)

EVANS, KENNETH ............................ Associate Professor of Mathematics
B.S., Xavier University — Math Education (1961)
M.A., Tennessee Technological University — Curriculum and Instruction/Math (1994)

FISHER, BRUCE ............................... Professor of Biology
B.S., Lincoln Memorial University — Biology
M.S., University of Tennessee — Zoology
Ph.D., University of Tennessee — Zoology (1974)
FOLTZ, RICHARD ..........................Associate Professor of Business  
B.S., University of Wisconsin — Education  
M.B.A., University of Dallas — Business (1979)

FOLTZ-GRAY, DANIEL A. ..................Associate Professor of English  
B.A., University of Pennsylvania — English Literature  
M.A., University of Chicago — English (1974)

FREEMAN, FAYE ............................Associate Professor of Nursing  
A.S., East Tennessee State University — Nursing  
B.S., East Tennessee State University — Health Education  
B.S.N., East Tennessee State University  
M.S.N., University of Tennessee (1990)  
Registered Nurse

GALLOWAY, PAMELA ..........................Assistant Professor of Biology  
B.A., Seton Hill College — Biology  
Ph.D., University of Tennessee — Biomedical Sciences (1994)

GARNER, SUSAN A. ..........................Associate Professor of Physical Education  
B.S., Middle Tennessee State University — Health, Physical Education, Recreation  

GLEN, BETTY .................................Assistant Professor of Business and Computer Science  
A.A.S., Roane State Community College  
B.A., University of Tennessee  

GOGGIN, MICHAEL T. ......................Assistant Professor/Program Director for Opticianry  
B.A., State University of New York at Buffalo — Anthropology  
A.A.S., Erie Community College — Ophthalmic Dispensing (1978)

GOMEZ DEL CAMPO, LIL .....................Associate Professor of History  
B.A., University of Mexico — History, Mathematics  
M.A., University of Mexico — History, Art History (1969)

GOODWIN, JULIA .............................Associate Professor of English  
B.S., Delta State University — English  
M.Ed., Delta State University — English  
M. Litt., Bread Loaf School of English — American Literature (1993)

GOWAN, JOYE E. ..............................Associate Professor of Mathematics  
B.S., Oklahoma Baptist University — Mathematics  
M.Ed., Central State University — Secondary Education/Mathematics (1983)

HARJALA, DAVID E. ..........................Associate Professor of Mathematics  
B.S., Northern Michigan University — Physics  

HARRISON, MICHAEL M. .....................Associate Professor of Biology  
B.S., University of Wisconsin-Madison — Biology  
M.S., University of Wisconsin-Madison — Medical Microbiology  
Ph.D., University of Wisconsin-Madison — Zoology (1987)

HEIDINGER, GARY L. ..........................Associate Professor of Sociology  
B.S., Bethel College — History  
M.A., George Peabody College — History (1965)
HILLIARD, PEGGY .................. Assistant Professor of English
B.A., Furman University — English Literature
M.A., University of Tennessee — English Literature
Ph.D., University of Tennessee — English Literature (1989)

HOAGLAND, JUDY K. ................. Associate Professor of Economics
B.S., Middle Tennessee State University — Political Science
M.A., University of Tennessee — Political Science (1973)

HOAGLAND, WILLIAM M. .............. Associate Professor of Political Science and History
B.S., Lambuth College — History
M.S.S., University of Mississippi — History (1966)

HOLDER, MABRE M. .................. Associate Professor of Business
B.S., Middle Tennessee State University — Business (Marketing)
M.B.A., Middle Tennessee State University — Business (Marketing) (1974)

HOWARD, REBECCA M. ............... Associate Professor of Mathematics
B.S., North Carolina State — Mathematics
M.A.M., North Carolina State — Mathematics (1968)

HOWARD, WILLIAM D. ............... Division Chair of Health Sciences
Associate Professor of Radiologic Technology
A.A.S., Morehead State University — Radiologic Technology
B.U.S., Morehead State University — Education
M.A., Morehead State University — Adult Higher Education (1985)
Registered Technologist (Radiography)

HYDER, DAN ......................... Associate Professor/Program Director
Environmental Health Technology
B.S., East Tennessee State University — Environmental Health
M.E.S., University of Oklahoma — Environmental Science (1980)

JENKINS, ANTHONY ................. Associate Professor of Biology
B.S., University of Tennessee — Animal Husbandry
D.V.M., Auburn University (1968)

JONES, JOHNNY ...................... Women’s Basketball Coach
Assistant Professor of Physical Education
A.A., Martin College
B.S., Middle Tennessee State University — Physical Education
M.S.S., United States Sports Academy — Fitness Management

JONES, MICHELLE .................... Assistant Professor/Clinical Coordinator
Dental Hygiene
B.S., East Tennessee State University — Community Health (1978)
Registered Dental Hygienist

JORDAN-HENLEY, JENNIFER ........... Assistant Professor of English
Writing Specialist
B.S., Middle Tennessee State University — English
M.A., Middle Tennessee State University — English Literature (1988)
KING, ADOLF A. ....................... Division Chair/Associate Professor Math/Science  
B.S., City of Leicester Polytechnic — Applied Chemistry  
M.S., Imperial College of Science and Technology, London University — Analytical Chemistry  
D.I.C., Imperial College of Science and Technology, London University — Analytical Chemistry  
Ph.D., Imperial College of Science and Technology, London University — Analytical Chemistry (1976)  

KIRKPATRICK, MELVIN A. ............... Professor of Mathematics/Education  
B.S., Tennessee Technological University — Mathematics, Secondary Education  
M.S.T., Middle Tennessee State University — Mathematics  
Ed.D., University of Tennessee — Curriculum and Instruction, Mathematics Education (1978)  

KNOX, JAMES M. .......................... Associate Professor of English  
B.S., Tennessee Technological University — Secondary Education, French  
M.A., Tennessee Technological University — English (1978)  

KRING, JAMES B. ......................... Associate Professor of Biology  
B.S., Maryville College — Biology  
M.S., University of Tennessee — Botany (1965)  

LANZA, DONALD L. ....................... Assistant Professor of History  
B.A., University of Tennessee at Chattanooga-History  
M.A., University of Tennessee-History  
Ph.D., University of Tennessee-History (1991)  

LeMAY, CHARLENE L. ...................... Associate Professor of Nursing  
B.S.N., Vanderbilt University — Nursing  
M.S.N., University of Tennessee (1986)  
Registered Nurse  

LICATA, SALVATRICE D. .................. Instructor of Opticianry  
A.A.S., Mater Dei College — Ophthalmic Dispensing (1991)  
A.O.S., Albany Business College — Accounting and Business Administration Licensed Optician  

LIVINGSTON, LONA ...................... Associate Professor of Speech  
B.A., Emerson College — English and Speech  
M.A., University of Florida — Speech and Theatre (1967)  

MALVEAUX, KENNETH R. ................. Associate Professor of English  
B.A., University of Southwestern Louisiana — English  
M.S., Tennessee State University/Vanderbilt University — Management of Social Service Programs (1976)  

MANHART, SHIRLEY ...................... Associate Professor of Computer Science Technology  
B.S., Mississippi University for Women  
M.A.T., Mississippi State University — Community College Teaching (1985)  

MANNING, WANDA ...................... Associate Professor of Reading and Education  
A.S., Roane State Community College  
B.S., Tennessee Technological University — Education  
A.B.D., University of Tennessee  

MARSH, LINDA ...................... Program Director, Medical Transcription  
A.S., Steed College — Medical Secretarial Science (1974)  
A.R.T., Accredited Records Technician
MARTIN, JAMES E. ....... Associate Professor of Reading and Education
A.S., Roane State Community College — General
B.S., University of Tennessee — Elementary Education
M.S., University of Tennessee — Curriculum and Instruction
Ed.D., University of Tennessee — Curriculum and Instruction (1995)

McNUTT, ALISON M. ............ Associate Professor of Mathematics
B.A., University of Alabama — History
M.M., University of Tennessee — Math (1976)

MILES, DEBORAH I. ........... Assistant Professor of Mathematics
B.S., Louisiana State University — Mathematics Education
M.M., University of Tennessee — Mathematics (1990)

MILLER, DONALD E. ............ Division Chair/Professor Anthropology
and Sociology
B.S., Brigham Young University — Youth Leadership
B.A., Brigham Young University — Archaeology
M.A., Brigham Young University — Archaeology
Ph.D., University of Tennessee — Education (1987)

MILLS, CHRISTINE ................ Assistant Professor of Nursing
R.N., Ft. Sanders Regional Medical Center
B.S., University of Tennessee — Public Health
M.S.N., University of Tennessee — Nursing

MONDAY MARILYN L. ............. Associate Professor of English
B.S., University of Tennessee — English
M.A., University of Tennessee — English (1984)

MOORE, ALICE A. ............. Associate Professor/Program Director
Medical Record Technology
B.S., Indiana University — Medical Records Administration (1967)
R.R.A., Registered Record Administrator
C.C.S., Certified Coding Specialist

MURRAY, WILLIAM P. ........... Associate Professor of Physics/
Engineering Technology
B.S., University of Cincinnati — Chemical Engineering
M.S., University of Tennessee — Chemical Engineering (1970)

NEELY, JANET ........... Instructor of Occupational Therapy Assistant
Nashville State Technical Institute — Certified Occupational Therapy Assistant
(1982)

NESBIT, RANDY ............. Assistant Professor of Business
Men's Basketball Coach
Athletic Director
B.S., The Citadel — Business Administration

ORR, KAREN S. ........... Associate Professor of Mathematics
B.S., University of Tennessee — Secondary Science Education
M.M., University of Tennessee — Mathematics (1991)

PALATINUS, DEBORAH T. ........ Associate Professor of Biology
B.S., University of Tennessee — Zoology
M.S., University of Tennessee — Zoology (1971)
PEAVYHOUSE, MYRA K. ................. Associate Professor of English
A.S., Roane State Community College — Biology
B.S., Tennessee Wesleyan College — Biology
B.A., Tennessee Wesleyan College — English
Developmental Education Specialist (1989)

PETE RSON, KENDALL V. ........ Laboratory Technician, Academic Development
B.S., Middle Tennessee State University — Mathematics (1994)

PHILLIPS, BARBARA .................. Associate Professor of Mathematics
B.S., St. Bonaventure University — Math
M.S., St. Bonaventure University — Mathematics Education (1973)

PORTER, GAIL H. ..................... Associate Professor/Program Director
Radiologic Technology
A.S., Walters State Community College — Radiologic Technology
B.A., Maryville College — Social Science (1983)
Registered Technologist (Radiography)

POUL IN, GERALD D. ............... Associate Professor of English
B.A., Middle Tennessee State University — French and English
M.A.C.T., Middle Tennessee State University — English (1971)

POWERS, ANNE S. ..................... Associate Professor of Art/
Computer Art Program Director
B.F.A., University of Tennessee
M.S., University of Tennessee — Art Education
M.F.A., University of Tennessee — Graphic Design (Computer Enhanced Design)
(1995)

PUCKETT, DAVID .................... Professor of Business/Economics
B.S., Tennessee Technological University — Accounting
M.B.A., Middle Tennessee State University — Business
Ed.D., North Carolina State University — Adult and Community College
Education (1994)

ROBINSON, JEAN ..................... Instructor of Radiologic Technology
B.A., Immaculate Heart College — English (1964)
Registered Technologist (Radiography)

RUDOLPH, JOHNNIE J. .............. Associate Professor of Math/Science
A.S., Cleveland State — Design and Drafting
B.A., University of Tennessee — Architecture (1976)

SAFDIE, ROBERT .................... Associate Professor of Psychology/Business
B.A., University of Tennessee — Psychology
M.A., Middle Tennessee State University — General Clinical Psychology (1976)

SAIDAK, LANCE R. .................. Professor of Physical Education
B.S., Springfield College — Physical Education
M.Ed., Florida Atlantic University — Physical Education
Ed.D., University of Tennessee — Physical Education (1976)

SAIDAK, LEONA ...................... Associate Professor of Mathematics
B.S., Tennessee Technological University — Secondary Education/Mathematics
M.S., Florida Atlantic University — Education Guidance and Counseling
Curriculum (1970)
SAIN, SUSAN J. .......................... Assistant Professor/Program Director
Occupational Therapy Assistant
B.S., University of Wisconsin — Occupational Therapy (1984)

SCHUBERT, RUSSELL B. ....... Chair, Business and Environmental Technologies/
Assistant Professor Environmental Sciences
B.S., Tennessee Technological University — Agriculture

SELLIN, HELEN G. .......................... Associate Professor of Chemistry
B.S., University of Chicago — Biochemistry
Ph.D., University of Chicago — Biochemistry (1964)

SEXTON, JEFF .......................... Associate Professor of Mathematics
B.S., Tennessee Technological University — Business Administration
M.A., Tennessee Technological University — Educational Administration and
Supervision (1991)

SIMMONS, E. ALLISON .......................... Assistant Professor of Environmental Health
B.S., Florida State University — Geology
M.S., University of Tennessee — Geology (1983)

SMITH, BILLY L. .......................... Associate Professor of Mathematics
B.A., Union College — Chemistry
M.M., University of Tennessee — Mathematics (1974)

SMITH, CHARLES E. .......................... Professor of Mathematics
Director of Academic Development
B.S., Middle Tennessee State University — Mathematics
M.M., University of Tennessee — Mathematics
Ed.D., University of Tennessee, Knoxville — Educational Administration (1981)

SMITH, MARIA A. .......................... Assistant Professor/Program Director
EMT-Paramedic
B.S.N., University of Detroit (1970)
C.E.N., Certified Emergency Nurse
Licensed Tennessee State Paramedic

SMITH, SARAH N. .......................... Laboratory Technician of Academic Development
B.S., East Tennessee State University — Elementary Education (1961)

SPITZER, PRISCILLA W. ...................... Associate Professor of Nursing
B.S.N., Emory University — Nursing
M.N., Emory University — Adult Health Nursing (1977)
Registered Nurse

STE LLER, DAN .......................... Director of Institute for Environmental Health and Safety
B.A., Arizona State University — History
M.S., Arizona State University — Counseling (1961)

STEPHENS, KENNETH W. ...................... Associate Professor of Computer Science
B.S., Middle Tennessee State University — Management
M.B.A., Middle Tennessee State University — Management (1974)

STEPHENSON, LUCY .......................... Assistant Professor of Nursing
B.S., Southern Benedictine College — Biology
M.S.N., University of Tennessee (1992)
Registered Nurse
Certified Invasive Cardiovascular Technology
TEETER, W. SCOTT .......................... Associate Professor of Police Science
B.S., Eastern Kentucky University — Law Enforcement
M.S., Eastern Kentucky University — Criminal Justice Education (1976)

THAIS, DAVID F. ............................ Associate Professor of Business
B.S., Indiana State University — Management
M.B.A., Indiana State University — Business Administration (1974)
C.P.A., State of Tennessee

THOMAS, BOB F. ............................. Professor of Business
B.S., University of Tennessee — Marketing
M.B.A., University of Tennessee — Industrial/Personnel Management
D.B.A., University of Tennessee — Management (1984)

THOMAS, JOHN K. ............................ Assistant Professor of History
B.S., Austin Peay State University — History
M.A., Austin Peay State University — History
Ph.D., University of Tennessee — History (1990)

THOMASON, SARAH K. ...................... Associate Professor of English
B.S., University of Tennessee — Education
M.S., University of Tennessee — English Education (1974)

TINDELL, MARSHA BUTLER .................. Assistant Professor of Psychology
B.M.E., Morehead State University — Music Education
M.S., University of Tennessee — Educational & Counseling Psychology
Ph.D., University of Tennessee — Educational Psychology (1994)

TRENTHAM, JEAN ............................ Associate Professor of Business
A.A., Hiwassee Junior College — Business Administration
B.S., East Tennessee State University — Business Education
C.P.S., 1977

TUCKER, JENNIFER D. ...................... Associate Professor of EMT-Paramedic Program
B.S.N., University of Tennessee — Nursing
M.S., University of Tennessee — Exercise Physiology (1987)

UNDERWOOD, HAROLD L. .......................... Professor of Mathematics
B.S., Mississippi State — Science Education
M.S.C.S., University of Mississippi — Mathematics
Ed.D., Auburn University — Educational Administration (1971)

VALENTINE, GWENDOLYN P. .................. Assistant Professor/Program Director, Respiratory Therapy
A.S. Roane State Community College — Respiratory Therapy
B.S., University of Tennessee — Health Education
M.S., University of Tennessee — Health Education/Health Promotion (1993)

WADDLE, JOETTE ............................. Associate Professor of English
B.A., Tennessee Technological University — English
B.S., Tennessee Technological University — Secondary Education
M.A., University of Tennessee — English (1985)

WARD, ALLEN S. ............................. Assistant Professor of Chemistry
B.A., West Virginia University — Chemistry
M.S., West Virginia University — Chemistry (1985)
WATSON, DOROTHY .......................................................... Assistant Professor of Nursing
R.N., Erlanger School of Nursing, Chattanooga
B.S.N., University of Tennessee, Chattanooga
M.S.N., University of Tennessee, Knoxville

WHITE, BETTY ......................................................... Assistant Professor of Medical Laboratory Technology
B.S., University of Tennessee Center for the Health Sciences — Medical Technology
M.A.T., University of Memphis — Curriculum and Instruction (1987)
ASCP, Medical Technologist

WHITING, VALERIE ............................................. Assistant Professor of Occupational Therapy Assistant
B.S., Indiana University — Occupational Therapy

WILKEN, KAREN M. .............................................. Division Chair of Nursing
Assistant Professor of Nursing
St. Francis School of Nursing
B.S., College of St. Francis — Health Arts
M.S., College of St. Francis — Health Services Administration (1992)
Registered Nurse

WILLIS, JR. ALVIN T. ............................................... Laboratory Technician
B.S., University of Tennessee — Pre-Veterinary/Animal Science (1976)

WINDHAM, DONALD L. ........................................... Associate Professor of Psychology
A.A., Macon College — Social Science and Psychology
B.S., Berry College — Psychology
Ph.D., University of Tennessee — Psychology (1989)

WORKS, LARRY P. ................................................. Associate Professor of Psychology
Baseball Coach
B.S., East Tennessee State University — Health and Physical Education
M.S., University of Montana — Health, Physical Education and Psychology (1968)

WORKS, MYRIAN .................................................. Associate Professor of Nursing
B.S., University of Tennessee — Nursing
M.S.N., University of Tennessee — Nursing (1979)
Registered Nurse

WRIGHT, GARY ..................................................... Associate Professor of Mathematics
B.S., University of Tennessee — Mathematics
M.S., University of Tennessee — Mathematics (1975)

YATES, LAURA ..................................................... Assistant Professor of Nursing
B.S.N., University of North Carolina
M.S.N., University of Tennessee (1983)
Registered Nurse

YATES, WILLIAM B. .............................................. Associate Professor of Speech and Theatre
B.A., Tennessee Wesleyan College — History
M.A., University of Tennessee — Public Address and Theatre Arts (1962)
ADJUNCT FACULTY

The adjunct faculty listed here have served Roane State Community College for five or more years.

ANDERSON, ROBERT  
M.A., Mississippi State University — History (1961)

ATKISSON, LOVELLE  
Ed.D., George Peabody — Art (1976)

AUSMUS, JUANITA  
B.A., Lincoln Memorial University (1991)

BERG, WILLIAM T.  
Ph.D., Western Reserve University — Chemistry (1955)

BOERNER, ALEX J.  
B.S., Augusta College — Biology
M.S., University of Tennessee — Radiation Biology (1982)

BOOKER, MICHAEL J.  
Ph.D., University of Tennessee — Philosophy (1990)

BREWSTER, MARY ANN  
M.A., Cumberland College — English (1985)

BROOKE, WILLIAM A.  
M.S., Indiana University — Secondary Education (1971)

BROWN, STEPHEN S.  
B.S., University of Tennessee — Jazz Studio Music (1982)

BUTTURINI, RICHARD S.  
M.S., University of Tennessee — Management Science (1982)

BYRD, MARY ELIZABETH  

CARTER, JUDITH  
M.A., George Peabody — English (1964)

COFFEY, LINDA  
M.A., Tennessee Tech University — Reading (1973)

COOPER, LANCE  
M.A., University of Tennessee — Speech Communications (1977)

COSSON, ERNEST  
M.A., University of Tennessee — Spanish Literature (1984)

COX, BRYAN  
B.A., Cooper Institute — Business Management (1976)
Licensed Tennessee State Paramedic

DAVIS, J.C.  
Ed.S., Tennessee Technologies University — History (1983)

DEITRICK, DAVID  
M.A., University of Tennessee — Art (1993)

DESJEAN, TOM  
M.A., University of Florida — Anthropology (1986)

DEWICK, ROBERTA  
B.A., University of Tennessee — Knowledge Engineering (1989)
DOUGHTY, FLOYD ................................. Police Science

DUNAWAY, LOURDES .............................. Music
M.A., Cuba — Music Performance/Theory
M.A., Tennessee Technological University — Elementary Education (1988)

DUNIGAN, JAMES ................................. Economics
Ph.D., University of Tennessee — Geography (1969)

DUNIGAN, FLORINDA .............................. Spanish
M.A., Tennessee Technological University — Special Education (1977)

FARMER, WILLIAM M. (MIKE) ..................... Accounting
M.B.A., University of Tennessee (1976)

FERRELL, CINDY .................................. Music
M.A., University of Tennessee — Vocal Performance (1990)

FRANCIS, NORMA ................................. Reading/Writing
B.A., Luther College — English (1957)

FRY, KENNETH A. ................................. Biology
Ph.D., Purdue University — Microbiology (1961)

FUQUA, PAMELA C. .............................. Dental Hygiene
B.S., University of Tennessee-Memphis — Dental Hygiene (1976)
Registered Dental Hygienist

GOSLEE, BRENDA ................................. Music
M.A., University of Tennessee — Organ Performance (1988)

GRAY, SUE M. .................................. Medical Records
A.S., Roane State Community College — Medical Record Technology
B.A., Stephens College — Health Information Management
R.R.A., Registered Record Administrator

GUTHRIE, CAROL ................................. History
Ph.D., University of Tennessee — History (1994)

HAMBLY, STEVE ................................. EMT-Paramedic
Licensed Tennessee State Paramedic

HAMPSON, SHERBIE .............................. Music
B.A., University of Tennessee — Applied Music

HANDLEY, MICHELLE ............................ English
M.A., Texas Tech University — English (1970)

HATCHER, DIANA S. .............................. Mathematics
B.S., University of Tennessee — Elementary & Special Education
B.S., University of South Carolina — Computer Science (1986)

HERD, VALERIE ................................. Sociology
M.S., University of Tennessee (1995)

HUDGINS, CAROL ................................. Art
M.F.A., University of Tennessee — Art (1987)

HUMPHREY, DENNIS .............................. Police Science
J.D., Nashville School of Law — Law (1981)

HYLTON, JAMES O. .............................. Physics
M.S., University of Tennessee — Engineering (1972)
IHDE, WILLIAM M. .................................................. .Physics
M.S., Massachusetts Institute of Technology — Electrical Engineering (1948)

JEFFERS, JACK R. .................................................. .Computer Science
B.S., Tennessee Technological University — Mathematics (1966)

KAUTZ, PAMELA .......................................................... .Writing
M.A., Tennessee Technological University — Educational Psychology/Counseling (1985)

KING, PAULETTE TODD .................................................. .Mathematics
B.S., University of Tennessee — Mathematics (1983)

KING, RALPH .................................................. .Reading/Writing/Study Skills
M.S., Trevecca Nazarene College — Administration/Supervision (1991)

LANDGUTH, BEVERLY .................................................. .Reading/Study Skills
M.S., University of Tennessee — Curriculum/Instruction (1994)

LAY, MICHAEL C. .......................................................... .Computer Science
B.S., Stetson University — Mathematics (1978)

MASON, ANTHONY P. .................................................. .Business
B.S., East Tennessee State University — Business Management/Economics (1965)

MAXWELL, MARGO .................................................. .English
Ph.D., University of Chicago — English Languages (1989)

MCLOUD, PEGGY .................................................. .English
M.A., Tennessee Technological University — English (1982)

MEAD, BARBARA .................................................. .Study Skills
B.S., University of Wisconsin — Education (1954)

MERRIWEATHER, ROOSEVELT ........................................ .Chemistry
B.S., Stillman College — Chemistry (1978)

MILLER, GREG .................................................. .History
J.D., University of Tennessee Law School — Law (1982)

MOIST, LINDA .................................................. .English
M.A., University of Tennessee — English (1994)

MONDAY, RALPH .................................................. .English
M.S., University of Tennessee — English (1985)

MURPHY, TRESSA .................................................. .Mathematics
M.M., University of Tennessee — Mathematics (1992)

NAGGE, HAROLD .................................................. .Music
M.A., University of Tennessee — Music (1994)

NICKLE, LINDA .................................................. .English
M.A., University of Tennessee — English (1986)

NOWLIN, ANNE .................................................. .Psychology
M.S., University of Tennessee — Educational Psychology (1980)

NUGENT, BARBARA .................................................. .Writing

NUGENT, GERALD B. .................................................. .Mathematics
B.S., London University (England) — Civil Engineering (1950)

OLSZEWSKI, PAT .................................................. .English
M.A., San Francisco University — Literature (1975)
PEARMAN, JOEL E ............................................ Business Law
J.D., University of Tennessee — Law (1973)

PEERY, MALISSA .......................................... Mathematics
M.A., University of Tennessee — Mathematics (1993)

PHILLIPS, PAUL ........................................... Police Science
J.D., Vanderbilt — Law (1975)

POWLUS, RICHARD .................................... Reading
M.A., Tennessee Technological University — Reading (1992)

RUSSEL, LONNIE ........................................ Physical Education
M.A., Union College — Education (1980)

SCARBROUGH, VERA ...................................... English
M.A., Middlebury College — English (1987)

SCOTT, LINDA ............................................. Writing
M.A., Tennessee Technological University — Reading (1980)

SHAW, JOHN ................................................ Biology
D.V.M., University of Tennessee (1987)

SHLOUSH, MARCIA .................................... Nursing
B.S., University of Tennessee — Nursing (1976)
M.S., University of Tennessee — Child and Family Services (1986)

STANLEY, SHARON ..................................... English
M.A., Tennessee Technological University — English (1979)

STAPLETON, FRANCES ................................ Reading

Roane State Community College is one of 46 institutions in the Tennessee Board of Regents system, the seventh largest system of higher education in the nation. The Tennessee Board of Regents is the governing board for this system which is comprised of six universities, fourteen two-year colleges, and twenty-six Tennessee Technology centers. The TBR system enrolls more than 80 percent of all Tennessee students attending public institutions of higher education.

Roane State Community College offers employment and its programs of instruction to qualified persons regardless of race, color, creed, sex, national origin, handicap, religion or age and is committed to the education of non-racially identifiable student body.
